

Princeton To Drop Contract For High School Pupils

Township school authorities, who have been gradually solving elementary enrollment problems, have just received another headache. By Sept. 1, 1961, The township must find high school facilities.

The Princeton Board of Education has decided to stop admitting township students to Princeton High School after the termination of a five-year agreement extending to Sept. 1, 1961, which was signed by the Board of Education and the Princeton Board, Dr. James Lynch, superintendent of schools, announced this week.

OF 500 LOCAL pupils who are receiving their high school education outside of the township, 130 of them are now attending Princeton High. The other students attend high schools in New Brunswick, Bound Brook, Highland Park and vocational high schools in New Brunswick and Woodbridge.

School Board said that the rapidly increasing school population in the Princeton area will require a termination of the board's agreement, signed Sept. 1, 1956.

The Princeton Board resolved that no new pupils from Franklin

after the termination date.

TOWNSHIP SCHOOL authorities received notification from Princeton last Friday. Dr. Lynch said, Princeton authorities adopted the resolution at their regular meeting Sept. 24.

Rezoning Question Still Up In Air

Homeowners Voice Opposition To Rezoning

Postponement Nets Planning Board Rebuke

More than 40 members of the Georgetown Improvement Association met Saturday for a discussion of proposed rezoning in the northern end of the township of 800 acres of agricultural land to residential. The group was unanimous in its approval of the following letter of protest to be sent to the Planning Board and to the Board of Education:

Gentlemen:
We, the members of the Georgetown Improvement Association, wish to express publicly our disapproval of the proposed rezoning of the area in question, namely the tract in the northern section of the municipality which is bounded roughly by Easton Avenue, DeMott Lane, Hamilton Street and Lake Avenue, which would result in the using of a plot of ground 100' x 100' instead of the now required 200' x 250' as a unit.

Albert Milchanowski announced to a crowd of some 150 disappointed spectators at Township Hall Wednesday night that the Planning Board was forced to postpone its regularly scheduled meeting because of a lack of a quorum on the board. Only Milchanowski and Fred Bascom of the seven man board were present. Proposed rezoning of 800 acres northwest of Hamilton Road from agricultural to residential A brought out many of the spectators, who came to protest the change discussed by the Planning Board two weeks ago.

The meeting was postponed to next Wednesday, Oct. 9. Milchanowski made his announcement at 8:30 p.m., but at 9:30 angered citizens, numbering close to 50, still jammed the meeting room and spilled out onto the lawn in front of the building.

OUR REASONS for strongly urging the withdrawal of the recommended rezoning are as follows:

1. Such action of the Planning Board now would be unseemingly hasty in view of the Master Plan for zoning the whole township now in progress.

2. Such action now could be construed further as bestowing favors on those developers with large land holdings, and as influencing the final approval for a subdivision now abutting this particular parcel.

3. This plan will not bring about a "more orderly development of the township" because:

a. Under present zoning no more than one minor subdivision (with one building lot) is permitted on a private right of way and the township assumes an obligation for that right of way. All other minor subdivisions must abut on already existing township roads, and all developers of major subdivisions must build roads to rigid specifications, this leaves the township responsible for maintenance only.

b. REGARDING control of developers as opposed to control of the individual homeowner, there is no area, with the exception of roads, sewers, and water improvements where the individual is less rigidly controlled than the developer.

c. Compromising our rather excellent zoning ordinance in this manner is not the only way to bring sewers and water into the township.

d. Neither is there a "sewer and

MICHAEL PEACOS, Democratic candidate for Township Committee, issued the following statement after the crowd dispersed:

"The campaign release which Mayo Siser and I issued just this week stressed the irresponsibility of our officials and their neglect and contempt for the will of the people. This performance certainly bears out the charges we made," said Peacos.

"Two weeks ago, when 80 people came to Township Hall for a special meeting of the Planning Board, they were told that the decision they came to hear had been postponed until the regular meeting, which is always held the first Wednesday in the month. Someone in the audience asked if the board would obtain the use of the Middlebush School for the regular meeting, and was told that this would be arranged. The fact that the school was not lighted," Peacos stated, "makes one wonder about Albert Milchanowski's statement that the failure to have a quorum of the board on hand was completely unknown until meeting-time."

THE DEMOCRATIC candidate added, "The hundred-odd citizens who killed an evening in an effort to participate in a civic obligation were rebuffed, but they will be back and they will bring more people with them. The issue cannot be avoided indefinitely."
—William Kohut, one of the leaders of the group of property owners.

