ST. MARK'S CHURCH.—Rev. Jas. A. Williams, rector. Services, morning at 10.30 and afternoon at 4.

# LLEWELLYN PARK.

## COUNTRY HOMES FOR CITY PEOPLE.

A PRIVATE PARK OF 730 ACRES ; 10 MILES OF DRIVES  
AND WALKS ; A "RAMBLE" OF 30 ACRES ; ONLY  
60 MINUTES FROM NEW YORK.

---

LLEWELLYN PARK, at Orange, New Jersey, offers many attractions to persons seeking a country residence in the vicinity of New York: in its ease of access, being distant only one hour from Barclay and Christopher Street Ferries; in its healthfulness of climate, being in proverbially the healthiest region so near the city; in its beauty of situation, which must be seen to be appreciated; in its abundant supply of pure soft spring water; and last, but not least, the peculiar advantages involved in the project itself, which may be enumerated as follows, viz. :—

I. *It is fairly in the country*, comprising many old farms, with their orchards, green fields, and native woods, and yet so contiguous to the large town of Orange, where there are good schools and churches of the various denominations, as to enable the residents to secure the necessities of life with the greatest possible convenience—even the butchers, bakers, and ice-men coming to their very doors.

II. *Its position*.—Lying mainly on the southeastern slope of Orange Mountain, and extending from its base to its summit, it is most favorably situated both for health and cultivation; for, while it is sheltered from the prevailing winds of winter, it catches the sea-breezes which prevail in summer.

III. *Its design.*—The idea involved in Llewellyn Park is, to enable a family occupying a small place in the country, costing only a few thousands of dollars, to enjoy all the advantages of an extensive country-seat, without the expense or trouble attending the latter. It was planned with special reference to the wants of citizens doing business in the city of New York, and yet wishing accessible, retired, and healthful homes in the country; but may be considered attractive to all persons who contemplate locating in this neighborhood.

To accomplish this purpose, a tract of land, containing 750 acres, beautifully situated on the southeastern slope of Orange Mountain, with a surface finely diversified, embracing deep ravines, bold, rocky cliffs, brooks of the purest spring water, picturesque old oaks, beeches and tulips, a noble old forest of native evergreen and deciduous trees, has been laid out in the natural style of landscape gardening, with 10 miles of drives and walks; and 50 acres in the centre of the tract have been reserved as a pleasure-ground, known as the "Ramble." The remainder of this tract has been divided into villa sites, of 1 acre, 2 acres, 3 acres, 5 acres, 10 acres, 20 acres, or even 50 acres, if desired; which enables one to purchase a fine country-seat of almost any moderate size, and to secure,

IV. *An elegant entrance* to his place, however small. Every one purchasing a country place naturally wishes a fine entrance to it. Where can one be found in the neighborhood of the city, finer or more picturesque than the entrance to Llewellyn Park through Park Avenue and Glynn Ellyn?

V. *A fine approach* is indispensable in a country place of any pretension. Where can an approach be found more varied and beautiful than through Glen Avenue, Wildwood Avenue, or Tulip Avenue, to the different residences in Llewellyn Park? An entrance and an approach in each case that have cost more than \$50,000.

VI. *The Ramble*, extending from the valley to the top of the mountain, contains fifty acres of land, embellished by a fine native forest, open lawns, large plantations of rare evergreen and deciduous trees and shrubs, numerous walks, rustic summer-houses, bridges, seats, cascades, &c., forming an invaluable play-ground for children, and affording ample opportunity for healthful and agreeable exercise in the open air.

VII. *Drives and Walks.*—A first-class country place can hardly be said to be complete unless there are drives and walks on the premises, to be used exclusively by the family and their friends; and if they are at all extensive, as at Montgomery Place, on the Hudson River (five miles of drives), of course they must involve a large expenditure of money to build these and keep them in repair. The difficulty is overcome, and this important feature (which can only be realized upon a large estate) is fully accomplished in Llewellyn Park by the seven miles of roads (already completed) and three miles of walks in the Ramble alone.

VIII. *Fences rendered useless.*—It is an interesting fact that, while each owner (and there are 50) in the Park has a perfect right to build as many fences as he pleases on his individual place, still no one has built a fence; doubtless because he has found no necessity for one, the whole tract (750 acres) being surrounded by a fence, and each proprietor

having adopted the Flanders mode of pasturing his cows, thereby avoids another heavy item of expense in a country place.

IX. *Restrictions.*—*There are none whatever, save the ordinary "nuisance clause" inserted in ordinary deeds, for mutual protection against the erection of grog-shops, factories, hotels, etc., etc., etc., if that may be called a restriction.*

This is mentioned to guard against any misapprehension, as some persons might suppose that restrictions were inseparable from so novel a project. It is the perfect simplicity of the plan of Llewellyn Park and its entire freedom from all restrictions, that render it so feasible, practicable, and desirable.

X. *Conditions.*—There is but one condition, and that is, that each acre sold shall contribute to the maintenance and embellishment of the Park, help to keep its roads and walks in order, pay its gate-keepers, gardeners, etc., etc. This contribution to the common fund *can never exceed TEN dollars per acre per annum.* It is so contained in the deeds, so that, if a person owns five acres, his annual tax cannot exceed fifty dollars per annum, and may be as much less as the proprietors themselves choose to make it at their annual meeting.

XI. *Proprietors of Llewellyn Park.*—The Park is intended to accommodate about one hundred families. Fifty of the sites, from one to twenty acres each, have been sold, the average being about six acres. Thirty of these places have already been improved, built upon, and are occupied chiefly by merchants doing business in New York City.

XII. *The value of the property as an investment* is indicated by the fact that the sites now sell at five times what they did when the Park was first commenced.

XIII. *Llewellyn Park is a Private Park,* and this is perhaps its most important feature. While in extent it nearly equals Central Park, unlike that, it is *strictly private*, to be used only by the owners and their friends. It is under the control of a board of managers elected annually by the proprietors, and its privacy is secured by lodges and gate-keepers at the entrances. Strangers who wish to visit it can gain admittance by simply entering their names in a book kept at the main entrance for that purpose.

XIV. *Recapitulation.*—In Llewellyn Park one owning only 3 acres of land (for example) secures an elegant entrance, a fine approach, a pleasure-ground of 50 acres, 7 miles of drives, their privacy secured by lodges and gate-keepers, 3 miles of private walks, and may enjoy all these advantages as a perpetual right by the contribution of \$30 (or less) per annum to the common fund (which at present amounts to about \$3,000 per annum), to be expended for the benefit of himself and co-proprietors.

## GENERAL ADVANTAGES.

It is believed that no spot within 20 miles of New York is in all respects so healthy as the Orange Mountains. It is almost the only locality so near the city where there is no fever and ague.

[[Purchasers of sites desiring to build of stone, can obtain the material on the premises free of charge.

