Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

SUMMIT NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

△ Indicates telephone at this number.

△(Right odd)" after street description indicates odd numbers on right side of street.

The symbol © following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE
MEDIA DEPARTMENT OF THE ASSOCIATED
ADVERTISING CLUBS OF THE WORLD

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*

MILLBURN NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

△Indicates telephone at this number.

The symbol (o) following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.
