

The Onlooker

By Len Ruppert

Hi, folks! . . . Well, we see that Joseph Takacs has taken the first step in the township committee race . . . In a statement issued this morning, the Ambrose St. candidate outlined his basic campaign platform, a four-point program which is explained in detail elsewhere on this page . . . After reading it through, we find that Takacs has formulated a sound and balanced program which should appeal to all . . . We agree wholeheartedly with most of his remarks.

When he says that there is a definite need for road expansion and road improvement, he is 100 per cent correct as the Township Committee meeting last night clearly attested . . . At the meeting, complaint after complaint was heard concerning the present poor condition of many of our "back" roads . . . These conditions cannot be blamed on the present committee . . . Joe Staudt and his road crew have been forced to Herculean efforts in keeping the thoroughfares open during the past winter and have been further hampered in their repair work by a shortage of materials . . . But, as Takacs so aptly said, "It is the township's duty to provide these newcomers (the new families which came during the war and are now building permanent homes here), as well as our older residents, with an adequate and well-kept road network."

His proposals for expanding the present recreation program, and making the idle Delaware and Raritan Canal again useful are logical and we are in complete accord with them . . . The recreation issue we have thrashed out before, so we will not bore you with a re-enactment . . . The canal issue is one that we feel very strongly on. We have lived about a block and a half from the canal all of our lives and Mr. Takacs' statement that it is "polluted" and "serving almost no practical purpose whatsoever at the present" is true in every way . . . His plan for beautifying the canal and developing it as a source of industrial water power is therefore one which we deem necessary and congratulate him for formulating.

But we think that the really important section of his "platform" is the section which maintains that the township must urge industry to locate factories within its borders as a means of reducing the back-breaking load now carried almost solely by the individual taxpayer . . . More money is needed if any progressive actions are to be successfully undertaken and the heavy taxes paid by factories is the most logical place to obtain it . . . Think that one over for awhile.

April is almost upon us and with election day not being too far away we expect to see the remaining committee candidates offer sound programs also . . . Takacs, the favorite in the Republican fight has taken the lead. It is now clearly up to his opponent, Adams, to make his stand known, which he must if he wants to turn the spotlight upon himself.

One thing we enjoyed during the recent Board of Education election was the method of campaigning followed by both sides. Both candidates for every post got together before various groups throughout the township and each

Food Inspection To Begin April 1

Stephen C. Reid, secretary of the Board of Health, announced last night that he and Dr. Irving Silber, township physician, will begin a thorough inspection of all restaurants, taverns, and other food-handling establishments April 1.

Licenses will only be issued to those establishments which successfully pass the inspection Reid said.

All food handlers must obtain a license and are urged to obtain them soon from the health board secretary. Reid will issue a license only to food handlers who can produce a physicians certificate. The inspection is expected to be fully completed by May 15.

Kingston Sailor Killed In Mishap

Funeral services were held in New York Wednesday for Torpedoman Mate 2-c Carl S. A. Sabine, son of Carl Sabine of Mapleton Rd., Kingston, who was killed in an accident aboard the aircraft carrier Leyte near Gravesand Bay, Brooklyn.

The Navy, which announced the accident Wednesday, said the 22 year-old seaman was crushed by a torpedo elevator aboard the carrier. The cause of the fatal accident is being investigated, the Navy stated.

Sabine entered the Navy shortly after his graduation from Princeton High School in 1945. His father is employed by the Kingston Nurseries.

Takacs Opens G. O. P. Campaign

Joseph A. Takacs of Ambrose street, candidate for the township committee nomination in the Republican primary, outlined his platform following a regular-Republican caucus yesterday.

Takacs, opposed for the Republican nomination by H. Malcolm Adams of Franklin Park, said he will base his plea for election on the following:

A widespread road expansion and road improvement program necessitated by the recent influx of small home owners.

Development and beautification of the now idle Delaware and Raritan Canal with emphasis on the development of water power for industry.

A well-rounded and closely supervised recreation program designed to combat juvenile delinquency.

Encouragement of industrial development within the township so that the need for additional taxation will not fall upon the already overburdened individual taxpayer.

A World War II veteran, Takacs will seek the post vacated by retiring committee chairman Russell E. Watson, Jr. Watson in a statement March 11, gave his support to Takacs.

Takacs has just rejoined the staff of Peat, Markick, Mitchell and Company, New York City accounting firm after serving the

past year as assistant comptroller of Pathe Industries. He formerly served as office manager for Hecker Products in Chicago, with the Mack Manufacturing Company, New Brunswick, and with the Mutual Life Insurance Company.

He is a graduate of New Brunswick High School and Pace and Pace Institute of New York.

Road Program "Needed" Explaining his stand, Takacs said that the need for a widespread road expansion and road improvement program has been made particularly acute by the recent rise in population. "As the recently completed school census clearly evidenced, the war years have brought many new families to Franklin Township. A building boom is now in progress. It is the township's duty to provide these newcomers, as well as its older residents, with an adequate and well-kept road network", he said.

