Toast to the Ladies. — We append the latest toast to the ladies, which was got up at a recent public dinner:

"The Ladies — May their virtues ever exceed the magnitude of their skirts, while their faults remain smaller than their bonnets."

"The Council Bluff (Iowa) Nonpareil has the following:

"Married, — Married, at the residence of Mr. Sam. [illegible], Marshalltown, Iowa, by the Rev. Mr. Wines, Joe Sample (that's us) and Miss Mary C. Swannel (that's more of me)."

A man of singularly and the observation once said to me: "I have noticed that young ladies seem to go through three stages of feeling with regard to matrimony. When they first grow up and come out into society, they are very particular in the cut and air of existence; but in a year or two they become indifferent, and have all care for it; but as they grow up to about twenty five and so on, their old anxiety returns stronger than ever." *Family Circle.*

Female [illegible] never appears to so great advantage as when set off with simplicity of dress. No artist ever decked his angels with towering feathers and grand jewelry; and our dear human angels, if they would make good their title to that name, should carefully avoid ornaments which properly belong to Indian squaws and African princesses. These tinselries may serve to give effect on the stage, or upon a ball room floor, but in daily life there is no substitute for simplicity. A vulgar taste is not to be disguised by gold or diamonds.

An editor of a Western paper, while taking a snooze after dark, travelling in a railway carriage, had his pocket picked. The thief next day forwarded the pocket book by express to the editor, with the following note:

"Your [illegible] skunk, here's yer pocket book! I don't keep such. For a man dressed as well as you was to go round with a pocket-book and nothin' in it but a lot of noose paper, an' an' ivory tuth comb, 2 noose paper stamps, and a pass, is a [illegible] imposition on the public. As I hear you're a editor I return your trash. I never rob any but gentlemen."

NEW SKIRT FOR 1866!

THE GREAT INVENTION OF THE AGE IN

HOOP SKIRTS.

J. W. Bradley's New Patent Duplex Elliptic (or double) Spring Skirt.

This invention consists of Duplex (or two) Elliptic Steel Springs, ingeniously braided tightly and firmly together, edge to edge, making the toughest, most flexible, elastic and durable Spring ever used. They seldom bend or break, like the single Springs, and consequently preserve their perfect and beautiful shape more than twice as long as any single spring skirt that ever has or can be made.

The Wonderful Flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded assemblies, operas, carriages, Railroad Cars, church Pews, arm chairs, for promenade and House dress, as the Skirt can be folded, when in use, to occupy a small place as easily as a silk or muslin dress.

A lady having enjoyed the pleasure, comfort, and great convenience of wearing the Duplex Elliptic Steel Spring Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses, and young ladies, they are superior to all others.

The Hoops are covered with 2 ply double twisted thread and will wear twice as long as the single yarn covering which is used on all single steel Hoop Skirts. The three bottom rods on every Skirt are also double steel, and twice, or double covered to prevent the covering from wearing off the rods when dragging down stairs, stone steps, &c., which they are constantly subject to when in use.

All are made of new and elegant corded tapes, and are the best quality in every part, giving to the wearer the most graceful and perfect shape possible, and are unquestionably the lightest, most desirable, comfortable and economical skirt ever made.

Wests' Bradley & Cary, Proprietors of the Invention, and Sole Manufacturers, 97 Chambers, and 79 and 81 Reade Street, New York.

For Sale in all first-class stores in this city, and throughout the United States and Canada, Havana de Cuba, Mexico, South America, and the West Indies.

THE NEW LIGHT.

ATMOSPHERIC

COAL OIL GAS LAMP

now on exhibition at

166 Main Street, Rahway, N. J.

Artificial Light, of some sort, is an universal necessity: a safe, cheap, and brilliant one is a luxury, a luxury, too, only enjoyed heretofore by those living in large cities where Gas is used. Years of study and thousands of dollars annually have been spent by experimenters on different kinds, to bring the long desired light—a Burner or Lamp by which Coal oil could be burned economically, without the expense and trouble of chimneys. This long looked for and much desired object has at last been attained, and is styled the Atmospheric Coal Oil Gas Lamp.

Having secured the exclusive right for the sale of the said Lamp, for the county of Union, the subscriber will receive and promptly attend to all orders. [apl-5m] F. F. McINTYRE.

[illegible]

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Ladies, take Particular Notice.

THE REAL VELPAU FEMALE PILL.

[WARRANTED FRENCH.]

THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept for comparative obscurity from the fact that the originator, Dr. Velpau, is a physician in Paris of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the flood-gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage.

These pills are entirely safe under all circumstances, being composed entirely of substances from the vegetable kingdom.

Each box has the coat of arms for the City of Paris stamped on the box, with the words "Trade Mark" in French, to counterfeit which is a misdemeanor, and all persons will be dealt with according to law.

