

THE QUILL

'Twas a great day for Americans in Clark last weekend. It looked at times as if almost the whole town turned out for our I AM AN AMERICAN DAY PARADE. Over 1,000 residents, most of them carrying small American flags, marched proudly up Westfield Ave. to the Municipal Building.

Retired veterans... mothers pushing baby carriages... teenagers looking young and proud... a five-year-old girl with a red, white n' blue bow in her hair... and many, many of your friends and neighbors. One sunburned man marched in wrinkled plaid bermudas and a sports shirt along side another gentleman who was well-groomed in a crisp summer suit complete with pin-stripe tie.

But no matter how different each marcher looked -- they all had one purpose in mind. They wanted to show our boys in service that the people of Clark are 100% behind them.

One young lady, who carried a doll as she walked along the sidewalk beside the marchers, asked a seven-year-old friend "Why'd your father come to this?"

"Because the boy next door's in Vert Nom and we saw him in his uniform," the youngster said.

And we wish some of our servicemen could have seen Clark on Saturday.

They would have been proud.

What was all that we heard about "co-operation" and "team spirit" when the Council reorganized last January? A lot of petty, party politics seems to be creeping back into Council's comments on proposals and their votes on issues. Now come on...

Remember "King Arthur" -- "Robinson Crusoe" -- "Long John Silver" -- even Cherry Ames? Well, they're all waiting now at the Library.

This summer the Clark Public Library will begin a summer Reading Program for boys and girls in grades 1-6. Registration begins June 30.

At the end of the summer, boys and girls who have read 20 books will be given a prize. To be eligible, boys and girls must first read five books of their own choosing. This will put them on the "Highway" towards adventure and their names will be placed on a car on the table-top bulletin board.

When they have read ten books, boys and girls will be given a special bookmark and their names pushed ahead on the "Highway". When they have read 15 books, they will be given a certificate of achievement and their names moved further along on the "Highway".

For the first ten books, boys and girls can read books of their own choosing. For the next ten, they must read books in subjects chosen by the children's librarian.

Are you a publicity chairman who's been asked why you never send any stories to the "Clark Patriot"? ... or are you a president who wonders why your story isn't in the paper? We can surely understand your concern. And we're working hard to alleviate some of the problems.

You see, as a newspaper -- we're limited in the amount of news we can print each week -- because the advertising in the paper affects how much news we can carry.

We're glad to say that the readership of the paper is such that each week we get more and more news. And occasionally we have to leave stories out of an issue. When deciding what to carry, we try to use all the "future" news that will happen that week -- and then we use the "past" reports and other news. We also try to give coverage to stories which affect as many people as possible. If we are not able to use your story when you bring it in -- we do try to use it in the next issue.

How hard are you working on OPERATION SCOOPERINO?

Our star salesman so far is Mark Schwartz, nine-years-old. He's already earned 18 points; so Mark almost has a Polaroid "Swinger" camera of his own. And he's well on his way toward that SCHWINN STING-RAY BIKE.

Mark's the son of Mr. and Mrs. David Schwartz of 86 Lincoln Blvd., Clark. But whether you live in Clark -- or Rahway -- or Colonia or surrounding towns you, too, can earn points for a SCHWINN STING-RAY BIKE or many other valuable prizes. See the details of OPERATION SCOOPERINO today on the back page.

While we're watching the fireworks and listening to patriotic speeches, let's remember just how hard Americans fought for their independence. What was won through bitter struggle and sacrifice can best be protected that way today.

Flags will be flying... bands parading... and friends and neighbors relaxing as we celebrate our Day of Independence on July 4th.

In honor of next week's holiday, the deadline for news to be submitted to your hometown newspaper is 5 p.m. on Monday, July 3. All pictures submitted for publication must be in our office by noon on Monday. Have a good holiday!

197 Graduate From Brewer

The eighth grade class of Charles Brewer School held its commencement in the auditorium of Arthur L. Johnson Regional High School last week.

