PHILIP WILLIAM SCHUTZ
 I, Philip William Schutz, after mastering the skills in business that I've learned in high school, do hope to attend a business school after my senior graduation is over. Metuchen High will always mean a lot to me because the teachers are understanding and put a great deal of care in their teaching. That's why I feel that Metuchen High School is the place to make it all happen and become a success. One day, I hope to open my own business and be a big success in the business world.

Tonya Shipp and drum major Rita Pugliese get psyched for the big competition.

JOHN ANDREW SEEBER

I would like to make clear exactly what I contributed to Metuchen High School. I will probably be remembered most for my untimely "vacations" and most likely will hold the absentee record for any three year stint for quite a long time. No matter how much you think you catch up you really never do. I've had to find out the hard way. There have been some good times, but what is best about going to high school in Metuchen is the atmosphere and the town itself.
