March 5, 1988

Dear Mr. Scott,

I just returned from my honeymoon, and I had to write to commend you on the wonderful job you did on the floral arrangements for my wedding. Everything looked absolutely beautiful, we still can't stop talking about it.

I wanted to thank you for making our day so special. If ever I can be of any assistance to you, please feel free to call me. I have enclosed a copy of our magazine. I hope you enjoy looking through it.

Sincerely,

Loretta Hillard-O-Keefe

If DIVORCE is the answer...

You deserve immediate protection of your legal rights

At the initial consultation we will discuss these topics, and more:

- **No law requires separation** for an uncontested New Jersey divorce.
- **An uncontested divorce** means resolving all issues by out-of-court settlement, not by a judge's decisions.
- **Fault or separation** usually will not affect your settlement; the issues involve your children, finances, and division of property, not your marital problems.
- **If you want to separate,** you can walk out without giving up your right to a fair settlement.
- **If you do separate,** beginning settlement negotiations immediately helps protect your legal rights.
- **Immediate legal protection,** if a permanent breakup is probable, often reduces financial and emotional cost.
- **Your lawyer will help you** negotiate and reach an out-of-court settlement.
- **The Early Settlement Program** in the county courthouse can recommend a settlement.
- **The day you settle,** a Superior Court judge can sign final uncontested divorce papers.
- **The final divorce papers** will not reveal why the divorce came about or whether you had separated.

★ Need some service? When the job calls for expert service, you can find the people to do it by looking in the YELLOW PAGES. It's the easy way to look up anything you need - services or stores, products or people.

How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Buying a rewarding experience. But if you should run into any problems or have any suggestions, don't hesitate to call us. We'll be here to help you.

How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Buying a rewarding experience. But if you should run into any problems or have any suggestions, don't hesitate to call us. We'll be here to help you.
