Queen City Opening Date Postponed

On account of delay in freight and materials needed for completion of repairs and improvements in the QUEEN CITY HOTEL, the proprietor, John A. Staats, will be obliged to postpone the opening date until next week, the date to be announced later.

OLD PRESCRIPTION FOR WEAK KIDNEYS

A medicinal preparation like Dr. Kilmer's Swamp-Root, that has real curative value, almost sells itself. Like an endless chain system, the remedy recommends itself to those who have been benefited to those who are in need of it. Dr. Kilmer's Swamp-Root is a physician's prescription. It has been tested for years and has brought results to countless numbers who have suffered. The success of Dr. Kilmer's Swamp-Root is due to the fact that it fills almost every pore in the over-clogged kidney, liver and bladder, corrects urinary troubles and neutralizes the uric acid which causes rheumatism. Do not suffer. Get a bottle of Swamp-Root from any drugist or Start Treatment Today. However, if you wish first to test this great preparation, send ten cents to Dr. Kilmer at 663 Broadway, New York, N. Y., for a sample bottle. When writing be sure and mention the Plainfield Courier-News—Adv.

DRINKING A HANDICAP IN COMPENSATION CASE

Evidence tending to show that Henry Sohn of Brookdale was intoxicated September 7, 1915, when he fell from a wagon he was driving for Robert L. M. Axt, a wholesale vegetable dealer of that town, receiving fatal injuries, caused Judge Osborne in the Circuit Court at Newark, yesterday to refuse compensation to Sohn's widow, Mrs. Lena A. Sohn. She had brought suit under the employer's liability law.

In the concluding paragraph of his decision, Judge Osborne said: "I am satisfied that the man was very much intoxicated, and in the absence of any other suggestion whatever as to the reason of his falling from the wagon, that the whole case indicates that he fell off because of his intoxication, and therefore, it is the natural and proximate cause of the injury."

REV. URIAH M'CLINCHE WILL LEAVE IRVINGTON

Rev. Uriah McClinche, pastor of the First Reformed Church, Irvington, tendered his resignation to the congregation at the close of the morning service Sunday, to take effect the last Sunday in June, when he will have completed fourteen years in his present charge. A desire to devote more time to lecturing is the reason advanced for his withdrawal from the pastorate. The annual business meeting of the congregation will be held April 19 and the minister requested that the usual steps be taken at that time to have his pastoral relationship dissolved by the Classis of Newark.

SENATOR PIERCE OFFERS SERVICES TO GOVERNOR

Trenton, March 20.—Anticipating the probability of war in the near future, Senator Carlton B. Pierce offered his services to Governor Edge. In a communication to the Governor Senator Pierce said: "I hereby tender my services to the State for the probable coming war and the preparation therefor."

GERMANS STILL RETIRE

London, March 20.—The Germans are continuing their retreat in France over the eighty-five mile front extending from south of Arras to Soissons, close by pressed at all points by the British and French. According to military critics both here and in Paris, the Germans are not likely to make a stand before reaching the Cambrai, Valenciennes line, which the French are fast approaching. The important town of Ham, twelve miles southeast of St. Quentin, has been reached and is now in the hands of the advance guard, while troops advancing up the valley of the Oise have passed through seven miles from the French line. The French are pushing forward much faster than the British, having covered about twenty-two miles since the advance began five days ago. They are 120 villages and towns have so far been recovered by the French alone, the divisions still remaining in them, receiving the troops with open arms.

MUNITY ON U. S. CUTLER

New York, March 20.—Charged with murder five women were taken from the United States coast guard cutter "Seneca," landed in shackles at Townsville, Staten Island, and taken to the Hudson county jail, twelve miles distant, by trolley. The men are John Bell, James Ding, Joseph McCarney and John Dougan and Matthew Hebl. Sheriff Dittus was asked to lock the men up and keep them pending a court martial for alleged mutiny. Nothing was learned from officers of the "Seneca" as to the details of the alleged mutiny. But the men, talking in single words, indicated to the newsman out of the throwing of an iron bar at an engineer after he had interfered with a life line.

3 Per Cent. Interest on Loans Special to the Courier-News

Washington, March 20.—The Farm Loan Board announced today that the interest rate on all loans made to farmers throughout the country by Federal land banks would be 5 per cent. A rate of 8 1/2 per cent. on bank bonds is to be issued by the land banks also was officially announced.