Full directions accompany every box. Ladies can obtain them sealed from the agent of this county, by inclosing One Dollar and 12 cents in post-office stamps to any respectable druggist, or to O. G. STAPLES, General Agent for the United States, Watertown, N. Y.

What is a coquette? A young lady of more beauty than sense, more accomplishments than learning, more charms of person than grace of mind, more admirers than friends, more fools than wise men for attendants.

A lady who wished some stuffing from a roast duck, which a gentleman was carving at a public table, requested him to transfer from the deceased fowl to her plate, some of its artificial intestines.

A supposed corpse, while being shaved in Norwalk, Conn., revived, got up, dressed itself and ordered the postponement of the funeral.

"The most amusing man in the world is a Frenchman in a passion. 'By gar you call my wife a woman two-three several time once, an' I vill call you the vatch house and blow out your brains like a candle.'

The world is progressing. 'A rose by any other name would smell as sweet,' is now rendered, 'A flower is capable of exerting the same olfactory influence under any and every cognomen.'

'Doctor, can you tell me what's the matter with my child's nose?' — she keeps pickin' of it.'

'Yes, madam; it is probably an irritation of the pathetic filliation of the optum of the chasrian.'

'There, now, that's just what I told Becky, but she 'lowed it was worrums.'

"Mother, I shouldn't be surprised if Susan gets choked some day."

"Why Charlie?"

"Because John Wispy twisted his arms around her neck the other night, and if she had not kissed him to let go, he would have strangled her."

A gentleman, who wanted to make a talking speech to a Sunday school thought he would adopt the colloquial style, and this is what happened:

"Now, boys, what does a man want when he goes a fishing?"

A shrill voice in the crowd went directly to the point with —

"Wants a bite!"

The gentleman sat down without further remarks.

A good joke is told of one of our city lawyers, who is of a very sedate turn of mind, and seldom indulges in joking. A case was being argued wherein a maiden lady put in a claim for a portion of the estate of a deceased gentleman, with whom she had resided for a long time. Our sedate lawyer was arguing the claims of the plaintiff and broke forth in something like the following strain: "Yes, gentlemen, she has served him faithfully for thirteen years, without a farthing's recompense, nay, not even so much as to buy a pair of pantaloons!"—The listeners were as much surprised as the speaker was embarrassed at this ... which ... changed the serious character of the case.

The Crops—Bedman's Garden.

Woodbridge, June 5, 1866.

Mr. Editor:—Thinking it might not be uninteresting to your readers to learn something respecting the prospects of the coming crops, I would say that the principle crop, hay, on which the farmers so much depend, in this section of New Jersey, is not at the present time very encouraging. The meadows, particularly the old ones, are remarkably light, and unless a great change takes place for the better, not more than half a crop can be expected. The wheat and rye crops are also not very promising, the extreme cold weather having frozen the grain out. The oat and corn crops will depend upon the season—should the weather prove favorable good crops may be expected.

By the way, Mr. Editor, have you ever visited the garden of Mr. Wm. Bedman, of Woodbridge village? If not, I would advise you to do so, and also your many readers. He is obliging and accommodating—a perfect gentleman—deals largely in all kinds of plants, flowers, &c., and by his honesty, frugality, and fair dealing, has established a fair and profitable business, and those in want of anything in his line, cannot do better than to give him a call. He has on hand every variety of plants of the choicest kinds, and his catalogue of flowers is very extensive. Our word for it, those who wish to have a "brick treat," we advise, by all means, to call and take a stroll through Mr. Bedman's garden, anything the railroad passes before entering the village. His better half, too, is always on hand to accommodate lady visitors.

An Elopement Prevented.—A young German named Ralph Hawze has, for some time been paying attention to a young lady named Fratts, residing at Jersey City, but found his suit opposed by the father of his adored, who had received information that he was already the possessor of a wife and child. The Times says that ... this obstacle ... the young couple, determined to still bathe in the light of each other's presence, planned an elopement, and Thursday night was set down for the consummation of their scheme. Everything was arranged, the lady's goods being packed in a bundle, and at half past 11 o'clock a start was made to leave forever the home of her youth. The bundle of wearing apparel was thrown out of the window of her room upon the sidewalk, and she then descended noiselessly to the door, and hastily entered an adjoining house there to wait for her lover. Hawze had, in the meantime, been on the watch, and on seeing the bundle thrown out picked it up and was about to join his lady love and at once to start on their journey of pleasure or woe, when alas! for the dependence ... to be placed ... the fatherly interest ... and at once placed in the custody of officer Bennett, on the charge of stealing the goods, claimed to be of the value of $100. The ... appointed young man was taken to the police station and committed for examination, while the young woman was searched out and taken back to her home. Mr. David L. Fratts, the father of the girl, says he has no objection to Hawze other than that he believes him to be married, and that if he proves this not to be so he will withdraw the charge of larceny and all opposition to their marriage. Hawze says he is able to prove this, and if he is, of course, Miss Fratts will soon be Mrs. Hawze.