David Gershel, third in academic standing, led the flag salute and the eighth grade, led by Frederick Fischer and accompanied by the band, sang Land of Hope and Glory. Rabbi Theodore Stamper of Temple Beth O'r said a prayer of invocation and the class was seated to hear Mark Berman, second in academic standing, make an address of welcome. Mr. Fischer returned to the stage and led the class in signing "The Impossible Dream" accompanied by Miss Marguerite Matera on the organ.

David Hart, principal, spoke to the parents and reviewed the year's activities including the Awards Assembly held that morning at the Charles Brewer School. Mr. Hart gave credit to the students who had won awards. They were: The PTA awards for scholastic achievement in Art -- Alexander Bertelson, Boys' Physical Education -- William Jennings, Girl's Physical Education -- Lesley Rea, Geography -- Mark Berman, English -- Patricia Bialecki, History -- David Garshelis, Instrumental Music -- Mark Bolanowski, Industrial Arts -- Paul Greco, Mathematics -- Andrea Nalepa, Home Economics -- Lisa Christiansen, Vocal Music -- Karen Felter, Science -- George Yarusavage, and Spelling -- Paul Lacko; the B'nai B'rith award for outstanding achievement in history -- Betty Russell; the Daughters of

Dr. Carl H. Kumpf traced the development of the school curriculum from ancient times to the present day and wishing the graduates future success.

Walter Bakum vice president of the board of education, handed the diplomas to the graduates and Judith Starger, the academic leader of the class, gave a farewell address. The benediction was given by Rev. Thomas J. Foley of St. Agnes Church.

The remedial reading course will be taught at Brewer School and all other classes will utilize the air-conditioned classrooms at the new Mildred Terrace School.

Parents wishing to register their children for a summer school course may do so by applying at the school where the course is taught on Monday morning. There are openings available in the classes now, but enrollment will be limited.

For those who prefer to spend their summer days outside -- a "Learn To

Swim" program, under Clark's summer recreation program, is set for the Union County Pool in Linden. The lessons, which are open to youngsters in the third to eighth grades, are one hour long. Lessons will begin at 10 and 11 a.m. The new school bus will be used to transport the children to the pool each morning. A schedule of the bus pick-ups will be announced next week.

But, if you're not already registered for the "Learn To Swim" program -- it's too late. "We're all filled up right now -- at least until the first cold day," said School Superintendent Carl Kumpf.

Walsh Asks Pool Owners To Register

Owners of private swimming pools, both portable and permanent, have been requested by Robert T. Walsh, Director of the Department of Administration, Health and Welfare in Clark, to register the pools with the Bureau of Health. "Owners of existing pools, as well as householders who are installing such pools, are required to comply with the Swimming Pool Ordinances," Mr. Walsh said, in explaining why registration is necessary. He added

ed that no registration fee is involved.

"It is imperative for the health and safety, not only of the public, but of the individual members of each family, that the pools be inspected in order to make sure that they comply with the safety and health requirements in the existing ordinance.

"Such registration can be done by telephone or letter to the Bureau of Health. "It is requested that all swimming pool owners complete the registration of their pools by July 1, 1967."

The Director of the Bureau of Health stated that regular inspections of pools will begin the first week in July. Pools must be made to conform with the ordinance.

"A great majority of swimming pool owners have been most cooperative this year," Mr. Walsh said, adding that non-compliance will result in the filing of a complaint in the Magistrate's Court.

New Nursery School Set For Rahway

The picturesque setting of 2153 St. Georges Ave., Rahway, will soon be the home of the State Certified Busy Bee Nursery School.

The school will be under the direction of Mrs. Bernard Burkhoff, mother of three children, who holds a B. A. degree from Rutgers University and is a candidate for a M. A. degree in Early Childhood Development at Newark State College. Previously, she taught at Rolling Hills Nursery School in Metuchen and was a consultant on early childhood development and trained teachers' aides for the City of Newark.

The goals of The Busy Bee Nursery School will be to help each child become self-reliant, happy with other children, and aware of the rights of others. To accomplish this, a program designed around the individual needs of each child and the materials necessary for social, physical and emotional growth will be provided. The program allows for art, language and music experiences as well as exposure to good literature. Children will be helped to develop in the areas that will make future school experiences more meaningful.

