"Support the Constitution, which is the Cement of the Union, as well as its Limitations as in its Authority."

—Madison.

CITY G.O.P. GETS BUSY

District Leaders Named and Two Mass Meetings at Theatre Scheduled.

BALLIES ON OCTOBER 15 AND 19

Republican Banner Unfurled—Another Meeting to be Held on Friday Night.

An enthusiastic meeting of the Plainfield Republican City Committee was held at headquarters last night when plans were made for an active campaign.

The Dr. Taft and Sherman banner in Park avenue near North was formally swung to the breeze.

Arrangements were made last night for two big rallies to be held at the New Plainfield theatre this month. The first will take place on Thursday evening, the second on Thursday, October 29. Speakers of State reputation will make addresses, and all the county and city nominees of the party will be on the platform.

State Senator George A. Angerman, Assemblyman Andrew and State Assemblyman Moore are expected to speak at the first meeting. City Chairman Angerman will announce the list of vice-presidents at an early date.

District leaders to get out the vote were also appointed last night. The first will be Fred W. Dierich, district James A. Bunn; Second district, Amos Andrew; Second ward, First district, H. C. Tracy; Second district, Robert H. McCready; Third ward—First district, G. W. Moy; Second district, Gilbert Fletcher; Fourth ward—First district, C. H. Moore; Second district, Herbert Boston; Third district, Andrew McCordell.

After the meeting the banner was unfurled as the committee men and other Republicans gave three cheers. Another meeting will be held on Friday night.

NETHERWOOD DISTRICT GETS ALONG WITHOUT GAS

The inability of a large number of consumers in the Netherwood district of the city to use gas in their homes yesterday afternoon led to the discovery that in some unknown way a considerable quantity of air had been forced into the main which runs along South avenue, starting at the Rushmore dynamo works, through the Netherwood, Ravine Park, Lane, East Seventh street and Woodland avenue.

The first complaint was received soon after 1 o'clock and Superintendent Thomas Mellick, of the local gas department of the P. C. C. at Newark, was directed to investigation. From the source of the complaints, which by 3 o'clock were coming in rapidly, Mr. Mellick found that the trouble started at the Rushmore plant. He went there first and examined the three connections which furnish gas to the main blower pipe. It was found that gas was used in the furnace and blow pipe.

The fact that everything was working all right at 12 o'clock, when the plant shut down for the noon hour, and that at 1 o'clock when the first complaint was made, led to the belief that whatever happened transpired in that hour.

After the first complaint was made, the gas was used in the furnace and blow pipe.

The fact that everything was working all right at 12 o'clock, when the plant shut down for the noon hour, and that at 1 o'clock when the first complaint was made, led to the belief that whatever happened transpired in that hour.

As far as is known this is the first case of this kind in the experience of the P. C. C. since it took charge of the business of producing gas here.

W.M. Elliott.

Mrs. Josephine L. Elliott, wife of Howard B. Elliott, of the lower Clinton avenue section, died yesterday afternoon after a lingering illness. She was twenty years old and the mother of two children, Mrs. Samuel Randolph, of South Plainfield. She was a pleasant disposition and her death is mourned by the community. She is survived by several brothers and sisters. The funeral will be held at Marconie chapel, Friday afternoon at 2:30.

AT TRADE BOARD'S SESSION.

Obstacle to Trolley Between City
and South Plainfield, They
Say, Should Be Re-
moved.

An unusually large attendance of members marked the first fall meeting of the Board of Trade, held last Thursday, and the spirit of discussion and friendly debate on several important topics demonstrated that the organization is far from being a "one man" one. Among the questions discussed at some length was the one in reference to securing some means of transportation between Plainfield, South Plainfield and Metuchen. One of the speakers, the members that effort should be made to establish either a trolley, bus or auto line between these points.

In speaking in the interest of this movement, P. McDonough, of South Plainfield, said that he had no objection to obtaining the necessary consents for a trolley franchise, but he had no desire after a conference with Col. Hill, and other officials of the Public Service Corporation, that the company has no desire to undertake the project for a limited term of years as now provided by law. He felt that the trolley line would be built if not for an indefinite term of years as Franklin has suggested. To him life is "rather a state of embryo, a preparation for life." A man is not completely born until he has passed through death.

Under the picture of one of God's ancient martyrs is this verse:

"Alexamenos is not dead; he lives."

Our friends are not dead; they live beyond the stars.

They have taken their capacity

with them for the reward of their

The Constitutional.

A DEMOCRATIC WEEKLY.

Published a.

PLAINFIELD, N. J.

Terms: \$2.00 per year.

AL. FORCE, Editor and Proprietor.