Main Sewer.—We understand there is an impression in the minds of some of our citizens that the city at large is to be taxed for the construction of the Main Sewer. We will state for the benefit of those persons, that such is not the case. Only the property along the line of the sewer, and that which is benefitted by it, will be taxed for this purpose.

READ WHO SAYS SO:

From the Rev. Levi G. Beck, Pastor of the Baptist Church, Pemberton, N. J., formerly of the North Baptist Church, Philadelphia, at present pastor of the Baptist Church, Chester, Pa.

I have known Hoofland's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended, to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofland's Bitters is intended to benefit the afflicted, and is "not a rum drink."

Yours truly, LEVI G. BECK.

A

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge and Christian Chronicle, Philadelphia.

Although not disposed to favor or recommend patent medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend, Robert Shoemaker, Esq., for the removal of this prejudice by proper tests and for encouragement to try them when suffering from great and long continued debility. The use of three bottles of these Bitters at the beginning of the present year, was followed by evident relief and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them.

J. NEWTON BROWN, Philadelphia.

N

From Rev. Wm. Smith, formerly pastor of the Vincentown and Millville (N.J.) Baptist churches, Philadelphia.

Having used in my family a number of bottles of your Hoofland's German Bitters, I have to say that I regard them as an excellent medicine, specially adapted to remove the diseases they are recommended for. They strengthen and invigorate the system when debilitated, and are useful in disorders of the liver, loss of appetite, &c. I have also recommended them to several of my friends, who have tried them, and found them greatly beneficial in the restoration of health.

Yours truly, WILLIAM SMITH, 906 Hutchinson street.

In all cases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, immediate in its action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above disease, it is sure to affect his bodily health, mental powers, happiness, and that of his posterity. Our flesh and blood are supported from these sources.

PHYSICIANS, PLEASE NOTICE!

We make no secret of the ingredients. HELMBOLD'S FLUID EXTRACT BUCHU is composed of Buchu, Cubebs, and Juniper Berries, selected with great care, and prepared in vacuo by H. T. Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

Price, $1 per Bottle.

Ayer's Cherry Pectoral

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Dropsy, and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price 25 cents per Box.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agents below named furnish gratis our AMERICAN ALMANAC in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by [illegible] All the druggists in Rahway, also by all druggists and dealers everywhere. At wholesale by J. M. Marsh, Philadelphia.

Ladies, take Particular Notice.

THE REAL VELPAU FEMALE PILL.

[WARRANTED FRENCH.]

THESE PILLS, so celebrated many years ago in Paris for the relief of female irregularities, and afterward so notorious for their criminal employment in the practice of abortion, are now offered for sale for the first time in America. They have been kept in comparative obscurity from the fact that the originator, Dr. Velpau, a physician of great wealth and strict conscientious principles, and has withheld them from general use, lest they should be employed for unlawful purposes. In overcoming Female Obstructions, Falling of the Womb, Whites, Green Sickness, Suppression, Retention, or Immoderate Flow of the Monthly Discharges, they seem to be truly omnipotent, bursting open the flood-gates from whatever cause may have stopped them; but they are offered to the public only for legitimate uses, and all agents are forbidden to sell them when it is understood that the object is unlawful. Married ladies should never take them when there is any reason to believe themselves pregnant, for they will be sure to produce a miscarriage.

These pills are entirely safe under all circumstances, being composed entirely of substances from the vegetable kingdom.

Each box has the coat of arms for the City of Paris stamped on the box, with the words "Trade Mark" in French, to counterfeit which is a misdemeanor, and all persons will be dealt with according to law.

☞ Full directions accompany every box.

Ladies can obtain a box sealed from the eyes of the curious, by inclosing One Dollar and six post-office stamps to any respectable druggist, or to O. G. STAPLES, General Agent for the United States, Watertown, N. Y.

MANHOOD: How Lost, how Restored

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self indulgence or sexual extravagance.

☞ Price in a sealed envelope, only 6 cents.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife—pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

2. And be it enacted, That this act shall take effect immediately.

Approved April 6, 1866.

Joint resolutions relative to Bounty to New Jersey Soldiers mustered into the service of the United States, for the suppression of the Rebellion.

