Battle over Borough Council seat to be resolved by voters Tuesday

By Dave McGrath

KEYWORDS: A hearing is expected Tuesday for a special election, called to fill a vacancy on the Borough Council that will become vacant when Roy M. Smith, the seat’s incumbent, retires.

The vacated seat was the result of the resignation of the original candidate, James Birmingham, who was appointed last May to fill the vacancy created by the retirement of Robert C. Aumack.

The council now has two Republicans, two Democrats and one independent. The last council meeting, a joint meeting of the borough and county council, was held recently by the Borough Council.

The next council will be elected in November, and the winner will be appointed by the borough council to fill the vacancy.

KEYWORDS: Pediatrician’s Executive Advisory Associate, will resign January 1, 1980, according to the municipal report.

The new position, which will be filled by a new pediatrician, will be responsible for the weekly visits to the hospital.

According to the report, the pediatrician must be available to the hospital administrator, the nurses and other hospital personnel.

The position will be filled by an appointment from the hospital administrator.

The appointment will be made by the hospital administrator, who will select a pediatrician from the list of candidates submitted by the hospital administrator.

New Eyes for the Needy

Parkport Browne and Junior Girl Scouts are collecting discarded eyeglasses, eyeglass cases, and scrap jewelry for New Eyes for the Needy, a volunteer organization which recycles prescription glasses. Having a pair of the Legion Apartments (upstairs left), Jennifer Skyes of Browntown Twp., Donna Reilly, Junior Troop 26, Michelle Miele, Browntown Twp., Kelly Franklin, Junior Troop 29, Lisa Deva, Dover Twp., and Kayne Greens, Browntown Twp., other collection boxes are at Bethany Manor, Corner Convenience, and The Cove at Raynham. The project will continue through March 17.

Aberdeen approves library bond issue

Aberdeen Township Council last week adopted an ordinance authorizing a $1.5 million bond issue to finance the previously approved library expansion. After the ordinance had been adopted by a 3-1 vote, Mayor R. F. A. (Chad) Solomon said he expected the Borough Council would act quickly to provide the balance of the funds needed for the 1.5 million project. But while Solomon spoke, the Borough Council was taking an authorizing a local state aid issue of the project to the State Senate. Page 70.

The project cannot proceed until the Borough Council adopts the resolution needed to activate the funds for the project. Plans to have the project be presented to the Borough Council in August, and several times since the project has been mentioned at the meeting have been slow to materialize for the time of the council meeting. **Seven vie in race for board seats**

By Dave McGrath

Seven candidates, including four incumbents, have filed for the four Board of Education seats which will be up for election in April. For two full terms from Aberdeen Township, three candidates have filed. They are incumbents Richard Owen and Judith Barlow and the new entrant Patricia Skelton.

In Matawan Borough, a full term and an unexpired term will be decided in the election.

Michael Kilmann is seeking re-election to a full term and is opposed by Theodore Broberg and Janine Gubelman.

Pearl Cousin, who was appointed to fill the vacancy in 1978, is seeking a full term. Ms. Cousin was appointed in 1978 to fill out the term of the late Mayor Albert Plaistow, Sr.

Cranks, perpetual candidates make democracy look bad

The Inquirer/lee Duigon.

It is not to say that the school budget should be accepted as it is. It is to say that anyone who proposes major reductions, who believes that the schools can be cut, who has not lived in the community, who has not been born and reared in the community, who does not have a responsibility to be specific.

Mr. Kidzus went on to say that we should be concerned about the leadership of the school. We should be concerned about the school in order to determine the cost of each program. It is clear that there are a number of programs which could be cut. It is also clear that there are a number of programs which could be saved, with the reduction of spending on

Kidzus offers no alternative to Matawan school budget

There will be fewer children, more adults, and a greater number of senior citizens. The result is a complex picture of changing educational needs in the community. We need to know how the educational programs in this country are performed. It is the way to help the homeowner and the renter. Did it not come up to your expectations, then vote for me. I have been through the mill—ridiculing the homeowner and the renter. Did it not come up to your expectations, then vote for me. I have been through the mill—ridiculing the homeowner and the renter. State panel hears pros, cons of pullout

By Lee Duigon
MARKELLO

After two days of heated argu-
m ent before a three-
member State Dept. of Edu-
cation panel, Superintendent of Schools Peter Defino could not "see" the panel refusing to ahead a referen-
dum to be held on the with-
drawal of Marlboro High School from the Presidential Re-
gional High School District.

"My opinion is that we shall get approval, hands down," Defino said.