THURSDAY, OCTOBER 8, 1898.

The New Brunswick Times approves of our suggestion that Samuel W. Bushmore remove from his factory that ugly sign which gives the traveling public a most erroneous idea of the "city beautiful" as a well governed municipality. The Middlesex paper in condemning the protestant's right to his strange methods says:

"The Plainfield manufacturer who has made his local grievance against a local political machine the basis for a wide-spread attack upon the fair name of his city deserves the wrong course. If he has been compelled to his complain to his fellow citizens, let him make a campaign issue of the matter, but take down that sign which warns the general traveling public that Plainfield is a bad place to settle in. There is too much bad pride in any town, no where located, to stand such a thing as that."

As strange as the action of Mr. Bushmore, is the fact, that at last night's meeting of the city fathers, the matter was not even raised. It appears to be a average man who now has pride in his home town that the local administration should not delay in doing what it can to have the objectionable billboard removed.

Is not an absurd condition of affairs presented when the Common Council is inclined to make an additional appropriation for the completion of the new "bungalow" rather than to expend some of the people's money in giving the East End proper fire protection? For months, the city fathers have been pursuing a procrastinating policy regarding the proposed, and much needed, fire house for the Netherwood district. As far as I know, they have not applied to the license in the Lehigh fire and today that valable and well assessed portion of the municipality is compelled to depend on a fire house a mile away for its safety. This important firehouse is not built, and \$4,000 more money is expended in completing a structure which looks more like a bungalow or rich man's auto barn than a police headquarters. Already \$25,500 has been used to build this "bungalow" and now the city tax-payers are compelled to lay out \$12,000 more to do some other work in that connection. How long will Mr. Propertyowner put up with this policy of municipal government?

COUNCIL WANTS P. S. C.
TO BE MORE CAREFUL

Questioning the liability of the Public Service Corporation regarding the accident which befell William H. Harkness, the city engineer, a few weeks ago, when he was nearly electrocuted beneath the Clinton avenue railroad bridge as a result of taking hold of an electric light wire, Mr. Montgomery, chairman of the light committee, called the attention of the members last night to the incident.

He thought that the body should receive a report from the chief-of-police, and his motion that the city clerk be directed to write to the P. S. C. that no steps had been taken to prevent similar occurrences in the future prevailed.

Knowing some of the details of the accident, Mr. Saydam stated that the accident was largely the fault of the boy. There was a break in the particular wire which caused the trouble, but the boy has persisted in congregating beneath the bridge and catching hold of these wires. However, he declared that the wires were in bad shape and need attention.

Mr. Saydam said that he had been informed that the New Jersey Central would not permit the P. S. C. to attach its wires to the new bridges, and they were obliged to get them elsewhere. He thought that the particular wire which caused the trouble, was playing "Jack Straw" in a comedy of that name by the same author.

Miss Maude Adams will shortly sail for America, was presented at the annual meeting of the amateur dramatics, playing "Jack Straw" in a comedy of that name by the same author.

Appreciation: Wedding.

Mr. and Mrs. John H. Starks, of Bound Brook, have issued invitations to the marriage of their daughter, Miss Naomi Starks, and Henry Elliott Cruiser, also of Bound Brook. The event will be celebrated at the home of the bride's parents, Wednesday afternoon, October 14, at 4 o'clock. The Miss Starks was formerly night chief operator at the local exchange of the New York and New Jersey Telephone Company, and has many friends in this city.

Not Like Father.

"Do you think Mr. Skinner's baby will take after its father?"

"Not at all. The other day they permitted it to cough up a nickel it had swallowed." —Washington Star.

AMUSEMENTS.

ELEVEN INNINGS AND THE

New Brunswick and Clinton
Avenue Teams in an
Exciting Contest.

MIDDLESEX NINE GETS SCRAPPY.

Captain Nolan Takes His Men from
Field but Later Resumes
Game—The Contest
In Detail.

Captain Nolan and his scrappy bunch of ball players from New Brunswick came to Plainfield Saturday afternoon determined to defeat the Clinton Avenue by hook or by crook. Although the locals failed to get away with the game, they played their opponents to a standstill and the contest had to be called at the end of the eleventh inning with a tie score, 3 to 3.

The contest was started from beginning to end on the field in New Brunswick, and in the last half of the fourth inning, the migration from along the Raritan River threatened to go home because Uncle Moynihan allowed Schott to take his base for a walk. The pitcher, however, hit the diamond and said they would not continue the game. After a half hour's delay Captain Nolan took his men back to the field, not wishing to lose the guarantee.

