

Awarding of Transportation Contract Touches Off Talk

Township Talk

On the ballot in the election, which is less than two weeks away, will be two questions which have received very little attention to date in a campaign which has been more noted for heat than for light. Both questions concern your pocketbook, directly or indirectly, and both are of as vital importance as the man you elect to fill township offices.

One concerns the question of whether or not a board of part-time tax assessors should replace the full-time single assessor under the present system. This column has gone into the pro and cons of this issue in previous weeks, and we'd like only to say now that the question merits your attention and study. What it boils down to is this: Do you think that a man willing to work full time for \$5,000 a year would be able to keep assessments and appraisals up to date? We, the taxpayers, have just spent \$32,000 to have township property reappraised, to put back on its feet a system of records and a mode of operation that had headed for the sickbed with inequities and injustice. Let us not return to the system that made us sick in the first place.

The other question offers the taxpayer a chance to make a small investment with the likelihood that it will be returned with great dividends. It concerns setting up a Charter Study Commission to study and investigate our local government and other forms of local government, and to recommend to the voters in a future election, the most efficient and economical system to be found. It is possible, though not probable, that the very set-up which we have would be recommended. Our present local government has been pointed out by other municipalities and state officials as being antiquated, expensive, and inefficient. We have nothing to lose, then, in investigating for ourselves other possibilities.

The RECORD believes that the best interests of the people of Franklin would be served by voting yes on the Charter Study Commission and the Board of Tax Assessors on Nov. 5.

Roberts, whenever he was, would curdle if he could see the use to which his "Rules of Order" are put.

Transportation again became a major topic for discussion Monday night as the Board of Education accepted bids on a minor transportation contract at Middlebush School. The low bid of \$450 by Mrs. Priscilla Panellert to carry two children from Cedar Grove Road to Middlebush School, approximately one mile, was accepted only after considerable discussion.

Louis Loeb of Amwell Rd. suggested that the \$450 be used to defray the cost of a private bus now paid for by parents in the area, and that the bus pick up the two riders for whom the board must provide transportation because of medical reasons. The bus now costs 20 cents per day per child but the board would thus pay \$1.50 per day per child for the two extra children, according to Loeb's plan. President Leonard Hardsley explained that if the bid were not awarded in good faith to the low bidder, competitive bidding on future transportation contracts would be difficult to obtain.

THE BOARD awarded a contract for paving of the parking area at Pine Grove Manor School to the Janarone Engineering Company at a low bid of \$7,775.50. The parking area at the Elizabeth Avenue School will be paved by the Blacktop Construction Company for a low bid of \$2,642.50.

The Phillips School in Franklin Park will be used by the Six Mile Run Reformed Church for Sunday School classes during remodeling of the church. This and other questions of use of school facilities by outside groups brought up a general question of fees for such use. Charles Papp of the Civic Betterment Association questioned the fees charged non-profit meetings of civic organizations with low budgets. The schedule of fees will be reviewed and studied by a committee.

The board instructed attorney Robert Gaynor to ascertain the price of five lots on Franklin Boulevard which serve as a buffer between present school property and Hollywood Homes.

WALTER CAMPBELL, building and grounds committee chairman, announced that a new well in the East Millstone School had cost \$500. The old well was polluted and did not deliver enough water.

Board secretary Mrs. Florence Randolph, and school superintendent James M. Lynch were authorized to spend up to \$500 in an emergency without board authorization in order to keep schools open.

Committee Backs Down On Plan Board Resolution

The Township Committee last night backed down from the Oct. 10 resolution on rezoning following the request by the Planning Board for an explanation of the resolution.

The Committee on Oct. 10 went on record as opposed to reducing required lot sizes in any area before the master plan of the township was completed. Michael Lisi, lone Democrat on the Committee, voted no at that time with the explanation that the question of rezoning was before the Planning Board and not yet within the jurisdiction of the Committee.

MEETING in special session last week, the Planning Board took the governing body to task for its resolution and said that if the Committee was going to rule on matters under study by the Planning Board, then the Board had no reason for being.

Last night the Committee asked the Planning Board to meet with the Community Planning Associates of Princeton, who are doing the master plan, when any changes in zoning or planning are under study. Lisi again voted no, saying, "It is not the prerogative of this Committee to make resolution on matters before the Planning Board."

Thomas Brady of Park Street, pointed out that the letter to the Planning Board virtually negated the resolution of Oct. 10. "The original resolution asked for completion of the master plan before rezoning," he stated. "The second asks for consultation with the planners while rezoning is under study." Mayor James Maher agreed.

