INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, present to subscribers and the general public, this, the 1962 edition of the Plainfield City Directory, which also includes North Plainfield.

Confidence in the growth of Plainfield's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Plainfield to the world.

The enviable position occupied by R. L. POLK & CO'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Plainfield Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Plainfield including North Plainfield. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Plainfield, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Plainfield and North Plainfield, and the name, official personnel, nature and address of each firm and corporation.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on green paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free

public reference, and serve as perpetual and reliable advertisements of Plainfield and vicinity. There are more than 1,000 of these Directory Libraries, installed and maintained in the chief cities and towns of the U. S., Canada and Puerto Rico through the courtesy of members of the Association of North American Directory Publishers, under whose supervision the system is operated and of which R. L. POLK & CO., is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

Situated in an attractive location, 24 miles southwest of New York City, and immediately south of the Watchung Mountains, Plainfield, a residential suburban city of 47,330 population, is also the center of a retail trade area which extends west 30 miles to Flemington in Hunterdon County, northwest 28 miles to Chester in Morris County, northeast nine miles to Springfield in Union County, southeast seven miles to Metuchen in Middlesex County, and southwest 21 miles to Belle Mead in Somerset County. This area approximates 418 square miles and comprises an estimated population of 290,000. which represents 20 per cent of the population of Union County, 90 per cent of Somerset County, and 15 per cent of Middlesex County, 5 per cent of Morris County and 50 per cent of Hunterdon County.

Because of the rapid development of northern New Jersey, Plainfield is ideally situated by reason of its location, railroads and highways to dominate as a manufacturing, distributing and shopping center of the entire area described above.

New Jersey ranks among the first states of the Union in education, Rutgers University, while not included within the Plainfield area, is located only nine miles southwest of Plainfield in New Brunswick, and is one of the oldest institutions of learning in the U. S., having been founded as Queen's College by charter from King Goerge III in 1766. The public school system is adequate to serve the educational needs of all children. To Plainfield is awarded the honor of being

the home of the free public school system in the State of New Jersey. The first school came into existence August 16, 1847. Congregations of every creed meet in dignified houses of worship numbering 44 in all, and a fine spirit of friendship exists among the various denominations.

A paid supervisor directs recreational activities throughout the entire year, so that no form of recreation is found lacking. Three moving-picture theatres operate three and four shows daily for twelve months. There are several auditoriums and clubhouses for recreation and exposition purposes.

In the Plainfield area the quantity and quality of skilled workers are excellent for most manufacturing purposes. Skilled machinists of all kinds; building trades, metal, garment, silk and assembly workers, and printers predominate in the labor market. The principal industrial products are: motor trucks and buses, printing presses, newspaper machinery, magazine printing, tools and hardware specialties, hats, women's dresses, undergarments and clothing, adhesives, broad silk, wood and concrete preservatives, paints, pigments, steel fabricating, concrete mixing machines, electric motors, wood partitions, and radio condensers.

Plainfield is on the main lines of the Central Railroad of New Jersey, the Baltimore & Ohio Railroad, and the Reading Co. The Lehigh Valley Railroad main line station is located in South Plainfield three miles from the center of Plainfield. Bus services are adequate, and cover the entire trade area and the principal outlying towns.

The people are industrious, progressive and accustomed to high standards of living. The water supply is fresh and plentiful, being furnished from artesian wells and pumped into ample reservoirs. About 60 per cent of the population own their homes.

General Review

Situated in an attractive location, 24 miles southwest of New York City, and immediately south of the Watchung Mountains, Plainfield, a residential suburban city of 47,330 population, is also the center of a retail trade area which extends west 30 miles to Flemington in Hunterdon County, northwest 28 miles to Chester in Morris County, northeast nine miles to Springfield in Union County, southeast seven miles to Metuchen in Middlesex County, and southwest 21 miles to Belle Mead in Somerset County. This area approximates 418 square miles and comprises an estimated population of 290,000, which represents 20 per cent of the population of Union County, 90 per cent of Somerset County, and 15 per cent of Middlesex County, 5 per cent of Morris County and 50 per cent of Hunterdon County.

Because of the rapid development of northern New Jersey, Plainfield is ideally situated by reason of its location, railroads and highways to dominate as a manufacturing, distributing and shopping center of the entire area described above.

New Jersey ranks among the first states of the Union in education, Rutgers University, while not included within the Plainfield area, is located only nine miles southwest of Plainfield in New Brunswick, and is one of the oldest institutions of learning in the U. S., having been founded as Queen's College by charter from King Goerge III in 1766. The public school system is adequate to serve the educational needs of all children. To Plainfield is awarded the honor of being

the home of the free public school system in the State of New Jersey. The first school came into existence August 16, 1847. Congregations of every creed meet in dignified houses of worship numbering 44 in all, and a fine spirit of friendship exists among the various denominations.

A paid supervisor directs recreational activities throughout the entire year, so that no form of recreation is found lacking. Three moving-picture theatres operate three and four shows daily for twelve months. There are several auditoriums and clubhouses for recreation and exposition purposes.