Concerning the Delaware and Raritan Canal, Takacs said, "It has long been a source of annoyance to many residents. Embracing approximately 17 miles of township territory, it has become nothing more than a polluted dumping ground which is serving almost no practical purpose whatsoever at the present. If we must suffer its presence, the least we

Committee Hears Road Complaints

The last meeting was "complaint night" for the Franklin Township Committee. Over 150 Griggstown residents petitioned it to improve Canal Rd. "without any further delay", a Western resident appeared to ask the improvement of the Weston School House Rd., and another taxpayer requested that Howard Ave. be repaired at a meeting in Township Hall, Middlebush.

The committee also received a pat on the back for its efficient snow removal work and awarded bids for road repair materials.

In a letter received at the meeting, the Rauches said that it is seldom that the committee hears anything but complaints and that they felt the body should be commended on its excellent snow removal service throughout the past winter.

Thus fortified, the committee turned to the evening's business, only to hear Walter Mancheski, a greenhouse operator, complain that the Weston School House Rd. has seen very little repair in 18 years. He said that it was so bad that he recently had to have a wrecker remove his car.

"Doing All We Can"

Road department chairman Joseph E. Staudt admitted that the roads were in poor condition because of the hard winter but assured Mancheski that his department is doing all it possibly can to have them repaired and said that the necessary stone is now available.

Russell E. Watson, Jr., committee chairman, reminded the complainant that the present committee was not responsible for conditions 18 years ago.

The Griggstown petition, accompanied by a letter from the Griggstown Improvement Association, asked "immediate and urgent attention" regarding improvement of the Canal Rd. between Griggstown and Rocky Hill. The complaint said, "the situation is so serious and is creating such a hardship on the public that it warrants the immediate and urgent attention of this honorable board without any further delay."

Joseph Balta also appeared with a request. He asked if something could soon be done about the repairing of Howard Ave.

Resolutions Pass

Resolutions were adopted calling for the payment of \$200 each to the East Millstone First Aid Squad and the Community Fire Company First Aid and Rescue Squad, \$250 to the Visiting Nurses Association, \$375 to the City of New Brunswick for sewage disposal at the Veteran's Housing Cooperative Inc., \$452.88 to the county library as 1948's first installment, \$40,050 for the balance of the 1947-48 district school taxes, and \$10,847.91 as the first installment of the 1948 county taxes.

Award Bids

The Kingston Trap Rock Company and the North Jersey Quarry Company of Morristown, with quarries in Bridgewater township, submitted identical bids for furnishing stone for road work. The committee agreed to award the bid to both companies, purchasing stone as needed from either quarries in Kingston or Bridgewater.

Police Chase Ends In Wreck, Stolen Car Driver Injured

Local policemen were quoting the ago-old adage, "Crime doesn't pay" this week after a 1947 Buick sedan, stolen earlier from Raritan Township, was wrecked and its soldier driver was seriously injured when it crashed into a tree after a mile and a half police chase Sunday morning. The accident occurred when the soldier, Archie D. Neirs of the Camp Kilmer separation center, attempted to round a sharp curve at Wert's Corner while traveling between 60 and 70 miles per hour minus lights.

Neirs, 21, was taken to the Camp Kilmer Hospital in the East Millstone First Aid Suuad. At latest report, he was suffering from a possible fractured skull, possible internal injuries, and numerous lacerations and bruises. Hospital authorities described his condition as "serious".

The car, owned by Martin Lund of Fox Ave., Lindeneau, was said by Raritan Township Police to have been stolen from the parking lot of the Ye Cottage Inn, Highway 25, at 11:20 Saturday night.

At 2 a. m. Sunday morning, the car was spotted by patrolmen Douglas Wotchek and Russell Pfeiffer as it turned out of Franklin Blvd. onto Hamilton Rd. and proceeded toward Middlebush without lights.

The patrolmen gave chase and were close to the speeding car when it crashed. Patrolman Wotchek estimated its speed to have been at least 60 miles per hour.

A detainer charging Neirs with speeding and driving without a license was filed with Camp Kilmer authorities and the soldier is also faced with a larceny charge, preferred by Raritan Township police.

Driver Escapes As Truck Overtakes

Fred Lavore of Belle Mead, a driver for the Cook Transportation Co. of Bound Brook, narrowly escaped death or serious injury Wednesday afternoon when the huge truck he was driving locked its brakes and overturned on Canal Rd. not far from South Bound Brook.

Lavore told investigating State Troopers from the Somerville Barracks that his brakes locked just as he was turning back to the right side of the road after having passed a parked car.

He said that the big vehicle, which was loaded with a number of cases of empty soda bottles, skidded out of his control when the wheels locked and turned completely over on its side. He climbed out unhurt.

The truck, only slightly damaged after the mishap, was able to proceed under its own power after it had been uprighted.

THE ONLOOKER

presented his arguments so that the voters knew exactly where he stood.