Vincent Calvo of West Parkway, expressed concern over a Democratic press release charging that police officers were intimidating people. Michael Peacos, Democratic candidate for Township Committee, said that he would turn the information, concerning a part-time policeman, over to Police Chief Ed Voorhees.

THOMAS REILLY of 9th Street asked what was being done about the removal of topsoil from township owned land at the site of the school now under construction on Franklin Boulevard. Maher explained that the Jones Contracting Company had been given permission to strip the soil in the acreage off of "paper street". The Committee agreed to meet with the Jones firm.

Township Penalized By State For 'Courtesy Riders' Parrish

Orville Parrish, transportation coordinator for the N.J. State Department of Education, Wednesday night answered questions on school transportation in the township. Parrish spoke to the lay-advisory committee on transportation set up recently by the Board of Education.

State aid to school districts in the transportation of pupils is set up so that the state will pay 75 per cent of the cost of school buses, which carry children outside a two-mile limit of the school. The district is penalized by the state for each "courtesy rider" picked up within the two-mile limit, Parrish explained. Because of "courtesy riders" in the last school year, Franklin received only 70 per cent

of its transportation bill in state aid.

THE STATE spends thirty times more for transportation to schools than it does for education, Parrish continued, and Franklin transported 81 per cent of its students last year compared to a state wide average of from 23 to 27 per cent. Parrish recommended that "A 1 schools" come first and that transportation be considered secondarily.

The municipality, not the Board of Education, he emphasized, is responsible for the safety of children going to and from school.

State Senator John Lynch of Middlesex County is sponsoring a bill, now in committee, which would increase state aid in school transportation. But Parrish warned, if the two-mile limit is cut down to one mile, so many more children would be included that the annual transportation bill would increase from the present one million dollars to four million. The percentage paid by the state would be likely to be cut from 75 per cent to 40 per cent, he said.

PARRISH WILL seek clarification of the two-mile limit from County Superintendent Ernest Gilliland. It is not certain whether or not the distance is to be measured from door to door or from property line to property line. The transportation advisory committee will meet again next week at Pine Grove Manor School on Wednesday at 8 p.m. for further discussion of the problem.

CBA Slates Meet For Explanation Of Study Unit

Residents of Franklin will have an opportunity to meet the candidates for the Charter Study Commission at a meeting sponsored by the Civic Betterment Association, Thursday, Oct. 31, at 8 p.m. in Township Hall, Middlebush.

Since there will be no formal association business, ample time will be devoted to an explanation of the purpose and responsibilities of a Charter Study Commission.

A spokesman for the CBA said, "We know that many of the voters have questions about this particular referendum, and November 50 isn't far away, so we hope this will be the golden opportunity to provide the answers for many people."

'Haunting' Music Planned For Gala Parade

The spirit of Halloween will reign supreme at the township Halloween costume parade on Thursday evening. Even the music will be provided by costumed goblins, ghosts and witches. The Edison Drum and Bugle Corps, directed by Ed Kiltren, will enter into the spirit of the occasion by appearing in Halloween costumes.

All township children are invited to participate in the annual event, sponsored by the Franklin Lions Club. Line of march for the parade, which will begin at 7 p.m., will be up Hamilton Street from Hawthorne Drive to the Community Volunteer Firehouse. Participants should be at Hawthorne

Drive at 6:30 p.m.

FOLLOWING THE parade, cash prizes will be awarded at the Firehouse for the prettiest, most original and funniest costumes. George Shamy, township magistrate, will take a break from his duties of judging accused lawbreakers to judge best costumed youngsters. Others judges are Joseph Frankowky of ABC Neon and Paul Repasy of Repasy Arts.

Awards will be made for school age boys and girls, with first, second and third prizes in each category. Separate cash awards have been provided for pre-school children's costumes.

Rain date for the parade and contest will be held the following evening, Nov. 1.

THE LIONS' Halloween window painting contest began Wednesday. Paintings will be judged this Saturday.

Cash prizes will be awarded to winners at the Community Firehouse on Oct. 31, following the parade. Separate first, second and third prizes will be given for the best windows painted by sixth, seventh and eighth grade pupils.

Judges for the window painting are Frankowsky, Repasy and Richard Warn, Art Director of Washington Forge, Inc.

