Ocean Grove in Proud Possession of Latest Apparatus For Fighting Fires

With Kings 'King and Style last Friday, the Auto Equipment Company of New York, incorporated for the use of the automobile in fire-fighting and rescue work, made its appearance in Ocean Grove. The arrival of the new apparatus was an event of great importance in Ocean Grove history, as the day dawned, in the afternoon and evening, when the new machine was to be placed in the Grove garage. The purpose of the machine was to be to replace the old hose wagon, which was not only too small and too old for the job, but the hose was kept in it, in place of being reeled up, at a great disadvantage to the men when the time came to use it. The new machine was placed in the garage, and its equipment and operation demonstrated to the public. The public was invited to come and see the new machine, and to witness the operation of its various parts.

The new machine was a combination of the latest engineering and fire-fighting ideas, and was designed specifically for the needs of the Ocean Grove fire department. Its main feature was the ability to carry a significant amount of water, and to pump it out in a powerful stream. The machine was also equipped with powerful exhaust equipment, to clear the air of smoke and fumes.

The new machine was demonstrated to the public, and the men of the Ocean Grove fire department were trained to operate it. The machine was an important addition to the fire department's equipment, and it was hoped that it would prevent the loss of many lives in the future.

The Latest News from the Great State Store

Whether you tarried near or far away, you should know that this month's selection of the month is a new dressing table, which is covered with a mulberry wood shell and has a mirrored surface. The dressing table is made of the finest materials, and it is designed to be used as a dressing table or as a desk. The dressing table has a pull-out shelf, a mirror, and a drawer. It is available in a variety of colors and styles.

Also, come and see our new collection of handmade items. We have a wide variety of handmade items, including jewelry, pottery, and candles. These items are handmade by local artists and are unique and beautiful. They make great gifts for anyone on your list.

We have also extended our hours to accommodate your needs. Our store is open from 9 am to 9 pm, Monday through Saturday, and from 10 am to 5 pm on Sunday. We look forward to seeing you soon!

Cruelties in China.

Torture of Prisoners Carried to Point of Imbriement.

HOME OF THE WATER DEATH.

A Woven Tradition Thinly Told of Being Told to a Dream by the Typhoon—Big Typhoo—The Japanese and the Great

China is a land of restrictions and limitations. The Japanese have set the example. The inevitable outcome of a nation that has not been restrained in its progress, but has been directed by the use of force, is the use of force. It must be remembered that the Chinese are not a law-abiding people, but they are peace-loving.

The use of force in this case is the use of force to prevent rebellion. It is a means of maintaining order and of protecting the weak against the strong. It is a means of maintaining the status quo.

The use of force is not an end in itself. It is a means to an end. The end is the maintenance of the status quo. The status quo is the best government for the Chinese.

The use of force is not a means to an end. It is an end in itself. It is the maintenance of the status quo. The status quo is the best government for the Chinese.

The use of force is not a means to an end. It is an end in itself. It is the maintenance of the status quo. The status quo is the best government for the Chinese.

The use of force is not a means to an end. It is an end in itself. It is the maintenance of the status quo. The status quo is the best government for the Chinese.

The use of force is not a means to an end. It is an end in itself. It is the maintenance of the status quo. The status quo is the best government for the Chinese.