Mrs. Burkhoff has announced that after renovation of the premises is completed, the school will open in September for children between the ages of three and five years old. Half and full day sessions are currently planned. A morning session from 9:00 to 11:30 A. M. and an afternoon session from 12:15 to 2:45 P. M. will be conducted. Full day sessions will be arranged if desired. The number of children to be accommodated is limited and registrations are now being accepted for the September term. For further information call Mrs. Bernard Burkhoff at Fu - 1 - 6640.

Mr. Coleman declared, "we must look sharp and build a better community."

Miss Patricia Ann Maydow, daughter of Mr. and Mrs. Walter Joseph Maydow of 122 Stemmer Dr., Clark, has received recognition for her outstanding work at the Katharine Gibbs School in Montclair by being named to the Dean's List. pulsating with life and vigor," He also stated that the administration is going to seed the large vacant area along the back of Main St. and along the Rahway River to curtail the clouds of dust on the Main retail business area. Announcement was also made by Mr. Coleman that the first group of homes to be constructed on the tract will be started in August.

The businessmen voted to ask City Council for passage of an ordinance on rummage sales. The merchants

would like to see the sales limited to Rahway groups and to have a limit of two sales a year in the business district for each organization.

Sidney Stone, City Business Administrator reported that he had requested Public Service to conduct a survey of street lighting in Irving, Main, Cherry, Lewis and Dock streets and adjacent city parking lots.

The association discussed the need for a tax equalization program throughout the city. Sidney Robinson, president, announced 50

businessmen have joined in the two months since the group was revived. Realty Board members including Rose DiComo, Abe Reppen and Charles Searles presented their views on city problems. Reports were presented by Herbert Gorbunoff, Gordon Harris and John Gallo.

Clark Kiwanis Honored By PBA Certificate

A certificate for "exceptional service rendered on behalf of the Clark Police-men's Benevolent Association" was presented to the Clark Kiwanis Club at its last meeting. In accepting the certificate, Kiwanis President Jay Stemmer said: "All Kiwanis Clubs are dedicated to service to the people of the town in which the individual club is located. It is gratifying to receive this certificate; it indicates we are having some small measure of success in the attainment of our goals."

President Stemmer reported that he and the Club's Secretary, Dr. Franklin E. Stevens, will represent the Clark Club at the International Convention at Houston, Texas, this week.

Adrian Toops, Sanitary Inspector of the Clark Board of Health, was introduced by Program Chairman Ralph Colechio. Mr. Toops handed out copies of the Township's "Swimming Pool Ordinance" and then addressed the meeting on the ordinance. He explained that it was not intended as a police measure, but rather as a guide to help people keep their pools safe. He noted that the greatest danger involving fencing is when gates are accidentally left open. He said that water treated in accordance with the ordinance would be safe and healthful to the users of pools. He urged that pools not be discharged to sanitary sewers; this creates dilution problems at the sewerage plant and results in extra charges to the Township.

Mr. Toops reported that all residents whose pools he has inspected have been very cooperative. He also stated he has not found any in the ground pool which is not fenced.

The Health Inspector also discussed some of his experiences in the field. Of particular interest was a report on the survey of local industries from the occupational health angle. He reported that, in most cases, precautions taken by industry to insure industrial health have been excellent. This is particularly true in the larger industries. Where suggestions are made to improve hygienic conditions; they are generally complied with by industry, he reported.

ANSWERS TO FOURTH OF JULY QUIZ

1. False. The public did not learn the actual words of the Declaration until July 8, 1776 -- four days after it had been signed -- and therefore had to wait until July 8 to celebrate. Then, the Declaration was read to the public, the Liberty Bell rang out the news, bands played, and a public celebration took place.

2. True. Adams said this of Independence Day: "It ought to be commemorated as the day of deliverance, by solemn acts of devotion to God Almighty. It ought to be solemnized with pomp and parade, with shows, games, sports, guns, bells, bonfires, and illuminations, from one end of this continent to the other, from this time forward for evermore."

