## Preface

**T**HE sixth issue of the **Orange and Suburban Blue Book** possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

Neither time nor money has been spared to make this work as complete and valuable as possible. The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make the **Blue Book** as nearly perfect as it is possible to make such a volume.

We do not claim the **Blue Book** is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of about two thousand names of the most prominent householders of Orange and suburbs, published in the most convenient form for reference by our lady patrons.

The title "**Blue Book**," is given the work because of its blue cover. It does not refer to blue blood, as many people suppose. Webster's definition of *Blue Book* is as follows: "*Blue Book*—a book containing a list of fashionable addresses."

The data for this work have not been compiled from circulars or from other directories. Experienced men, particularly adapted for such work, have been assigned to each locality, and the greatest care has been used in selecting these names.

Please send any information you may have that will aid in keeping the records correct to *Dau Publishing Co.*, 54 West 22nd Street, New York City.

*Our Aim*

A SYSTEM of music study by which the mental powers are developed—concentration, will power, alertness and self-expression, qualities universally useful. A system by which the *average* child makes a real success with only *one hour of daily practice*. A system which makes rapid sight players, saving time in study and insuring lasting pleasure in music. A system from which drudgery is eliminated, without loss of artistic standard. A system which places Music in true relation with Life, bringing the finer elements of character to expression.

### ORIENTAL RUGS AND CARPETS

Repairing, Cleaning, Weaving and Stretching

*Washing:* Beating, shaking or ordinary methods of steam carpet cleaning do not take the dirt out, but they shed the nap, ruin the warp and wool; while our secret process of Oriental washing, not only cleans thoroughly, but also what is more important, restores the rugs to their original colors. It renders them moth proof and destroys all germs. It is far superior to naphtha cleaning.

## Our Pictures and Frames

*Always provoke admiring comment. Intelligence and good taste are used in their selection. There is an atmosphere of quiet elegance which permeates all qualities, whether of severe plainness or in the richer creations, the beauties of which are not alone confined to visual effects, but are revealed more fully in the wearing.*