Sidar Says Recreation Needs Not Pondered in Zoning Issue

The township Youth Guidance Council will strongly recommend to the Planning Board that further action on the rezoning of certain lands as proposed by the Jersey Development Company be postponed until such time as the developer has conferred with the Guidance Council and has made provision for recreation areas and facilities. Al Sidar, chairman of the council, told the RECORD yesterday.

Sidar said, "It is the opinion of the Youth Guidance Council that the present recreation needs of the township, as well as the increased burden that this proposed development may impose upon the present financial and physical resources, have not been given proper and complete consideration in this matter."

"DURING THE PAST two years," Public Invited to Opening Of Dem Headquarters

The township Democratic headquarters at 277 Somerset St. will be opened Sunday at 3 p.m. The public is invited to an open house from 5 to 5 p.m. County and municipal candidates have accepted invitations to the opening. Refreshments will be served.

Township Talk

Republican powers are beginning to realize just how big a political boohoo was perpetrated by the Planning Board in even suggesting the rezoning of 800 acres from agriculture to residential. Assuming a favorable recommendation from the Planning Board, Mayor James Maher and Russell Laird have signified their unwillingness to pass final approval on the issue in Township Committee before a master zoning plan is forthcoming from the Planning Associates of Princeton. Certainly nothing will or can be done by the committee before the November elections.

Less entrenched Republicans are scolding the old-time "ins" for making the Planning Board a completely Republican body. As far as we know there isn't a single "outsider," Democrat or Republican, who doesn't deplore the proposed rezoning. Where can the blame go but to the Republicans who appointed the board members entirely from their own ranks?

It must be pretty hard to remain a devoted party member when your own party wants to change your way of life to the

commented the chairman. "Franklin Township has made great strides in bringing its organized recreation program closer to the minimum needs of its expanding population. Without proper planning, this proposed rezoning could represent a giant step backward. "Recognized community planning authorities point out that failure to plan wisely in the selection of recreation areas and the development of facilities can result in costly mistakes. Overloading impedes satisfactory participation and invites accidents. In short, this defeats the very purposes for which these facilities are intended and invites the juvenile problems which many communities face today," Sidar stated.

He continued, "The American Society of Planning Officials and the National Recreation Association, among other groups, have set minimum municipal standards for play areas. The Federal Public Housing Authority has established these minimum standards for housing developments where lot sizes are small or otherwise limited.

Firemen To Hold 2-Day Fund Drive

The building and equipment fund drive of the East Franklin Volunteer Fire Company will be conducted Saturday and Sunday in the East Franklin area. Chairman of the drive is John Falgor.

Since the volunteer firemen do not receive support from municipal taxes, said President John Blasclak, then funds must be raised by drives, dances and other events.

The company, which was organized in 1929, built a new firehouse on Pine Grove Avenue two years ago. A 24-hour service by telephone change is only one of the many modern improvements of the company, stated Blasclak.

'Getting Acquainted' P.T.A. Theme

The Kingslon Laurel Avenue P.T.A. held its first meeting of the year Tuesday with "Getting Acquainted" as the theme. Teachers at the school were introduced by the principal, Miss Mary Cannon, as follows: kindergarten, Miss Kolten; first grade, Mrs. Ruth Snedeker; second grade, Mrs. Constance Profit; third grade, Miss Mary Foley; fourth grade, Mrs. Sprung, and fifth grade, Miss Cannon.

P.T.A. president, Mrs. Arthur S. Westcott, Jr. introduced the following P.T.A. officers and commit-

tee chairman: vice-president, Mrs. Donald Wolf, secretary, Mrs. Clifford Higgins; treasurer, Mrs. Haakon Hendricksen; membership, Mrs. Walter Morrison; publicity, Mrs. Wolf; hospitality, Mrs. John Murphy; budget and finance, Mrs. Phillip Wesp and Mrs. J. F. Seyforth, Jr.; library, Mrs. Paul Benson; playground, Mrs. Collin Lallaster, and program, Dr. Donald Wolf, Mrs. Ann Peacos, and Mrs. Profit.

The membership passed a resolution asking that the Board of Education set up a Lay Advisory Committee to study the high school situation. The resolution came as a result of an official announcement this week that students from Franklin will not be able to attend Princeton High School after Sept. 1, 1961.

Proposed rejoining of 800 acres from agricultural lots of one and one-sixth acres to residential A lots of 100 by 100 feet and its impact on our educational system was discussed.