The visitors resorted to all sorts of tricks to win. In the third inning Nolan deliberately walked into a pitched ball and got his base. This trick combined with a hit, free pass and a bum throw by Randolph, in trying to catch a runner at third base, gave New Brunswick but only a second place with a 9 and S. D. Loguebury third with an 8. The Class B players returned good scores, Leyko Gates finishing first with a net score of 81, A. E. Barley, second with an 86 and C. F. Merritt third with a 92. The cards returned by the point-winners were as follows:

Class A—Arthur Murphy, 89, 75; E. T. Willson, 92, 147-92; S. D. Loguebury, 89, 8-90.

Class B—Leyko Gates, 111, 27-84; A. E. Barley, 102, 22-56; W. F. Merritt, 115, 23-82.

200 CONSTITUTIONALISTS

Two-base hits—Harkness, Van Vechten, Clark, Three-base—Harkness, Van Vechten, Four-base—Randolph, 1, left on bases—Clinton Avenue, 2; New Brunswick, 7. First base on errors—Clinton Avenue, 1; New Brunswick, 1. Struck out—By Randolph, 12; by Rowland, Nolan, B. Martin, Schott, Sorenson, 1; by Harkness, 1. Martin, (2), Schott, Doubles played—W. O'Rourke, to Harkness. Time of game—2h 20m. Umpire—James Moynihan.

As a protection against fire which frequently breaks out in the dump at Dunellen and Clinton, a resolution was introduced that part of the city petitioned the Common Council Monday night, for a fire hydrant at that point. The petitioners complained that at present it is necessary to run a line of hose fully 1,000 feet to reach the dump, the nearest hydrant being at W. T. Front street and Compton avenue. The request was granted upon motion of Mr. Buxton, of the fire and building committee.

In this connection a petition was received from residents in the neighborhood of the dump, protesting against a station wagon allowed to stand in the dump. The petitioners were requested to move to a better location for mosquito, typhoid fever and other diseases. The petition was signed by Frank W. Weed and many others. Drs. Fred Hughes and C. B. Luftrum were quoted as authority on the undesirable condition in the surroundings. The petition was referred to the fire and building committee.

Boice, Hunyan & Co., was given permission to move a one-story brick building from Park avenue near the railroad through Park avenue and West Second street to the firm's 4th street office.

A petition for a fire hydrant at East Second street and Terrell road, was referred back to the fire and building committee for further consideration. It being the purpose of the committee to ascertain the location about the number of hydrants ordered and not located by the water department. It was stated by Councilman C. C. Randolph that hydrants ordered in 1907 had not yet been located and a similar condition exists in the West End.

POINTED PARAGRAPHS.

Money is the sugar that sweetens matrimony.

Most lawmen blame it on a lack of opportunity.

After acquiring a business of your own learn to attend to it.

A mirror, unlike some people, never forces its reflections upon us.

It's the unexpected, the happens when a man least expects it of himself.

What impresses some people is how some of their acquaintances make a living.

Few people are capable of appreciating a great work of art or a great man.

In a man doesn't flatter a woman she imagines that it is because he doesn't understand her.

How a man does dislike to meet people who persist in recalling incidents that he is anxious to forget!

Once in a great while a woman can succeed in reforming a man, provided she doesn't let him know she is trying.

At least we have discovered the difference. The clothes of a stylish man are shaped to him (while a stylish woman is shaped to her clothes).

—Chicago News.

VALUE OF GOOD WATER.

People are not infrequently come home from a summer vacation if not with typhoid at least with bad malaria or stomach disorders.

This is often caused by impure water and it is well, especially in going into the country where wells are used, to know a few simple tests by which the condition of the water can be told.

About the simplest is one that is well known; called the Hirsh test.

Buy a pint bottle of clear glass, preferably with a glass stopper. Fill it two-thirds full with water to which add one-half teaspoonful of granulated sugar.

Cork the bottle tightly and stand in the light in a warm room for forty-eight hours. If at the end of that time the water is cloudy or milky looking it is unfit for use.

SOME OF THE NEW COLORS.

Saphire, this pink. Porcelain, Porcelain gray. Malachite, Gull gray. Miss Gray. Jade green. Persian blue. Persian pink. Thistle blue. Spruce green. Russian violet. Sea horse. Ashes of violet. Sunset purple tints.

Mordore (reddish brown). Delft blue. Phosphorus blue. Deep rich lapis (azuline blue). Pempermal (familiar watermelone green).

Yawning and Exercise.

The next time a horse drives you to yawn, instead of biting your lips or of carelessly dropping your head with a hand, seem to be apathetic and say boldly: "I am practising the new nerve cure!"