Laird, Jackson Brand Dem Opponents 'Flip-Flop Artists'

Republican candidates for reelection to the Township Committee have attacked their opposition as "a pair of political flip-flop artists" and centered their fire on one of the candidates as "dangerous on the question of taxation."

GOP Committeemen Russell Laird and Charles Jackson, candidates for reelection, said that both Democrats "have made previous remarks on issues that don't come out this way now during the campaign."

"ON THE question of taxes," said Laird, "We find our perennial candidate from the southern end of the township doing his greatest flip-flop of all. In past years we have heard him shout that rising taxes are no concern of his and that this is a rural community and should stay that way and that people should be willing to pay for this rural aspect without being helped by business and industrial rates."

"And now," continued Laird, "We find this flip-flop champ talking in another breath in his print-

ed campaign propaganda, about how he "favors growth of desirable industries, thereby easing the individual tax burden."

"And not many months ago when the Township Committee was considering a rezoning proposal for industrial development," said Laird, "this political gymnast did it again. He opposed the proposal vocally and now he accuses the Republicans of dragging their feet in bringing in attractive industry and champions industry to help ease the tax load."

LAIRD ACCUSED the Democrats of being silent on the road issue "since their compatriot in the party is the chairman of the road committee." He said since Lisl is chairman of the road committee and works all day, "he cannot give any of his daylight hours to township affairs. This is a flip-flop too, and the same one that the present Democratic candidates will take because he's all for keeping the committeeman's job on a part-time basis insofar as service to the

people is concerned." Laird declared the Democrats had already gone on record on this point.

"Republicans, Democrats and independents alike should be warned before going to the polls," said Laird, "that this is probably the greatest political gymnastic team in the history of Franklin Township. They are politically the outs and are always against right now, but when it comes time for elections, they are now for all those things they formerly opposed."

"AND THERE should be a warning too to beware of the candidate who takes such an airy view of taxes. Right now he talks different—but he's a specialist in flip-flopping and he could flop back with the greatest of ease."

Neary Marks Birthday

Bruce Neary, son of Mr. and Mrs. John Neary of Hamilton St., was given a party last week in his home in honor of his seventh birthday.

Guests included Norman Plimie, Greg McClure, Wendy Zolla, Susie Thompson, Charles Deak, Taffy Spell, Carol Stells, all of Middletown, and Robert Hull of New Brunswick.

'Threats, Rumors Are GOP Weapons,' Charge Dems

Michael Peacos and Mayor A. Sisler, Democratic candidates for Township Committee, charged this week that "rumors and threats seem to be the secret weapons" of their Republican opponents.

In a press release Peacos and Sisler said of their foes: "They have made every effort to avoid the issues. The only time they agreed to meet us in public, at the candidates' meeting of the Georgetown Improvement Assn., Mr. Jackson said he didn't want to make a political speech. Mr. Laird never bothered to show up at all."

"HOWEVER," continued the Democrats, "their reluctance to debate the issues does not mean that our opponents and their political cronies have been idle three weeks. Here are some of the things that have come to our attention:

"Township employees have been threatened with dismissal for supporting us. Other township employees have been told that they will all lose their jobs if the charter study goes through.

"One party worker found that an official of the township complained about him to his employer."

"A MERCHANT who was going to allow one of our signs to be put up on his property was threatened with boycott."

"A part time policeman, who also gambles in politics, told a man when he picked up on the road 'I really didn't want to do it, but Mike Peacos reported you.' This was, of course, a barefaced lie. The same man has told people that we are sick, that we aren't speaking to each other, and that we have made deprecating remarks about the nationality of whom he happens to be talking to," charged Peacos and Sisler.

"Everyone who has followed our campaign knows, of course, that we are alive and kicking, united, and that we have worked hard for

equal rights and privileges for every citizen of the township regardless of race or political affiliation."

"IT IS PUBLIC knowledge that one of their most sub-standard houses in the township is owned by a local official. Water freezes on the floor in winter. It has been there for a number of years but no health officer or zoning inspector has seen fit to condemn it. The rent is \$40 a month. If the tenants are admitted to the housing project, as they certainly deserve to be, will this menace to health be torn down, or will it be rented to some other unfortunate family?"

