"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

A BRIEF HISTORY

Montclair was first settled in 1678 by old stock Americans, who migrated from Branford, Guilford, Milford and New Haven, Conn. At this time the section in which Montclair is located was known as East Jersey, and Upper Montclair was called Speertown.

In 1856 the first railroad was started and this road is now known as the D., L. & W. R. R.

In 1867 another railroad was opened up and is called the Erie at the present time.

Today these two railroads, with their 114 trains daily, serve more than 6,000 commuters.

During the early days, the chief industry was fur hat making.

On April 15, 1868, Montclair was incorporated as a town, and in 1882 the first fire department, known as H. & L. Co. No. 1, was organized. The Montclair Fire Department was organized in 1885.

In 1904 a beautiful library was presented to the town by Andrew Carnegie. Today this library has 65,093 volumes.

With its abundance of shade trees lining its well-kept streets, Montclair is truly a residential community.

Common Sense

About City Directory Circulation

The true value of advertising circulation is circulation consulted.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = \\ 1,067,500$$

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.