The main entrance is on Valley Road, at the termination of Park Avenue, one mile from Orange Railroad station. As we ascend along the Park Avenues, Newark, New York, and their bays, Brooklyn, Staten Island, and the Narrows are taken at a glance. Upon reaching the top of the mountain, 600 feet above the level of the sea, a landscape 100 miles in extent spans the horizon. Cultivated fields and country-seats, villages, towns and cities, ponds, rivers and bays, with the Navesink Hills at the south, Nyack Mountain, Haverstraw Peak, and the Highlands towards the north, with Long Island and the ocean in the east, all lie revealed to the eye. This natural panorama is acknowledged by all to be one of the finest in America.

For ease of access, beauty and variety of scenery, for healthfulness of climate, for the intelligence and moral order of its population; in short, for all those considerations which combine to render a region attractive as a family residence, it is believed that the vicinity of Orange, a town containing 10,000 inhabitants, especially the mountain side, possesses advantages not surpassed, if equalled, by any other place in the vicinity of New York.

For maps, terms, and particulars, apply to the proprietor,

**L. S. HASKELL,**

*Library Building, Orange, Essex Co., N. J.*

LLEWELLYN PARK may be reached by 20 trains on the **Delaware, Lackawanna & Western Railway** (Morris & Essex Division), from the foot of Barclay and Christopher Streets, New York.

Also via the **New Jersey Railway**, from the foot of Cortlandt and Desbrosses Streets, New York, by 69 trains daily, connecting with the Orange Horse Cars at the Market Street station, in the city of Newark.

Also via the **Newark & New York Railway**, from the foot of Liberty Street, New York, by 56 trains daily, connecting with the Orange Horse Cars at the corner of Broad and Market Streets, in the city of Newark.

Also via the **Delaware, Lackawanna & Western Railway**, from the foot of Barclay and Christopher Streets, New York, by 56 trains daily, connecting with the Orange Horse Cars at the corner of Broad and Orange Streets, in the city of Newark.

The **New York & Oswego Midland Railway**, as soon as it is completed, will offer another very desirable means of access.

Or by a drive of 13 miles, crossing any one of the New Jersey Ferries, and taking the Newark Turnpike or Plank Road, through Newark and Orange.]

N.B.—Cabs at Christopher Street will take passengers from the Ferry to any point between Canal and Thirtieth Streets, and west of Third Avenue, for 40 cents for one, or 60 cents for two persons.

This is a detailed historical map of Llewellyn Park and the surrounding area on Eagle Ridge. The map is oriented with North at the top. Key features include:

- Topography:** The map shows the "TOP OF THE FIRST MOUNTAIN" and "Eagle Rock Mountain". A large, dark, irregular shape represents a wooded area or parkland.
- Roads:** Major roads include "Fairmont Avenue" at the top, "Ridge Road" on the right, "Valley Road" at the bottom, and "Eagle Rock Way" on the right. Other roads shown are "Cliffe Avenue", "Mountain Av.", "Park Way", "Glen Av.", "Forest Way", "Lakewood", "Wildwood Av.", "Tulip Avenue", "Newark & Mt. Pleasant", "Long Branch", "Meridian", "Valley Way", "Wigwam Road", and "Park Avenue".
- Landmarks and Buildings:**
  - Skating Pond:** Located near the top center.
  - Eyrie Eagle Rock:** A large, detailed illustration of a building with a conical roof, situated in the lower right.
  - Crystal Springs:** A small feature near the Eyrie Eagle Rock.
  - Willow Pond:** Located near the bottom left.
  - Pond:** A smaller pond near the bottom center.
  - Llewellyn Hall:** A building near the bottom left.
  - Castlewood:** A building near the top left.
  - The Rock:** A building near the center right.
  - Wigwam:** A building near the bottom center.
- Names and Owners:** Numerous names are scattered across the map, likely indicating property owners or residents. These include: Alex. Davis, Theodore Tilton, J.S. Brown, J.C. Browning, L.S. Haskell, J.M. Burt, A.O. Moore, L.S. W.J. Baner, Geo. Dunning, D.L. Wallace, Wadellatin, W.J. Judd, R.C. Brownino, F.H. Abbott, W.A. Fuller, D. Weder, W.H. Stark, Miss Williams, Mrs. H. Hood, Mrs. Hoff, W.M. Myers, and D.T. Warren.
- Other Features:** The map includes various smaller roads like "Eagle Rock Way", "Ridge Road", "Valley Way", "Wigwam Road", and "Park Avenue". It also shows "Eagle Rock Mountain" and "Cliffe".

The map is a black and white line drawing with a grid of streets and a central wooded area. The title "LLEWELLYN PARK AND VILLA SITES ON EAGLE RIDGE" is prominently displayed at the bottom center, with additional text below it: "IN ORANGE & MONTCLAIR, Essex County, New Jersey. PROPERTY OF L.S. HASKELL."

# HUNT'S EXCELSIOR METALLIC REFRIGERATOR

THE MOST PERFECT ARTICLE OF THE KIND  
EVER OFFERED TO THE PUBLIC.

Its principle points of excellence are the following:—

A Ice-Chamber, B Water-Cooler,  
C Tube for waste water, D Adjust-  
able Revolving Shelves.

1st. It is made wholly of Galvanized Iron, which resists oxydation to the last degree.

2d. It combines a Water-Cooler with the Refrigerator, thus saving the entire cost of a separate vessel for that purpose.

3d. It has no Packing or Filling to become damp, thus causing decay and the universal bad smell of those made of wood, and packed.

4th. Its *cold chamber* is beneath the ice, and thus is free from the ascending vapor, and hence is always clean and dry.

5th. Its cold chamber is Cylindrical, and is provided with revolving, adjustable shelves, thus in a moment adapting the spaces to any required size, and admitting of putting in or taking out any desired dish, without the least disturbance of any other.

6th. When not required, as in winter, for the common purposes of a refrigerator, it affords the most perfect SAFE for the preservation of food from dust, mice, and all vermin.

The only refrigerator ever offered that was not useless in winter and offensive in summer. Call and examine.

Nos. 13 & 15 Laight Street,

NEW YORK CITY.

