TO OUR PATRONS.

The delay that has occurred in the publication of the DIRECTORY of Newark for the current year, seems to demand a word of explanation from its proprietors, in deference to their patrons and in justice to themselves. Hitherto—in former years—it has been the practice to commence the canvass for names *before* the first day of April in every year. But as this day, by immemorial usage, has been appropriated in this community to the annual "moving" of a large proportion of its population, the canvass made prior to it was always necessarily liable to material errors and imperfections; numerous instances occurring of removals (uncontemplated at the time of the first canvass) *after* the canvassers had made their returns. To remedy this capital error—and to ensure the correctness which is so desirable a feature—the present proprietors of the DIRECTORY determined to make the entire canvass this year *after* the annual moving had been completed and our citizens had become settled in their new habitations. This has been carried out, generally, and has resulted in enabling us to present to our friends and patrons a DIRECTORY for the present year more closely approximating, we believe, to the real state of facts—both as regards fullness and accuracy—than most of its predecessors.

It is due to candor to say, however, that although the tardiness of the publication of the DIRECTORY this year is due mainly to the above mentioned reason—which we trust will be approved as satisfactory—it has been also in some measure owing to the embarrassment affecting all branches of business, and the consequent difficulty of securing competent assistants for the canvass of the city. In several instances, owing to this prevalent difficulty, we were obliged to engage persons inexperienced in this particular calling; and although they were intelligent and reliable, and have performed the work entrusted to them with honesty and pains-taking accuracy, they were necessarily unable to expedite it with the rapidity of more accustomed hands. The experience of the present year, however, will stand them in good stead for the future; and we feel warranted in making the pledge, that with our

2017.043.004

present experience we shall be able to obviate the necessity for apologies in the future, and to make the next issue of the DIRECTORY even more perfect than the present one.

Our patrons will notice that the map, which has accompanied the DIRECTORY for many years, is omitted in this edition. We do not think the omission will cause any regret; since, owing to the growth of the city, the opening of new streets and avenues and the changes in the names of others, together with the erection of new wards and of numerous important public buildings, it had become so replete with imperfections as to lose much of its value as a guide, and to become comparatively worthless. It is not, however, our intention to dispense in the future with this valuable adjunct to the work; and we intend, as soon as the proposed change in the names of the streets—now under consideration by the Common Council—is completed, to have a new map prepared for the DIRECTORY, on a larger scale than the former one, and based upon the one now belonging to the city authorities. These changes will, doubtless, be made during the coming summer; and the new map will therefore appear in our next issue.

By a reference to our advertising pages it will be perceived that we enjoy a liberal patronage from a goodly portion of our oldest, most respectable, and most successful establishments, in nearly every branch of business. While thankfully making our acknowledgments for this liberal patronage, it may not be out of place to suggest that it is less *general* than it ought to be, if our merchants, manufacturers and business men universally consulted their own interests as narrowly as they should. It should be borne in mind that a very large class of consumers among ourselves, as well as visitors from abroad who are here on business errands, are in the habit of consulting the DIRECTORY for the *permanent* and *established* business houses of the city. We therefore invite our enterprising business men to place themselves on record in the advertising pages of the DIRECTORY; the slight expense of which will, we believe, be far more than compensated for by the attendant advantages to them, and at the same time will *materially aid* us in our work.

The American Mutual Insurance Company,

NO. 259 BROAD STREET,

NEWARK, N. J.

Assets January 1, 1864.....$368,090 69

This Company have declared their usual annual dividend of FIFTY PER CENT., in scrip, *on the amount of premiums paid*, on all participating policies that have been continued for five consecutive years, either from the commencement of insuring or from the time when scrip was last declared to them; and also a cash dividend of EIGHT PER CENT. on scrip previously declared—each payable on and after April 1st, 1864, and free from Government tax.

The plan of doing business by this Company is unlike most other Companies.

They have no stockholders to receive first a share of the profits; the insured are the stockholders, and all the profits belong to them, while they assume no responsibility.

This Company divide on the basis of the *amount paid by the insured, and not on the net profits.*

They also issue NON-PARTICIPATING policies. Also policies for one or more years; or on the perpetual plan.