Defino and School Busi-
ness Administrator John Du-
gan testified at the hearing as did PRHS officials, con-
cerned citizens, and local school board spokespeople from other municipalities in the re-
gional district.

Another hearing is to be held before a decision can be made.

Although only two hear-
ings had been scheduled, a third had to be granted when attorneys representing the oppo-
sites to the withdrawal plan protested that they had had wide to review a thick plan presented by Defino at the end of the second hearing.

"I don't expect it any earlier than two weeks," Defino said.

Before the third hearing or the referendum can be held, he added, one of the attor-
s wey must decide is challenge-
its procedural aspect.

"If one attorney is to com-
ment the hearing itself, it has been suggested we have one of the panel mem-
bers preside," he explained.

At the hearing, Defino said the panel that the absorption of Marlboro High School by the local school district would only require a small increase in the township's school tax rate.

Defino's predecessor in the position, Vincent DeMaio, Marl-
boro board attorney, told the panel: "If Marlboro High School were to withdraw from the regional district, it would have to go...then you would have to restructure the school district to form a new regional high school district with Colts Neck.

"I see no reason why we couldn't do that," Defino said.

That, Defino said, was un-
available.

"It's difficult for any plan to get out of the door of the building," he said.

"We'll have plenty of time to review it now," Defino said.

Defino argued that the withdrawal of Marlboro High School would lead to a "can't see" the panel refusing to allow a refer-
endum panel. Superintendent Dr.

Dugan, however, made the point that the panel must arrange a third hearing at the convenience of all the attorneys involved.

"My opinion is that we shall get approval, hands down," Defino said.

Defino said Marlboro High

school board spokesmen from other regional high schools, such as Russian at

Keyport Citizens
LET'S STOP THE NONSENSE

For the past two months, there's been nothing but petty bickering on the Borough Council. The important business of the town, including the 1979 municipal budget, has had to wait while the politicians play their power game. Now, it's time to stop playing games and get down to business.

PUT INTEGRITY AND COMMON SENSE BACK ON THE KEYPORT BOROUGH COUNCIL.

DON MILLER

IS THE ANSWER

In nine years as a member of the Borough Council, Don Miller got the job done for Keyport. The present party power struggle on Council is doing nothing for keyport. Don Miller's election to Council will start getting things done again.

**Rockets set school win record by thumping Bombers, 73-60**

By Jerry Marquard

The New York Raritan Rockets last night set a new record for victories by protecting the Sunnyvale Bombers, 73-60, in the first round of the Central Jersey Group IV Tournament.

Thomas led the way by scoring 14 points and hitting from behind the three-point line. He returned from his suspension, starting against Millburn for five games, and joined a three-year dominance by the Rockets.

The Rockets put together a superb team effort and still came up on the short end, 64-32, in the Golden Falcon.

The Rockets finished the year 16-7 and were never threatened with a loss. Sunnyvale was on the losing end of a 5-30 margin.

Ken Thomson led the way for the Rockets, scoring 36 points and hitting for 12-of-12 from the bench to sink two free shots, 8-of-8 from the line. Thomson also had three defensive rebounds and 16 assists.

The Rockets led in the early part of the game, 49-30, and ran up a 14-6 edge in the second period.

The Rockets shot a mediocre 14-of-36 from the field to win.

The Golden Falcon led 14-8, but the Rockets scored 16 points in the second half to win, 35-29, 37-19, and 43-32.

The Rockets scored 24 points in the second half and were never threatened with a loss. Sunnyvale was on the losing end of a 5-30 margin.

Ken Thomson led the way for the Rockets, scoring 36 points and hitting for 12-of-12 from the bench to sink two free shots, 8-of-8 from the line. Thomson also had three defensive rebounds and 16 assists.

Navitsky sparks Bonnies' win

By Phil Krystofik

The most impressive aspect of St. John's 67-45 victory over Seton Hall last week to help St. John's snap St. Peter's 12-game winning streak was Johnson, who may have played his finest game of the season high for Georgetown with 38 points to lead St. John's. However, at the end of the first half and the Hornet's nine, they were 9-3, the rest of the half as Long Branch outscored them 1-38 points to lead into the locker room.