A. L. WOOD, M. D., Physician.

**WOOD & HOLBROOK, Proprietors.**

# THE NEW YORK HYGIENIC INSTITUTE.

---

THE objects of this institution, which has been in successful operation for more than twenty years, are two-fold, viz. :

1. *THE TREATMENT AND CURE OF THE SICK WITHOUT POISONING THEM, BY HYGIENIC AGENCIES ALONE.*

2. *TO FURNISH A PLEASANT, GENIAL HOME TO FRIENDS OF HYGIENE THROUGHOUT THE WORLD, WHENEVER THEY VISIT THIS CITY.*

## CURE DEPARTMENT.

Thousands of invalids have been successfully treated at this institution during the past twenty years, and its fame extends wherever the English language is spoken. Its appliances for the treatment of disease without the use of poisonous drugs are the most extensive and complete of any institution in America. They comprise the celebrated

**Swedish Movement Cure,**  
**TURKISH BATHS, ELECTRIC BATHS, VAPOR BATHS,**  
**MACHINE VIBRATIONS,**  
**The Varied and Extensive Resources of the Water Cure,**  
**LIFTING CURE, MAGNETISM,**  
**HEALTHFUL FOOD, A PLEASANT HOME, ETC. ETC.**

Particular attention is given to the treatment of all the forms of **CHRONIC DISEASE**, especially of Rheumatism, Gout, Dyspepsia, Constipation, Torpidity of the Liver, Weak Lungs and Incipient Consumption, Paralysis, Poor Circulation, General Debility, Curvature of the Spine, Scrofula, Diseases of the Skin, Uterine Weaknesses and Displacements, Spermatorrhoea, etc.

## BOARDING DEPARTMENT.

We are open at all hours of the day and night for the reception of boarders and patients. Our location is convenient of access from the Railroad depots and Steamboat landings, and to the business parts of the city. Street cars pass near the doors to all parts of the city, making it a very convenient stopping place for persons visiting the city upon business or pleasure. Our Table is supplied with the *BEST KINDS OF FOOD, HEALTHFULLY PREPARED, AND PLENTY OF IT.* In these respects it is unequalled. Come and see, and **LEARN HOW TO LIVE HEALTHFULLY AT HOME!**

---

## THE SWEDISH MOVEMENT CURE.

### What is It?

All the functions of life are the result of motion. To breathe, we must expand and contract the chest. To aid in digesting food, the stomach undergoes a continuous series of contractions and relaxations. To circulate the blood, the heart must keep up a continuous action. Thus it is throughout the entire system. As long as motion continues, life exists. When motion ceases, death ensues. In health, motion—action—is normal, uniform, constant. In disease, the action is disturbed, being accelerated or retarded; in either case, showing a loss of equilibrium.

The Movement Cure is a means of applying motion to the different parts of the system, so as to increase or regulate the action of any part or organ that may be necessary to the restoration of health or the increase of strength. The motion is applied through the medium of various kinds of apparatus, by the hands of a physician, or skillful assistant, or by machinery, specially constructed for the purpose. The variety of movements and manipulations which may be used is almost infinite. The physician always carefully prescribes the particular movements, and the time and mode of their application, being wholly guided in each particular case by the conditions and strength of the patient and the effects to be produced.

There is no person too weak to undergo this mode of treatment. It can be applied just as well to an invalid who can not rise from her bed, or lift a finger even, as to the strongest man.

Its application does not require the slightest exposure, and is not productive of pain, undue fatigue, or inconvenience. On the contrary, the treatment is very agreeable, and leaves the patient feeling refreshed and invigorated.

The Movement Cure differs widely from Gymnastics, though alike based upon the fundamental law of Nature, that all organic growth and development depend upon motion, action, exercise. Movement Cure is exercise for the sick, and tends to the restoration of health. Gymnastics is exercise for the well, and tends to the preservation of health.

In no other system of treatment is there so much labor and pain-taking employed, and in no other can the physician so fully determine the actual condition and needs of the patient. In no other system is the treatment so cheering and satisfying to the oft-discouraged invalid, as the effects are gradual, permanent, and readily perceivable by the patient. The treatment readily appeals to the patient's judgment and common sense, and engages the highest powers of his mind in the work of physical restoration.

Certain features of the Movement Cure have been used for ages in the treatment of disease, by different nations. It was not, however, till about sixty years ago that it was reduced to a philosophical system, and placed upon a scientific and permanent basis as a system of medical treatment. To Peter Henry Ling, of Stockholm, Sweden, an eminent member of the Royal Swedish Academy, belongs the honor of this great work. He founded the first institution of the kind in Stockholm, under the royal patronage, in 1813. Since then the practice has spread rapidly throughout Europe, and is there to-day, as it will soon become in this country, the leading mode of treatment for chronic diseases.

### **Mechanical Vibrations.**

We have recently originated and added to our facilities for applying the Movement Cure treatment, a machine for giving kneading, rubbing, and vibration to any and all parts of the body. It is perfectly adjustable in speed and power, and can be graduated to the conditions of patients of all degrees of strength. It is equally capable of giving 20 or 2,000 vibrations per minute. Its operation is pleasant to the patient, and at the same time very effective.

Since its introduction we have found many diseases yield to treatment in less than half the time formerly required. This is remarkably the case in paralysis, dyspepsia, torpidity of the liver, obstinate constipation, neuralgia, imperfect circulation of the blood, cold hands and feet, and soreness and congestion of any part of the body.

## **The Lifting Cure, or Health Lift.**

This is really one feature of the Movement Cure, and is employed by us as such. There are, however, large establishments in many of the leading cities where it is the only treatment given; and, imperfect as it is when used alone, it has met with great success in the treatment of chronic diseases, where an increase of muscular strength and action are required. Most chronic invalids can **DOUBLE THEIR MUSCULAR STRENGTH** in from one to three month's time by this means, in connection with the other features of the Movement Cure. As a single means of muscular development it has no equal, when judiciously employed.

### **What are the Effects of the Movement Cure?**

The effects of rightly-applied movements are as various as the operations of the vital powers. By them the circulation of the blood, as a whole, may be increased or diminished, or it may be increased in one part and diminished in another; the frequency of the pulse may be accelerated or retarded; congestions may be removed, by withdrawing the blood to other parts of the body; disordered nervous action can be soothed, quieted, and regulated, and the nervous forces directed to any part of the system; pains and aches of nearly every description can be relieved by them; the frequency of the respiration can be hastened or retarded, and the size of the chest and the strength and capacity of the lungs very much increased; the action of the organs of secretion and absorption may be promoted, thus rendering the nutrition of the body more perfect; the excretory organs can be excited to increased action, and by this means the blood be purified; the strength of any particular muscle or set of muscles can be increased, if necessary, to an almost unlimited extent; and, in short, there is not a single vital process of the body that can not, to a greater or less extent, be controlled and directed by the judicious application of movements.

### **What Diseases are Curable by Its Means?**

In the hands of a physician who thoroughly understands the theory and practice of the Movement Cure, it is the most valuable remedial agent known to man for the treatment of most forms of chronic disease. We will name a few where it is specially useful:

**CURVATURE OF THE SPINE, ROUND SHOULDERS AND STOOP NECKS.**—These and other deformities, when not dependent upon bony malformation, are curable by Movement Cure, and are not curable by any other

means. They are caused by weakness, or unbalanced action of certain muscles, and weak muscles can only be strengthened by properly directed exercise.

