I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

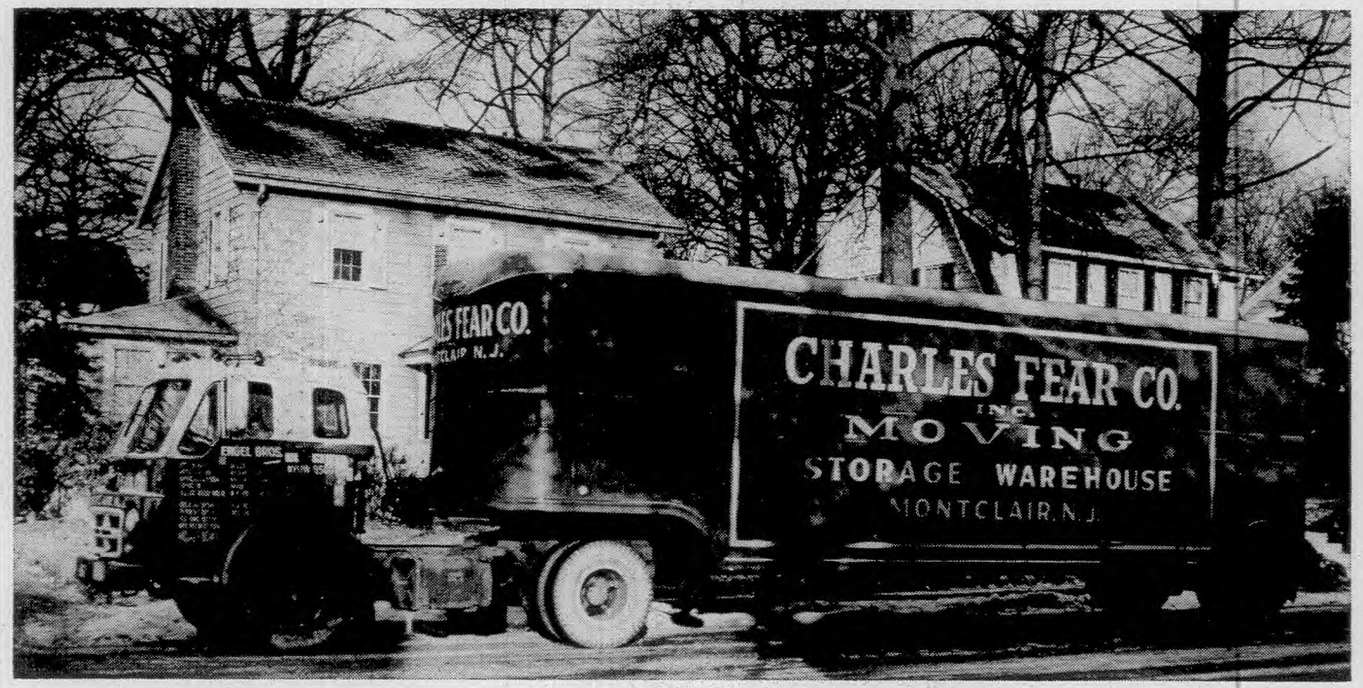
With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.



I am the key that unlocks the gate to what your community is, for all who would pass its portals.

I AM

I sit in the castles of business and at the hearthstones of many homes, mighty in my power to serve.

Through me is the power to make people talk with intelligence concerning their communities.

With extended hand I guide the wearied traveler, and to others shorten the distances between destinations.

In me abides the essence of democracy, as side by side is found all nationalities, rich and poor alike.

With uncanny certainty I unite long-lost friends and make glad the missing heirs.

Through me are protected the law-abiding by tracing the criminal to his hiding place.

Through me, in the friendliest way, new trade channels are opened.

I am the key that unlocks the gate to what your community is, for all who would pass its portals.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *ALPHABETICAL* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 *A HOUSEHOLDERS' DIRECTORY* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *CLASSIFIED BUSINESS DIRECTORY* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"BUYERS' GUIDE SECTION"*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *STATISTICAL and HISTORICAL STORY* of your city: plus miscellaneous other information.

III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.

IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.

V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Montclair community.