The Wave had scored six straight points when Johnson, who was high for the Hornets, gave a good indication of how the game was going to turn out. Johnson, who had played a key role in Long Branch's victory over the Lions, chipped in two. A1 Golden added three, and Mike Pavlic added six. For Villa's, Hamendy scored nine, and Eddie Lankin scored 13. Billy Pizzuto scored one, and Steve Purcell did the rebounding. Johnson was the Wave's leading scorer with 12 points, nine by Billy Pizzuto, and eight by Mark Zagarolla. B. Conway scored 11 and was high for St. John's. For Seton Hall, Mike Donlan put in 13 points, and Bobby Garbino had 12. Ernie Frazzini had nine, and Ed Stilson had eight. Pete Ryan scored 16 with four 3s. John Goullet paced the losers with 14. Peter Dricks and Steve Purcell promptly scored five. For Loyola, John Trautman, who may have play­ed his finest game of the season, went into the locker room. The closest the Lions came to evoking the Raiders was in the middle of the first quarter, when they closed the deficit (2-0) with a basket by Brian Brady and Robert got into foul trouble and had to sit down with 2:24 left to play in the half and the Hornets, who may have play­ed their finest game of the season, went into the locker room.

Letters to the Editor

Applegate’s experience

I would like to add my support to the reference that have been made to Senator Applegate who seek public office...
Matawan Regional High School

is proud to announce its
1979 Broadway Musical Production

Broadway's musical comedy sensation

Matawan Regional High School Auditorium
Atlantic Avenue, Aberdeen, N.J.

...The Performing Arts Program at Matawan Regional High School has maintained high levels of achievement...the annual Broadway musical is a cultural event...

...We salute the marvelously talented Matawan students...you were superb...it just doesn't seem possible to get what is a very difficult musical together so professionally...

Pat Niblo, Asbury Park Press

...Matawan's musicals have won acclaim for their staging...they offer the audience a true feeling of a professional production...

Frank McKenna, N.Y. Daily News

**Lemongello happy with swap to Jays**

By Frank Defeo, Staff Writer

After 15 years in the minors, Mark Lemongello finally got his chance at the top last week when the Blue Jays traded him to the Toronto Blue Jays. The move came as a surprise for Lemongello, who had been looking for a shot at the majors for some time.

"I was up there a few days ago," Lemongello said. "I was working in the bullpen, and I was waiting for my chance."

Lemongello, who began his career with the Blue Jays in 1963, had been traded from the Blue Jays to the Cleveland Indians in 1976. He spent two seasons with the Indians and was traded to the St. Louis Cardinals in 1978.

"I was happy with Detroit and was looking forward to making the team with the Cardinals," Lemongello said. "I was looking forward to being a part of their rotation.

However, the Blue Jays traded him to the Toronto Blue Jays last week. Lemongello said he was surprised by the move, but he was happy to have a chance to play at the highest level of the game.

"I'm looking forward to it," Lemongello said. "I've always wanted to be a major league pitcher."

Lemongello, who is 35 years old, has been a hard-luck pitcher for most of his career. He has a career record of 9-27 with a 4.98 ERA, but he has shown flashes of brilliance at times.

"I've always thought I could be a great pitcher," Lemongello said. "I've always taken my losses hard, but I've always believed I could be a better pitcher than I was."

Lemongello, who has a sinkerball pitch, says he is looking forward to the new opportunity.

"I think that if you work hard and you're consistent, you can do it," Lemongello said. "I just don't want anything that I'd rather be doing, and I'd like to be able to spend 15 years in the big leagues if I can."
Holmdel to break ground in spring for $2 million municipal center

By Dave McGrath

The township government was deeply involved in plans to build a new municipal center, a goal that has been in the works for some time. A committee of residents, consultants to study the township's facilities, recommend a building to be built on the location of the old municipal center. The Town Hall Committee approved the recommendation last spring for a town hall to replace the old facility.

Groundbreaking for the $2 million structure is scheduled for the spring and completion is expected to be completed by the end of the year.

The downtown structure will house the Police Dept., town hall offices, meeting rooms, the Municipal Court, and the Board of Ed. The library will also be expanded.

The building, according to township officials, was designed to conform with the downtown's style.

The structure will be built on a hilltop at the old site of the old municipal center. The new building will be elevated above the level of the old building.

The Board of Education will lease space in the building.

The board will also pay the township as a rental fee of 4.5% of the building's net income.

The HADD money, Mr. Riley, is guaranteed for 6 years.

The new building will be constructed in stages to allow for future expansion.

For the first time in more than a decade, students at Matawan Regional High School this year attended school on a single schedule. A shift of students allowed the school to function in a single schedule.

By Dave McGrath

The Federal Dept. of Housing and Urban Development this year approved a $500,000 addition to its multi-tenant, multi-use building.

The project was proposed by the Matawan Regional Development Act grants.

The project, which is the first stage of construction, will include, Csik said, a marina at the foot of Washington Avenue.

The first stage of construction is expected to be completed by the middle of 1979.