**DYSPEPSIA, TORPIDITY OF THE LIVER, CONSTIPATION OF THE BOWELS, AND ALL FORMS OF INDIGESTION** are more readily and permanently cured by this means than by any other, especially in connection with a properly regulated dietary. In these diseases inaction is the prominent condition. This treatment supplies the needed action to the stomach, liver, and bowels, causing the first to pour out a larger supply of gastric fluid to digest the food, the second to remove from the blood its biliary elements, and the third to regularly expel their contents. Its effects in increasing the appetite and promoting nutrition are immediate and often wonderful.

**WEAK LUNGS, INCIPIENT CONSUMPTION, AND ASTHMA.**—The principal requirement in these diseases is an increase of the strength and breathing power of the lungs. The chests of most invalids can be permanently increased in circumference from two to four inches, and their lungs correspondingly enlarged and strengthened. Asthma is readily cured, and consumption, in its early stages, can usually be overcome by the aid of the Movement Cure and a good general hygiene.

IN **PARALYSIS**, this treatment supplies what any one can see at a glance is specially required—*action*. This disease can be cured if the patient has a sufficient amount of vitality. In nearly every case it can be relieved.

IN **NEURALGIA, NERVOUSNESS, AND SLEEPLESSNESS**, the Movement Cure works like a charm, soothing pain, quieting nervous action, and strengthening the nervous system.

IN **FEMALE WEAKNESSES AND DISPLACEMENTS** it is invaluable. It easily, permanently, and without indelicacy, removes the *cause* of most forms of pelvic disorders, and strengthens and restores to position weak and displaced organs.

FOR **GENERAL DEBILITY AND NERVOUS WEAKNESS**, however caused, this is the natural and most reasonable mode of treatment. It improves digestion and nutrition, gives tone to the nerves, and builds up and strengthens the muscles.

**IMPERFECT CIRCULATION AND COLD EXTREMITIES.**—These conditions can be easier and more permanently remedied by these operations than by any other means.

FOR **WEAKLY CHILDREN**, hereditarily predisposed to grave diseases and deformities, this treatment presents the only natural and indispensable conditions for averting the threatened evils, and insuring them permanent health, strength, and symmetry.

## THE TURKISH BATH.

*"This is the grandest matter of modern times."*

—WALTER SAVAGE LANDOR.

Our Turkish Bath, which was the first in New York, and is still the largest and best in America, we added to our institution upwards of five years ago, at an expense of over ten thousand dollars. Since that time we have given over One Hundred Thousand Baths, with such beneficial results that we have not the slightest hesitation in affirming that the Turkish Bath is one of the greatest remedial as well as Hygienic agents known to man.

### **What are the essential features of the Turkish Bath?**

1. Bathing the entire body in heated air until perspiration is induced over the whole surface of the body.
2. The process of shampooing, which loosens up the effete matter and scarf skin, promotes the circulation of blood in the muscles, skin, and adjacent tissues, and soothes the nervous system.
3. The cleansing of the skin and reduction of the temperature of the body to the natural standard by the use of water, either by the spray, douche, shower, or plunge.
4. The drying and airing process, which prepares the bather for the "outer world" again. The different processes are varied to suit particular cases.

### **What are the effects of the Bath?**

1. To cleanse and promote the healthful action of the skin, and the seven million little perspiratory sewers or pores, which open upon its surface and carry off waste and effete matters from the system.
2. To purify the blood, by drawing off its impurities through the perspiration, and by increasing the activity of the liver and kidneys.
3. To equalize the circulation of the blood throughout the system; thus removing all local congestion of the head or internal organs.
4. To soothe and tranquilize the nervous system, and give clearness of mind as well as healthfulness of body. Rightly administered, it produces the above results as no other bath can do.

### **What are the special uses of the Bath?**

To secure perfect cleanliness, to preserve the health and prevent disease, and to cure the sick.

## **Does the Turkish Bath render the bather susceptible to Colds?**

No. By freeing the blood of its impurities, and promoting the healthful action of the skin, it strengthens that organ and renders it less liable to obstruction, and consequently better able to resist cold. Says Dr. Andrew Combe, the physiologist: "It *increases* instead of *exhausts* the strength, and by exciting the vital action of the skin, gives rise to a power of reaction which enables it to resist cold much better than before."

Erasmus Wilson, F. R. S., the great English anatomist and dermatologist, says: "The Turkish Bath *can not* give cold."

## **Is the Bath weakening?**

The Turkish Bath is not weakening. The shampooers, who labor hard in the bath from ten to twelve hours per day, grow strong instead of weak, and are remarkably healthy and exempt from colds. Go ask the glass blowers, the sugar refiners, laborers in the harvest field, the stoker at the furnace, the blacksmith at the forge, if heat and perspiration are weakening. They will tell you No, and their appearance will corroborate their words. Scores of times have we asked this question of the shampooers in the baths of England and Ireland, men who have worked in them constantly for six, eight, or ten years—and the answer invariably was, "I never was so strong and healthy until I entered the bath."

## **What is the best time to bathe, and how long does it take?**

No bath should be taken less than two hours after eating. It usually requires from an hour to an hour and a half to take a bath properly.

## **How often should they be taken?**

This depends upon the object to be accomplished. For those in health once a week may be sufficient. For invalids, its frequency should be regulated by a medical adviser, who understands its effects and proper application. This is important, as it is a great and powerful medical agency, requiring care and judgment in its use. All who seek its remedial benefits should first consult the physician in charge.

## **The Reasons Why.**

The Turkish Bath is useful in the treatment of nearly all forms of disease, because:

1. It cleanses and promotes the healthful action of the skin as no

other bath can do, thus relieving the other excretory organs and giving them rest, and a chance to regain their normal strength and health.

2. It equalizes the circulation of the blood, and removes all local congestions of any and every part, which is one of the most important things to be accomplished in the treatment of disease.

3. It is the quickest, easiest, and most effectual means of purifying the blood known to man. It literally washes the blood of its impurities. The patient drinks pure water, it is absorbed, passes into and mingles with the blood, by which it is carried to the capillary network of the skin and poured upon the surface in the form of perspiration; not pure as when it was taken into the stomach, but mingled with the humors and impurities of the blood. If this were its only use, the Turkish Bath would be invaluable.

4. It soothes and tranquilizes the nervous system, sweeps the cobwebs of care from the brain, leaving it clear and refreshed, and equalizes the flow of the nervous fluids throughout the body.

For the above reasons the Turkish Bath is *specially* useful in the treatment of all diseases arising from impurity of the blood, inactivity of the skin, local congestions, or inflammations, or unbalanced nervous action, as HUMORS of every kind, DRUG POISONING, SCROFULA, CONSUMPTION, DISEASES OF THE SKIN, DROPSY, REMITTENT AND INTERMITTENT FEVERS, COUGHS, COLDS, CATARRH, CROUP, GOUT, RHEUMATISM, NEURALGIA, DISEASES OF THE LIVER AND KIDNEYS, BRONCHITIS, CHRONIC DIARRHEA, ETC.