3. False. Adams and Jefferson signed the Declaration, but Washington did not.

4. True. And for that reason it is the birthday of the United States of America.

5. False. The Declaration is dated July 4, 1776, and is described as "unanimous." But the word "unanimous" could not be properly used until July 19, when the New York delegation to Congress, which had not voted on July

Lady Mailman Says Job Combines, Fun, Work

What is a lady mailman like? If she's Susan Rath, substitute career carrier for the Rahway Post Office, she's young, vivacious, not afraid of hard work, and enjoys the outdoors.

Miss Rath has been with the Rahway Post Office since last Nov. - much to the amazement of residents on her routes. A tall, dark-haired Minnesota girl, she trained horses in Iowa, drove a truck out of Chicago, and worked for a photography firm in Dallas and St. Louis before coming here.

Miss Rath took the Civil Service Test last year and was offered employment as a clerk several times. But she turned down the job waiting for a mail carrier position. "I wanted to work outdoors, the salary was higher, and I also thought this would be the fastest way of getting acquainted with people," she was finally hired.

During the first weeks, Miss Rath confessed that she ached terribly every night and lost eight pounds. "Delivering the mail, driving the mail truck, picking up heavy loads was really tiring work," she said. "But I never thought of quitting. Some of the men had been going on how long I would last, and this spurred me on even more."

The hardest part of the job was battling the winter weather. "No amount of long underwear kept me warm," she said. "Today I have the greatest admiration for the guys who have worked in the Post Office for 20, 25 years."

SAFETY TIPS FOR BABY-SITTERS AND PARENTS

by: Mabel G. Stolte
County Home Economist

Your one basic motive as a parent in employing a babysitter is to protect your children from accidents. This requires a business-like attitude on both your part and the babysitter's.

Parents' Responsibilities: Pertinent facts related to safety should be part of the information written down and left for the babysitter. These include the location of emergency devices such as fire extinguishers and fire exits, medicines, fuse boxes, flash lights or candles. In addition leave the telephone numbers of the doctor, fire department, police department and a friend or neighbor, if you are going to be as far away as a half-hour's ride.

Safety Pointers For Baby-Sitters: The most important single factor for you, the baby-sitter, to remember is to give full attention to your charges. You may not be able to anticipate every danger but, by being on the job, you can prevent serious consequences. Even when the children are asleep, you should not let yourself be completely distracted from your job.

Falls have been a major source of injury to babies and young children. Falls from bed, tables, high chairs, sofas, stairs and scattered toys are among the most common. Side rails on cribs and play pens, the straps on bath tubs and high chairs and safety gates at stairs and doors are important safety devices for young children. If these are not available, take the young child with you even though you intend to only be gone for a minute.

Creepers and toddlers require even more watching than babies. Items such as scissors, knives, razor blades, needles, pins, detergents, cleaning materials and medicines (especially candy pills) should be kept out of the reach of toddlers. Young children should be protected from all cooking and heating equipment. They should be guided away from electric switches and gas valves. Unused switches and outlets should be covered and small appliances and cords kept out of toddlers' reach.

First aid is part of the baby-sitter's responsibility. Many communities offer first aid courses that may be taken by any age baby-sitter. These include the schools, scouts and the Red Cross units. A small first-aid book is an important part of any sitter's equipment.

Consider the Sitter's Safety: Sitters are always admonished to admit no strangers, no matter who they might claim to be and keep all doors locked. It is also unwise, when strangers phone, to give information about the parents' whereabouts or when they are expected home. To further protect the sitter, it is a national custom to escort the sitter home after a night's job. The escort should be expected to be a good driver. If for some reason this might not be true, the sitter should call a member of her family, or if an adult, call a taxi.

Now that spring is here, things are a little easier. The "femaleman" doesn't have to carry the 35-pound mailbag on her shoulder but can use the cart. Although she has a different route everyday (including Clark and Colonia), she has become acquainted with many local residents and occasionally they invite her in for coffee. The weather is conducive to the six hour "stroll" allotted to delivering mail; she knows many policemen and children in the vicinity; and she has no trouble with dogs. Miss Rath is one of the few mail carriers who has never had an unpleasant encounter with man's best friend.