Formerly we thought you yawned because of nervousness; now we yawn to cure them. Rudely stretch and yawn for fifteen minutes at a time. It will empty your brain, rest your body and is generally relaxing.

Raising both arms while you body is up your mouth is the approved method of taking this latest nerve rest.

A Gentle Hint.

"Boots?" blustered the big Londoner in the American hotel. "Nops," replied the hellday, "They call 's 'Scates."

The Londoner seemed mystified.

"Scates, eh? That's a blooming queer name. What do they call you 'Scates' for?"

"Because I get tipped off often. That's the 'reas' 'oss,'" Chicago New.

An Unequal Load.

Harry left the breakfast table with an exaggerated limp. His mother asked anxiously, "Why, Harry, have you lame foot?"

"It's a sprain, but I've got the problem with 'Naw, he ain't bound even. He's got more napjacks down on one side than on the other."

The Delinquent.

Lifelong Lesson.

"It takes a baby 'mos' two years to learn to talk," said Uncle Eben, "an' den it takes de re's of its life time to learn to keep 'um talkin' too much." —Washington Star.

Intelligent Advice.

Intelligent Rescuer (to skater who has fallen through)—Steady, old man, steady! Keep cool! —London bystander.

THEFT THAT HE COULDN'T DENY.

Story of Bayhead Days That Came Out in Court.

The attorney for the defense looked keenly at the witness who was testifying for the prosecution. "Your name, if I understand you correctly," he said, "is Horace Hinsey. Is that right?"

"Yes, sir."

"Are you ever here at Nashua?"

"And in Wilmington before that?"

"Yes, sir."

"Mr. Hinsey, have you ever been arrested on a criminal charge?"

"No, sir," he firmly answered the witness.

"Did you ever commit an offense for which you might have been arrested?"

"Never, sir."

"Is it not a fact that you once stole from your own father?"

Here the attorney for the prosecution interrupted, but the witness chose to answer. "Never, sir."

"Now, Mr. Hinsey," said the lawyer, "suppose I should tell you that I know of a case when you did steal from your father."

Instantly the witness' brow cleared. "Yes, sir," he said, turning to the jury. "He's right. I remember now. When I was about eight years old I stole a dozen eggs from my father's grocery store, took them down under the bank of the creek, cooked them over a fire, and ate them. I was then, who was a boy, not only helped me steal those eggs, but put me up to stealing them. How are you, Jim?"

The Judge and Jury joined in the talk that followed, and the rest of the session was conducted on more friendly lines—Youth's companion.

WAS THE BURGLAR'S UNDOING.

Marauder Stepped on Squeaky Board, and the Rest Was Easy.

At the top of the stairway is the Griswold where there was a board that emitted a loud creak whenever anybody stepped on it. Mr. Griswold was also intending to "have this fixed," but never did it, and by common consent the members of the family usually stepped over it, particularly when the head of the family had gone to bed.

One night, very late, just as Mr. Griswold was dropping off to sleep, somebody stepped on that board, and it gave forth its customary loud protest.

"There you go again!" he angrily called out. "That's you this time, John! Pretty time of night for you to be getting to bed!"

John, the eldest son, made no response, but lay down in the state that he had just assumed to hear the front door slam. A hurried investigation disclosed a bag of valuables which a frightened burglar had left.

The board still squeaks.—Yonk's Companion.

A True Story.

"On my travels in Venezuela," said a New York man, "I stayed in a hotel with a young man in whose family there was the taint of leprosy, though he apparently did not have it. One night, however, dinner was becoming very angry at a waiter and brought his hand down on the table with full force. He instantly realized that he did not feel the blow, and was looking at his face, white with horror. 'Give me a handkerchief,' he said, "I'm afraid I'm going to catch it."

John, the eldest son, made no response, but lay down in the state that he had just assumed to hear the front door slam. A hurried investigation disclosed a bag of valuables which a frightened burglar had left.

The board still squeaks.—Yonk's Companion.

EUROPE FAVORS BRYAN COUNCIL PROCRUSTINES HELD AS A 'SHOPLIFTER' WELCOME MAJOR MARTIN WOLVERTON EXONERATED

Senator Ackerman Says Idle Workmen over the Sea Hope for Free Trade Here.

New Jersey is essentially an industrial state, and the many thousands of artisans who have enjoyed prosperity under Republican rule are planning to realize what Bryan's election would mean to them. He wants a short tariff and have free trade, and what free trade would mean to the American workingman is perhaps better told by Senator Ernest R. Ackerman, of this head, a large cement manufacturing company, which just returned from a tour of Europe.

