The National Democrat.

RAHWAY, N. J., AUGUST 15, 1878.

HOUSEHOLD RECIPES.

[We have been requested by some ladies to devote a little corner in our paper for the exchanging of recipes for cooking, baking, etc. Any lady having anything new that would be of interest to others is invited to send it to us and we will give it place under this head.]

Popovers.—One pint milk, one pint flour, butter size of a walnut, three eggs beaten light, pinch of salt, add eggs last. Bake in cups, filling them half full.

Hard Sauce, for Puddings.—Stir to cream one cup butter with three cups powdered sugar; when light beat in juice of a lemon, two teaspoons nutmeg.

Butternut Pies.—One cup sugar, two cups butternuts, two eggs, two tablespoonfuls flour, two tablespoonfuls butter; flavor with lemon. This makes two pies.

Odors from Cooking Prevented.—Put one or two red peppers, or a few pieces of charcoal, into the pot where ham, cabbage, etc., is boiling, and the house will not be filled with the offensive odor.

To Prevent Stoves from Rusting.—Kerosene applied with a rag to stoves will keep them from rusting during the summer; also, good for iron utensils on the farm.

[illegible].—To bring a chilled or wet chick or young turkey to renewed life, hold it over a smudge or smoke from a wood fire. This remedy will resuscitate a chick when so far gone as to appear lifeless.

Golden Pudding.—Six ounces of bread crumbs, two ounces of flour, a quarter of a pound of suet, a quarter of a pound of marmalade (or any kind of preserve would do) a quarter of a pound of sugar, three eggs, sufficient milk to mix; boil for two hours.

Queen's Drops.—Take a quarter of a pound of butter, a quarter of a pound of sifted sugar, two or three eggs, according to their size, six ounces of flour, and a quarter of a pound of currants. Proceed as for pound cakes; drop them out on paper placed on a baking sheet, a little larger than nutmegs, and bake in a hot oven.

Gingerbread Cake.—Six ounces of butter, half a pound of brown sugar, four eggs, one pound of treacle, a pound and a quarter of flour, half an ounce of carbonate of soda, an ounce and a half of ground ginger, an ounce of ground cinnamon. Mix these all well together, and bake in a shallow tin in a moderate oven.

Apple Dumplings.—Quarter and core one apple for each dumpling; then put the parts together, with sugar in the middle; surround each apple with pie crust; if you wish to bake them, put them on a pan like biscuits, and set them in the oven. If boiled, tie each in a separate cloth, and boil for half an hour. Serve, both baked and boiled, with liquid sauce.

Almond Cake.—Half a pound of sweet almonds, one ounce of bitter almonds, six eggs, eight tablespoonfuls of sifted sugar, five tablespoonfuls of fine flour, the grated rind of a lemon, three ounces of butter. Blanch and pound the almonds to a paste, separate the whites from the yolks of the eggs, beat the latter, and add them to the almonds. Stir in the sugar, flour, and lemon rind; add the butter, which should be beaten to a cream; and when all these ingredients are well mixed, put in the whites of the eggs, which should be whisked to a stiff froth. Butter a cake-mould, put in the mixture, and bake in a good oven from an hour and a quarter to an hour and three-quarters.

OUR NATIONAL BIRD.

Hon. George W. Peck, in his Fourth of July oration at La Crosse, Wis., said:

"It may have been noticed that thus far I have made no allusion to the American eagle, the national trade mark, patent applied for, but it is not that I do not appreciate the position that species of poultry occupies on these occasions. The poet, alluding to the eagle, says:

'Bird of the broad and sweeping wing,
Thy home is high in heaven.'

This is true. He is a high old bird, and the committee that selected the eagle as a national emblem should have been arrested for disorderly conduct. O, great bird! You live on mice. You soar aloft on pinions airy, until you see a poor little mouse with one leg broke, and then you swoop down like a ward constable, and run him in. You are a nice old bird for a trade-mark, for a nation of heroes, you old coward. You sit on a rock and watch a peasant woman hanging out clothes, and when she goes in the house to turn the clothes-ringer, you, great bird, emblem of freedom, you representative of the land of the free and the home of the brave, you swoop down on the plantation and brush your talons in the quivering flesh of her little baby, take him to your home high in heaven, and pick his innocent little eyes out. You bald-headed old reprobate, you would turn your tail and run to the attack of a bantam rooster. O eagle, you look well on dress parade, but you are a unanimous coward and you eat snakes. You are a fraud, and you were counted in by a vote of 8 to 7.

The bird that should have been selected as the emblem of our country, the bird of patience, forbearance, perseverance, and the bird of terror, when aroused, is the mule. There is no bird that combines more virtue in the square foot than the mule. With the mule emblazoned on our banners, we should be a terror to the foe. We are a nation of uncomplaining hard-workers. We tend to do the fair thing by everybody. We plod along doing as we would be done by. So does the mule. We as a nation are slow to anger. So is the mule. As a nation we occasionally stick our ears forward and brush flies off of our foreheads. So does the mule. We allow parties to [illegible] as long as they [illegible]. So does the mule. [illegible] to our [illegible] our heels with a straw, we come down stiff-legged in front, our ears look to the beautiful beyond, everybody is cut loose, and is still to [illegible] subsequent end plays the base drum on anything that gets in reach, and [illegible] terror to the hearts of all tyrants. So does the mule. [illegible]"

FOUR THINGS to be taken into CONSIDERATION When you PURCHASE

CLOTHING!

Good Material,
Good Workmanship,
Good Style, and
Low Prices!

[illegible]

$16, $18, $20 and upwards.

Diagonal Coats and Vests, $18 and upwards.

True Friendship.

I ne'er will forsake thee,
Though darkness and woe
Shroud with gloom thy pathway
In life's journey below,
Though friends may prove false
When fortune doth frown,
One heart shall prove true
To the soul that's cast down.

How sweet for true friends
In communion to meet,
Where heart beats to heart,
And naught is deceit;
In weal or in woe
Never 'sunder the tie
That binds hearts together,
Though storms sweep the sky.

Though adversity befall thee,
True hearts will remain
Free from the foul touch
Of falsity's stain,
In joy or in sorrow,
False hearts let them flee!
But noble souls will be ever
True to heaven and thee.

Out of the Storm.

It was a cold, dreary night without. The wind blew in wild, heavy gusts, as though it reigned king. Men hurried on, with heads bowed and thrust forward to cut their way through the storm; little children slunk under the protecting shadows of doorways and such rude shelters as could be found, while poor, wretched women braved the horror of the night from dire necessity. One such, a pale-faced creature, with more of mortal terror in her countenance, and who seemed to have known more cheery times—lifted her head from time to time, searching the faces that she met in an anxious, questioning way, that seemed to meet with no response from the passers-by.

At last, as though she felt it useless to hope longer, she turned aside to wait under the princely eaves of a large church. [illegible] of youthful expectancy has passed out of our lives.

"He will not come; perhaps the weather is too severe, yet it could not keep me within doors," she murmured, desolation and weariness creeping over her face. "There remains but one thing to do, and the sooner that is done the better it will be for me; but oh, it is so hard to beg! Only twenty-five, alone, without friends, and, what is far more necessary—money!"

She started forward to meet the glance of a man with a kind, pleasant face, gentle almost as a woman's. She noted it even then; she remembered it through all the years that came after.

"Sir, I am starving. For the love of Heaven, give me enough to buy a single loaf of bread!"

He was a generous man, as men go—one who gave largely to charitable institutions—and his name stood among the first on the church-list; but he was a man who knew nothing of real poverty, and withal he knew how many of the refuse of society obtained a livelihood by begging. So he passed by—as others had done. Suddenly out of his memory crept the words, "Inasmuch as ye have done it unto one of these, ye have done it unto me."

Back through the rain and slush he made his way, to find something buried under a heap of clothes. He touched it, but there was no movement; he spoke and tried to push a bank-note into the open hand, but the woman lay where she had fallen, apparently dead.

"What a brute I have been! How could I have forgotten so soon?"

He spoke these words aloud, but the only answer he had was from the wind and rain. A policeman passing on his round was hailed, a carriage called, and he lifted the inanimate form in his arms, saying to the driver:—

"No. 103 Arlington Place. Drive fast, and I double your fare."