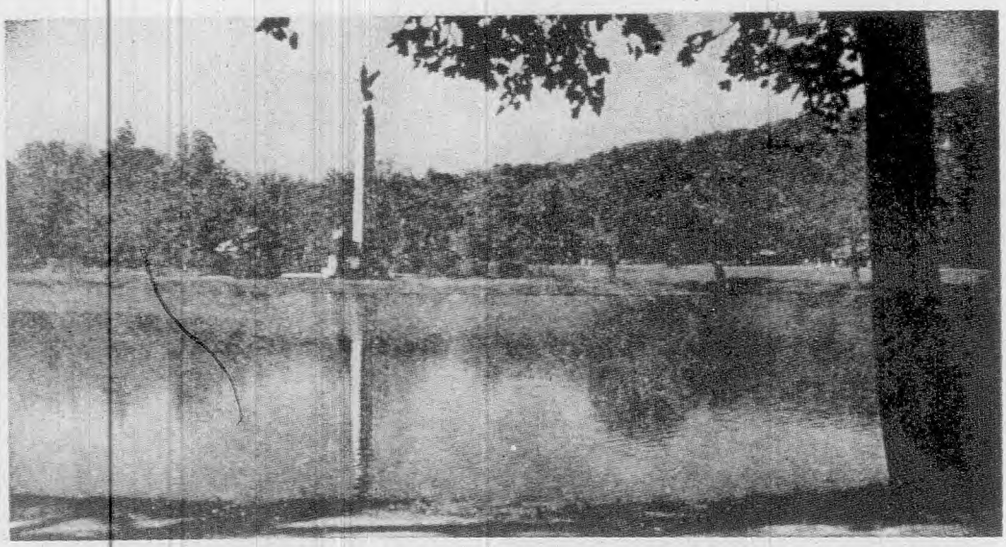
Montclair Yesterday and Today

Long before white men settled in this country an important Indian trail passed through what is now Montclair, crossing the mountain at Crane's Gap. In 1666, Connecticut families settled Newark, buying a wide region from the native Lenni-Lenapes. By 1715 offshoots of the settlement had spread to the outskirts of the purchased land, with at least one family living within Montclair's present bounds by that date. The present Upper Montclair was settled, perhaps equally early, by Dutch families.

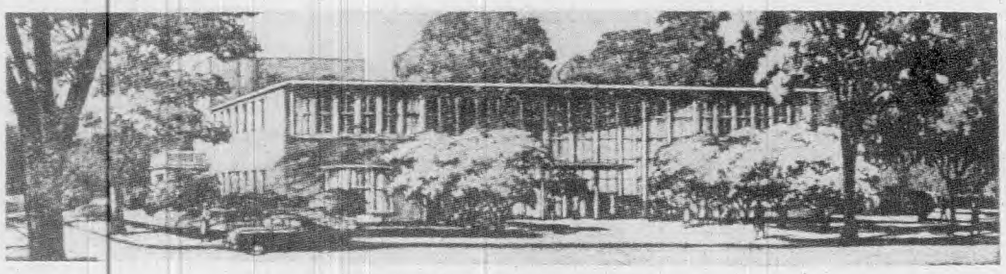


Montclair is now a pleasant, highly progressive suburban town, fourteen miles west of downtown New York. It has tree-shaded streets, attractive homes, excellent public library, schools, adult school classes, and art museum. It has an efficient municipal government, exceptional shops and markets, and a wide variety of clubs, musical and dramatic organizations,

"WHAT YOU SHOULD KNOW ABOUT YOUR CITY"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy, then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women." — John Cotton Dana.

lectures, concerts, and theatres. Montclair has strong private schools and a Montclair State College accredited by the American Association of Universities.



EDGEMONT MEMORIAL PARK LAKE AND MONUMENT IN HONOR
OF MONTCLAIR'S FIRST WORLD WAR VETERANS

Lying on the eastern slope of the Watchung Mountains and the gently rolling land at the foot, Montclair commands a beautiful though distant view of New York City. Its two hundred to six hundred and fifty foot elevation makes it well-drained and healthful. There are many beautiful short and long drives into attractive natural areas within reach.

For the large number of Montclair people who commute to Newark or New York there is exceptional transportation by the Erie-Lackawanna Railroad and DeCamp or Public Service buses.

With the completion of the S3 Express Highway, travel time to New York via Lincoln Tunnel has been reduced considerably.

A large proportion of Montclair's people are executives or business or professional personnel, with a high percentage of college graduates among them. The rich facilities of New York City, and even those of more distant cities, are readily accessible.

THE MONTCLAIR LIBRARY

Newcomers are welcomed into Montclair's civic and social organizations. Information about the town may be obtained by a personal call to the Montclair Public Library, 50 S. Fullerton Ave., or the Montclair Chamber of Commerce, 492 Bloomfield Ave.

First National State still an old-fashioned* bank.

Don't let our Full Service Banking fool you.

A visit to the bank, circa 1885. The Bettmann Archive

When we first opened our door more than 150 years ago, we had only a few services to offer customers. They could make deposits, borrow money, or buy the bank's currency.

As the bank grew over the years, we added service after service. Today we offer a long list of them to take care of almost every conceivable banking need.

Because so many people use these services, we are the leading Full Service Bank in New Jersey. We think this proves one thing: Our old-fashioned way of doing business is still the most important service we offer.

* ***old-fashioned*** *adj. 1. Time honored, proven through experience: assurance of service with traditional courtesy and integrity.*