"THE PRECIOUS TRUTH" BY REV. C. H. FOUNTAIN

The Sunday School Quarterly for the second year, entitled "The Precious Truth," Rev. Charles Hillman Fountain, B. A., B. D., of this city, has just been published by Charles C. Cook, of New York, and is now on sale at Keith's Book Store, 10 Park avenue. The issue for the first quarter was quickly sold out, and the book commended itself so highly to teachers and pastors throughout the country that it has become the text book in a great number of Bible schools, and its popularity is increasing daily. Mr. Fountain and his family are so well known in Plainfield that it might be expected that a review of this book would be colored, but this review is not; it is written as it would be if Mr. Fountain were not known here. The book is a genuine treasure of truth; the original is admirable, clear and convincing; the scriptural references are most wisely chosen, the points of the lessons are pressed home with surprising force and the whole is so interesting in its reading that it is hard to put the book down when once it is taken up. To say the least, it is one of the most useful text books for the teacher that has ever been written. The book may well be recommended to pastors, for it is the result of a study of the Bible, and it presents the Fourth Gospel and its difficult problems in a telling and concrete way that will be helpful to even advanced students of theology.

GERMANS CAPTURE FRENCH TRENCHES

Special to Courier-News: Berlin, March 20.—French trenches on the Verdun front, over a width of 500 yards, were captured by the Germans yesterday afternoon, the War Office announced today. Eight French officers and 485 men were captured. Counter attacks by the French during the night were repulsed. There was violent fighting on both sides of the Meuse river. Near the North Sea coast and in Artois there has been lively fighting activity. The War Office admitted a general retirement between Arras and the Aisne, Somme front, saying that the British offered stout resistance and followed in a hesitating manner.

NORTHERN GOVERNORS MEET TO PLAN RIVER TRAFFIC

By United Press: New Orleans, March 20.—Governors of Mississippi Valley States met yesterday to plan the use of the Mississippi river and others by which relief from drought conditions, which they say, to force abatement by lake and sea, instead of via this port.

ALLIANCE SPLIT

Milwaukee, March 20.—The Milwaukee branch of the German-American Alliance faces a split as a result of a stormy session, at which it was announced that a member had resigned and that the Mutual Verein and the Bavarian Sack Banded Society contemplated seceding. It was decided to send a telegram to Senator La Follette expressing the admiration of the society for his recent stand in the Senate, and a letter to the Milwaukee representative of the State Legislature asking them not to take any part in censuring the Senator.

When the senatorial resignations from the alliance were read a debate was started. "Verbal of the members, including the State president, said, several 'charley' criticized the leaders. Charles Tucker, treasurer, said: "It is terrible that the count should fight among its members. Germany is in a great fight and she will win. No matter if two or three more countries enter the war as her enemies she will still come out the victor."

Piles Cured in 10 to 14 Days Druggists refund money if PAIN-OINTMENT fails to cure itching, Bleeding or Prurient Piles. First application gives relief. 50c—Adv.

THE OTHER DAY

We wrote a fire insurance policy for one of Plainfield's leading business men. We wrote with the idea of fully protecting his interests. He said: "As soon as the business men of Plainfield find you are writing policies like that you will get the majority of the business." Why not be with the majority?

The World War a Year Ago Today—March 20.

Turkish airplanes bombed the British citadel on Tigris river. Allied air fleets comprising sixty-five machines dropped 10,000 pounds of explosives on the German submarine base at Zeebrugge, Belgium; casualties reported 250.

France reported the repulse of a violent German attack on the left of the Meuse in the Verdun area.

An attempt made to assassinate Premier Radolov of Bulgaria in Sofia.

Two Years Ago Today. Zeppelins bombarded Paris. Austrian garrison of Premysl driven from its line of fortifications.

TUESDAY, MARCH 20, 1917.

RUSSIA BEGINS TO LIVE

With the changes that have taken place in Russia the past week, in the abolition of the Czar and the democratic attitude of his brother, who accepted the regency until a new government can be formed, Russian people will begin to live. It may seem strange that Russia should be almost the last of civilized nations to overturn autocratic rule, since the autocracy has been so tyrannical, and since that country is one of the largest and most populous in the world. While other monarchies of modern times have been autocratic they have not been obliged to be so tyrannical, nor deal with so many millions of hostile people. This is probably the only civilized country in which its ruler has been obliged to hedge himself about with soldiers, even in the privacy of his room, to avoid assassination from a discontented people. He has grasped the fate of the monarchs of old in whose history has been demonstrated one great feature of human inhumanity. From the beginning of the world it has been shown that a people cannot govern itself without a ruler. In whose hands is given full power of government, but that the moment the ruler becomes a tyrant the people have risen and killed the tyrant, and put some one else in his place. Czar Nicholas escaped the fate of other monarchs by abdicating. The tension was too strong for him to resist longer, with his pro-German affiliations and sentiments. That country has given thousands of her people for war only to be slaughtered for want of willingness on the part of the monarch to allow them to be prepared to face the enemy. Russia was handicapped from the first, for want of munitions. Despite the fact that great factories in that country had offered to make munitions at a price set by the government, the offers were turned down, and when this secret became known outside the palace the reigning party was blamed for bad faith. The people resented the

WHAT IS CERTIFIED MILK?