"I wonder if she will die," he thought. "If she does it will seem like a just retribution for that other." Then tears came into his eyes and fell on the fair face of the girl. She was still unconscious, but a moment after and his home was reached.

"Helen, I've done an odd thing to-night; picked up a woman on the street and brought her home with me; the why and wherefore I have not attempted to analyze. Get her to bed; send Frank for Dr. Grey, and let us have dinner, for I am hungry as a wolf, and after a fashion unnerved. How long is it since—since that time, Helen?"

Mrs. Arnold was not a young woman, but there was a look in her sweet, beautiful face that age alone had never brought—a look that told of some grief that had been wrought by her own hand—some act that was now irretrievable, but which she sought to atone for in every thought and word and deed. She was a proud woman, but her pride was all forgotten, and her voice trembled and her lips quivered as she answered:—

"It will be ten years the sixteenth of the month, Harvey dear." Then hesitatingly, "Why have you broken the silence to-night?"

"I hardly know; but if he were not dead, I should believe in some way news was coming to us of our lost ones. Yes, both, Helen—after all these long years."

An hour later a servant entered the room and announced Dr. Grey. Mr. Arnold rose to meet him, while his wife extended her hand with—

"Well, doctor, we are not in need of your services, but Harvey has concluded to open a hospital for the poor, aged and infirm, and has desired to obtain your assistance as head physician—with an opening case up-stairs."

"Mrs. Arnold, I wait your pleasure, refusing for the present all the hospitality you offer here below."

Speaking in the pleasant, gracious manner that people use when performing any act of charity which does not at all interfere with individual comfort, Mrs. Arnold and the physician passed up the staircase into a bright, cosy room, where they were greeted by the cheerful warmth of a coal fire and the soft, subdued glimmer of gas-lights turned down. On the bed lay the woman they had come to see, thoroughly restored to consciousness, but with a brilliant color on the cheeks that seemed to betoken fever. Dr. Grey looked grave as he held the small, wasted hand in his, and counted the beating of the pulse.

"Too rapid," he said, under his breath. "No, you must not talk, but remain perfectly quiet; rest is what you need. You are in good hands, and to-morrow, if you are better, you may tell all that you have on your mind."

There was an air of refinement about this waif that even fastidious Mrs. Arnold noticed, and she saw the look of gratitude that welled up from the depths of the deep, dark eyes, though the lips uttered no word. Bending over, she whispered:—

"Wait until to-morrow. The doctor will keep you quiet, and [illegible] with you, and you may be assured that we feel a deep interest in your welfare. Good-night, try and sleep."

"Give her these powders every two hours," said the doctor, and then he passed out of the room.

How often we go to meet our fate without knowing it. The things we look for, the sweet anticipations of life slip, often times away from us, one by one. We know not where they have gone, or why, but we do know that where there was joy and hope, naught lives save desolation! And there are others that come down like God's white-winged angels, and rest, and help, and lift us up, and thus the old things are made over, and the rough corners rounded and made beautiful.

Mrs. Arnold was true to her word, and when the light of another day had won the world back to her beauty, she looked upon the young girl's face and knew that she would live. Then she formed—after the woman's fashion—a life that should be redolent of good works, and rich in faith and love.

"We will take her home to our hearts," she thought. "I am sure she is as fair within as without; the face is almost always an index of the soul. She will not disappoint us, I am sure."

She was very willing to listen to the stranger's story. [illegible] her husband, charitable, and there was a story in their lives—a sad, extremely sad one—that they never referred to from choice. The silence in regard to their "skeleton" had been unbroken for years until the night previous, when her husband had put the question that had brought back the old ache in her heart.

"You are very much better," said Mrs. Arnold; "in fact, almost well, but I intend to keep you in bed to-day. 'An ounce of prevention is worth a pound of cure,' so the old proverb says, and I believe in it. But what shall I call you?"

The girl's voice was low and sweet as she replied,—

"My name is Grace Arnold, and I have been married ten years."

Mrs. Arnold started forward, exclaiming:—

"What did you say—Grace Arnold? Why—" And then she stopped, but quickly resumed, "Go on; I am listening."

"I was only fifteen when I married, and I had never known trouble. Father and mother denied themselves many comforts, in order that I might be educated. They were so good to me—taking all the rain of life and leaving me the sunshine. One summer, when I came home to pass my vacation, I met Fred Arnold, and—and—came to love him, to long for his presence, to enjoy his pleasant words and little attentions. The idea of marrying him used to cross my mind from time to time, but I lived too entirely in the present for it to prove a source of much anxiety.

"At last—I remember the time so well—he told me that he must go away, but before he went there was a story he must tell me, and my answer would influence his whole future for weal or woe. How sweetly the birds sang that day; how fragrant the flowers were! but none of the precious gifts of nature were to be compared with this great benison of love that had come down into my life. Then he told me all about himself. His father was a rich banker, but very proud, and my darling feared he should have little to offer save his heart and willing hands; but I assured him that I should be satisfied with these only.

"A week from the time we said good-by he returned to claim me. He was very honest, telling me plainly that his father had erected a barrier between them that could not be broken down this side of the grave. We were married a month later, and he brought me to Philadelphia, where we were left to fight the battle of life as best we could. Two years after a baby boy came to us. How glad and happy I was! Fred wrote to his father, but after some time an old friend sent word that the family had gone abroad and their whereabouts were unknown. My baby remained only ten months, and then God took him."

The girl's eyes were dim with tears, and her voice failed her for a moment. The figure in the chair bowed her head lower, then the story went on:—

"Things went against us after that time. My husband lost his position and I could not aid him, my health was so wretched. One night he came home and told me that he had received an offer to go West, and if I were willing he would go out there first, as he did not want to take me into a wilderness. In a month he should be back at the utmost.

"Days and weeks passed on and I heard nothing. My money was nearly all gone, so I was obliged to leave the comfortable boarding-place where he had left me and rent a little room in an obscure part of the city. Then I tried to find a position as seamstress, but no one would engage me because I came without any kind of recommendations and I had no friends to whom I might appeal. Two days ago I heard, in an indirect way, that if I would be in a certain place at seven o'clock I might hear something of my husband. It was my last hope, and I clung to it as I have to the only thing that remained—my wedding ring.

"I went and waited for more than an hour, but no one came, and then flashed upon me the knowledge that it was a cruel piece of deceit—may God forgive the author of it! After that I wandered up the street, knowing that unless I begged I must starve. I asked and was refused. Then I remembered nothing more until I opened my eyes in this room and fancied I was in Paradise. This is all I have to tell."

Mrs. Arnold's face had grown whiter and whiter, and her hands were clasped in an agonized manner, showing that she was undergoing some terrible suffering. She looked full in the girl's face. There was an indefinable something in the eyes of the elder woman that caused the other to hold her breath and exclaim:—

"Did you know him?"

For answer Mrs. Arnold crept nearer and nearer, until the young girl's head was pillowed on her breast, while amid sobs and tears she said:—

"God has forgiven me, at last! Oh, my child, my child!"

* * * *

Ten years later a young man in a Western town might have been seen busily writing what appeared to be an important document. From time to time he referred to some letters that lay before him on the table. His face bore the impress of a subdued sorrow and heroic endurance—such as comes [illegible] a whole life, but when once seen is never forgotten.

"Fred, does this concern you? Harry ran across it in the New York *Herald* and brought it over to me. I hope it is good news, old fellow. Listen:—

"If Frederick Arnold will send any tidings of himself to No. 103 Arlington Place, New York, he will hear something to his advantage. Any information regarding this gentleman will be richly rewarded."

"I am off on the 4.30 train, Hall. It is news of my lost Grace. Good-by. We will not forget! Expect me back any day. Will telegraph immediately."

* * * *

"Grace, darling, I have learned to believe in the compensation of life. I sought you everywhere, but no one knew anything about you, and at last I went back, having nothing because I had lost you. Little did I think in the far back days that my darling wife would bring me back to my kindred, 'out of the storm.'"

A SENSIBLE GIRL.

