How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Buying a rewarding experience. But if you should run into any problems or have any suggestions, don't hesitate to call us. We'll be here to help you.

★ Be where your customers look for you – The **New Jersey Bell Yellow Pages.**

How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Buying a rewarding experience. But if you should run into any problems or have any suggestions, don't hesitate to call us. We'll be here to help you.

How to be a better buyer

Millions of people "Let Their Fingers Do The Walking" and shop the Yellow Pages. They find the Yellow Pages an easy, convenient source of telephone numbers and buying information.

As publishers of the Yellow Pages, we want you to be satisfied with our product and to use it frequently. And we know that the best way to do this is to keep your confidence in our directories. We are proud of our record! We will not knowingly accept misleading or unethical advertising. If copy not meeting our standards is found, it is quickly removed.

To help you get greater value in all your buying, we have listed some good shopping tips which are worth remembering.

Price. Service provided after a sale may affect the selling price. Ask if the selling price includes delivery, installation and service charges. Also ask about returns and refunds.

Estimates and Receipts. On major purchases, obtain estimates from more than one company. Receipts should be obtained for all payments, as well as for appliances taken from your home or left for repair.

Service and Repair. Check the cost of service calls by telephone. When the repairman is on the premises, ask for an estimate of the total cost of repair, then get an itemized bill before paying.

Contracts and Credit Details. Don't be rushed into signing a contract if you are unfamiliar or unsure. Ask for a copy to take home for a careful review. Learn the terms, interest rate, and payment plan. Be sure to retain a copy of everything you sign.

Guarantees. All guarantees and promises should be in writing. Find out who is responsible for carrying out the terms of the guarantee. If there is a registration card, be sure to send it in.

We know that you will find Yellow Pages Buying a rewarding experience. But if you should run into any problems or have any suggestions, don't hesitate to call us. We'll be here to help you.

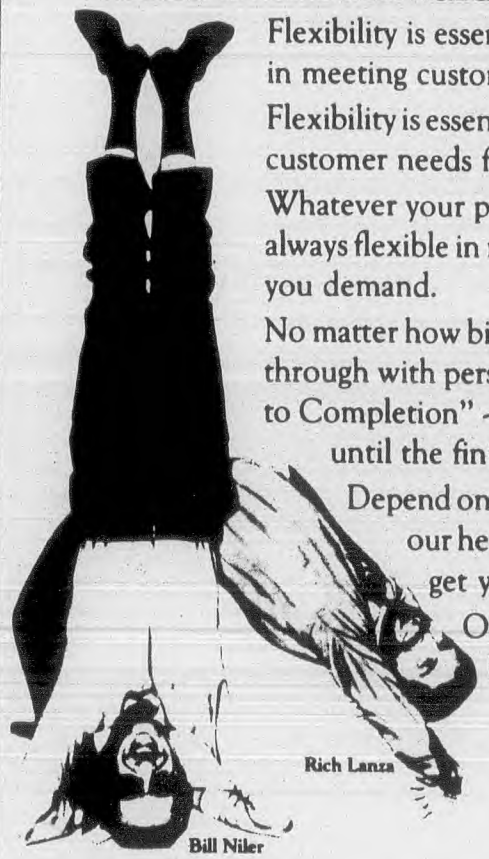
We stand on our heads and bend over backwards for our customers!



Flexibility is essential for today's creative printer in meeting customer needs.

Flexibility is essential because like everything else, customer needs frequently change.

Whatever your printing needs, Millburn Press is always flexible in meeting them in exactly the way you demand.

No matter how big the job or how small, we see it through with personal attention from "Creation to Completion" -- from the first spark of an idea until the finished work is in your hands.

Depend on us at Millburn Press to stand on our heads and bend over backwards to get your job done right.

One thing sure, you won't find us lying down on the job.

★ Check your phones now and then to make sure the receivers are firmly in place. Sometimes telephones are reported as out of order and the only trouble is an extension phone that is off the hook. So, hang it up and don't miss any calls needlessly.