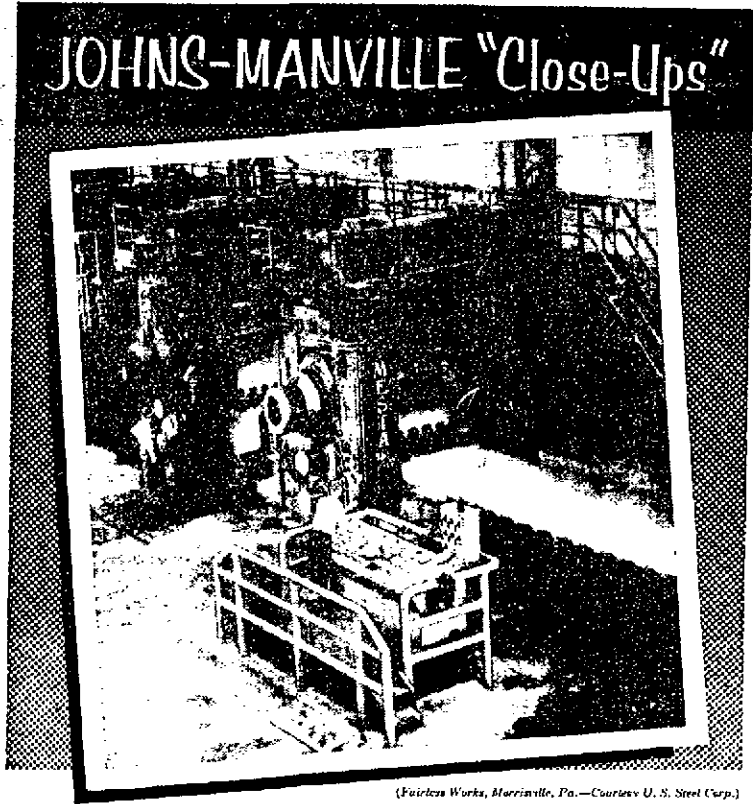

"These things are almost unbelievable in this day and age. Yet we can prove every statement we have made," concluded Peacos and Sisler.

William B. Hughes, candidate for assessor, added, "In my visits around the township I have been told by a number of people that they had in the past been given to understand that any support of persons opposing the machine would be reflected in their assessments. Thank goodness the reappraisal program has stopped this threat for the present, and if I am elected there will be no revival of it."

"THE PEOPLE have learned that they can appeal assessments to a non-partisan county board and need no longer fear the reprisals of the little Caesars who have reigned in Franklin. There are definite rules set up by the state for the assessing of property. If I am elected these rules will be followed to the letter," Hughes declared.

Archer, 15, Bags Deer

Frank Finch Jr., son of Mr. and Mrs. F. J. Finch of Coopers Pt., East Millstone, shot and killed a "buck" deer with a 45-pound bow Monday afternoon. Frank, 15, a student at New Brunswick Senior High School, bagged the deer less than a quarter of a mile from his home.

Hot Steel Going To "Press"

WHITE HOT STEEL rushing out of six finishing rolls at speeds up to 2,300 feet each minute (as above) resembles the 5-star edition of a metropolitan newspaper going to press.

White hot slabs of four to six inch steel are squeezed by high pressure rollers into fractions of an inch thickness.

The enormous heat plays a great part in softening steel for this operation and many other needs of the Steel Industry. Up to 3,100 degrees Fahrenheit are registered in the smelting of iron ore in the blast furnaces. Such high temperatures work hardship on equipment and some-

times create difficult working conditions.

J-M people help the Industry solve these problems through continuous development of new and improved insulation for all kinds of steel production. They have also developed asbestos textiles for protective clothing that is widely used in the Industry.

Steel is only one of the major industries which the J-M team of research scientists, production people and sales representatives serve continuously. Their contributions help these industries make our standard of living more efficient, modern and enjoyable.

Township Talk

(Continued from Page 1)

In Franklin or "not put," as is more frequently the case. Where do people get the experience that teaches them that public meetings may be turned into brawls? May anyone assail the Senate of the United States, the Supreme Court, or a cabinet meeting with a diatribe on the price of cheese in Wisconsin? May anyone, anywhere, address elected officials or appointed ones with the rudeness, the insults, the general lack of courtesy shown in this township?

Admitted, there are many wrongs to right in Franklin, but the place to do it is at the ballot box, or in a calm and courteous manner when invited to speak at public meetings. Knowledge of poor governmental practices may be spread without screaming at public officials who are trying to accomplish the work for which they were elected or appointed.

Public meetings are not necessarily public hearings, evidence to the contrary notwithstanding. Ours is a representational democracy, not a direct one. The voices of the people are heard at the polls. Let the votes on Nov. 5 be many and loud.