Whereas, a large number of the people of New Jersey, impelled by a spirit of patriotism and devotion to the Union, did, during the years eighteen hundred and sixty one and eighteen hundred and sixty two, enter the military and naval service of the United States, for the suppression of the rebellion voluntarily and without receiving any bounty; and whereas, it is but a just recognition of their services, that they should be equally rewarded in the bestowment of bounties with those who enter in the war bore with them its burdens; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That our senators and representatives of this state, in the congress of the United States, be requested to favor the passage of such law for the equalization of bounty to volunteers, as may not be incompatible with the general interests of the United States fund.

2. And be it resolved, That the governor be requested to forward copies of these preambles and resolutions to the senators and representatives from this state in congress.

Approved February 21, 1866.

Joint resolutions of thanks to the Soldiers and sailors of New Jersey.

Whereas, the rebellion inaugurated by misguided men for the overthrow of constitutional government, and the establishment upon its ruins of a despotism subverting the most essential rights of human nature, and constituting a perpetual menace to the liberties and peace of the American people, has been suppressed; and, whereas, in the conflict waged to this end, the soldiers of New Jersey displayed conspicuous devotion to the nation's cause, achieving, by their heroism, efficiency and patient endurance of suffering, hardship and privation, a front rank among the defenders of the republic; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the thanks of these bodies are hereby tendered to soldiers and sailors of this state, participants in the late struggle, for their distinguished services in contributing to the restoration of the national authority and vindicating the principles of free government in the crucial test to which they were exposed.

2. [illegible] people of New Jersey be, and are hereby tendered to those who are and propose whose natural protectors fell on the field, and to all disabled soldiers and sailors, a lasting gratitude from installation [illegible] in the public defence.

3. Be it resolved, That a copy of these joint resolutions be lithographed and prepared under the direction of the Governor, and presented to each honorably discharged soldier and sailor from New Jersey, who may be applicable, or who may apply for the same.

Approved March 27, 1866.

Joint resolutions in relation to the preparation of a history of New Jersey in connection with the war for the preservation of the Union.

Whereas the military record of the officers and soldiers of New Jersey in the service of the United States during the war for the preservation of the Union, now happily closed, has shed imperishable honor upon the state; and whereas, it is due to the state that this record should be perfected, condensed and printed in a form accessible and convenient to our people and easily preserved; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the governor be authorized and requested to select and appoint a suitable and competent person, who, under his direction, shall collect material and prepare a succinct history of the part borne by New Jersey in the war of the rebellion, of her general officers, and of the campaigns of each regiment; provided, that the compilation of such history shall cost the state not more than four thousand dollars, and that the governor report to the next legislature the progress of the work, with his recommendation as to the best means of securing the printing and distribution thereof among the people, and its preservation to the state.

Approved April 4, 1866.

EDITING A PAPER.—Editing a paper is a pleasant business.

If it contains too much political matter, people won't have it.

If the type is too large, it dont contain enough reading matter.

If the type is small, people won't read it.

If we publish original matter, they damn us for not giving selections.

If we publish selections, they say we are lazy for not writing more, and giving them what they have not read in some other paper.

If we give a man a complimentary notice, then we are censured for being partial.

If we do not, all hands say we are mercenary.

If we insert an article that pleases the ladies, men call it silly.

If we do not cater to their wishes, the paper is not fit to have in the house.

If we publish poetry, we affect sentimentalism. If we do not, we have no literary taste.

If we remain in the office attend to business, folks say we ought to mingle with the people.

If we are not there constantly, they say we never attend to business.

There is a magistrate in a town in Indiana, named Heiser. A clergyman in the same place was called upon by a young couple not long since, wishing him to join them in the holy bonds of matrimony. He asked the bridegroom (a soldier, by the way,) for his marriage license. The man in blue said he had been engaged to his girl four years, and thought that would do. Clergyman thought not, and remarked as the speediest way to obtain license, "you had better take your girl and go to Heiser." "You can go to h—l yourself," retorted the veteran, and without waiting for any further advice, he left his presence.

A benevolent correspondent informs the Milwaukee Sentinel that if they desire it, he would prepare them something to fill up with." The Sentinel seconds the motion and invites him to commence operations by forwarding a good "fresh" piece of beef and a barrel of flour."

A terrible tragedy recently took place in a court-room at St. Louis, Mo. A woman named Bright had been fined $100 for committing adultery, and was about paying the fine when her husband drew a revolver and shot her through the head, inflicting injuries of which she died in the evening. After shooting his wife, Bright turned the pistol against his own bosom, but was foiled in his attempt at suicide.

A patriotic real estate broker in Chicago, who during the war confiscated a large sum of money belonging to a Confederate North Carolinian, and devoted it to his own private use, has been compelled to shell out by a decision of the Superior Court. Republics are ungrateful.

FAILED TO VOTE.—The Plover (Wis.) Times says that the local election, which should have occurred in that place on the 12th inst., was neglected by the entire population; the polls were not open; everybody had forgotten it. We question whether there is a second instance of this kind in the history of the country.
