# PREFACE.

In presenting this, our first Directory of Jersey City and Hoboken, we wish to thank most cordially those business houses and professional men whose names appear in capital letters throughout the book, and the inhabitants generally, for the encouragement and very large measure of support they have so willingly accorded us.

We did not come before you as entire strangers, our Mr. Churchill having resided in Jersey City for the past seven years; and he now wishes to thank those with whom he came in personal contact for the extreme courtesy and good wishes he received from one and all.

In compiling this Directory we started entirely anew, ignoring, in every particular, what had in former years been given to the public. Our work will show that a painstaking and conscientious house to house canvas has been made by our men, who were of an exceptionally high order of intelligence, and understood their business thoroughly. People would only laugh at us if we said our work was perfect, but we have no hesitation in saying that our present work is the basis for perfect work in the future. It can be seen at a glance that there is a marvellous increase in the number of names contained in our Directory as compared with last year's—the increase being about 15,000. There must of necessity be some names omitted, as we defy anyone to make a canvas of any city without some omissions; and to anyone whose name has been inadvertently omitted, not from any lack of care on our part, but simply because it was not given to us, we tender our sincere apology; but we make bold to say that the errors and omissions will be few and far between.

Our book gives the lie direct to the blackguardly reports which have been so industriously and so persistently disseminated regarding us and our efforts. We hold it is downright impossible for anyone to come into the town for two months each year and publish a Directory in any way reliable. This can only be done by the publishers residing in the city all the year round, and thus having a thorough knowledge of the city, and taking an interest in their work. Our office will be open all the year round, and we shall be pleased to receive any suggestions for the improvement of the Directory.

STREET DIRECTORY.—We have made a personal canvas from street to street and corner to corner, and our patrons on reference to the guide will find it as accurate and reliable as it is possible to make it. There are upwards of forty more streets, etc., given in it; and in all cases, where there is a corner number, it is duly recorded, thus enabling anyone to readily reach the location sought for.

Again thanking the public of Jersey City and Hoboken for their kindness and consideration, We are, very respectfully yours,

F. W. CHURCHILL & CO.

# CHURCHILL'S

# STREET DIRECTORY OF JERSEY CITY.

— COMPILED UP TO JUNE 1, 1896. —

Showing the commencement and termination of each Street, Avenue, Square, Place, Park, Lane and Court in the City, giving each intersecting Street, etc., and the corner number where obtainable.

---

N. B.—To ascertain the location of any number—say 440 Grove—you will find, on referring to "Grove Street," that No. 434 is at the corner of 5th Street, and 450 is at the corner of 6th; so that 440—the location sought for—is between 5th and 6th Streets. Intersecting streets marked — denote no number on the corner.

# CHURCHILL'S

# Street Directory of Hoboken.

Entered according to Act of Congress, in the year 1896, by F. W. CHURCHILL & CO., in the office of the Librarian of Congress, at Washington.

Streets running North and South the house numbers begin on the North Side and run to 17th Street or City limit. Running East and West they commence at the River and increase Westward. The decimal system of numbering is used; it is on the principle of allowing one hundred numbers to each square going South and fifty West, and greatly facilitates finding a particular number, and is advantageous in case of a fire or the tearing down of a block of buildings, the numbers that follow not being thereby disarranged.