ADVANTAGES OF THE LIVERPOOL AND LONDON POLICIES:

Under them all claims are paid upon presentation of satisfactory proof of loss, without abatement or deduction for interest, and not, as is usual, sixty days after presentation of proof. They expire at six o'clock, P. M., and not at noon. They allow, WITHOUT NOTICE, fifteen days workmen's privilege. They permit other Insurances to be effected without the Company's consent being endorsed on the Policy, and do not require notice of such additional Insurances until the same be specially demanded by the Company. They are assignable by simple endorsement; no notice of such assignment need be given to the Company. They may be made on the face of them—"CONTINUOUS UNTIL NOTICE,"—thus obviating the risk of accidental expiration of Insurance. They allow ten pounds of Gunpowder to be on the premises, WITHOUT NOTICE—NONE being permitted under ordinary policies unless the consent of the Company be given in writing. They are more simple—avoiding needless terms, and nice descriptions, that only tend to complicate the Insurance, and render a settlement embarrassing. They are issued by well-known American citizens resident in New York, who are Directors and Shareholders, and consequently with the other Proprietors individually liable for all the engagements of the Company, and all policies are signed by them.

At a meeting of the Board of Directors of this Company, held March 8, 1864, the following important resolution was adopted, after mature consideration:

"There shall be added to each Policy issued, or hereafter to be issued, the following words: 'This Policy is incontestable after five years from its date, for or on account of errors, omissions and misstatements in the application, except as to age.'"

No other American Company offers this important advantage to insurers. Many have objected to taking Life Policies, that in case of error, it mattered not how innocent, the long-continued payments become lost, and families are deprived of the advantages proposed. This objection is now removed by this Company. Every State has its Statute of Limitations, not to cover fraud and crime from punishment, but to protect the innocent and unwary. This is a similar protection to Policy-holders.

EIGHT REASONS why men should deal at

Holmes' Clothing Store, 344 Broad Street.

1st—HOLMES buys direct from manufacturers, importers, and auctions for Cash.

2nd—HOLMES does not receive orders from a single firm; his goods are therefore marked at Cash Prices, not order or time prices.

3rd—HOLMES is his own landlord, and having no rent to pay, can and will sell 5 per cent. cheaper on that account.

4th—HOLMES' Store is the largest in the State—the assortment immense—a customer can always find just what he wants.

5th—HOLMES gives his whole attention to his store—indulges in no speculations or politics—he therefore has his stock seasonable, fashionable, and sizes well assorted.

6th—HOLMES was for several years in the wholesale clothing business in New York City, and sold to nine-tenths of the stores in New Jersey.

7th—HOLMES thinks the best cutters and workmen are the cheapest in the end, and his superior workmanship is generally acknowledged.

8th—HOLMES' study and ambition is to please his customers, and to sell the best clothing at the smallest price.

FURNITURE MADE TO ORDER AT REASONABLE RATES
By HOLLOWAY, Manufacturer & Dealer, 132 and 134 Broad St.

The Kerosene Lamp Heater Company,

206 PEARL STREET, New York,

MANUFACTURERS OF

FISH'S PATENT COOKING LAMP,

WITH WHICH

Water may be boiled and TWO articles of food COOKED at ONE time, with ONE burner, and not use A CENT'S WORTH of oil in cooking a meal.

Pamphlets furnished gratis.

Address, WM. D. RUSSELL, Pres't.

THE COOKING APPARATUS

Illustrated on the preceding page, has been in the market over one year, and has passed the experimental season and become

A HOUSEHOLD NECESSITY.

Thousands of them have been sold, and they have given entire satisfaction. This sheet is too small to enumerate all the particular commendations which have been given. A pamphlet of 30 pages with all particulars will be furnished on application.

The No. 1 is the best Nursery Lamp in the world. Dr. W. W. Hall in his "Journal of Health," says of it: "As an article for the nursery or sick room this lamp is invaluable."

The No. 3, holding three quarts of water will furnish an ample meal for a small family within half an hour from lighting the lamp, and not cost ONE CENT to do it. Water is boiled, the inner boiler setting within the main boiler will hold Chopped Meat, Hash, Potatoes, or Oysters, and cook either perfectly, while the stand resting on top will support a stew pan or frying pan and cook any other article desired; thus cooking, if you please, two kinds of food and boiling water for either tea or coffee at the same time.

We also have one size smaller, holding TWO QUARTS, and one larger holding FOUR QUARTS.

In the summer season most of the cooking for a family may be done, without roasting yourself over a fire, with no dirt, dust or ashes to clean. In fact, a meal may be cooked upon the table from which you eat, without the least annoyance, the article being neatly made.

ALSO

THE UNION ATTACHMENT.

A Convenient attachment to either a Gas Burner or Lamp.

For further particulars address,