It is milk whose purity and cleanly production is certified to by a Medical Milk Commission, regulated by State law under the rules of the American Association at Washington. Copy of these regulations mailed on request.

It is like a certified check. When a bank certifies a check, it first looks at the account to know that the check is good.

The five physicians of the Plainfield-Westfield Milk Commission employ experts to watch the daily production of Wood Brook Milk. Then they certify it.

It costs more to make milk so good it can be certified. Yet the price of Wood Brook Certified Milk is only 14 cents a quart.

WOOD BROOK FARMS Plainfield, N. J. Telephone: Metuchen 179

attitude of a government which would let its people go to battle hand-handed, and face the most deadly of modern armaments. Sanguine that a barbaric subterfuge had been used to hoodwink the people, a militant peace party sprang out with discouragement, ultimately they would have to surrender to Germany, needed only a spark to fan it into flame and the Czar saw the sign. This way out, in time to get out voluntarily. Today the sentiment for a republic is crystallizing in Russia, and the people are beginning to draw the satisfying breath of freedom. That the people still expect the royal family were ready for the change, is evidenced in the condition of peace that prevails today in Petrograd, and in the resumed industries in Moscow, where the people have returned to work with some heart. Their endeavors will now amount to something. With the freedom of the press, abolition of political censorship, the opening of the hidden supplies of food products which have been held by the royal party, while the people starved are evidences of admitting the people to the class of human beings. These people have only needed a chance, for Russia is blessed with all varieties of climate, and can grow anything from tea to tomatoes, grapes, and all the peed has been human opportunity and human encouragement.

THE HOME DEFENSE LEAGUE

Three weeks ago a meeting, organized by the Mayor and a group of patriotic citizens, was held in the

Return Visit of Rt. Rev. Chas. E. Woodcock Bishop of Kentucky

Grace Church 7th and Sycamore Streets

SUNDAY, MARCH 24th 10.30 A. M.—8 P. M.

A cordial invitation is extended to the public to hear Bishop Woodcock on this occasion.

The Boice-Runyon Company, notwithstanding an unprecedented call upon their stock for domestic sizes of coal, still have an ample supply on hand.

Mud, snow, slush, conditions due to the season of the year, cause unavoidable delays in delivery. We would therefore suggest that you set your mind at ease by ordering now.

"We Feature PLYMOUTH Coal."

CZAR'S COSTLY MOVE

The move which Czar Nicholas made in abdicating the throne of Russia cost him something, but he cannot be said to have sacrificed his wealth for a principle. In abdicating he leaves a fortune of nearly two thousand million dollars, his cash being on deposit in the Bank of England, and much invested in American securities, among them Pennsylvania Railroad stock, and holds that about twelve million acres of land in Russia, with all the mineral resources of the country. All this will probably be confiscated. Once he could have been the richest man in the world, and still held the throne, but he fell in the face of fate, and jumped against something.

THE COST OF TRANSPORTING FOOD.

The investigations of the expert in regard to cost of living emphasize the high transportation charges. Not merely to feed a large town, but with labor costly, the trucking charges, by the time articles have gone through several hands, have added very appreciably. Years ago farmers used to sell more direct to the cities and towns in their immediate neighborhoods, and trucking and freight were not so much of a factor. Now more business is done through jobbers and wholesalers, and one charge is piled on top of another. The farmer to feed the consumer loses in the process in the easiest way, with the least labor and time required. Many times by displaying some enterprise, and particularly by advertising in the newspapers, he could develop a line of nearby customers that would take a part, or perhaps all, of his product. Where this can be done, it gives the farmer a better return, and should give the consumer a lower price.

AUTOMATIC POWER VESTED

The espionage bills which the administration so strongly demanded, and so generously received from Congress carry a larger power to the President than anything this country has ever seen or than most autocratic nations possess. Mr. Wilson may so prescribe the "Other places and things" which are interdicted to the citizens that freedom of movement, and of speech, perhaps even of assembly, might be variously curtailed. Under this bill, Mr. Wilson, for instance, might be able to deal with Senator Stone and some others more stringently than by refusing to invite them to the White House.