In the Plainfield area the quantity and quality of skilled workers are excellent for most manufacturing purposes. Skilled machinists of all kinds; building trades, metal, garment, silk and assembly workers, and printers predominate in the labor market. The principal industrial products are: motor trucks and buses, printing presses, newspaper machinery, magazine printing, tools and hardware specialties, hats, women's dresses, undergarments and clothing, adhesives, broad silk, wood and concrete preservatives, paints, pigments, steel fabricating, concrete mixing machines, electric motors, wood partitions, and radio condensers.

Plainfield is on the main lines of the Central Railroad of New Jersey, the Baltimore & Ohio Railroad, and the Reading Co. The Lehigh Valley Railroad main line station is located in South Plainfield three miles from the center of Plainfield. Bus services are adequate, and cover the entire trade area and the principal outlying towns.

The people are industrious, progressive and accustomed to high standards of living. The water supply is fresh and plentiful, being furnished from artesian wells and pumped into ample reservoirs. About 60 per cent of the population own their homes.

BOROUGH OF NORTH PLAINFIELD

General Information

North Plainfield is a physically attractive and well-kept one-family residential community of three square miles located twenty-four miles southwest of New York City. It adjoins the City of Plainfield which meets most of the commercial needs of the residents. Within North Plainfield there are a few small light manufacturing plants and a centrally located shopping and service district. The Planning Board is endeavoring to attract desirable commercial ratables while maintaining the present excellent residential characteristics. More than ninety-nine per cent of the homes in the Borough are connected to the municipal sewer system. The Borough has been a member of the Plainfield Joint Sewer Meeting which has recently entered into a long-term contract with the Middlesex Sewer Authority, and permanent disposal lines are in operation to tidewater. North Plainfield has a full-time paid Police Force of twenty-four men and a full-time paid Fire Department of nineteen men. All of the roads are paved and well maintained by the Street Department.

The adults of this community are civic-minded people. Characteristic of their sense of responsibility is the fact that outstanding citizens willingly serve as members of the municipal governing body and the Board of Education. The income of the residents is derived preponderantly from outside the Borough. Many workers commute to New York, Newark and other commercial and industrial centers, and a large number either own or work in the numerous stores and offices in Plainfield. Hundreds of varied industries, large and small, which are flourishing in the area surrounding North Plainfield employ many North Plainfielders. Large manufacturing plants draw upon North Plainfield for technical and professional skills. The diversity of industries in this group, together with the varied other sources of residents' income, assures a stability of earning power.

An excellent public education system is maintained in six elementary schools strategically located and a six-year high school housed in two adjacent buildings on a beautiful landscaped and centrally located campus. Also there is one parochial elementary school with over 500 pupils enrolled. Because there are very few building lots available in North Plainfield, it is anticipated that the school population will increase relatively slowly. The elementary school enrollment seems to be stabilized, and as far as the Board can foresee, we will need four additional classrooms and three all-purpose rooms in the elementary schools.

CAUTION . . . . .

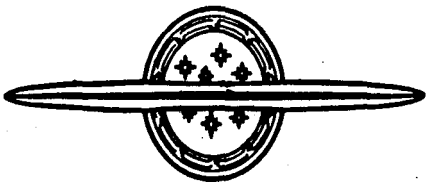

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

OFFERED:
THE ASSISTANCE
OF PLAINFIELD'S
LARGEST BANK

The Plainfield area, ideally situate to the New York and Philadelphia markets, welcomes new industrial and other commercial development.

Here you'll find ready access to outstanding transportation facilities (rail, air, sea and highway); a good labor market (skilled and semi-skilled); fine opportunities for plant purchase or construction; and a community environment that ranks among the best in the East in its cultural, recreational, and educational appointments.

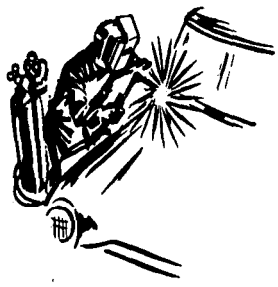

We cordially invite your inquiries on business development in the Plainfield area. With 60 years of experience, assets of $110,000,000, and capital funds of more than $6,500,000, we stand ready to render full assistance and service to any enterprise seeking to locate in this area.

POLK'S
PLAINFIELD

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1962

INCLUDING NORTH PLAINFIELD

Copyright, 1962, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

Avis as an extra car
Every family needs an extra car occasionally. Dad has a business trip – Mother a social engagement. Both can have a car if Father rents a sparkling new car from AVIS. Or when the children take the car for the week end, no need to be stuck at home – just rent a smart new car from AVIS.

Avis as your only car
Many city dwellers find renting from AVIS more economical and less bother than owning a car. And it's always a new car in top condition when you rent from AVIS.

It's easy to rent a car from Avis
It's as easy as buying airline or railroad tickets. Just show your driver's license and identification and you're on your way. The low rental charge includes insurance and all gas and oil. You can rent a car for an hour, a day, a week, or longer and there is never an extra charge for extra passengers. Ask about special long-term and fleet rates.

When you travel use the Avis Rail-Auto or Plane-Auto Plan.

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