In other matters, the Planning Board denied an appeal of an application to build a marina at the foot of Washington Avenue.

The township also received a letter from a boat owner as to the proposed marina at the waterfront. The letter was received by March 1st.

The plan did not require any commitments yet.

In other matters, the Plan­ning Board also approved a plan to build a marina at the foot of Washington Avenue.

The plan was approved by the Planning Board and the Township Committee.

The first stage of construc­tion is expected to be completed by the middle of 1979.

HAZLET, N.J. by Lee Delmas

HAZLET is making a “shaking all” in building on the 12-story addition to the new municipal government center.

The new building was to be completed by the middle of this year and will be the site of the board of ederments.

The Board of Eduducation of the new complex.

Area realtors ignore gloomy forecasts for '79

For the area's real estate brokers, 1979 was one of the most difficult years in recent memory. The market continues to be unkind to Realtors. And, despite some bright spots emerging this year, many realtors are not optimistic for the coming year.

Several factors have contributed to the market's malaise. Rising mortgage rates have forced many buyers to defer purchase decisions. And, although interest rates have eased somewhat in recent months, many buyers are still unable to afford the higher monthly payments required for a mortgage.

According to local realtors, the market is still recovering from the severe downturn of the early 1970s. They note that the market has not yet reached the levels of activity seen in the late 1960s and early 1970s.

Local realtors are optimistic that the market will improve in 1980, although they are not predicting a rapid recovery. They believe that the market will continue to improve gradually as interest rates ease further.

Central Jersey Pools

The Central Jersey Pools sale will be held on February 28th. The sale will feature a wide variety of swimming pool equipment, including pumps, filters, and heaters. The sale will be open to the public from 9:00 AM to 5:00 PM.

Softball league

The Central Jersey Softball League will be holding a tryout on March 1st. The tryout will be held at the Central Jersey School district sports complex. The league will be open to all players, regardless of age or experience.

Birmingham's choice

Mr. Applegate is set to retire as the head of the Keyport Borough Council. The council has offered Mr. Applegate a $40,000 State Law Enforcement Retirement Plan. Mr. Applegate has been a member of the Keyport Borough Council for 10 years.

Kidsz rebuffed

The Kidsz project was axed by the borough council in 1979. The project was intended to provide a safe place for children to play in the city.

Marlboro board to construct new offices

By Lee Daigle

Marlboro-The Board of Education in a meeting last week voted 8-2 in favor of a project to build a new administration building to replace the one that had been located at the top of the hill on East Main Street in Keyport.

The Board of Education, which is the governing body of the Marlboro Regional School District, has decided to construct a new administration building on land purchased by the district.

The board approved the construction of the new administration building after considering several factors, including the need for additional office space, the cost of maintaining the existing building, and the potential savings in energy costs.

The new building will be located on a 4-acre site that was purchased by the district for $200,000. The land is situated on the corner of East Main Street and Route 18, and is easily accessible by car.

The new building will be designed to meet the needs of the administration staff, as well as the needs of the community. It will include ample office space, meeting rooms, and a conference center.

The cost of constructing the new building is estimated to be $2 million. The board will finance the project through a bond issue, which will be approved by the voters of the district.

The new building is expected to be completed within two years, with construction starting in the fall.

The new administration building will be a significant improvement over the existing building. It will provide a modern, efficient, and energy-efficient facility that will meet the needs of the administration staff.

The new building will also be a symbol of Marlboro's commitment to providing the best possible education for its students.

The board is proud to have made this investment in the future of Marlboro Regional School District.
Hall looks back on first year in Matawan

By Dave McGrath

The efforts of the Board of Education in its new administration for the school district have been noticed. Hall said that Dr. Kenneth Hall officially assumed his duties as superintendent of schools after taking control of the district. Hall brought his two assistants in the form of Dr. Geraldo Valcarcel and Dave Valcarcel, to serve as the top administrators.

In short order, they reorganized the district's central office, instituted a new scheduling approach at the high school, restructured the district's personnel functions, and adopted a new budget approach, Hall said.

"This is a workable progress," Hall said, recalling his first year as superintendent.

When he took over, Hall said, the central office was set up in such a way, "It was what Hall called a "disorganized structure," Hall said, referring to the rest of the district.

"We had to cram into the system," Hall said, referring to the rest of the district.

"The central office was set up in such a way," Hall said, referring to the rest of the district.

The central office was set up in such a way, Hall said, referring to the rest of the district.

One of the first areas the new administration tackled was what Hall called a "disorganized structure," Hall said, referring to the rest of the district.

"The central office was set up in such a way," Hall said, referring to the rest of the district.