Some months ago a young English woman came to New York to marry a young man to whom she was affianced in England, and who had come to this country two years before to engage in business. She was to marry him at the home of a friend of her mother, with whom she was stopping. During the time she was making up her wedding outfit, he came to see her one evening when he was just "full" enough to be foolish. She was shocked and pained beyond measure. She then learned for the first time that he was in the habit of drinking, frequently to excess. She immediately stopped her preparations, and told him she could not marry him. He protested that she would drive him to destruction, promised her he would never drink another drop, etc.

"No," she said, "I dare not trust my future happiness with a man who has formed such a beastly habit. I came three thousand miles to marry a man I loved, and now, rather than to marry a drunkard, I will go three thousand miles back again." And she went.

Let all respectable women imitate her example, and all men who love law and order, and see if the passengers who are on the "broad road to perdition" won't conclude to take the temperance route.

CEREMONIES.

Russian marriages invariably take place in church, at the door of which the priest meets the couple, and kisses their hands, at the same time giving them his benediction. They follow him to the altar, and a crown, light, and generally made of silver, is placed upon their heads. This is called the marriage crown. He puts a wax taper into each of their hands, and reads a portion of Scripture; a sweet and bitter drink, emblematical of the joys and sorrows of married life, is given to each. The whole service lasts about an hour, and ends by the bride and groom, with all the spectators, following the priest around the altar three times. The ceremony is very impressive. When a Russian merchant gives a dinner, he and his wife stand behind the chairs of the guests, and wait upon them, receiving the dishes from the servants and placing them upon the table. Every time one of the guests asks for more sweetening in his wine, the merchant must march round the table, meet his wife, and salute her. When it is a newly-married couple, this ceremony, from the frequency of its being required, often becomes fatiguing to the parties, though it affords much amusement for the guests.

FISHING EXTRAORDINARY.

Not long ago in the North Midlands, the host of a fishing inn offered six prizes, ranging from £21 to £1, to be fished for; and his friends provided 170 additional baits for the angler. The competitors, who had to pay 2s. 6d. entrance each, numbered no fewer than 600, and they were stationed at 12 yards apart; the array of fishermen thus occupying a distance along the waters side of three miles and a half. The day being a suitable one for fishing, the aggregate of fish taken was very large, the winner of the first prize scoring 19 pounds 11 ounces. The arrangement was perfect, and everything passed off well, without any unseemly wrangling. Since the great event just recorded, an interesting contest took place on the Lea. Two hundred and seventy-six anglers entered for a great roach match, and the day being unfavorable, the winner got the first prize of £40 with 13¾ ounces of fish—thus worth four-fifths of their weight in gold.—*All the Year Round.*

AN IMPOSSIBLE STORY.

They are telling now about a man in Dubuque who buried two dozen bottles of whiskey in his cellar twenty-three years ago, and forgot all about them, and when they were accidentally dug up last week, the whiskey was found to be superb. How people will lie. The man may have buried the whiskey in his cellar, but if he forgot about it, it was because he was struck by lightning or hanged the next day.—*Detroit Free Press.*

The horse chestnut was first brought to Europe from Asia about 1550. Deer in English parks are so fond of the fruit that they have been known to show fight when driven off. In Bushy Park, close to Hampton Court, there is a superb avenue of these trees which in May thousands flock to see.

SCIENTIFIC.

The improved nitro-glycerine compound invented by Fahnehjelm of Stockholm, presents as its chief characteristic a second main ingredient of charcoal produced from a special kind of wood, selected and prepared in such a manner as to be able to absorb and solidify the greatest possible quantity of nitro-glycerine. In order to render the combustion more complete, and to augment the rapidity of the explosion, a small quantity of nitrate of potash or other suitable salt, is added to the mixture of the two ingredients named. The composition depends upon the objects for which it is to be used, and the effects intended to be produced. The strongest compound—and even in this there is stated to be no risk of the separation of the nitro-glycerine—is compounded of seventy-eight parts, by weight, of nitro-glycerine, fourteen of wood charcoal, and eight of nitrate of potash; the second quality consists of sixty-eight per cent., by weight, of nitro-glycerine, twenty of charcoal, and twelve of nitrate of potash.

The practical development of the principle of the telephone, in its capacity of usefulness, is being constantly made manifest, and seems, in fact, to have no limit. Additional experiments are now being made to ascertain whether the device can, in its present form, be made advantageously available in divers' operations—the expectation being that the instrument may be attached to the armor of divers in such a way as to be made a perfect means of communication between them and their assistants. Again, it is well known that, in the operation of this marvelous invention, a difficulty has from the very first presented itself, of using wires that were stretched alongside of other wires, the telephone seeming to need a silent wire of its own. It is interesting to note, therefore, as recently announced, that this serious obstacle has been practically overcome by the ingenuity of an English inventor, who, from the first applied himself to this special point.

It is generally assumed that one pound of coal will evaporate about fourteen pounds of water, presuming all the heat evolved to be applied, and, from experiments made by various chemists, it has been concluded that, by the combustion of two pounds of pure carbon, 12.5 lbs. of water will be evaporated. The superior evaporative power of coal must, therefore, be owing to the bituminous matter it contains, which bitumen is the source of the gaseous matter evolved when the coal is heated; hence the necessity, when using coal as fuel, of so burning it that the whole of the gaseous matter evolved during the heating of the coal shall be consumed, for, where any part of it escapes combustion, the loss is considerable. It is also to be borne in mind, too, that the more perfect the combustion of coal, the greater is its evaporative power.

A correspondent of the London *Miller* states, as the result of some thirty years' experience with flour mills, that he has seen and known many mill fires, the majority of which have taken place in the night, and most of them after the mills have shut down several hours, many of these breaking out of a Sunday morning, and even as late as the evening, or after midnight—that is, on Monday morning. The cause of such a long interval he attributes to the smouldering of dust around some hot bearing until it has assumed a body of fire and charred wood, when a slight draught produces a flame, which, before being noticed, is spread too far to be stopped, the mill and its contents becoming a heap of ruins. The remedy for this, of course, is an inspection of all the bearings before locking up at night.

For removing the disagreeable odor of petroleum a French chemist has devised the following process: Into 225 pounds of the oil, he introduces, by means of a long funnel, two ounces of sulphuric acid and the same quantity of nitric, and about eleven pounds of strong alcohol is then poured carefully on the surface. The alcohol sinks gradually to the bottom, and, coming in contact with the acid at the bottom, heat is developed with some effervescence. Ethereal products with agreeable odors are thus formed, and these impart a pleasantness to the petroleum. The operation lasts about an hour, and, after standing for twelve hours, the mineral oil is siphoned off, and the remainder, a mixture of acids, alcohol, and water, may be used for deodorizing the heavy oils, subsequently washing them with milk of lime.

A recent discovery in telegraphy is likely to cause a revolution in medical practice; fifteen miles distant, by means of a special apparatus and a vibrating ray of a magnesian light, the pulse beats were exhibited upon the wall. By a judicious combination of Dr. Upham's apparatus and the telephone, a patient may possibly be subjected to physical examination sufficient to diagnose the heart and lung disease, without going near the physician. It is a capital idea, because as yet there is no arrangement for sending the fee by telephone.

An ingenious Italian has made an invention whereby he produces on the piano sustained notes, such as can be obtained from all wind instruments and from the violin family. The name of the new instrument is "melo-piano."

The *Coal Trade Journal* says that since 1840 the fastest Atlantic steamships have increased their speed from 8.3 to 15.6 knots an hour, and the consumption of fuel per 100 indicated horse power has been reduced from 4.7 cwt. to 1.9. Since 1840 passages have been reduced from 14 days to 7. Eighteen hundred and seventy-three was the most unlucky year—7 vessels and 829 lives having been lost.

A large snake of the garter species was lately killed in Atchison, Kansas, and on being opened a female quail was found inside. The quail was also cut open and three eggs taken from her and placed under a hen. In a short time two of the eggs hatched young quails, who were as lively and healthy as any others are, but had defective heads, as they were shaped and had the appearance of a snake, being entirely destitute of feathers.

ITEMS OF INTEREST.

A gosling with four wings runs about the streets of Natchez.

Dutch commerce has of late made great strides on the west coast of Africa, in the Congo region.