Men's Club To Conduct Last Scrap Paper Drive

The Middlebush Men's Club will conduct its last scrap paper drive Saturday. Because the price of scrap paper is so low at the present time, it is not considered advisable to continue periodic drives in the future, a spokesman for the club stated.

Club members extended thanks to residents who had saved papers for the club. Anyone not living in the village area, may call Madison Weidner, VI 4-7088, to have papers picked up.

Hamilton P.T.A. States Activities

The executive board of the Hamilton School P.T.A. met Tuesday afternoon for a discussion of program for the year. The theme to be stressed will be "Participation, Tolerance, and Action."

A safety program is scheduled for Tuesday, Oct. 8 and will feature a safety film strip and a talk by a state trooper. A new P.T.A. president will be elected for the remainder of the year because of the recent resignation of Richard Byerley.

The Nov. 12 meeting will include classroom visitation and a reading demonstration. A Christmas film and grab bag prizes will highlight the meeting on Dec. 12.

water problem" in the agricultural area of the township. The township and the state have regulations governing individual water supplies and individual sewage disposal systems which are entirely adequate in properties of 50,000 square feet and over.

We would not overlook the impact of sewage and water in the search for industrial ratings for our township, and we take no stand on the matter now.

For the time being this "strip building" will leave areas of interior acreage undeveloped. There is no question but that with the excellent character of the people and the new homes being constructed in our township, and with the ever growing population of the area, that this "undeveloped interior" will attract home building on tracts of 1 1/2 acres or more in the near future.

4. FINALLY, you must consider the overpowering burden which your proposal will impose on the citizens of the township in terms of an increase in school population. It is generally conceded that even if a developer were to provide the entire capital investment needed (land, buildings and equipment) that each dwelling in the development falls to pay its share of operating expenses by a considerable margin.

Therefore, we again urge you to reconsider and withdraw your proposal.

Very sincerely,

From The Mailbag

Dear Editor:

Where was the Planning Board Wednesday night? A room full of people showed up to hear zoning problems discussed, only to be told the meeting was postponed because of no quorum.

Are our board members so busy attending to other affairs that they cannot fulfill their responsibilities?

Or are they afraid to face the public? Is this why they have dodged the rezoning issue for the second time? Or do they have something to hide? Has a secret deal been made which will be disclosed when the situation simmers down? Perhaps they feel the crowd will disintegrate by the next time?

Whatever the reason, it seems the Planning Board is lending truth to whatever suspicions the public may have by not attending announced meetings.

Sincerely,
Ann Weiss

The WORLD OUTDOORS

THE crocodile and the African lion perhaps have outstanding reputations as killers of animals and men. In cinema and in fiction they attack without provocation. We see it, read it and believe it. The next day we go to the circus to watch a man enter a cage full of lions or visit a carnival where a man playfully wrestles an alligator or a crocodile. We think the performer is courageous—or foolish, but it does not occur to us that courage, or the lack of it, would help him not at all if the lion or crocodile were as "vicious" as they are always painted.

Actually, two things make "killers" of the creatures of the wild—hunger and pain. The lion will bask in the sun, paying little heed to his surroundings, until the pangs of hunger send him forth in search of a tasty victim to fill his stomach. He doesn't kill for fun, although when wounded, he may kill anything that crosses his path. The crocodile prowls the banks of the river, but once his appetite is satisfied, his aggressive temperament is somewhat diminished.

Few animals go out of their way in search of trouble, whether they be wild or domesticated. Driven by hunger, pain or hurt, man's "best friend," the dog, can become deadly and treacherous. Even the ground squirrel, when hurt or diseased, has been known to attack man. Fear likewise makes a "fighter" of the most docile animal, since practically all creatures have an instinct for self preservation.

There is, of course, some viciousness in the animal kingdom. But there is likewise a certain amount of it in our human civilization. Luckily, it is the exception rather than the rule in both instances.

A good education is the masterpiece to the door of success.

"I REMEMBER" BY THE OLD TIMERS

From Mary Overstreet, Leigh, Nebraska: I remember when we burned buffalo chips, corn stalks, corn cobs and sun flowers for fuel and thought we were well provided for, too. We traveled with an oxen team when we did not walk. We walked two miles to school and were none the wiser for the exercise.

Until I was ten years old (I am now 88), my mother made all our clothes by hand and knit our stockings and mittens.

We were a family of six, living on a 160-acre Nebraska farm. Neighbors were a mile or more apart. If we were so fortunate as to have a tenant on the little shanty 1/4 mile from us, we were thrilled. At least, we children were. The sort of character it happened to be tempered the thrill for the parents, I believe.