By solving some of the problems, Hall said, the district's budget approach, Hall said, was a "monumental task, involving the reorganization of personnel, programs, and the district's budget approach.

"The results of district-wide programs is another area where Valcarcel has been working," Hall said, referring to the rest of the district.

Valcarcel said he is also interested in increasing the district's funding for vocational education and increasing the district's funding for vocational education.

"We had to cram into the system," Hall said, referring to the rest of the district.

"I think we've made remarkable progress," Hall said, referring to the rest of the district.

"We had to cram into the system," Hall said, referring to the rest of the district.

Regional board of health to provide ‘core activities’

By Audrey Kratz

March 28, 1979

The expanded functions of the new department, joined forces to provide additional health services. Sanitary inspector for Aberdeen, administers the combined population of Matawan, as the program is in charge of program services for the monmouth county organization’s future goals in the area’s exclusive Fiat & Peugeot Dealer offering both Bill Lanzaro’s stock is a large selection of quality used cars. The dealership now occupies more than an acre of land at Broad & Rte. 516, Matawan.

When Bill Lanzaro’s founded Bill Lanzaro’s Auto Sales on April 1, 1961 he sold used cars only and had only one employee—himself. Today, he is one of the largest Fiat dealers in New Jersey and one of the fastest growing Peugeot dealers in the state. He now has 13 employees, including 4 factory trained service people, a Service Manager, Parts Manager, and two Salesmen.

Fiat recognized the quality of Bill Lanzaro’s service in 1974, 1975, 1976, and 1977 when it presented the dealership with an award for excellence in parts and service, one of only 20 dealers in the state which won the award.

Shadow Lawn S&L cites '78 as best year for growth

The Aberdeen Township municipal government and employees are proud of the increases in public services, recreation facilities, and capital improvements which were made last year and will continue in 1979. Expansion of the recreational areas and roads—Price, Rose, Lenox, and Orchard—was the result of using Money for commuters

Union Beach finances continuing to improve

BY LES DUGAN

UNION BEACH—As the borough's financial manager John Varlese made clear, the mood of the residents is a positive one. And there are reasons why.

In his report to the council last week, Varlese said, "We're in a very enviable position." In fact, he said, the borough is now able to focus on long-term projects. "Rather than worry about paying the sales tax, we're looking at how we can improve our water system," he said.

Union Beach is the largest IFF complex in the world, making it a major source of income for the town. In 1979, the company paid $365 million in taxes, which is an increase from the previous year's $325 million. This is due to the company's expansion and growth over the past few years.

The town has also been able to control its spending. In 1978, the borough spent $5.67 million, compared to $7.26 million in 1979. "We've been frugal," Varlese said. "We've been able to control our expenses and maintain a surplus." The surplus is now being used to fund long-term projects, such as the water system.

As for the future, Varlese said, "We're looking towards 1980 with optimism." He said that the town is planning to continue its efforts to improve the water system and other long-term projects.

The report also noted that the town has been able to attract new businesses and residents, which is a positive sign for the future.

ALL-TIME HIGHLIGHTS

- In 1979, the company paid $365 million in taxes, an increase from 1978.
- The town has been able to control its spending, with a surplus in 1979.
- The town is planning to continue its efforts to improve the water system and other long-term projects.

Did you know?

- The new facilities will include a chemical plant and the corporate research and development building.
- The town has a nationwide relocation network.

We're working with our business community to revitalize our downtown area

Thanks to the cooperation of our local businessmen, we're eligible to apply for a $200,000 federal grant to develop the parking lot on American Legion Drive. Before we can apply, our merchants had to pledge to expand their businesses in a way that would create more jobs. So far, they've pledged to spend more than $600,000 to help stimulate Keyport's economy.

And we're working to get funds to clean up and protect our waterfront

We've cleared the first hurdle by getting state approval of a grant for a shore protection project, and we're talking to the Army Corps of Engineers, hoping to convince them to dredge the harbor.

We're investing $750,000 of Uncle Sam's money to help revitalize Keyport's neighborhoods

We've already spent $200,000 we obtained under the federal Community Development Act to improve Jackson and Beers streets, and we've obtained approval for another $500,000 in grants to improve both roads and substantial housing over the next three years. In 1979, we'll use a $70,000 federal grant to rebuild Fulton Street and a $90,000 grant to rehabilitate houses. In 1980-81, we'll get a $200,000 grant for streets and a $100,000 grant for housing rehabilitation. And in 1983, we'll use $150,000 of Uncle Sam's money to improve roads and $50,000 to rehabilitate housing.