A San Francisco clergyman advertised a sermon entitled "The Boss Devil of America," meaning intemperance.

The value, over all incumbrances, of the property belonging to the Church of England is estimated at $500,000,000.

According to a writer in a Belgian paper, it is held in Russia that the right wood to lay upon a witch's grave is aspen. The dead sorceress is then prevented from riding abroad.

There was a long discussion under a gallows in Gonzales, Texas, between the man to be hanged and a brother of the man who had been murdered, as to the guilt of the criminal.

It is stated by an intelligent and successful poultry breeder, that experiments have satisfied him that chickens from hens fed on oats are much more vigorous and hardy than from those fed on corn.

A Baltimore man has been arrested for playing ghost by dancing around at night on the tops of houses in his nightshirt, his object being to depreciate property in his neighborhood so that he could buy it cheap.

The year 1769 stands out prominent in modern times for the extraordinary number of remarkable men who were born in it. These included Napoleon, Wellington, Soult, Ney, Cuvier, A. von Humboldt, Chateaubriand, Lavallette, Mehemet Ali, and John Quincy Adams.

A man and wife quarrelled in Story, Iowa, and he sued for a divorce, but after the case had been a while in the court they settled the difficulty, and lived together again. He died recently, and the widow learned that the suit resulted in divorce, the lawyer having failed to discontinue it, so that she has no legal claim to the estate.

A Casnovia, (Mich.) man, had an ailing wife. It was certain that she could not recover, and he thought that he might as well look around for her successor. He chose the daughter of a neighbor, and so informed his wife, who told him that she would not stay long in the way. That night she drowned herself. A mob tarred and feathered him.

Until within a few years the streets in Easton, Pa., bore the names of members of the Penn and Fermor families. One of the Penns having married Lady Juliana Fermor, daughter of the Earl of Pomfret. Easton takes its name from Easton-Neston, the seat of the family in Northamptonshire, England. The Pomfret title is now extinct.

A young man residing near Lyndon, Kansas, put a stop to the ague in a singular way. Hearing it said that to go into the water when the fever was on would effect a cure, this young man tried the water. He went into a little stream where the water was only about two feet deep. In a short time after he was found dead there.

Philip Grace, an Arkansas murderer, was acquitted by a regular jury after a long trial. He found that he was not yet out of danger, for a mob seized him and hung him to a tree; but after the departure of the lynchers he was cut down and revived by a friend. He started for a hasty flight out of that neighborhood, but a son of the murdered man overtook and killed him.

At a London police court not long ago a vocalist who sings at several public resorts appeared to complain of some assailants who had hauled him about rudely, done nearly $10 worth of damages to his wig, and spoiled a camelia in his buttonhole. It came out in the evidence that this man, who wears camellias in his buttonhole and keeps house in a very expensive style, is a crossing sweeper.

A caravan passing through Dallas, Oregon, on its way from Portland to Palouse, attracted considerable attention the other day on account of its size, which was further increased when it was discovered that the large body of persons comprising it were all of one family. There were the father, mother and nineteen children, including six sets of twins, the oldest of the children being twenty-one years of age.

The most venerable couple in Texas, perhaps in the country, are Mr. and Mrs. Robinson of Mountain City. He is reputed to be 103, and she 102 years old, and they were married in Kentucky eighty-two years ago. Mr. Robinson says he never swore but one oath, has never borrowed but fifty cents, and never gave a note. He and his wife are like children in their devotion to each other, and after any separation shed tears on meeting. Recently they were presented with a comfortable house by a generous neighbor.

A singular discovery of human remains was recently made in London by some workmen who were excavating on the site of some old buildings near Bishop's Gate. Two skeletons were found lying one across the other, with two ancient vessels placed close at hand, near the spot where, a fortnight previously, a similar skeleton was found, inclosed in a brick vault unquestionably of Roman construction. It is therefore supposed that these were Roman remains, and as there is still a large space remaining which must soon be excavated, other similar discoveries are anticipated.

Vanadium is reckoned the most costly of the fifty known metals, and iron the cheapest; though really the most valuable of all. As estimated by commercial prices current, a pound of vanadium costs more than two hundred tons of pig iron. There are nineteen metals more costly than gold, though many of them are rare and practically valueless as far as applied to any practical use in their metallic state. None of the metals are poisonous by themselves, probably because they are insoluble in their metallic condition.

Ninety years ago Madeira shipped over 10,000 pipes of wine and now ships but 7,000.

SUNBEAMS.

Buzz sauce—Honey.

Close quarters—The laundry.

Did you ever know a red-haired man who had a very clear notion where scarlet began and auburn terminated?

A Paris paper tells us that the Poles like the American dancing parties called hops. Hop-poles, of course.

The Chicago *Journal* believes that gunpowder can be made from flour. [illegible]

The Norristown *Herald* insists that no man likes to hold a girl baby in his arms until she is seventeen years old.

Woman consumed thirty-six buttons on a single pair of kid gloves, whereas man buttons his suspenders with a single nail.

"So leather's up, is it?" said the customer to his shoemaker. "No, sir," replied the Crispin, "sole leather is down, where it belongs."

A Chicago paper advises the man who wishes to leave a name to posterity to go to St. Louis. His name will then appear century after century in the Directory.

Remarkably careful is that coal-dealer who stands on the scale himself to see that there is no fooling with the weight of a load.

A Texas man shot his opponent in a duel and is now writing a poem about it. It looks as if the wrong man had been shot.

A young man in San Francisco put out one of his eyes while taking off a shirt, a spiral stud did the mischief. Moral: never wear a shirt.

In St. Louis they talk of making the street car companies take out licenses. They take good deal of license in most cities already.

"Jennie what makes you such a bad girl?" "Well, mamma, God sent you the best children He could find, and if they don't suit you I can't help it."

Little Ned asked his father the other evening who made the moon? "God," answered the father. "Yes," said Ned, "I can see the marks of his dirty fingers."

A musical critic says of an expert lady pianiste, that her touch has a weight of twelve pounds; but a mischievous little son of Love says it weighs 240 when she's good and mad.

A Michigan farmer writes to the faculty of Yale: "What are your terms for a year? And does it cost anything extra if my son wants to learn to read and write as well as row a boat?"

Since the introduction of female postmasters a girl goes up to the window and says—"Is there a letter for Miss Margaret Johnson?" "Yes," says the female postmaster, "here is one from John M. Jones."

A little Brookline girl being reproved the other day by her elder sister for using a slang expression, sharply retorted, "Well, if you went into society more, you would hear slang."—*Brookline Chronicle.*

In Northampton they are laughing at a well known young man because he recently said when bantered about his affection for a lady whose heart is another's, "Can't I admire her as a work of art?"—*Boston Globe.*

Moliere was asked the reason why, in certain countries, the king may assume the crown at fourteen years of age, and cannot marry before eighteen. "It is," answered Moliere, "because it is more difficult to rule a wife than a kingdom."

A newly-arrived Chinaman has only twenty-five letters of the English alphabet to learn; he is well acquainted with T.—*Cincinnati Saturday Night.* He is also apt to be familiar with Sea, and sure to have a Cue in his head.—*Philadelphia Bulletin.*

A cigar contains acetic acid, formic, butyric, valeric and proprionic acid, prussic acid, creosote, carbolic acid, ammonia, sulphureted hydrogen, pyridine, viridine, picoline, and rubidine, to say nothing about cabbage and burdock acid. That's why you can't get a good one for less than five cents.

Young housekeeper—"I am afraid those fish I bought of you yesterday were not fresh. My husband said they were not nice, at all." Brighton fisherman—"Well, marm, that be your fault; it beant mine. I've offered 'em yer every day this week, and you might a 'ad 'em o' Monday if you'd a liked!"—*London Punch.*

The old man, in a playful mood, threw down the spade his wife had put in his hand with which to dig up a geranium bed, with the remark, preposterously unintelligible to her as he supposed, "I turn down a spade; you make it." She said, "Look here, Barnabas, you take that up like a man, or I'll make the trump next in color, and go it alone for the rest of the season."