We were 24 miles from a post office and received and sent mail only when a neighbor went into town.

From Paul Morgan, Los Angeles, Calif.: Remember when little girls and boys could blush? And were seen and not heard? Remember when folks dropped in for Sunday dinner and the kids had to wait "second table" they would peep through the doorway to see if there would be any food left? There always was. Remember when little boys and girls played "house" and ran barefooted through dried sand bars and come Sunday had to squeeze sore feet into a tight pair of new shoes. Those were the days.

of 100 dwellings. For larger developments, the minimum is increased by 120 square feet per additional dwelling. Such recreation areas for school children and adults must be available conveniently, preferably within the development. It is further recommended by the FPHA that a minimum of 25 square feet per dwelling be set aside for recreational purposes for each pre-school child and each school child under eight years of age," reported Sidar.

"Aside from the area considerations, financial and personnel problems are presented by any large-scale developments. In increasing the number of township play areas from five to nine during the current year, the Youth Guidance Council has been fortunate in securing the services of high quality supervisory personnel. This high quality may be jeopardized if disproportionate demands for personnel in new areas arises without proper planning. Increased personnel, of course, will mean increased costs, which must be planned for and budgeted," Sidar added.

He said, "The projected future plans of the Youth Guidance Council involve the improvement of the physical facilities at each of the present supervised play areas and at those proposed for the near future. Available funds for these needed facilities will be drained if new areas required for any large-scale developments are not provided with minimum facilities by the developer.

"THIS IS merely a summary of the Youth Guidance Council's objections to any immediate action on the proposed rezoning, with no attempt to detail all the possible problems which must be considered. It is our position that we are unalterably opposed to any large-scale developments within the township without proper planning for adequate recreation facilities, such facilities meeting at least the minimum recognized standards, stated the council head.

"The Youth Guidance Council will be happy to confer with the Planning Board, the Township Committee, and any developer to review what is proposed for recreation in any area in question, as well as stipulate what the Youth Guidance Council considers to be minimum requirements," Sidar concluded.

extent of doubling your taxes and changing your community from one of semi-rural beauty to one of bursting urban development.

If 20 per cent of the voters adjacent to the land proposed for rezoning sign a petition opposing the down-grading of the land near them, it will force the need of a four-fifths vote of the committee to pass the measure.

Last Thursday night at 10:30 Mayor Maher rapped his gavel and adjourned the Township Committee meeting in spite of the fact that there were still several hands raised among the spectators. Democratic candidate for the committee, Mike Peacos, (whose hand had been one of those in the air) took the mayor to task for not giving the citizens a chance to be heard. Maher explained that he and the rest of the committeemen had been there long enough. As it turned out, they apparently hadn't been, for there was still a committee quorum (including Maher) present in the meeting room, at 11:15. However, the politicking that goes on after the meetings may be fully as important, depending on how you look at it, as what goes on in the official session.

Vera Merrill, crossing guard at Middlebush School, says we could get a complete column out of the comments of the youngsters on their way to and from school. One little boy said his "Mommy and Daddy talked real loud this morning," and his companion answered, "You're lucky, mine aren't talking." Vera doesn't follow up these remarks, but she is pleased to hear how happy the first graders are with their "beautiful new teacher." Mrs. Lucille Fowler, who taught sixth grade at Middlebush last year, was persuaded to fill in the first grade vacancy when a new teacher resigned three days after school started. We're lucky to have Mrs. Fowler back.

There is a great deal of courtly

charm and dignity missing from township meetings when clerk Fred Bascom isn't around. The meetings had gotten so "hot and heavy" recently, that we got into the habit of turning to Mr. Bascom, who kept his head while others fell about him were losing theirs. He's up and around again, however, and we're already looking forward to again watching the contrast between gentlemanly manners and hot-headed rabble rousing. Someone should hang a sign on the door to Township Hall: "More flies are caught with honey than with vinegar."

Twenty four members of the Ladies' Auxiliary of the Middlebush Volunteer Fire Company are going to "live it up" at Sally's Restaurant Monday. The ladies certainly deserve their celebration since they've spent as much energy raising money as their husbands have spent raising fires.

Just a reminder to start saving up your appetite. The Middlebush Reformed Church is having its annual turkey supper Oct. 19. If the food is as good as always, you're in for a treat at a reasonable price. Call Miss Harriet Voorhees at VI-4-2535 for reservations. E. W.