Remembering your needs after a year is all in a day's work for Bill Watson.

"We know our dream house will be hard to find, but we're in no hurry so keep us in mind." It was an unusual request from a young couple to Bill Watson. Did he keep them in mind? You better believe it! One full year later he came across their dream house and gave them a call. They moved over, fell in love with the house — and bought it that very same day.

Naturally, most of Bill's clients are in a hurry to buy. But they can count on his expertise to find them the right property. Bill was able to help 130 clients last year.

Area car dealers see trend towards economy

By Phil Krystofik

The attention of the area's retail automotive says, for the most part, is on gas prices. This is mainly because the high price of fuel is directly affecting consumers' buying behavior, forcing them to consider more price-conscious options in their car purchases.

The high fuel prices have led to a trend of consumers seeking out smaller, more fuel-efficient vehicles. Dealers are reporting a rise in the demand for cars such as hatchbacks and compact sedans, which are generally more fuel-efficient than larger SUVs and trucks.

Dealers are also noting a trend of consumers being more price-sensitive when it comes to car financing. Many customers are opting for shorter-term financing options or choosing to trade in their older vehicles at lower prices.

In addition, dealers are seeing an increase in the interest in alternative fuel sources, such as electric and hybrid vehicles. While these options are generally more expensive, they offer the advantage of lower fuel costs over the long term.

Despite the challenges, dealers are adapting to the changing market conditions. Many are offering incentives such as rebates and low-interest financing to attract customers. Some are also expanding their inventory to include more fuel-efficient models.

As fuel prices continue to fluctuate, it is likely that the trend towards economy will continue. Dealers and consumers alike will need to remain adaptable to the changing market conditions.

Shields said the study will provide a more efficient system of treating sewage. According to the authority's officials pointed out last year, the authority would incur a deficit. If we get more funding, if we get more money, we can do away with incineration. Incineration is a very expensive way of treating sewage.

"The costs of fuel, electricity, and chemicals used in incineration, he said, 'are about 70 percent of our budget.'"
Keyport mayor wants to create 'new image'

By Judith Anne Thaddeus

Keyport's Mayor Richard Bergen said he wants "to create a new image" for the borough.

This year, Bergen, who took office in January, said he will attempt to attract new residents to the municipality, even funds to upgrade the waterfront, and continue a tax abatement program aimed at enticing people to degrade their lifestyle instead of moving out of the community.

Bergen said he will propose an ordinance which will offer a five-year tax abatement to the residents who improve homes that are at least 40 years old.

The legislation would permit a homeowner to make improvements without recalculating a tax increase because the home's value has not increased.

Bergen said, "I hope it will provide an incentive." Bergen said, "The people to stay in Keyport and keep their homes here."

The borough, Bergen said, is ready to get federal Community Development funds for the next three years for the improvement of the Keyport area.

This year, Bergen said, the borough is scheduled to receive $30,000 to improve Julian Street, and $29,000 for the rehabilitation of housing in the downtown area.

The $90,000 will be used for both grants and low-interest home-improvement loans. In 1984, according to Bergen, the borough is slated to receive a $50,000 grant for streets, and a $10,000 grant for housing rehabilitation.

In 1985, a $30,000 grant will be used to improve roads, and a $12,000 grant will be used to improve recreation areas. All work will be done in the lumberyard.

Bergen said he was unsure how to get permits and businesses to locate in the borough. "We need some more residence," Bergen said. "It’s about to a municipality to receive a business."

Bergen said he is positive to apply for the Small Business Administration Protection for funds for a Truck Protection program, which would include drawing and conservation of bike lanes and pedestrian ramps. The DEP is underwriting a project.
THROUGH
CAREFUL PLANNING

...The optimum blend of economic, residential and recreational growth in Monmouth County is the goal of the Board of Chosen Freeholders through its Planning Board.

...Attracting sound ratables by the location of industrial and commercial enterprise here is the full time job of the qualified staff of the county’s Department of Industrial & Economic Development, providing maximum employment opportunity for county residents. Environmental concern, efficient services at reasonable cost and a wide spectrum of educational and cultural advantages are the goal of the county’s departments, institutions and agencies....

This combined effort will continue to make “Monmouth County — a great place to live, work and play ....

WORK AND LIVE IN MONMOUTH

Each year, more executives who live in Monmouth are recognizing that they can work and live in the same county. More and more corporate offices are relocating in Monmouth because they see that planned growth has resulted in prime industrial tracts being harmoniously intermingled with open spaces. Large industrial tracts are available with all the required utilities.

Information is available from Roger J. Kane, director, Department of Industrial and Economic Development, Hall of Records Annex, Freehold, N.J. 07728. Telephone 431-7470.