A showman traveling with a panorama of scenes from the Bible, met a Yankee, and on learning he could play a piano, engaged him to play appropriate selections after each picture at his show that night. The curtain rose revealing "The Return of the Prodigal Son," upon which the player struck up "When Johnny comes marching home." The effect produced was wonderful. "Consider yourself engaged to travel with me," said the showman. "You draw better than the pictures."

A London lady who had spent the best part of a week in search of a cook, enduring the usual sharp cross-examinations, snubbings and fault findings, at last found a kitchen lady who condescended to accept the position because the lady's residence stood upon a terrace. Said Mistress Cook: "I have refused six excellent situations because 'street' and 'place' sounds so 'orrid vulgar for one's 'andbills. But 'terrace' atop of my letters will look quite haristocratic."

When a man goes to an evening party and another man sits down on his plug hat, and sits there till the hat resembles an attenuated pan-cake, and when a mutual friend takes that hat and jams it into shape and brushes it the wrong way with his elbow, and hands it to the party of the first part, and when the party of the first part places it upon his head and goes home without knowing anything has happened, the indications are that beer was one of the principal features of the entertainment.—*Buffalo Express.*

The only practical joke in which Richard Harris Barham (better know by his *nom de plume* of Thomas Ingoldsby) ever personally engaged was enacted when he was a boy, in company with a schoolfellow, D—. He entered a Quakers' meeting-house, when, looking around at the grave assembly, the latter held up a penny tart, and said solemnly, "Whoever speaks first shall have this pie." "Go thy way, boy, and—" "The pie's yours, sir!" exclaimed D—, placing it before the astonished speaker and hastily making his escape.—*Baltimore Bulletin.*

The average reign of seven (Prussian) kings of the house of Hohenzollern, including the present monarch, has amounted to twenty-three years.

The National Democrat.

RAHWAY, N. J., AUGUST 15, 1878.

DEMOCRATIC CONGRESSIONAL CONVENTION.

The Democratic electors of the several counties, townships and wards composing the Third Congressional District of New Jersey, are requested to meet at their respective polling places, for the purpose of electing delegates to the Third Congressional District Democratic Convention, to be held at Elizabeth on TUESDAY, AUGUST 20th, 1878, to nominate a candidate to represent the Third District in the next Congress, and to transact such other business as may properly come before the Convention. [illegible]

EDITORIAL ETCHINGS.

[illegible]

The National Greenback Labor party of Warren county has nominated E. R. Davis, the present Mayor of Phillipsburg, for State Senator and J. H. Staats of Hackettstown for Sheriff.

Congressman Hardenbergh, who has recently been elected President of the Hudson County National Bank, of which he was Cashier for many years, has telegraphed from Jackson Falls, N. H., where he is spending the Summer, accepting the new position and declining a renomination for Congress.

Josephus Sooy, Jr., ex-State Treasurer, who was sentenced to three years' imprisonment for embezzling $13,000 while State Treasurer, was on Friday released from State Prison, his term having expired. He will go to Kentucky with his son. He has lost his citizenship, having served his full term.

PRIMARY MEETINGS.—The meetings for the election of delegates to the Congressional convention, will be held in the different wards and townships of this county to-morrow (Friday) evening. These meetings are of importance, and should be attended by Democratic voters generally. See the official calls at the head of this column.

[From the Newark Journal.]

THIRD CONGRESSIONAL DISTRICT.

The Democratic Convention for this district, comprising the counties of Monmouth, Middlesex and Union, has been called to meet at Elizabeth on Tuesday, Aug. 20th. The law of courtesy gives Union the right to name the candidate this time, but it is understood that she is not particular in the matter and, for a good man, one who would not only carry the district by a handsome majority, but would fitly represent it in Congress, would waive her rights in the premises. The gentlemen now talked of chiefly are Hon. Miles Ross, the present indefatigable member; ex-Gov. Joel Parker, and Mr. M. W. Hazeltine. Congressman Ross has sent his stock away up by the zeal with which he has watched the material interests of the District in the last session, securing for it appropriations to the extent of nearly a quarter million dollars. He has had two terms, however, and generally that is the limit. There are exceptions to all rules, and Mr. Ross may be again sent to Washington. It is said that Governor Parker would only accept the nomination under circumstances similar to those which forced upon him the nomination for Governor in 1871. Of course, if nominated, he would sweep the district as with a whirlwind, but his nomination is improbable.

The other gentleman named, Mr. Hazeltine, is a native of Massachusetts, but has resided in the Third New Jersey district for seven or eight years. He is a splendidly educated man, having graduated from Harvard and taken afterwards a finishing course at Oxford, England. He is a journalist by profession, regularly connected with the New York press. Mr. Hazeltine resides at Atlantic Park, in Monmouth. Previous to going there his home was in Union county. During all the years of his residence in New Jersey his most cultured and able pen has been used with force and eloquence in behalf of the best interests of his adopted State. [illegible] In a word, Mr. W. [illegible] is a scholar and a gentleman. His nomination and election would be an honor not only to the Third district but to the State of New Jersey. [illegible] such men of brains, character and statesmanship.

IMPORTANT RESOLUTIONS AND ADDRESS BY THE COUNTY DEMOCRATIC COMMITTEE.

A full meeting of the County Committee was held in Elizabeth on the 8th, Captain [illegible] presiding. The following resolutions, presented by Jas. S. Vosseller, Esq., were adopted:

Whereas, For a period exceeding twenty years, embracing the territorial existence of Union county, the Democratic party of the county has not been honored with a candidate for either of the Districts with which it has been connected; therefore,

Resolved, That in the present contest the Democratic Executive Committee declare it as their judgment that Union county is not only entitled to the candidate by courtesy, but by every principle of right, justice and equitable representation.

Resolved, That the delegates from the several wards and townships of this county are requested to insist on [illegible] Convention, and to vote for a candidate, and give to the Union county [illegible] the solid vote of this county in Convention.

After the adoption of the resolutions, C. A. Rankin, Esq., of New Providence, moved that a committee of three be appointed to prepare an address embodying the sentiments expressed by the resolutions. Messrs. Rankin, Martine and Cronan were appointed the committee.

The committee, through its chairman, submitted the following:

"The special committee, appointed to report upon the resolutions this day adopted by [illegible] the following plain statement of facts:

[illegible] over twenty years since Union [illegible] composed of the counties of Essex, Hudson and Union. N. Perry, of Essex county, represented the District for two terms. Union county presented candidates but was defeated by the combined votes of Essex and Hudson in the Convention.

In 1872 the District was reorganized, and embraced the counties of Somerset, Warren, Hunterdon and Union. William G. Steele, of Somerset, had served one term from the District under the previous apportionment, and his claim for a renomination was followed by success.

In 1874, Charles Sitgreaves, of Warren, was nominated unanimously—Union county not presenting a candidate. This gentleman received a renomination, without opposition.

In 1868, John T. Bird, of Hunterdon, was nominated. Union county presented several candidates, but was again unsuccessful. Mr. Bird was renominated in 1870, without opposition.

In 1872, the District was re-organized, and taking the counties of Monmouth, Middlesex and Union. The first candidate in the new District was John H. Patterson, of Monmouth. Union county made an earnest effort to secure the candidate, but was again unsuccessful.

In 1874, Miles Ross, of Middlesex, was [illegible] the vote of Union was divided between Andrew [illegible] and Judge Mcclelland, and Middlesex was divided between Miles Ross and H. M. [illegible] [illegible] and Monmouth county voting solid for Ross secured his nomination.

In 1876 Miles Ross was renominated without opposition.

[illegible] county [illegible] Union county, as [illegible] Jefferson the great founder of the Democratic party, announced the maxim: 'Absolute acquiescence to the will of the majority, the vital principle of Republics.' This principle will apply with as equal force to a county delegation, as to an Electoral College.

If Union county goes into the convention with a majority of the delegates in favor of any one candidate, the other counties should acquiesce. But Union county should be united and cast a solid vote. Union county appeals to her sister counties of the district, to their sense of honor and justice, for that recognition of equal rights—the cornerstone of Democracy, to which she believes she is now justly entitled."

On motion of Mr. Vosseller, the Democratic papers of the county and Third Congressional District, were requested to publish the resolutions and report.

