CONSUMERS BEWARE

State licensed movers must be used for moves made solely within the State of New Jersey. Unlicensed movers increase the risks associated with moving your goods. Some tips to consider when choosing a mover:

- Verify the mover has a license for the type of move you are planning: moves made within the State of New Jersey are required by law to be performed only by movers with a New Jersey license. Interstate movers are required to have an I.C.C. license from the federal government.
- Make sure the mover has sufficient insurance to cover your goods and premises.
- Obtain a written estimate before the move, also ask if there may be additional charges added after they have your goods.

Most Importantly, call the Board of Public Movers and Warehouseman to check whether a mover or warehouseman you are considering is licensed by the State of New Jersey and to learn their consumer complaint history.