The expanded emergency unit highlights hospital's year

Bayshore Community Hospital

New developments at Bayshore Community Hospital this year included the completion of a new emergency room and construction of a new Respiratory Intensive Care Unit (to be completed this year), and winning two year accreditation from the Joint Commission on Accreditation.

Bayshore's year's highlights include:

- The hospital, second, has also attracted many new physicians to the medical staff.
- This additional service by the hospital, Goldman said, "gives the hospital a new layer of specialty care at which our emergency department never before was equipped to handle premature and respiratory patients.
- The trustees, representing the area health and social agencies, have all contributed their services toward helping us reach our goal.
- Volunteers and auxiliaries are involved in nearly every aspect of hospital complex, from first aid to blood donation.
- Volunteers and auxiliaries perform many other community service projects where they serve with great enthusiasm.
- Volunteers and auxiliaries are also involved in many community service projects where they serve with great enthusiasm.

Mortgage firm taps Ludwig as executive

Insurance

Everyone needs insurance of some kind, so selling policies really isn't difficult. But a good insurance broker has to know what should be in your policy, which company offers you the broadest coverage, and the lowest rates for your particular needs and budget. And he has to know you, because no one insurance policy is right for everyone.

Knowing Our Business Has Made Us the Larges't Insurance Agency in Monmouth and Ocean Counties and possibly the Largest Insurer of Municipalities and School Boards in the State.

We became the insurance broker for most of these public bodies by submitting the lowest competitive bid on the coverages they specified. To be the successful bidder, we had to know which insurance companies offered the lowest rates, while maintaining or exceeding the coverage specified.

Knowing Our Business can save you money in Your Business

Did you know, for example, that premiums and coverages can be negotiated and that rates can vary by as much as 50 percent, depending on how your company is classified for quality of risk and claims history? A good broker can save you money by selecting the right insurance company and acting as your negotiator. That's where we come in.

We represent:
- Central Mutual Insurance Cos.
- Mutual of New York
- Mutual Benefit Life Insurance
- Western Life Insurance
- Kemper Life Insurance
- Fidelity & Guaranty Insurance
- Colonial Life Insurance
- Crown Life Insurance
- U.S. Life Insurance
- Provident Life Insurance

We've Built Our Business

We've Moved to a New and Bigger Location

Bayshore Community Hospital

The expanded emergency unit

The added emergency facilities, which were in operation for the last 10 months of the year, allowed the hospital to accommodate an additional 927 patients during the year, bringing its total emergency patient count to 26,032 for 1978.

The hospital's year's highlights include:

- The hospital, second, has also attracted many new physicians to the medical staff.
- This additional service by the hospital, Goldman said, "gives the hospital a new layer of specialty care at which our emergency department never before was equipped to handle premature and respiratory patients.
- The trustees, representing the area health and social agencies, have all contributed their services toward helping us reach our goal.

Insurance

Everyone needs insurance of some kind, so selling policies really isn't difficult. But a good insurance broker has to know what should be in your policy, which company offers you the broadest coverage, and the lowest rates for your particular needs and budget. And he has to know you, because no one insurance policy is right for everyone.

Knowing Our Business Has Made Us the Larges't Insurance Agency in Monmouth and Ocean Counties and possibly the Largest Insurer of Municipalities and School Boards in the State.

We became the insurance broker for most of these public bodies by submitting the lowest competitive bid on the coverages they specified. To be the successful bidder, we had to know which insurance companies offered the lowest rates, while maintaining or exceeding the coverage specified.

Knowing Our Business can save you money in Your Business

Did you know, for example, that premiums and coverages can be negotiated and that rates can vary by as much as 50 percent, depending on how your company is classified for quality of risk and claims history? A good broker can save you money by selecting the right insurance company and acting as your negotiator. That's where we come in.
Marlboro politics: '78 a stormy year

After a year of apparently unsettling the is quiet again. Marlboro, with few surprises and a do-gooder to change its zoning ordinances.

The Marlboro politics failed to create much of a storm in Marlboro. In February, the Marlboro Planning Board approved the rezoning of 5 acres of prime, Feather, and provide multifamily zoning for development.

The 1978 ordinance failed to reach a tentative settlement for the development of apartments. They will not be permitted to build after the rezoning.

The Marlboro Township Council is in the process of deciding the fate of the rezoning. The council majority is expected to approve the rezoning in the upcoming meeting.

Marlboro at a glance

Jackson appointed to realty firm post

Jackson, a native of Marlboro, has been appointed to a realty firm post. He will be responsible for overseeing the company's real estate transactions andns.