A law was passed last winter having especial reference to the election of delegates to political conventions. As the laws were not published in either of papers of this city, (by the wisdom of some of those in power) it is doubtful whether there are many who know the provisions of the law in question. In order to give some light we quote the following which we find in an exchange:

Section 1 provides that no person who is not at the time being entitled to vote, by the laws of this state, at the special, general and local elections held in this state shall vote at any primary meeting or caucus called or held by any political party or political organization of this state for the nomination or selection of persons to be voted for at any such elections, and unless such persons is a legal resident of the ward, township or aldermanic district in which such primary meeting or caucus is held.

Section 2 prescribes a penalty of imprisonment at hard labor for three months or a fine of one hundred dollars or both, for a violation of this law.

A Congressional committee has been in session in New York, inquiring into the condition and wants of the working class. Before it came representative workingmen or rather men who claim to be so. Their theories and demands were as far apart as day is from night and some of them were so ridiculously absurd that they made their authors feel ashamed of themselves. They were full of nonsensical impracticabilities. One wanted the government to give every man $50 cash, another suggested the propriety of appropriating out of the national treasury $5000 to every needy person on his individual note and so they went. They wrangled among themselves and could not agree upon anything except that they wanted eight hours make a day's labor and ten hours' pay therefor. The most of them thought that legislation could remedy all their troubles that beset them and therein they showed their foolishness.

A New York paper says of the political outlook:

All round the political outlook is favorable to the Democrats. If they exercise prudence and sagacity, nominate their best men, steer clear of extremes and revolutionary measures, advocate an ample currency convertible into coin, and above all, go for the improvement and elevation of the working classes, they may safely expect to have a majority in Congress, the control of most of the States, and the next President.

The Grand Commandery of the Knights Templar and Grand Chapter of Royal Arch Masons of the State will hold their annual meeting at Trenton, September 10 and 11.

To the Editor of the National Democrat:

[illegible] ... if the above is correct it only tends to show that the old "controlling power" must have been more of a master of the situation, otherwise [illegible] would have been the [illegible] end results.

[illegible] What you said, Mr. Editor, seemed to make "C." feel very badly. [illegible]

Further on in his communication he endeavors to mislead the public by saying that the break did not occur until after all the hydrants had been shut off, except one, and that there was but 75 lbs. on them.

How is it that "C." is so well informed as to the exact time of the break when the "now controlling power" at the works knew nothing about it until the Mayor or some other citizen drove there in haste and explained the situation. There are matters of equal importance in connection with the present management that are being carefully noted that will come up at some future time. The weather is too warm at present for any lengthy controversy.

[illegible]

A doubtful complexion is best compared to a blue sky; but when the countenance is disfigured with Blotches and Pimples, like [illegible] promptly use Dr. Bull's Blood Mixture, which [illegible] effectually eradicate such [illegible] of the blood.

PENNSYLVANIA R. R. TIME TABLE.

[illegible]

CENTRAL RAILROAD OF NEW JERSEY.

[illegible]

Frank and Nicholas, the Italian boys, are preparing to give a grand sociable in Gilday's Hall on the evening of Monday, Sept. 2d.

By a daily paper from Saratoga we notice that L. High and wife were registered at one of the hotels of that popular resort on Saturday last.

J. Lord Mitchell Esq., is in this city this week canvassing for the great art journal of America, "The Aldine." Mr. Mitchell is a pleasing gentleman and we recommend him to our citizens upon whom he may call. "The Aldine" is so well and favorably known that it is not necessary for us to speak of its excellence.

Three young men went into John Heiner's saloon Sunday evening and wanted him to sell them beer, which he refused, at which they became enraged, and after going outside returned and threw bricks at Mr. Heiner and Mr. Ehrlich who, hearing them make threats [illegible] One of them named [illegible] was arrested yesterday.

The W. R. C. had not a very large company on their excursion Tuesday, and, as is generally the case when excursions go by way of the river, they did not reach Rockaway Park, but returned after going a short distance above New York. Some parties, on [illegible] with the boat two different times, [illegible] excursionists to "go it alone" on the barge. Altogether, however, it was a very enjoyable [illegible]

An older brother of young Bonn, who was drowned last Wednesday afternoon, performed a very daring feat. He was bathing further down the river and hearing what had happened he ran up to the place opposite where his brother fell in, and jumped into the seething current, swimming successfully across, and, but for the interference of some parties, would have gone under the scow to search for the drowned brother. He is only about fourteen years old.

For the Democrat.

It is with sorrow that we record the death of Thos. Anfelinger, son of our old and respected citizen, who died on Thursday, August 1st, after a very short illness. The family and his immediate friends must feel their loss keenly, as he was a very bright scholar and gave great promise of making a good man had he lived. He was 17 years, 2 months and 1 day old.

[illegible]

For the Democrat.

MR. EDITOR: Permit me through the medium of your columns, to return to the citizens of Rahway my sincere and heartfelt thanks for the sympathy manifested and the untiring and unceasing efforts put forth by them to recover the body of my little boy that was drowned in the freshet, on Wednesday, of last week; and also, to thank them for their kindness shown and the assistance rendered me in this, my sore affliction for such acts on their part evince a Christian spirit, which will long be remembered by me and my family.
DAVID J. BONN.

Don't say "Whoa, Emma," but rather it and render it "Pease, Emily."

Fresh arrival of dark Calicoes, at Birkett & Paterson's.

Union Service next Sabbath in the 1st Presbyterian Church in the morning, and in the 2d Church in the evening.

Still a few pieces left of White Muslin, 30 cts., a piece worth 50 cts. Birkett & Paterson's.

Never defer and to-morrow what you can be well do to-day. For instance, if you have something to publish in our paper hand it in Tuesday, and don't wait until Wednesday.

Rev. Joseph Graves, of Westfield, preaches every Sunday morning and evening, in the Irving Street Baptist Church, and will also address the open air meeting next Sunday at 4:30 P. M.

Rev. David Flack, late of Nevada, has accepted the call to the Church of the Holy Comforter, of this city. Service every Lord's Day at half-past ten A. M., and half-past Four P. M., until further notice.

If you see the fire end of a segar coming around the corner of a street, and don't see the person at the other end for some time, you can make up your mind it is one of Grove's long five centers.

At a meeting of the Board of Education held Monday evening, C. W. Tuttle, was appointed Superintendent pro tem. of the public schools, to fill the vacancy occasioned by the resignation of Mr. Anderson.

Ira Perkins recently sent by mail to his father, L. M. Perkins, a horned toad from the Indian Territory. It is a stranger to this section, and can be seen for a few days on exhibition in the window of the music store.

Stahl, of the Trenton Herald has "got 'em again." The advert is in his paper for his Sunday breeches which he lost on the way from the store to his office. On his editorial page appears a column and a-half on the three cent beer question.

We have bought a large lot of the celebrated Fancy Corset which we are now offering at 72 cts., a pair the usual price for them is $1.00; this is really the best Corset ever offered for 72 cts. call examine them at Birkett & Paterson's Cor. of Main & Cherry Streets.

Dr. J. L. Rosen, dentist, returned on Friday from a trip to Niagara Falls, where the National Convention of Dentists was held. His recently invented dental instrument was pronounced by all to be an excellent thing, and he disposed of the right to manufacture them at a good advantage to himself.

A lot of constable's sale bills, partly printed and partly written, in the usual form, appeared about town some days ago, but the written part soon became entirely invisible by the action of the weather, and only the printed part could be seen—the paper where the writing was appearing as clean as if it had never been written upon.

A MEAN INSINUATION.—The following from an exchange is downright mean, and we only give it space to show the "meanness" of some newspaper men. No lady ought to read it:

[illegible]

Yesterday afternoon representatives of the press of the state were invited by the officers of the State Agricultural Society to a collation on the Waverly Fair Grounds, as has been the custom for some years, on which occasions the specialities of the annual fair are set forth.

Complaints are made that in some portions of our city parties are in the habit of using the street sprinkler too freely; in fact, to such an extent as to make mud holes, whereby hose driving out in the evening with fine vehicles are compelled to have them washed to remove the mud from them.

