American Flag Day

Of all the symbols of our country's heritage, the American Flag is one of the most familiar to all of us. It is raised on many occasions to symbolize the spirit of patriotism and the values it represents. Here's how to fold an American flag.

1. Hold the flag vertically with the blue field on the left side and the stars in the upper left corner.
2. Fold the top edge over the bottom edge, aligning the stars exactly in the center of the blue field.
3. Fold the top edge over the bottom edge again, creating a double-fold along the center crease.
4. Continue folding the flag in thirds, with each fold bringing the flag closer to a tube-like shape.
5. The flag should be held with the white side facing out.

This method of folding is commonly used for ceremonial purposes and ensures that the flag remains in good condition. The American Flag stands as a symbol of freedom and our nation's history, and its proper care is essential to preserving it for future generations.
Purchase A Popppy

Dying the next week, representatives of veteran organiz-
ations and their fellow collectors will ask your donation to
assist wounded and hospitalized veterans in their home.

When you purchase a Popppy, you show your un-
conditional knowledge that your contribution will do much to
assist those who sacrificed so much to protect our American
freedom. This is a small gesture of love.

Substitutions, if necessary, will continue throughout
the week under the direction of different veteran groups.

Poppys will be sold at various locations throughout the
area.

The VENERABLE BOROUGH fathers in that day also in-
troduced a special campaign for a special fund. The first
amount of money was turned over to the American Legion
headquarters.

A part of the proceeds will be used to help fund the
local poppy campaign.

Social Security Not All Taxes

You must make tax payments to the government. These payments include social security taxes, federal income taxes, and other taxes. If you work at a job, your employer may subtract the taxes from your pay. If you receive social security, you must make tax payments. Social security taxes are not the same as regular income taxes. If you receive social security, you must make tax payments. You must make tax payments on all the wages you earn, whether it is carried on on a highway or in any other area that might endanger the lives of other persons. The tax is levied on any income earned by any person, whether it is carried on on a highway or in any other area that might endanger the lives of other persons.

The recommendations will be expedited further and will be made to the appropriate state, county and local officials.

How can I guard my family's food money?

ANSWER: Most purchases represent about 23% of the family food money, compare all these prices and count your yearly savings. Concentrate on getting the MOST FOR YOUR MONEY. The more low prices you get the lower your yearly food bill. Don't let a few specials or other inducements distract you.

State Licensing Units

The characteristic of the young professionals licensing units
in the state is the advancement of the profession by
providing leadership, assistance, and support to
practitioners and the public. In New Jersey, there are
two units: the Board of Dietetics and Nutrition, which
licenses dietitians, and the Board of Optometry, which
licenses optometrists.

Population Study Seen By Utility

A population study conducted by the
Monmouth County Planning Board will be seen by the
utility company as it relates to the
future of the area. The board's study
shows a projected increase in population,
which will affect the demand for electric
and natural gas services.

Keansburg Boat Begins Service

The S.S. "City of Keansburg" will make
its inaugural trip on Thursday, May 21,
commencing Sunday, and will continue
its runs during the month of June and
July. The boat will depart from Keansburg
and make stops at Middletown and Red Bank.

State Licensing

The state licensing units are responsible
for regulating occupations which have been
licensed by the state. These occupations
include dietitians, optometrists, and
other health professionals. The licensing
units ensure that practitioners meet the
standards set by the state and provide
disciplinary actions if necessary.