Her biggest complaints are the advertising "shop-pers" and samples which load up the mail pouch. And the uniforms! In her opinion, there are no adequate uniforms for women, so men's clothing has to be specially tailored for her. After many alterations, they still don't look right, she claims.

Miss Rath enjoys her job but wouldn't recommend it to just any woman. "The other mail carriers are friendly and helpful - but they expect you to pull your own weight. This is the way it should be. After all, you are on the same pay scale as they are," she said. Miss Rath is the first lady carrier in the Rahway Post Office, although there are some in Elizabeth and Linden.

In her off hours, Miss Rath enjoys long walks with her boyfriend. But mostly, she admits, they sit around the apartment relaxing.

Off-duty hours also have other compensations - as the slender young mailcarrier noted at the conclusion of the interview. Miss Rath straightened out her maroon-colored tie, pinned a stray hair into place, and said, "Now I'll go home and dress like a girl."

Furniture Cleaning Gets Easier

By Carolyn F. Yuknus
Senior County Home Economist

The dream of simply using a hose to wash down all the household furnishings has yet to come true but daily and weekly upkeep is getting easier.

Continued research has resulted in many improvements in finishes and cleaning equipment. For example, nonstatic finishes that resist surface soil have been incorporated into, or applied onto, hard and soft goods.

With these improvements dust and soil may settle, but do not cling or become imbedded in the surface of fibers. In many instances stains can be sponged away without leaving a mark.

Floors and floor coverings are easier to maintain. Resilient floor coverings are frequently coated with special finishes at the factory. The treated coverings are tough, durable, and resistant to scuffing and wear. Some wood flooring is prefinished to seal the pores. An occasional light waxing and buffing is all that is necessary.

Many cabinets and moldings are factory finished with a protective seal or coating. In the kitchen the film of grease will accumulate on top of the finish but will not be absorbed into the grain of the wood. The grease can readily be removed with a liquid household cleaner.

Carpeting of natural or man-made fibers is easy to maintain. Once a week vacuuming and light daily cleaning will keep carpeting in good condition.

Upholstery fabrics are treated with soil resistant finishes. Vinyl fabrics can be cleaned with soap and water or a specially formulated product. Leather upholstery should be treated regularly with saddle soap to keep it flexible. Many tables, chests, and other pieces of wooden furniture have special finishes or plastic tops to prevent scratching.

Although home care is easier, there is still the daily, weekly and monthly cleaning to be done.

A positive attitude toward cleaning, and good use of cleaning equipment will help to get the job done better and faster.

Bernard Solon Gets Fellowship For Research

Prof. Bernard M. Solon of 411 South Euclid Ave., Westfield, a former Rahway High School teacher and a biology instructor at Union Junior College has won a National Institute of Health fellowship to do research and study this summer at the University of Washington, and to do research next summer at North Texas State University.

Prof. Solon's research and study at the University of Washington will apply toward his doctoral studies at North Texas State University. His research is in the area of comparative study of in-flight transport of viable algae and protozoa by related species of odonata and hemiptera in the Great Swamp National Wildlife Refuge, the Pacific Northwest and Texas.

The Union Junior College biologist will continue his research during the 1967-68 academic year at the Great Swamp in Morris County. He will make use of facilities in UJC's new Science Building for his research project.

Prof. Solon won a National Science Foundation Science Research Participation Grant last summer to study at the University of Oklahoma Biological Station, Lake Texoma, Okla. In order to accept the National Institute of Health fellowship he had to decline National Science Foundation fellowships at the University of Puerto Rico and the University of Oklahoma.

When we talk about transportation, it helps put New Jersey "on the road" to new prosperity

Competition between states for attracting new industry is intense. Public Service is right in the thick of the battle, telling America's industrial community why business succeeds in New Jersey.

For example, we offer full details about New Jersey's excellent land-sea-air transportation system which gets products to market faster and more economically.

Why do we advertise nationally to attract new business and industry to New Jersey? Because when a firm moves into our state, more jobs immediately become available... "new" money circulates... New Jersey's entire economy is stimulated. We feel there is no better way to contribute to the continuing growth, strength and prosperity of the Garden State.