Among the passengers for Europe, on the steamship "Russia," of the Cunard line, on last Wednesday the 7th inst., was Mr. Thomas Winsor, of the firm of Winsor & Marsh, New York. Mr. Winsor is a son of the Rev. George Winsor, pastor of the First M. E. Church, this city. Mr. Winsor was born in Rahway; when his father was previously stationed here. He will probably be absent from four to six weeks.

Gents' White Lawn Ties, 25 cts., doz. Summer Undershirts 20 cts., Muslin Drawers 25 cts., a pair. Birkett & Paterson's.

FORBES ARRESTED.—A despatch from London dated the 12th, announced the arrest of Thomas Forbes, alias Crawford, the man charged with embezzling $13,000 from Mrs. Walker. He was arrested in pursuance of a telegram sent by the police authorities of New York, on board of the Adriatic. The charge of forgery was made in order to hold him until the arrival of Mrs. Walker. Forbes was taken in charge by detectives, and taken to Liverpool.

A later despatch states that Forbes and wife, with Weaver and a female companion, left Liverpool Tuesday for London.

A correspondent writing to the N. Y. Evening Express from Orbey Springs, gives an account of an entertainment given there recently, and thus speaks of some best well known in this city:

Mr. and Mrs. Rayner, well known in New York, and whose talents have contributed freely in behalf of charity, made for our entertainment the comic element of the evening. Mr. Rayner sang "Jeannette and Jeannot," and for encore "Le Sabre de mon Pere," all the artists joining in the chorus, and concluded the performance with a comic illustration, "the Pinorama." Mrs. Rayner gave us two exquisite recitations, one pathetic, the other delightfully ludicrous.

From another source we learn that Mrs. Rayner was the favorite of the evening as evinced by the applause and bouquets showered upon her.

Hackman Stell had a queer experience Saturday night. His new horse apparently became possessed of the powers of prestidigitation, and when he started to go home the animal would persist in going the wrong way, which was occasioned by the horse's front and hind legs where the rear end should be. After correcting this irregularity, some friends being anxious to assist him, the horse started, and another difficulty arose, the horse persisting in going the opposite direction from that which Stell guided him; this was finally discovered to be caused by a crossing of the reins, probably by some of the assistants not familiar with harnessing horses. Finally all difficulties were overcome and Joseph went on his way rejoicing.

Councilman Osborn made an important statement on Tuesday evening when introducing a resolution to exempt from taxation the machinery, etc., of manufacturers who will locate in this city. He said he knew of a company who would like to locate here, but other cities were offering inducements of the kind, and unless we adopted such course we would lose the benefit. The company in question would guarantee to bring into the city the first year seventy-five workmen, the second two hundred, and no doubt continue to increase as the product was something that would be in demand as long as the world stands. The resolution was referred to the committee on laws, on account of a question of legality, raised by Councilman Laflery. It is sincerely to be hoped that Council will be enabled to offer some such inducement, for it is manufactories that will help more than anything else to make our city prosperous again.

It appears to have been a misfortunate circumstance in the trip made down the river on Monday of last week that the yacht "Carrie" was not large enough to take all the citizens of Rahway—many of whom we understand feel themselves slighted, and even blame Congressman Ross for the slight. It is but justice to him to state that he had nothing whatever to do with the invitations or the entertainment in this city. When it became known that Mr. Ross and Gen. Mascord were coming, the Mayor, in connection with some of the Councilmen and citizens made the arrangements for the excursion down the river, and the dinner. It was Mr. Ross' original intention to come from Sandy Hook with a tug boat, not knowing that we had any boat suitable here, and did not expect to have any display or ceremony over it; but, as we have stated above, our city authorities and a few citizens directly interested in the navigation of the river thought the occasion worthy of a little demonstration.

New stock in the crockery and fine grocery line—very handsome; you ought to see it—at Jesse Cooper's Choice Family Grocery, Upper Rahway.

The latest style in Neck Ruching is gold and silver tinsel stitching, to be had at Birkett & Paterson's.

COMMON COUNCIL.

Regular meeting, Tuesday evening, August [illegible] All present except Messrs. Jennings, McKeone and Wilson. Minutes of last meeting read and approved, after slight correction.

Communication from Board of Education asking that $2500 be placed to their credit, apportioned to different funds. Received and referred to committee on education.

Communication from M. Boyce asking payment of the $50, the clerk having refused to give him a warrant for the same, not being instructed what fund to draw upon. Received and ordered on file.

Petition from Hon. B. Vanslycke, objecting to his assessment on Adams street sewer, and asking such relief as may be equitable and just. Referred to committee on assessments.

Also, one of the same purport from Wm. B. Crowell, &c., in reference to Seminary street sewer—same course.

Communication from a young man expressing a desire to take charge of and run Franklin engine. Referred to fire committee.

Communication from secretary of Washington Hose certifying that John Bailess is 21 years old, received and ordered to file.

Election of Geo. Robinson and Charles Schlundt to fire department, and resignation from old Franklin Engine Co., accompanying the disbandment, and asking for exemption for some members, and transfer of others—referred to fire committee.

Communication from fire wardens reporting M. Kelly [illegible] referred to police committee, subsequently ordered discharged, by resolution.

Committee on fire department reported the purchase and distribution of new hose, as authorized, and presented contract and warrantee for three years—total cost being $[illegible]. Received and ordered on file.

The assessment commission reported in the Coddington and Vandershoven sewer assessment matter, that lots 7, 8 and 9 be assessed $779.73, and that 9 and 10 be rebated. Received and adopted.

Also, on petition from Mrs. J. C. Denman in relation to tax on property—that it appeared the building was burned before the time for assessment, and recommending the valuation be reduced from $2,500 to $1,200. Received and adopted.

Also, on petition objecting to Grand sewer assessment—that the proceeds were considered as near equitable as could be and recommending no change. Received and adopted.

License committee reported favorably on application of Wm. R. Christenberger, [illegible].

Further supplement to ordinance relative to burial of the dead relating to a new cemetery,—passed.

Irving street, Milton avenue and Fulton street sewer matter again laid over.

Resolution to place $250 to the credit of the Board of Education. Mr. Laflery objected, as the treasurer had no money to credit. After some discussion the resolution laid over.

Resolution that the warrant for $50 in favor of M. Boyce be drawn on contingent fund—adopted.

Application of Joseph Stell for hackman's license—granted.

Mr. Osborn offered a resolution, the purport of which was to exempt for five years the personal property of manufacturing enterprises locating in this city. Mr. Laflery objected and said Council had no right to do it—except by authority from the Legislature. Mr. Osborn differed with him. After remarks by different members, mostly favorable to such action, on motion, it was referred to committee on laws to ascertain the powers of Council in the premises.

The assessment on Lake avenue was taken up and, in accordance with recommendation of assessment committee, it was rejected and referred back to City Surveyor for a new assessment, on account of illegality, according to recent decisions.

Resolution instructing commissioners to make an equitable assessment of the costs and expenses of William street sewer ($[illegible])—adopted.

Bills ordered paid as allowed.

Mr. Laflery offered a resolution authorizing the committee on city property to sell so much of the linoleum and matting on the floors of the offices formerly occupied by the city, in the basement, as they may deem proper. Adopted. Adj.

THE DROWNING OF YOUNG BONN.—We last week briefly noticed the drowning of Walling, son of David J. Bonn, Esq., aged eight years, whose body had not been recovered at the time we put our paper to press, last Thursday morning. Shortly after 8 o'clock, however, the news was brought to us that the body had been found at the bend of the river, opposite Dr. Deryea's, near what is called Lee's Dock. Several parties with boats, nets, etc., were searching the river, and George Dunham and Thadore Conger, who were preparing to go out fishing, were assisting. Wm. Richards, who seemed to be impressed with the idea that the body was somewhere in that locality, suggested to them to make a thorough search; whereupon Dunham got out of the boat and waded along the shore; he had gone but a short distance when he discovered the body, lying in about three feet of water. He lifted it out, conveyed to a boat and brought it up the river to the raft from which the boy fell, and from thence it was taken in a wagon to the residence of the parents in East Rahway. Justice Prentis, acting as coroner, giving the directions. County Physician Terry was sent for, and, upon learning the particulars decided an inquest unnecessary. It was feared that the boy's flesh would be eaten by the crabs and fish in the river, but the only marks visible were on one eye and the lips. The funeral took place on Saturday afternoon, at the Grand Street Chapel, Rev. Mr. Robinson preaching the sermon, and Rev. Mr. Beran assisting in the services.