"In almost every country I visit, I find the senator, 'the number of men out of employment was enormous, and they are all watching this country, hoping for Bryan's election.'

"They want to see the protective tariff abolished and free trade take its place, for that would mean the opening up of the American and world markets to the closing of the American ones. Just as soon as the protective tariff is removed Europe is ready with her wheels and furnaces to glut the American market with the products of cheap labor, and that means that American factories will shut down."

Present indications and computations based on presidential election returns for several campaigns show that Taft and Sherman will carry New Jersey by a plurality of not less than 40,000, and probably 69,000.

A review of the popular vote of 1900 and 1904 is interesting. In 1900 McKinley polled 227,000 votes, while Bryan had only 164,800. In 1904, two years later Roosevelt received 245,164 votes, while Parker had a total of 164,506, or about 300 less than Bryan. It is easy to see that while the Democratic vote was 10,000 less than Roosevelt's, the vote increased 84,000 over the preceding presidential year, due mostly to new voters in the state. In 1904 there were 495,670 votes polled in the state, but last year in the election for governor only 380,000 votes were cast, and of these, of which Governor Fort received 194,132, and Frank S. Kean 186,300.

Last year there were some 29,000 voters who cast their ballots for president who did not vote for governor; but it is to assume that all of these voters who will be in evidence on next election day, but he was informed that this issue must run the full thirty years as provided by the law under an act passed in February, 1907, which also provides for a sinking fund committee.

President Taft has informed him that it is the general custom to retire one or more each year,

but he was informed that this issue

was thoroughly discussed and it was

decided that drastic action

should be taken in view of the

culpits go after returning the

stolen goods. The detection man-

is the first that has occurred

since then.

Mrs. Wyckoff is about forty-

five years old, the mother of six

children. Her husband was recently convicted of illegal liquor selling in New Brunswick and served a term in the Middlesex county jail before paying a heavy fine. She formerly resided in the West End, where she has seven brothers and sisters.

DUNELLEN WOMAN HELD IN \$600 BAIL ON CHARGES MADE BY LOCAL MERCHANTS.

The proposed East End fire house

in the East End is still a

Visionary Proposition.

The proposed East End fire house proposition was unexpectedly resurrected at the October meeting of the Common Council Monday, when Councilman Buxton, of the fire committee, presented a plan of plans to Captain Harold, Head architect, brother of Councilman R. E. Hall, and also offered a resolution providing for the issuing of \$15,000 worth of bonds with which to complete the improvement. When he offered the plan he moved that they be adopted and filed.

This was objected to by Councilman Mygatt, who confessed that he had not examined the plans, and before voting on the question he wanted to know more about them. He

was told that the fire and building committee had spent a great deal of time in examining the

plans, nevertheless he could see no reason for haste. In explanation Mr. Buxton said that the committee had approved the plan and it was now up to the Common Council to decide whether it wanted to build or not.

There was some objection as to the suggested method of issuing the bonds.

The plan called for the issue of thirty coupon bonds of \$500 denomination each to run from December 1 for thirty years, and the appointment of a sinking fund commission.

Some were displeased with the sinking fund commission if it is to be

done by the city, and the amount to be furnished by her brother, Captain

Traynor, of this city.

Mrs. Wyckoff's arrest was brought about by her attempt to take a sweater from the Forest store. One of the salesmen called for her and she was leading the plan and summoned the manager, J. V. Varley. Mrs. Wyckoff was seen and when her explanation as to where she got the article proved unsatisfactory, she was invited into a private room where two of the store women and various articles of dress goods were found concealed beneath her skirt and in her waist, while a small bag she carried contained \$39 worth of gloves and other articles of apparel.

She was then taken to the

Woodhall-Martin store earlier in the day. The employees who searched her testified at the city court hearing.

The store people made the complaint in order to put a stop to the shoplifting practice that has been prevalent in the city for the past six months. Several of the merchants have suffered heavily through it and on two occasions before the woman had been arrested she had

been caught by the police.

In addition to the interesting talk by the former captain of Co. K, an entertainment was provided by Prof. Irving, a magician, and Sandford, who related humorous stories and gave impersonations. After the drill, the men were entertained by the non-commissioned officers provided refreshments and there was a social time. The full membership of the company was out and the drill was the most satisfactory held in a long time.

Major Martin told the company that there was no doubt that it would go to Pine Plains next year with the regular army for the customary week in camp. This information was received without question by the soldier boys who have always been anxious to drill with the regulars.

The store people made the complaint in order to put a stop to the shoplifting practice that has been prevalent in the city for the past six months. Several of the merchants have suffered heavily through it and on two occasions before the woman had been arrested she had

been caught by the police.