It is wonderful to know that the people of Franklin can agree to disagree in as amicable and mature a fashion as has been exhibited recently. The homeowners of the Franklin Hillside-Park area are fighting tooth and nail the proposal of the owners of the cooperative apartments nearby to erect a swimming pool in a buffer zone between the two areas. The homeowners feel that the swimming pool would be a nuisance and lower their property values and that the necessary variance would weaken the zoning code. The proponents of the pool believe that it would increase their property values and provide necessary recreational facilities.

But while the tooth and nail fight goes on, people of both areas are cooperating hand in glove to provide the entire area with library facilities. The hard work going into the formation of the library

belies the bitterness of the fight over the swimming pool and serves to point up the maturity and good faith of those involved on both sides of the swimming pool fence.

Miss Hilda Pennell who was in charge of the turkey supper held at the Middlebush Reformed Church last Saturday is feeling quite happy that the affair netted nearly \$800. Miss Pennell wishes to thank all the friends and neighbors of the church who helped to make the supper such a success, gastronomically and financially.

E. W.

From The Mailbag

Dear Editor:

Russell Laird, as spokesman for the Republican candidates, attacked as a "flip-flop gymnast." This is another example of how little he knows about what is happening in Franklin Township and it also points out the type of irresponsible people who are in control of our destiny. His half-quotes and misquotes are meant to confuse the public just before election. He cannot prove a single thing he says by direct quotation.

Mr. Laird had an opportunity to appear at a public meeting (with all the candidates), where he should have told the public these things in my presence. He didn't appear. Was he afraid to accept the challenge?

The Democrats have not been forced into gutter politics because we have been able to campaign on issues based on facts taken from our township records. Because of this we haven't been afraid to appear before the public whenever we have been invited. In fact, we have welcomed the wonderful opportunities our fellow citizens have given us to do just this.

I feel that my past record in the township speaks for itself. Five years ago I campaigned for a new master plan to provide for orderly growth of our township. I also pointed out the need for sewers and water if we wanted to become a modern, progressive community

and, at the same time, provide the attraction for desirable industry. Even as far back as the WPA days, I advocated the use of available federal funds for projects which would be of lasting benefit to our township. However, the forefathers of our present machine felt it was better to rake leaves out of the ditches! If I am such a "flip-flop gymnast" why have the Republicans stolen my previous platforms and

actually put them into use? Why couldn't they have been a bit more original? I face the citizens of Franklin with a clear conscience because I have made commitments to no one. Therefore, I do not have to "sloop to conquer."

I have mentioned only a few of the many things I have stood for. If Mr. Laird wishes to discuss other items such as taxes, downgrading of zoning, conduct a town-ship hall and inconsistent actions

of public officials; if he wishes to repeat his charges against me publicly I extend to him and his running-mate an invitation to appear at a public meeting at Pure Grove Manor School on Oct. 26, at 8 p.m.

Yours truly,
Michael Peacos

The Henry Davis family of 32 Holly St. is entertaining Mrs. Davis' sister, Mrs. Ladowski, Staff Sergeant Richard Ladowski, and their three children. The Ladowskis are on their way from France to the staff sergeant's new station

in Colorado Springs. This is the season for Sputnik and the Asiatic flu. On Tuesday night everyone on Arden St. was out looking for the Russian satellite. At the appointed hour several lights crossed the sky, and it was never determined whether they were airplanes or Sputnik.

AS FOR THE Asiatic flu, space does not permit us to give all the sick reports. Suffice to say that one harassed commuter we know has three of his family members ailing now, and his life is pretty hectic.

Little Jeff Sandler broke his thumb and had it set at a hospital.

We hear that Ralph Golding of

48 Arden St. has been in and out of the hospital. Best wishes to Ralph who is one of the active workers in the Hollywood Home-owners Association.

We apologize for the jumble in last week's column. It was really two weeks columns put together, and we failed to leave sufficient instructions on what to take out and what to leave in.

open. Water failure in East Millstone and at Pine Grove Manor School prompted the authorization.

Campbell also reported that the Ajax Construction Company had replaced the topsoil removed by them on nine acres of land at the site of the Elizabeth Avenue School. The area was limed and seeded as well. Mrs. Randolph reported that Mr. Leichtung, representing the Pine Grove Coopera-tive Apartments had "generously offered" to spread topsoil, presently stored on school property, around both wings of the Pine Grove School to bring up the grade and level off certain low areas.

TOWNSHIP PTA presidents will be invited to a meeting of the Board of Education to discuss PTA liability in after-hour use of school facilities. Mrs. Robert Guilfoyle, county PTA president, will speak. The meeting will be at Pine Grove School on Nov. 4 at 9 p.m.