### Medical Testimony.

Were it not that a large proportion of the people know nothing whatever of the remedial value of the Turkish Bath, and that thousands of others have formed erroneous ideas of it from the writings and stories of Eastern travelers, we should not introduce testimonials at all. We could easily fill large volumes with testimonials from the medical profession, from the press, and from the people, as to the great value of the Turkish Bath. We present only a few from well-known physicians, who know from experience, as well as from theory, of what they speak.

The Turkish Bath is a "boon to humanity," an important auxiliary to the cure of disease, and one of our best means of purifying the blood. It is firmly believed that the Turkish Bath is one of the most potent remedial agents known to the profession; and that therefore it should be introduced into every hospital, city, and village in the land.—*S. E. Chaille, M. D., in N. O. Medical and Surgical Journal.*

It would be well if all the human race could have at least one Turkish Bath each week. It would conduce more to their happiness than any other one thing. Rely upon it, it is the *ne plus ultra* of baths.—*Dr. J. E. Westervelt, Richmond, Ind.*

The Queen of Baths.—*Dio Lewis, M. D., Boston, Mass.*

Turkish Baths purify and invigorate.—*D. Wark, M. D., Saratoga Springs.*

Unsurpassed, as combining luxury and utility.—*R. M. Lackey, M. D., Chicago, Ill.*

I recommend the baths as a healthy exercise.—*W. E. Anthony, M. D., Providence, R. I.*

As a curative and pleasant process, I can heartily recommend the Turkish Bath.—*J. E. Brown, M. D., Philadelphia.*

I consider the Turkish Bath as especially beneficial in catarrhal affections, and urge it a trial.—*E. N. Colt, Jr., M. D., Williamsburgh, L. I.*

The Turks have always considered the public baths of Constantinople as supplying the place of a certain number of hospitals, which would otherwise have to be built.—*Dr. Haughton.*

The Turkish Bath can not be too highly commended. It is a great purifier and accelerator of the circulation. It is good for almost "all the ills that flesh is heir to."—*Levi Grimshaw, M. D., New York.*

The use of the Turkish Bath renders the complexion more delicate and brilliant—the eye becomes clearer and better—the whole person is rendered fragrant, and all personal charms are enhanced.—*Dr. Barter.*

Phthisis is a disease in which debility is a marked symptom, yet patients submitted to the bath increased in strength and flesh. This convinces me that the bath is likely to prove the best treatment for consumption yet applied.—*Dr. Learned.*

After a day of labor and care, which had quite exhausted me, I have just taken one of the Turkish Baths, and come out feeling completely rested as when I arose from my bed in the morning—in short, as good as new.—*L. H. Thomas, M. D., Waterbury, Vt.*

The only sure cure for a cold is the Turkish Bath. It opens the pores and starts the system afresh into working order. I cheerfully recommend it, even to persons in good health, as the best means to keep the healthiest secretions.—*Dr. D. F. Clinton, New York.*

I entered the Turkish Bath with a severe bronchitis. I could, with great exertion, barely whisper. After passing through the excellent system, it surprised me to find my chest relieved from all constriction, my voice nearly restored. For an acute case of bronchitis, I am happy to say I believe there is no better treatment.—*Francis Green, M. D., New York.*

I concur in the foregoing testimony as to the intrinsic merit, as a remedial agent, of the Turkish Bath, and to the very complete way in which it is given at Nos. 13 and 15 Laight Street, New York. I have taken the same form of bath in Germany and England, and nowhere has it been more satisfactorily administered.—*Prof. Rufus King Browne, M. D., New York.*

All unfavorable influences of climate and national habits combine to suggest the more extended use of the Turkish Bath as a national need; and surely, if slowly, will their hygienic, their soothing, their invigorating influences, commend themselves to our over-worked, harrassed, and sedentary population. That these baths facilitate digestion was known of old, and the manner in which they were used for the relief of gormandizers has been made one of the topics of Juvenal's satire. For the relief of rheumatic pains, and as a prophylaxis of rheumatism, there can be no question as to their value. They are better worth than drugs and ointments for many cutaneous diseases.—*Prof. George T. Elliot, M. D., Bellevue Medical College, New York.*

Large evacuations by sweating may be employed more freely, and with less disadvantage to patients, than by any other secretion.—*Todd's Clinical Lectures.*

I was much benefited, and in fact virtually cured of my lumbago by a single bath.—*Chas. A. Lee, M. D., Professor of Materia Medica and Hygiene in University of Buffalo.*

I find the bath highly tonic, and the rule with me is to put the weak people in often as I find that the action of temperature is favorable to growth and nutrition.—*Dr. Richard Barter, St. Ann's Hill, Ireland.*

Its effects are most remarkable in obviating disorders and palliating diseases of the liver and kidney—the passage of gall-stones, and the relief of liver obstruction occurring immediately on the use of the bath.—*Sir John Fife.*

Gout, rheumatism, neuralgia, are said to be unknown among the Turks, and this exemption is probably as much due to the free action of the skin, caused by the bath, as to their temperate habits.—*Dr. Leared, in London Lancet.*

Pain and ache vanish, as if by magic, in the bath. By placing the body in a better condition to use its own resources against disease, it is serviceable in every case. It has become a question with me, not what the bath will cure, but what it will not cure.—*Dr. Brereton.*

Perspiration is the safety-valve of the heart, the sewer for the secretions, the scavenger of the skin. The bath promotes perspiration, and while it strengthens the laborious for toil, it serves in the place of bodily exercise for the sedentary.—*Dr. C. H. Shepherd.*

Where the bath is the practice of the people, there are no diseases of the skin. All cases of inflammation are subdued. Gout, rheumatism, sciatica, or stone can not exist where it is conscientiously and sedulously employed as a curative means. As to consumption, that scourge of England, that pallid specter which sits by every tenth domestic hearth, among the highest orders, it is not only unknown where the bath is practiced, but is curable by its means.—*Dr. David Urquhart.*

In the bath the skin acquires color, freshness, firmness, and elasticity; it loses the muddy and faded hues of ill-health, and the parched and arid dryness and wrinkled aspect of infirmity and age. The inhabitant of a large city would live as healthily immured within his city walls as amid the fields and meadows of the country. His bath would be to him in the place of a country house, of a horse—it would give him air exercise, freshness, health, and life. . . . The bath which cleanses the inward as well as the outward man, which is adapted to make health healthier, and alleviate disease, whatever its stage or severity, and merits the advocacy of all men.—*Erasmus Wilson, M. D., F. R. S.*