Wm. W. Stratton a young man who is a telegraph operator, and lives with his mother in this city, narrowly escaped death on Thursday morning last. He has been acting as "extra," that is, changes around, wherever his services are needed, to the different telegraph offices on the Pennsylvania R. R. On Wednesday night he was at the Bergen Cut office and started for home Thursday morning. The office is some distance from the Marion depot, where he wanted to take the early train for this city, and to make the time he got on the engine of a construction train; in jumping off at the Marion depot he made a misstep in some way and fell between the platform and the train. His head was severely cut in several places, the flesh on one of his arms crushed so that it was thought for some time the bone was broken also. He was taken to the hospital in Jersey City and his mother sent for, who immediately went, in company with Rev. Mr. Beran, to see him. Many thought the injuries fatal, but the physicians in charge gave permission to have him brought home, and, after a rest of a day, the wounds and bruises were very severe. He is improving, but it will be some time, no doubt, before he will be able to attend to his telegraphing duties.

We are assured that the 24th of Aug., at will be the last chance to secure a lot in the drawing of the Point Pleasant Land Co. $375 may secure a $30,000 hotel. There will be no postponement. The President and Board of Trustees have determined that every purchaser shall have an equal chance, as they are men of pecuniary worth, and in the highest business and social standing in Trenton. Only one-fourth of the number remain unsold.

OCEAN GROVE AND ASBURY PARK.

The corner stone of a new Baptist Church was laid at Asbury Park, last week. Rev. H. M. Sanders took a prominent part in the ceremonies.

Jas. A. Bradley Esq., the original proprietor of Asbury Park sailed yesterday on the "Scythia" for Europe to be gone for some months, for the benefit of his health, being troubled each year with the hay fever. The citizens of the Park and Grove assembled in Educational Hall on Saturday night and gave him and his wife, who accompanies him a grand ovation, the ceremonies consisting of complimentary speeches, resolutions and expressions of God speed and a safe return.

Mr. Dunn of this city sang at a concert in Educational Hall on Monday evening for the benefit of the Presbyterian Tabernacle, at Asbury Park.

Mr. E. Moffett, carpenter is building a carriage house, etc., for [illegible] of the Park.

All agree that there were more people at the Park and Grove last Sunday than ever before. This was conspicuously demonstrated at the surf meeting Sunday evening.

The police schools are well represented by Rahwegians, at Ocean Grove. In a ride we noticed the two Misses Mott, Mrs. Woorse, Mr. E. L. Anderson and Mr. Jones. Mr. McElvaine's family is also here.

A servant girl in the family of Jonah Taylor came near drowning on Friday. She "swam out" too far, and was only rescued by great exertions of the bathing master and others, in an unconscious condition. [illegible] the doctors was called to attend her.

We are indebted to Hon. Thos. J. Lee for a pleasant ride around the Park behind his little family pony. He pointed out a number of eligible lots he had purchased in the Park.

Ino Greene has been elected Clerk of Fire [illegible] for the Borough.

Dr. Wyatt was called upon at the surf meeting at Ocean Grove, Sunday evening, and gave a very deserving rebuke to the boys and men who are in the habit of smoking in the crowd while attending these meetings. To test the sense of the multitude he put it to vote whether smoking should be prohibited, and called for the raising of hands. The affirmative brought up a perfect sea of hands, and only two or three responded to the negative call. He said, according to that expression smokers should govern themselves. The result was received with a general clapping of hands.

Rahwegians visiting the Grove or Park will find Chapin Ross a perfect encyclopedia of information; what he can't tell you there is no need of inquiring further about.

In the Grove many of the cottages have neat signs bearing the names given to them by the owners or occupants. The "Idaho Only" cottage appears to have more [illegible] than any other.

Camp meeting at Ocean Grove commences next Monday and will last ten days.

On Saturday afternoon we witnessed a curiosity, in the first intoxicated person we ever saw in the streets of Asbury Park. He happened to pass while we were in conversation with Mr. Bradley, and he, in a kind manner cautioned him to go home at once or he would be arrested and fined ten dollars. He had been on a visit to Long Branch.

Correspondence of the Democrat.

ASBURY PARK, Aug. 10th, 1878.

FRIEND HYER.—The weather for the past week has been quite a decided improvement on that of last, and as was expected, has been followed by another great influx of visitors.

Mr. Cornelius Smith and family of Rahway are at the Metropolitan Hotel. The children with their dog cart and ponies create quite a sensation as they drive along the avenues.

During a thunder storm here on Wednesday the lightning struck a house occupied by Mrs. Bussell, corner of Third avenue and Kingsley street; striking the chimney first it passed on down through the kitchen and was attracted to an iron bound keg, upon which a servant was sitting. It then ran down her limb tearing off her shoe and otherwise bruising her badly. During the same shower the lightning struck the flag staff over the Grand California Tree, and passing down splintered a large piece out the old tree itself. I understand it has become quite an "old soger" at it, having been struck a great many times, the first, from marks on it, is calculated to have occurred about seven hundred years ago, while it yet stood in its forest home.

On Friday, the 9th, Annie Casion of Woodbridge who is working at Mr. Josiah Taylor's, while bathing, ventured out beyond the ropes, after repeated warning. Suddenly a wave threw her over, and losing control of it, she lost her feet, she was carried out beyond her depth. Her shrieks for help attracted the attention of gentlemen near by, who succeeded in getting her ashore, though not before she had become unconscious. Fortunately by energetic rubbing, and the free use of stimulants, the revived sufficiently to speak and recognize friends. From last accounts she is doing well.

Mrs. Harry Hall and daughter are staying at Shady Side Cottage. Miss Carrie Marsh was down for a short visit. Mrs. E. M. Hubbard, Miss M. E. Oliver and Mrs. Lucy Crowe are staying at Emily Cottage. Mr. and Mrs. F. Martin are at Mr. William Hall's pleasant cottage, on Lake avenue.

Yours, &c., [illegible]

THE CITY vs. J. T. CROWELL AND HIS BONDSMEN.

As stated last week the arguments in the cases of the City of Rahway against Jos. T. Crowell commenced on Tuesday, before the referee, Barker Gummere, Esq.

The pleas of the defence were: 1st, Non est factum. 2d, Performance. 3d, No embezzlement. 4th, Nil debet and notice of set off.

The pleas of the bondsmen were: 1st, Non est factum. 2d, Performance by Crowell of the condition of the bond. 3d, No embezzlement by Crowell. 4th, Extension of time given by the city to Crowell without their consent. 5th, Execution of the trust deed to the city by Crowell, and the failure on the part of the city record to it, which prevented the entering of judgment, to the amount of over $10,000. 6th, Set off—salary and commissions due Crowell. 7th, Cancellation of June 7, 1874 requiring treasurer's bond to be in the penalty of $30,000; delivery by Crowell and the acceptance by the city of new bond of $30,000, and the redelivery to Crowell of the bond of May 8, 1874 of $10,000. 8th, Expiration of office on Jan. 1st, 1877, and no liability for remainder of term to February 1st, 1877.

City Attorney Lupton opened the argument and confined his attention to these pleas, and the law upon which the plaintiffs based their case.

Hon. R. S. Green, attorney for David Crowell and Robert A. Russell, opened for defendants, and, without going into the figures, presented the law in the case; and dwelt upon the failure of the city to accept the trust deed, which would have been good as against judgments, and the failure to accept had worked great injustice to his clients.

Hon. Wm. J. Magie followed on the other points and by his argument showed that the city was indebted to Mr. Crowell over $2,000. The argument was concluded yesterday, but it may be sometime before the referee will give his decision.

Ladies, don't fail to get a Fancy Corset—all sizes, from 18 to 30 inch, 72 cts. a pair, worth $1.00. Birkett & Paterson's.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. Sent by mail by addressing with stamp, naming this paper, W. W. Sherar, 149 Powers' Block, Rochester, New York.
