It is said that thirty-four old acquaintances were present while incarcerated in this county during last year only eight of whom served the full term for which they were sentenced. Others served but a short time, while a few were never seen inside of jail. The law suggests even the most trivial conviction of an individual while driving a car, will cause a minor to become a prisoner of the State. The term of this may be said to rest with the commanding magistrates, who have entire jurisdiction of the offender and of the time when they shall remain in jail. Drogheda drugs are to be furnished by the State hospital physician, who is the only person whose services are necessary in the case. It is well, or rather, it is the wish of most of the people of this city, that have become better since the advent of prohibition, for a reform in the sale of medicines and patent medicines. The law opposes to opening the drug store, which has been a long time ago. The law opposes to opening the drug store, which has been a long time ago. The sooner these explosives are stored in a place of safety, the better for the community. It may cost a million dollars or more, as estimated, to remove the explosives. It is, however, said, that the explosives are to be stored in a place of safety, and that the炸药 are to be stored in a place of safety, and that the炸药 are to be stored in a place of safety, and that the炸药 are to be stored in a place of safety.

The commissioners of Bradley and Monmouth counties, for the purpose of supplying the State with sufficient supplies of explosives, have constructed a magazine at some distance from the towns where they are to be stored. The Discontented Husband

A man can't help comparing his wife with his best girl—meaning, in this case, his wife before he married her. And if he sees her grow careless of those charms which first attracted him, he begins to feel discontented.

One of these charms is a woman's smooth and clear complexioned hands. She need not lose this femininity, to matter how much cleansing and washing a married woman has to do. For red, rough, and coarse looking hands result from the use of ordinary household soap which irritates the skin.

INTelligent housewives everywhere insist on Kirkman's Soap—for every household purpose—because it is as harmless to the hands as is the most exquisite toilet soap.

They know that Kirkman's Soap, being free from irritating, will not harm the skin or injure the most delicate fabrics. It is made absolutely free from adulterants such as

This Year
New Jersey Will Ask for
84,000 New Telephones

The New Jersey communities we serve will ask for 84,000 new telephones in 1924. Last year 75,579 were applied for.

To keep pace with such a demand $14,-

500 must be invested this year for new buildings, new switchboards, new cable and a vast array of other apparatus.

An equal amount will be provided for

1925.

The new capital required to carry out this construction program can be obtained if investors are assured that the investment is safe and that a fair rate of compensation will be paid for the money they put into the business.

Only by securely increasing revenue through new rates can we continue to meet your requirements for service.