More Senior Citizen Housing Is Coming To Hazlet And Keyport

Construction will begin this year on a 100-unit addition to Bethany Manor, Keyport's first senior citizen housing project.

When completed in 1980, these senior citizen apartments will be available to local residents, and federal rent subsidies will ensure that no senior citizen will have to pay more than 25 percent of his income for rent. The new wing will also include a large recreation area on the top floor and rooms for community and social activities on the first floor.

Construction is also scheduled to begin this year at Bethany Towers in Keyport, which will contain 150 apartments for senior citizens. Rents in Bethany Towers also will be subsidized by the federal government.

These two housing complexes, sponsored by St. John's United Methodist Church, will help alleviate the shortage of senior citizen housing in the Bayshore, and as consultants, we're proud to have played a role in making them possible.

ABERDEEN

Richard Dickstein, president of the Dickstein Insurance Agency, and Jack Grumet are responsible for the township's largest new project, a $750,000 office complex on Lees Road.

Dickstein and Grumet last year completed construction of 15,360 sq. ft. of office space in the project was the renovation of a ratable, a $750,000 office building on land that had been a swamp.

Hazelzet schools to hold kindergarten sign-ups

HAZLET

The school district will conduct registration March 5 and 6 from 9:30 a.m. to noon and 1:30 to 3 p.m. during the week of March 5 at Beers Drive, Park Road, and Middle Road. Students should be registered at the schools nearest their homes. Children need to be present at registration.

Insurance firm installs new computer system

Dickstein says that the computer easy to operate and his employees are happy with the new equipment.

The computer asks the employee to enter the name of the customer on the computer screen. The computer then displays the customer's entire file on a monitor. The employee can add another car to the policy by entering the customer's name and adding another car. The employee can delete one car from the policy by entering the customer's name and dropping one car from the policy. The employee can then update any time a single transaction is recorded.

The agency's requirements are for all new accounts to be processed and the training time for employees is 76 days. The computer has 76 separate programs that the employee can access.

The agency's volume comes from commercial accounts, and the remaining 15 percent of the agency's volume comes from automobile insurance.

A carpe r is not always good for you.

A lot of automobile dealers dangle carrots to get you to come in. But when you bite, you often get the raw end. We don't offer carrots at Straub dealerships. There's no confusion. No high-pressure tactics. Our salesmen are relaxed professionals who help you when you want to be helped and answer your questions when you're ready to ask them. And we offer lots of makes and lots of models for you to choose from, plus a myriad of options so that you can tailor your car or truck to your specific needs and budget. And we'll promise you this. Nobody will beat our total deal. And all of them are at Straub's. You come in a customer and go out a friend.
Matawan to repair water plant

The Borough Council will vote Wednesday to rehabor the Middlesex Street plant.

The work is expected to begin in March, with an estimated completion of May 15. The plant, which is more than 20 years old, Gillen said, does not have the capacity to treat properly the water the borough demands. The plant has the capacity to treat less than a million gallons a day, and Gillen said the plant will have a capacity of 1.9 million gallons, enough to handle the amount of water needed by borough residents, to meet the water usage during the summer. Gillen said, to be treated properly the water the borough has made only "piecemeal" improvements. The improvements have been made "piecemeal" to increase treatment capacity, "Gillen said, to save money. But Gillen added that the improvements do not work any better.

If the borough receives an acceptable bid March 6, Gillen said, the borough will award a contract by March 20, after which work can begin in the spring. Gillen said the contract will contain an agreement that the plant will be operated "piecemeal" improvements.

The state required the borough to purchase the regional utility system, so that sewage treatment will treat state standards for effluent.

the mortgage crisis is having on the district’s two elementary schools.

The Board of Education, said, "the new program is a proposal to serve two grades at once, sixth and seventh, and the intermediate school, and the high school, and the elementary school.

The residents also have many opportunities to learn and to engage in a variety of activities. The complex’s activities are designed to cater to the interests of residents at all levels of age and ability. Whether it’s a book club, a dance class, or a computer course, the complex offers something for everyone.

The residents are also provided with opportunities to volunteer and to give back to the community. They may choose to participate in community service projects, or to act as mentors to children in need.

The residents at Minnisink Village have access to all these activities and opportunities, which help them to live a fulfilling and active life.

In conclusion, Minnisink Village is a community that values the independence and freedom of seniors. It offers them a safe and comfortable environment, where they can live on their own terms and under their own rules. With its many amenities and activities, Minnisink Village is a place where seniors can enjoy their retirement years to the fullest.
