# HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

**16%** to **18%** Move away or die

**17%** to **19%** "New" people move into town or reach listing age.

**26%** to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

*(All that's left that's good)*

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

*Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.*

**THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.**

# Common Sense

## *About City Directory Circulation*

*The true value* of advertising circulation is *circulation consulted*.

*To be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

*To be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

*For every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore -

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**

Consultations or

**Circulation Consulted**

# High Hurdles. . . .

In business as well as in sports there are High Hurdles to overcome. Your ad in the Directory, where multitudes will see it, will help to overcome many of the business hurdles.