NOW THE ONION PEST

Most people have, perhaps, been recaptured to the various difficulties in raising fruits and vegetables, in the message from the potato bug, the tomato worm, the plum curculio, the apple worm, the San Jose scale on peaches and pears, the cabbage worm, etc. In these "days when people are thinking of returning to the soil to raise some crop that will ease the cost of living, they perhaps did not know that onions, which are bringing a high price, are another crop that is interested by a menace, a maggot which injures whole fields of onions unless checked. However, as in the case of other crop menaces, agriculturists have found a method of protecting the onions. Anyone wishing to know about it may ask R. W. DeBum, extension specialist on market gardening, at the State Agricultural College, New Brunswick, N. J. Tree of charge.

EDITORIAL NOTES

Perhaps the people who started some of these food riots did so not so much because of hunger themselves, as because of seeing other people hungry.

It is perhaps natural that the bonyard law should make many people shiver to the marrow.

Treaties nowadays are the agreements now expected to go with nations having a stronger military force.

The people of the United States would almost be willing to go without potatoes for six months if all those being held by speculators should rot on their hands.

PEOPLE'S FORUM Disagrees With Mr. Smuck Editor Courier-News: I noticed in the Courier-News of March 13 an article headed "Smuck's Plans are Presented," in regard to the overflowing of Green Brook every time there is an extra heavy downpour of rain. If I am not mistaken, the part of Green Brook that overflows lies between Paragut road and Leland avenue. I would like to suggest, if suggestions are in order, that before any imported engineer is consulted, the cause as seen by old Plainfielders be removed. The cause from my point of view is, the water is held back by two dams; also the brook is not wide enough to take the amount of water that drains into it after every cloudburst.

My views differ from Councilman Smuck's in this matter, namely, he advocates controlling the brook above the overflowed district. My view is to let the water out below by doing away with the two useless dams, thereby giving the brook about ten feet more fall in less than an eighth of a mile below the part that overflows. It is not sufficient when the brook below enough to take all the water that would ever flow through that district. With ten feet more fall in such a short distance below the overflow part the water can set out as fast as it can get in, thereby remedying the bad state of affairs that happens too often.

COURT UPHOLDS ADAMSON LAW

Decision Comes Soon After Strike Is Averted.

TRIBUNAL DIVIDES 5 TO 4

Majority Ruling, Read by Chief Justice White, Holds Congress Has Power to Fix Wages as Well as Rates—Justice Day, Pitney, McReynolds and Van Devanter Dissent.

Washington, March 20.—With far-reaching consequences as regards future contests between capital and labor in interstate commerce, the supreme court by a vote of 5 to 4 held the Adamson eight hour law constitutional.

It is held that the law is constitutional, and also in the dissenting opinion of Justice McReynolds, that Congress has power to fix wages which may threaten the country with paralysis of commerce lies within the power of Congress.

Justice Day, Pitney, McReynolds and Van Devanter Dissent.

DESPONDENT WOMEN MILLS PUTS IN NEW TAX BILL

Bitter Fight in Legislature on Measure.

ALL CORPORATIONS ARE HIT

Provides 3 Per Cent Imposit on Income of All Corporations in State, Limiting Taxes Now in Force—Maximum Promises Revenue of From \$20,000,000 to \$30,000,000, One-Half Going to the State.

Albany, N. Y., March 20.—A bitter fight in the legislature is expected by political leaders by the tax bill introduced by Senator Glenn L. Mills of New York city to force heavy taxes upon all mercantile and manufacturing corporations.

The bill represents the principal finding of the special committee named to investigate the subject of taxation. It provides that each corporation must file a report with the state comptroller to the effect that the bill is intended to the benefits in which the taxes are levied.

The bill also provides that the corporations from all personal property taxes and also from corporation franchise taxes. These taxes amount to \$100,000,000 annually at present.

Another bill was introduced by the committee which provides for an annual tax of 2 mill on all corporations. The bill also provides for a system, levying but one tax on each secured debt.

Justice White in the majority opinion concluded: "It is held that the act is constitutional, and also in the dissenting opinion of Justice McReynolds, that Congress has power to fix wages which may threaten the country with paralysis of commerce lies within the power of Congress."

Justice Day, Pitney, McReynolds and Van Devanter Dissent.
