GORGE.

Sunday morning, May, 21st, 1878.

Sunset is reported not last evening, but it was impossible to see it, owing to the dense fog which hung over the Gorge, and which was so thick that it was difficult to see the wheel which is being put up for the Rahway Mills, and which is now nearly completed. Some people who were in the village and ventured down to the Gorge, reported seeing one very severely, breaking his jaw, and being carried home. Those who did not venture, missed a sight.

Mr. Tom Allen informed us last evening that Mr. W. E. Wells, agent of the Gorge Mills, has arrived in this country, on a visit to his relatives in Europe, and the immediate concern, expects to find Mr. W. in Rahway, on the 1st of May, and actively engaged on the Gorge Mills, which will come on the 15th of June. It is hoped that the investigation will be made in daylight, and that some arrangements will be made for the protection of those who are employed in dusting the machinery, and several times but such the case called out, at night, endangering serious injury to life and limb. Some of the operatives, are, for very the operation, and reasons too many.

We will respectfully call the attention of the authorities, to the matter, and request Gorge Water, a great and unmitigated nuisance, to be abated, at least, for the present.

At the meeting of the Rahway Lyceum, on Friday evening, a discussion was had upon the question, "Should the Gorge Mills be Removed?" Mr. Thomas Fowler and Wyckoff, affirmative, and Mr. Wm. Dunham, Mr. Wm. Dunham, Robert and Clark, negative. The affirmative in the general debate, the negative in the special debate, and on the course of the question was in favor of the negative, by a majority of one vote.

Mr. Wyckoff, in the negative, said, "Should the Gorge Mills be removed? Yes, if the remedy is to prove worse than the disease." Mr. Moses Bond and W. in the affirmative, said, "Yes, if the Gorge Mills be removed, and a good, good, good,