Half of our diseases originate in a sudden change of temperature; colds, rheumatism, pleurisy, catarrhal and inflammatory fevers, are ordinarily the disastrous consequences. The Turkish Bath, promptly and properly used, will not only cure the slightest indisposition coming from colds, but will also prevent the more serious maladies. I have often been materially assisted in curing chronic diseases, such as dropsy, sciatica, hip disease, scrofula in its various forms, by having baths given in such manner as to restore the skin to a healthy state. The lassitudes and painful sensations in the limbs and spine, following violent bodily and mental exertion, are immediately cleared away by this bath. I consider the use of the Turkish Bath of the utmost benefit, as a hygienic means, for the preservation of health and prevention of disease, by cleansing the skin and making it less susceptible to the continual atmospheric changes incident to our climate.—*W. B. Chamberlain, M. D., Worcester, Mass.*

## ELECTRICITY, AND ELECTRO-MAGNETIC BATHS.

Electricity is now regarded by the best informed physicians of all schools of practice as a highly valuable remedial agency for the treatment of disease, and no institution is complete without good facilities for the application of this powerful agent. During the past five years we have used House's celebrated Electro-Magnetic Apparatus, and with the most satisfactory and oftentimes wonderful results. In this bath the electricity is applied through the medium of warm water (thus at the same time obtaining the benefits of warmth and moisture), and the arrangements for controlling and guiding the electricity are such that the currents can be easily directed to any point desired. We also use electricity without the bath, whenever it seems to be indicated.

Electricity is specially useful in all cases where there is a *want of action*, as *Paralysis, Torpidity of the Liver, Constipation, Asthma, Poor Circulation, Obstruction, Congestion, etc.* It is also extremely valuable in all *Nervous Diseases, Neuralgia, Sciatica, Rheumatism, Nervous Debility, and Sleeplessness.* In connection with the Turkish Bath, it is the most effectual remedy for the *Elimination of Mineral and Drug Poisons* from the system.

## THE WATER CURE.

We have all the appliances of a first-class Water Cure Establishment, and use them according to the indications of each particular case. We do not believe in, nor do we practice the old heroic style of Water Cure, in which feeble invalids are cold-douched, and showered, and packed, and plunged half-a-dozen times a day, until they grow thin, and blue, and cold, and waste what little vitality they had left, in vain efforts at reaction. Some persons can *stand* such treatment, and get well *in spite of it*, and so there are some who can swallow an apothecary shop, a little at a time, and still survive, but ~~that~~ does not prove that the apothecary shop saved their lives.

Many of the processes of the Water Cure are invaluable in certain cases, and there are but few invalids who would not be benefited by the judicious use of one or more of them.

## DIET, AND A PLEASANT HOME.

We do not believe in starving our patients, although in some cases restriction in quantity as well as quality is very important. As a rule, patients undergoing vigorous treatment require a generous diet of wholesome food, and with this our table is always supplied. We pay particular attention to the healthful preparation of food, and to supplying our table with good bread and other farinaceous preparations, and the best fruits and vegetables of the season. A bad dietary has much to do with the production of disease, and a good one as much to do in its cure.

We endeavor to make our institution as much like a home to our patients as possible, and to make them feel cheerful and contented, well knowing that these conditions are important Hygienic agencies.

### TERMS.

|                                            |                              |
|--------------------------------------------|------------------------------|
| Board, without Room .....                  | \$5 00 per week.             |
| Board, with Room.....                      | \$7 00 to \$20 00 per week.  |
| Board, with Room .....                     | \$1 50 to \$3 00 per day.    |
| Treatment, without Board.....              | \$40 00 per month.           |
| Treatment, Board, and Room..               | \$15 00 to \$30 00 per week. |
| Examination, Prescription, and Advice..... | \$5 00.                      |
| Prescription and Advice by Letter.....     | \$5 00.                      |

 No extra charges for bathing clothes, etc. Every thing of the kind is furnished by the institution.

To those who wish to lessen their expenses, we make the following

### Liberal Offer.

To whoever will procure subscriptions to THE HERALD OF HEALTH, or sell any of our own publications, forwarding us the full subscription price of THE HERALD, (\$2 00), and the regular retail price of the books, we will credit one-half of said amount, to apply on their treatment at our institution at any future time. For example: any one sending us **25** subscriptions to THE HERALD and **\$50**, and an order for **\$50** worth of our books, with the money therefor, will be credited with **\$50**, to apply on their treatment. The books so ordered will be sent by express. A sample copy of THE HERALD will be sent to any address on receipt of the price (20 cents.)

Any one desiring to avail themselves of the benefits of our institution, and who are not able to pay money, can, in this way, by a little effort among their friends and acquaintances, easily pay for several months' treatment.

## REFERENCES.

We could easily fill a volume with Reports of Cases and Testimonials from our patients, but instead, we prefer to append a list of some of our friends and former patients, from whom satisfactory information in regard to the institution can be obtained.

Addressed to American Workingmen and Educators, with an Essay on Froebel's Reform of Primary Education.

By ELIZABETH P. PEABODY

Price, by mail, 25 cents.

# SEXUAL PHYSIOLOGY.

## A SCIENTIFIC AND POPULAR EXPOSITION

OF THE

## FUNDAMENTAL PROBLEMS IN SOCIOLOGY.

By R. T. TRALL, M.D

The great interest now being felt in all subjects relating to Human Development, will make the book OF INTEREST TO EVERY ONE. Besides the information obtained by its perusal, the practical bearing of the various subjects treated in improving and giving a higher direction and value to human life CAN NOT BE OVER-ESTIMATED.

This work contains the latest and most important discoveries in the Anatomy and Physiology of the Sexes ; Explains the Origin of Human Life ; How and when Menstruation, Impregnation, and Conception occur ; giving the laws by which the number and sex of offspring are controlled, and valuable information in regard to the begetting and rearing of beautiful and healthy children. It is high-toned, and should be read by every family. With eighty fine engravings. *Agents wanted.*

This work has rapidly passed through ten editions, and the demand is constantly increasing. No such complete and valuable work has ever before been issued from the press. Price, by mail, \$2.

# A WINTER IN FLORIDA;

Or, Observations on the Soil, Climate, and Productions of our Semi-Tropical State.

With Sketches of the Principal Towns and Cities in Eastern Florida,  
to which is added a brief Historical Summary, together with  
Hints to the Tourist, Invalid, and Sportsman.

By LEDYARD BILL.

Illustrated with Maps and beautiful Wood-cuts.

In speaking of this book, *The New-York Tribune* says: "Mr. Bill has furnished in this neat little volume a great amount and variety of the sort of information which people visiting Florida for health or amusement, or with a view to permanent settlement, are most likely to require. He has paid due attention to the soil, climate, productions, and natural advantages of the State; he gives clear and minute directions about routes, and sketches the aspects of social life."

The thousands who would know all about Florida before going there will find this book just the thing, whether they are Invalids, Tourists, Sportsmen, or those seeking a Home away from cold Winters in a delightful clime. The following condensed table of contents gives a general view of the work:

What to Expect and How to Go; Early History of Florida; Miscellaneous Topics; Up the St. Johns to Jacksonville; Home of Harriet Beecher Stowe; The Celebrated Spring at Green Cove; Central Florida and the Upper St. Johns; Alligator Shooting; The Old City of St. Augustine; Climate and its Effect on Invalids; Character and Kind of Soil; The Orange, Lemon, and Lime; The Social Condition of the People; Sketches of Jacksonville, Green Cove, Picolata. Enterprise; Abundance of Fish and Wild Game; The Mocking Bird's Home; Incidents of Travel; Hints to those Going to Florida.

