Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or

Circulation Consulted

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map.

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number.

Information—as to the name of every place of business and its nature at any given street number.

Information—as to the location of telephones (☎) by street number.

Information—as to the character of any street or district.

Information—as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or “direct mail”.

—Finally—

It takes the “Who is it?” out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

ORANGES NUMERICAL DIRECTORY

(INCLUDING MAPLEWOOD)

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.) The abbreviation "r" between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when canvass was made.

△ Indicates telephone at this number.

"(Right odd)" after street description indicates odd numbers on right side of street.

The symbol © following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