Mr. and Mrs. H. Zwickowicz of Cold Ave appeared before the board with a plea that their third grade daughter be allowed to remain in the morning session at Pine Grove School. She had been transferred to the afternoon session because of overcrowding in the morning. The parents demonstrated hardship to the child because other members of the family attend the morning session, the distance from the school is nearly two miles, and there have been leishmaniasis and maulers in the area. The board discussed the possibility of creating another morning third grade class (there are now two of 35 and 36 pupils) in order to eliminate overcrowding and the resulting transfer of pupils. The matter will be discussed in committee.

The Board agreed to revert to standing committees from committees of the whole in order to expedite business and with the hope of shortening hours spent in committee meetings. Chairmen of standing committees are as follows: Building and grounds, Walter Campbell; finance and supplies, Joseph Takacs; instruction and personnel, Arthur Westneat, Jr.; cafeteria and health, Mrs. William Pattison; planning and legislation, Dr. Lyle Hagmann; and transportation and safety, Milton Stoll.

THE TOTAL enrollment of township pupils is now 2,869 with 2,234 attending local elementary schools. Westneat reported that 35 applications had been received for the position of superintendent of schools. Dr. Lynch will retire in June, 1958. The applicants have been narrowed down to three, but the board is still looking for "men of the highest caliber to guide the school system under rapidly changing conditions," Westneat announced.

Westneat also mentioned that township citizens must begin to

think about building a high school. Princeton High School will no longer accept tuition pupils from Franklin after September 1961. It was announced recently. There are presently 131 township residents attending the school.

The board approved teaching contracts as follows: Mrs. Virginia Scharf, B. S. from Bowling Green State University of Ohio, 1 1/2 years experience, \$3,875; H. Richard Smith, B. A. from Kings College New York, 1 year experience, \$3,800; Mrs. Lucille Fowler, M. A. University of Minnesota, 15 years experience, \$4,750. Dr. Lynch announced new state required minimums on teachers' starting salaries and increments to be effective on Jan. 1, 1958. Increments will be raised from \$150 to \$200 per year. Starting salaries will be \$3,600 without degrees, \$3,800 with bachelors' degrees, and \$4,000 for masters' degrees.

NEWLY APPOINTED board member Jacob Seylarth read a recommendation by Hagmann who was absent. He asked that the board write to the Township Committee asking them to give consideration to an ordinance enabling the Planning Board to consider school needs in reviewing applications for major subdivisions. The recommendation was approved by the board.

Since the Township Committee has not acknowledged three letters requesting action on walkways in the vicinity of the soon to be opened Elizabeth Avenue School, Milton Stoll was asked to attend the Township Committee meeting yesterday to request such action.

auto dump on Willow Avenue, and Snyder and others Garage on Hamilton Street.

Lisi quoted zoning officer Carl Erbacher as asking, "Why should I go out and make enemies of small violators when our attorney doesn't do anything about the big ones?"

Attorney Robert Gynor stated that all the violators Lisi mentioned were coming up in court. "Ask Erbacher to point out specific instances where the attorney has not cooperated in prosecuting zoning violations," he demanded.

John Barsnica of Hamilton St., near Lake Avenue, complained of noise, dirt, trespassing and other zoning violations of the Snyder Garage on Hamilton.

Heily asked what was being done about "five house foundations laid in a brook" on Franklin Park Way.

Committeeman Russell Laird explained that rerouting the brook and fill dirt on the outside of the foundations would clear up the

problem. Maher stated city sewers and water were being brought in.

Peacox asked, "Who's doing it? Manor House Estates?" Maher said, "Nobody's doing it, but they're at a standstill. Somebody will have to do something."

FRANK WILLARD of 28 Arden St., declared that he had seen hundreds of zoning violations in the last few months in Franklin Township. "What is the zoning officer doing?" he demanded. Gynor said that Erbacher had many other duties besides "ferreting out violations" and spent a long eight to ten hour day.

Willard replied that urban renewal and the Housing Authority were costing a lot of money, and were the result of unprosecuted zoning violations. Maher told him that he had not lived in the township long enough to know that there were a lot more violations two years ago and the township had been cleaning many of them up.

James Brown was appointed a regular police patrolman having completed his probationary period.

The Committee approved payment of \$4,671.97 to the A and D Excavating Company for improvements to DeMott Lane, Section 2.