The work contains about 250 pages 12mo, beautifully illustrated with map and full-page cuts, and retails at \$1.25. Copies sent to any address by mail on receipt of the price.

## THE TREE OF LIFE;

Or, Human Degeneracy, its Nature and Remedy.

By ISAAC JENNINGS, M.D.

THE author of this book was for thirty years an Allopathic physician, but becoming convinced that medicines did more harm than good, he substituted placebos of bread pills and colored water in his practice, and the record of his cases show that the latter treatment was eminently successful in removing diseases. It contains the following table of contents:

Man's Spiritual Degeneracy; Physical Depravity; Physiological and Psychological Reform; Remedy for Man's Spiritual Degeneracy; Man's Physical Degeneracy; Constitution of Human Physical Life; Vital Economy, or Organic Laws of Life; Source and Mode of Transmission of the Principle of Human Physical Life; Predisposition to Disease; Hereditary Diseases; Mode of Renovation of Impaired and Feeble Vital Machinery; Analysis of a Few of the Most Prominent Symptoms of Disease; Law of Contagion and General Causation; Medical Delusion; Remedy for Man's Physical Degeneracy; General Directions Resumed; Specific Directions—Croup—Dysentery—Cholera; Final and Effectual Remedy for Man's Physical Degeneracy.

Price, by mail, \$1.50.

# THE PHILOSOPHY OF HUMAN BEAUTY;

## Or, Hints Toward Physical Perfection.

Showing how to Acquire and Retain Bodily Symmetry, Health, and Vigor, Secure Long Life, and Avoid the Infirmities and Deformities of Age.

By D. H. JAKES.

MOTTO.—*The idea of Beauty of Person is synonymous with that of Health and a Perfect Organization.*

### LIST OF CHAPTERS.

- |                                         |                                       |

# HERALD OF HEALTH

## AND JOURNAL OF PHYSICAL CULTURE.

As the intelligent farmer can not afford to be without an agricultural paper, so no intelligent household should be without a Health Journal.

The HERALD OF HEALTH is preëminently

### THE JOURNAL OF ITS KIND.

No other at all approaches it in value. It does not at all smack of sick-room odor, but of healthy, happy, bright life. Every body feels better bodily and mentally who reads it. The sick learn how to get well by proper living. The well how to keep so, by good habits. Parents learn how to rear healthy children, and how to educate and train them to good habits. This Monthly does not limit its field to health topics, but goes over the whole ground of life, and is so broad and comprehensive that it has won the universal esteem of

### THOUSANDS ON THOUSANDS OF PEOPLE.

"We can always commend this journal without qualification."—*New-York Evening Post*. (Edited by WILLIAM C. BRYANT, the Poet.)

"The HERALD OF HEALTH is a journal which contains more sensible articles on subjects of a practical moral bearing, than are to be found in any other monthly that comes to our sanctum."—*Scientific American*.

"The HERALD OF HEALTH well sustains the high standard which it has held forth since the commencement of the new series. In fulfilling its task as a 'preacher of righteousness' in the department of Physical Culture, it enjoys the aid of numerous sound thinkers and able writers."—*New-York Tribune*.

Its corps of Contributors includes scores of the best men and women in the country. Each month we have a contribution from HENRY WARD BEECHER. His articles alone on practical topics are worth the entire cost for one year.

A few pages each month will be devoted to brief prescriptions for all forms of disease, not of drugs, but of Hygienic Agencies. Queries on health topics *answered free* every month in the Journal.

To give greater variety, and add to its attractiveness for 1870, we shall publish

### A CHARMING STORY,

By MRS. ELIZABETH OAKES SMITH.

It will be a story full of thought and wisdom, and will furnish delightful reading for the Home Circle. This story will continue through the year. The motto of this magazine is:

"A Higher Type of Manhood, Physically, Intellectually, and Morally;" and it will work faithfully to make this motto good.

For 35 subscribers and \$70, we will give a Grover & Baker Sewing-Machine worth \$60.

For \$3.35 we will send the HERALD OF HEALTH and *The New-York Weekly Tribune* one year. For \$3 we will send the HERALD and *The American Agriculturist* one year.

We have had engraved for our subscribers for 1870, a splendid steel engraving of

### ALEXANDER VON HUMBOLDT,

#### TO BE GIVEN AWAY

to each subscriber who sends us \$2. It is finely engraved, printed on good paper, and will be an ornament to any room. The picture is copied after an original oil painting, owned by A. T. STEWART, of New-York. Persons who choose can have choice plants or seeds in place of the picture.

\$2 a Year. Samples, 20 cents.

# Herald of Health Premium List for 1870.

To every *Single Subscriber*, who sends us \$2, we will send A VERY FINE NEW STEEL ENGRAVING of the Philosopher and Scientist, ALEXANDER VON HUMBOLDT, after an Original Painting owned by A. T. Stewart, Esq.

For *Two Subscribers*, (one old and one new,) and \$4, a copy of "A WINTER IN FLORIDA," worth \$1.25; or one copy of "PHYSICAL PERFECTION," worth \$1.50.

For *Three Subscribers*, (one old and two new,) and \$6, a copy of Prof. Welch's New Book, "MORAL, INTELLECTUAL, AND PHYSICAL CULTURE," worth \$2.25.

For *Four Subscribers*, and \$8, a GOLD PEN, with strong Silver-coin Holder, worth \$4.

For *Seven Subscribers*, and \$14, we will send, post-paid, one of Prang's beautiful Chromos, worth \$5, called THE BAREFOOTED BOY, after an oil painting by Eastman Johnson. This is an illustration of the familiar lines of Whittier:

"Blessings on thee, little man,  
Barefoot boy, with cheeks of tan."

It is the portrait of a "Young America" in homespun clothing, barefooted, and with that self-reliant aspect which characterizes the rural and backwoods children of America. It is very charming. Size,  $9\frac{3}{4} \times 15$ .

For *Nine Subscribers*, and \$18, we will send, post-paid, one of Prang's beautiful Chromos, called A FRIEND IN NEED, worth \$6. This is a country scene, composed of a village in the distance, with trees in the middle, and the village pump in the immediate foreground. A happy looking village boy lends his friendly aid to a pretty rustic damsel, who is quenching her thirst at the pump, the handle of which he is plying vigorously. The position of these figures, in connection with the dog, who also enjoys the cooling draught, forms a most interesting group, which is excellently rendered in strong, effective colors. Size,  $13 \times 17$ .

