HOBOKEN CITY
DIRECTORY

INTRODUCTION

The Hoboken City Directory, included in this volume, is compiled in several essential departments, which are set forth as follows:

THE BUYERS' GUIDE, pages 1075 to 1110, contains the advertisements of progressive business men and concerns in Hoboken, printed on tinted paper. This feature shows the details of the various lines of industry more completely than is practicable in the body of the volume where citizens and business concerns are listed.

THE MISCELLANEOUS DEPARTMENT, pages 1113 to 1115, contains detailed information concerning city government and its various departments, courts, parks, library, schools, postoffice, churches, clubs, labor organizations, miscellaneous societies, charitable and benevolent organizations, etc.

THE STREET AND AVENUE GUIDE, pages 1116-a to 1116-b, covers a list of streets and avenues in the city, arranged alphabetically with each described as to place of beginning and ending, and with line of general direction, with the numbers on each street and avenue arranged numerically.

THE ALPHABETICAL LIST OF NAMES of citizens, business concerns and corporations is embraced in pages 1117 to 1290.

THE CLASSIFIED BUSINESS DIRECTORY is compiled with that of Jersey City and Hoboken in one section, beginning page 1291.

HOBOKEN

A PORT OF ENTRY ON THE HUDSON RIVER, FAMOUS AS THE POINT OF DEPARTURE OF NINE GREAT OCEAN S. S. LINES.

Hoboken is a manufacturing industrial city, situated in the metropolitan district of the port of New York, on the west shore of the Hudson River, opposite the Chelsea district of the city of New York. It is administered through the Commission form of Government. Five Commissioners, one of whom is a Mayor. A well defined zoning ordinance governs the city in relation to districts for heavy and light manufacturing and residential purposes. Eleven trolley lines, permeating through lower Jersey City, Jersey City Heights, Passaic and Bergen Counties and North Hudson, terminate in Hoboken. There are four ferries operated between Hoboken and New York, and nine ocean steamship companies have their docks on the Hoboken water front. There are nine modern public schools, one high school, three parochial schools, two private schools and one boys' preparatory school and Stevens Institute of Technology, the latter being one of the leading schools of mechanical engineering in the country.

The spirit of co-operation is exemplified through the Chamber of Commerce, which has a membership of close to a thousand. Through its bureaus, the Chamber keeps in touch with the real estate and financial situation within the city, and the secretary would be glad to answer any questions or furnish any information to manufacturers or others who contemplate locating in the city. Rotary, Lions and Kiwanis Clubs are also established in Hoboken.

THE HOBOKEN CHAMBER OF COMMERCE

The Chamber of Commerce is an association of business men organized to protect and to promote the civic as well as the industrial and commercial interests of Hoboken. It is under the direction of a manager, Mr. A. W. Coffin, and its membership includes practically all of the prominent business men of the city. The Chamber of Commerce maintains a Bureau of Municipal Research with an expert in charge to co-operate with the City Commissioners in raising the standards of city services, an Investigators Vigilance Committee to protect the community from fake stock and bond promotion schemes, a Fire Prevention Committee which brought the Grand Prize for the smallest fire loss to Hoboken in 1924, a Retailers Bureau, an Industrial Bureau, a Tax Payers Bureau and many other committees and Bureaus to safe guard the city's interests. Two of the most important of recent activities of the Chamber have been the fight to obtain taxation of property in case it is taken over by the Port Authority, and the fight to protect its present freight rates known as the Eastern Rate Case. Of course, the Chamber is always a center of information having in its offices data in regard to every phase of the city's activity, which it furnishes on request.

MUNICIPAL PUBLICITY

Advertising Hoboken

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site and as an educational center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers place copies of this issue of the Directory in Directory Libraries, which are maintained in all of the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Hoboken, for business men the country over realize that the City Directory represents the community as it really is.