We would like to see that system reenacted in the present campaign. Electing a township committeeman is a great responsibility for every resident. But if he is to make his choice wisely and not find himself flipping a coin to decide between two strange names at the polls he must see and hear each candidate in person . . . Therefore, we urge local civic groups, such as P.T.A. organizations, Granges, taxpayer groups, etc., to invite both men to speak before them . . . We spoke to Takacs concerning this and he assured us that he would be more than willing to do so . . . Once again, the spotlight is upon Mr. Adams. It is his move.

Miscellaneous Data: We wish a speedy recovery to our able Franklin Park correspondent, Mabel Wainer, who is a patient at Middlesex Hospital. Mrs. Wainer is the type of worker who does a really magnificent job all year round but is never fully appreciated until illness takes her out of action . . . We hope that she get well very, very soon because, to put it crudely, "we just can't do without her" . . . Orchids though to her husband, Irvin, who is keeping us posted on Franklin Park doings until her return . . . Best wishes also to Richard Voorhees of Middlebush who is also confined at Middlesex and to popular Millstone bus operator Ad Holcombe, who is at Somerset Hospital . . . Gee, we wish that warm weather would get here it's getting as that we never know what to wear mornings. When we think its going to be cold and wear a coat, it never fails to get warm in the afternoon. And vice versa . . . Oh, well, you can't have everything.

Extra \$ For Vets

Veterans enrolled in full time institutional training will receive an increase in subsistence allowance beginning in May. A veteran with no dependents who now received \$85 will be jumped to \$75. A veteran with one dependent will be increased from \$90 to \$105.

Veterans with two or more dependents, who now receive \$90, will automatically receive \$105. To receive \$120 now authorized, they must submit satisfactory evidence of the additional dependent to the VA. If such evidence is submitted on or before July 1, the increase will be retroactive to May 1. Otherwise it will apply only from the date of submission of evidence.

PTA Conclave Set

All social hygiene chairmen of local Parent-Teacher Associations are urged to attend a conference on family living at the Trenton YWCA Wednesday from 10 a. m. to 3 p. m. County social hygiene chairmen and county presidents of the seven central counties are expected to be present.

Mrs. G. S. Phipps of Chatham, will conduct the conference. She is chairman of social hygiene for the New Jersey Congress of Parents and Teachers and has a background of extensive training in health and physical education in adolescent psychology. She has taught in Temple University, high schools, elementary schools and nursery schools in Philadelphia, New York and New Jersey. Her wide experience as a civic leader, camp counselor, and lecturer on marriage and family life make her eminently fitted for statewide work in the social hygiene field.

can do is to clean it up and beautify it. There is no reason why the canal cannot be made into an attractive recreational area which will benefit all concerned."

"Even more important, the canal can be transformed into a source of industrial water power, thus making the township an ideal factory location site."

Favors Recreation

"As for a recreation program, I am definitely in favor. The present Township Committee has instituted such a program and its results over a two-year test period have been gratifying."

"Some people cannot understand why municipal leaders all over the nation are placing such an emphasis upon recreation. The reason for it is simple. Such programs have proved to be so valuable in successfully combating juvenile delinquency and in molding better youth in general that their importance can neither be ignored nor belittled."

"We send our children to school during the daytime and attempt to teach them better citizenship and then we turn them loose at night to roam the streets with nothing to do. Is it any wonder that more and more of them are turning to crime as an outlet?"

A well-rounded and closely supervised recreation program is needed to take up this "spare-time" slack. Therefore, I advocate an expansion of the present program and also the inclusion of activities for the older folks. Our aim should be to provide wholesome "spare-time" pursuits for all, "frox six to sixty."

"The question now arises. 'Where is all the money needed to carry out these advances to come from.' It is realized that the average small taxpayer is already overburdened and cannot be expected to relish the prospect of additional increases in his tax rate. This is rightly so."

Additional Taxation Necessary "But there is definitely a need for additional revenues. We must strive to obtain more state aid, particularly on the road program and we must also urge industry to locate here. The coming of factories to Franklin Township would not only provide additional, 'close-to-home' jobs, but would relieve the individual's tax load tremendously. Our township has always been primarily a residential one. We must make it an industrial one as well if we are to improve local conditions."

"The four proposals outlined above make up the basic 'platform' of my platform. In addition to them there are many local improvements, relevant only to ascertain districts of the township, which I will also endeavor to carry out, be the people willing. These I will make known at a later date."

Hospital Prices Rise

Increased operating costs have compelled Somerset Hospital to increase its charges, effective April 1. The new rate will increase semi-private room rates the most sought-after accommodation, from \$8 to \$9 daily. Semi-private room rates are priced only to cover actual costs and the new rates will compare to the \$8.50 daily hospital rate now allowed for insurance compensation cases, fixed by the New Jersey Commissioner of Labor.

The new schedule will provide Somerset Hospital with a 12 per cent increase in revenue from patients.

Doctors say that unless cancer is checked, it will destroy approximately 193,000 Americans in 1950, 227,000 in 1960, 261,000 in 1970, 290,000 in 1980, 313,000 in 1990, and 324,000 in the year 2000.

East Millstone