For *Fifteen Subscribers*, and \$30, we will give ONE OF WEBSTER'S PICTORIAL UNABRIDGED DICTIONARIES, Illustrated with 3000 cuts, worth \$12.

For *Thirty-five Subscribers*, and \$70, we will give a splendid EMPIRE SEWING-MACHINE, worth \$60. This is as good as any machine in the market, and can not fail to give the best satisfaction.

For *Sixty Subscribers*, and \$120, we will give the NEW AMERICAN ENCYCLOPEDIA, in twenty volumes, worth \$100!

For *Eighty-five Subscribers*, and \$170, we will send one of MASON & HAMLIN'S FIVE-OCTAVE ORGANS, worth \$125, with Five Stops, Viola, Diapason, Melodia, Flute, Tremulant, with two sets of Vibrators throughout, and Knee Swell.

For *One Hundred Subscribers*, and \$200, we will give ONE OF ESTEY'S FIVE-OCTAVE COTTAGE ORGANS. Black Walnut, Double Reed, Harmonic Attachment, and Manual Sub Bass, Three Stops, worth \$200!

For *Three Hundred Subscribers*, and \$600, we will give a BRADBURY PIANO, worth \$600!

**CLUBBING WITH OTHER MAGAZINES.**—We will send THE HERALD OF HEALTH and any one of the following Journals one year, for the sum below mentioned. The order and money for both must be sent at the same time.

# LIST OF ARTICLES FOR SALE BY

## WOOD & HOLBROOK, No. 15 Laight Street, New-York.

BACON'S HOME GYMNASIUM, with book of explanation and one hundred cuts, \$10.

—Trapeze Adjustment, with thirty-two illustrations, \$3.50.

—Swing Adjustment, for children, \$1.50.

Each part sold separately. The whole, \$15.

This is the most valuable piece of Gymnastic apparatus for home use ever invented. Any one can use it. For weak chests, backs, and sides, its use is the best remedy known. A half hour's use of it daily would prevent and cure many cases of dyspepsia and consumption.

SYRINGES.—The best styles in market. Usual style, by mail, \$3. For children, with Eye and Ear Douche for sores, etc., \$2. The Spray Syringe, \$3. The Trade supplied.

BREAD PANS—for making light, aerated Bread without soda, saleratus, yeast, or other poisonous compounds. Only by Express, \$1.

HERALD OF HEALTH COVERS—so that every one can bind their numbers and preserve them neatly. 60 cents.

HAND MILLS—for cracking Wheat, making Rusk, Hominy, etc. By Express, \$3.

ELECTRIC MACHINES—Kidder's—best manufactured, \$20 to \$22.

FILTERS—Kedzie's—Family Size, \$10.50.

SPIROMETER—for Strengthening the Lungs.

We are now able to supply our friends with a first-class Spirometer, with which to enlarge and strengthen the lungs. It is so arranged that the person using it can measure the capacity of the lungs for air in cubic inches with each test, thus showing their strength and the amount of increase. The value of the careful daily use of such an instrument for those who have weak lungs or incipient consumption is very great. The inventor of this instrument cured himself of consumption by its use, as have many others, and we have no hesitation in saying, that if rightly used, it WILL DO MORE TO PREVENT AND CURE THIS DISEASE THAN ALL THE MEDICINES OF THE WORLD.

The Spirometers are light, ornamental, portable, durable, and any body can use them. They have been highly commended by many leading physicians. Every Physician, Student, Sedentary Person, Professional Man, and Family should have one.

Sent only by Express. Price, \$10. Orders for any of the above, by mail, promptly filled.

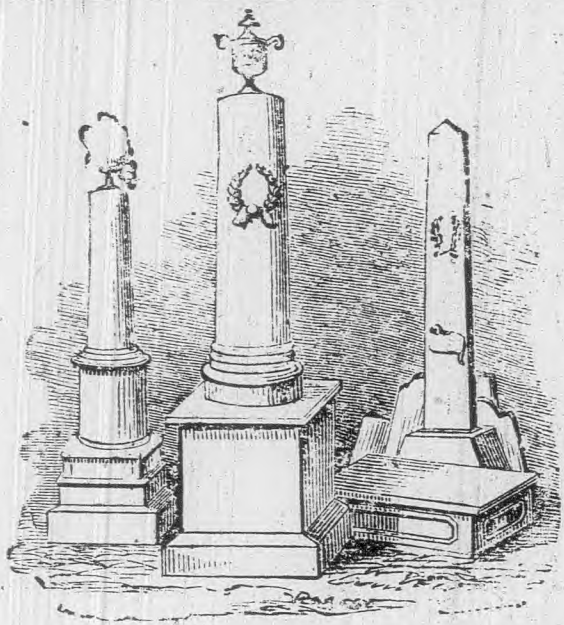

## FORTHCOMING BOOK.

### PARLOR TALKS TO LADIES.

We shall publish in March, 1870, Mrs. Dr. GLEASON's work, entitled *Parlor Talks to Ladies*, upon the diseases of women. Mrs. Gleason is so well known to the readers of THE HERALD OF HEALTH that this announcement will be hailed with delight. The book is destined to meet with a very extensive sale. Pure and chaste in its diction, hardly a woman in the land but will want a copy. Ladies who wish to canvass for a work of this kind will find it just the book for them. A hundred could be sold in almost any neighborhood. The price has not yet been decided upon, but it will be somewhere from one dollar to one dollar and fifty cents, postage extra. Should any one, however, remit three dollars for THE HERALD OF HEALTH for 1870 and this book, before the first of January, we will send it, whether the price is more or not.

**NEW JERSEY CHEMICAL PAINT CO.,**

**Plainfield. N. J.,**

MANUFACTURERS OF

**BRADLEY'S PATENT ENAMEL PAINT,**

*Mixed Ready for Use,*

IN PURE WHITE, AND ANY SHADE, TINT, OR COLOR DESIRED.

These Paints are composed of the purest and best materials known to painters; the principal ingredients being PURE WHITE LEAD, ZINC, and LINSEED OIL, which are made to unite in a homogeneous mass by the addition of other materials which add greatly to the durability, elasticity, beauty, and strength of the Paint. The whole are chemically combined so that the pigments are held in permanent solution, thus forming a new compound which dries upon the surface and adheres firmly to it, thus forming a smooth, glossy, firm, elastic, beautiful, and durable Paint. The Oil, which is the real life of the Paint, cannot leave it and be absorbed by the substance to which it is applied, as it does in Paints mixed in the ordinary way, and thus leave the pigment dry and chalky, to wash and rub off in a few months.

**THESE PAINTS ARE READY FOR USE,**

are easily applied by any one, requiring no mixing, stirring, or addition of dryers.

**LIBERAL INDUCEMENTS TO DEALERS,** and full satisfaction guaranteed to their customers. Sold by the GALLON, KEG, or BARREL.

Orders attended to promptly. For Price List and Sample Color Card, address
