MRS. SAMUEL IRVINE  
DIES AT MÜHLENBERG

Mrs. Samuel Irvine, aged 60 years, of New Brunswick, died at Muhlenberg Hospital last night. She had been in the institution for medical treatment since February 20 last. She leaves a son and daughter. The body has been removed to New Brunswick, where the funeral and burial will take place.

PERSONAL

Miss M. E. Adams, of Plainfield, is registered at The Colonial Hotel, Mt. Clemons, Michigan.

### HEBREW SCHOOL OPENS ON SUNDAY

Classes to be Formed Immediately—Early Enrollment Is Urged

The Plainfield Hebrew school will formally open Sunday morning, April 22, in their new quarters on West Front street.

To study the history and literature of his forefathers, the Hebrew child will now have all the necessary facilities. Large, airy, furnished quarters equipped in the most modern way and under proper guidance of efficient teachers will attract the child. A few of the features of the school will be the proper instruction in Hebrew and History. A library containing books, magazines and reference works on modern Hebrew thought, a society to develop the true spirit amongst them, a recreation place. Special Sabbath afternoon services and Sunday morning exercises.

All parents, Orthodox or Reformed, who desire the proper Hebrew training of their children, from the age of 6 to 16, can take advantage of these opportunities. The committee will enroll new pupils on Sunday morning and the rest of the week in the afternoon.

The Board of Education states that since classes must be formed immediately it may be difficult to place a child in its proper class after the first week and so enrollment must be early.

CHANCE SALE TOMORROW

The Non-Quit Circle of the Temple Baptist Bible school will hold a sale this afternoon forenoon, at the L. W. Randolph store, on West Front street. This circle is an active, energetic body of young people, always in front of her home in memory of a daughter.

### TRUSTEE OFFERS TWO WILLS FOR PROBATE

Those of H. P. Reynolds and Mrs. Elizabeth DeForest Filed in Court

Attorney George W. Bird, of the firm of Swackhamer & Bird, acting as trustee and executor, yesterday offered for probate in the surrogate's court, Elizabeth, the will of deceased H. P. Reynolds, who was the owner of Plainfield drug store. Mr. Reynolds left personal and real property estimated in value at \$15,000. There are no public bequests.

The property is left to Mr. Bird in trust, he to see that the testator's sister, Miss Elizabeth Lawrence Reynolds, is provided for, and after her death the estate is to be distributed according to law. The will was drawn in November, 1915, and the witnesses were Roland Treadwell, S. B. Swackhamer and City Treasurer Arthur E. Cron.

Another will offered for probate yesterday by Mr. Bird was that of Mrs. Elizabeth DeForest, who resided on West Second street for many years. Mr. Bird is named as executor of the estate, the value of which is not stated. It is left to the relatives and several intimate friends. Among the beneficiaries are three grandchildren, George Francisco, of the borough, and Miss Isabelle DeForest and Mrs. John Dixon, of West Second street. Mrs. DeForest was for many years active in religious work and temperance work, and some time ago wrecked a drinking fountain in front of her home in memory of a daughter.

### A Successful Store

One that sells goods that won't come back to customers that will. We have always clung to this belief—to this measure of business success.

Rothberg "Things Men Wear" have always satisfied Rothberg patrons, because they have always satisfied us.

We have practiced no discrimination toward our stock or our customers. We sell our lowest priced article as much as our highest.

We show as much courtesy toward a patron who is buying the cheapest article in the store as toward a customer who is buying the best.

We are successful because The Rothberg Store sells goods that won't come back to customers that will.

## "A Brass Band Gone Crazy!"

That's the way a wag describes the original Dixieland "Jass" Band. Beyond that description we can't tell you what a "Jass" Band is because we don't know ourselves.

As for what it does—it makes dancers want to dance more—and more—and yet more!

You'll want to hear the first Victor Record by this organized disorganization—it's a "winner." "Livery Stable Blues," a fox trot, and "Dixieland Jass Band One-Step" are played with charming ferocity and penetration.

### A Sick Giant

Hal Coffman, the well known cartoonist, recently drew a picture of four giants. Two, named "Gambalism" and "Slavery," were lying on the ground, dead. One, "Intemperance," was vomiting in a death struggle. The fourth, "Greed," was still up and fighting.

There is such a monster as "Greed" in certain department stores; and he soon becomes known to the woman whose interest is backed by long shopping experience.

THE TEPPER STORE HAS DEALT THIS GIANT A SEVERE BLOW. We work on a FAIR MARGIN OF PROFIT. We do our utmost to select merchandise of the highest standing in quality, material and make, to sell to you at MOST REASONABLE PRICES.

We do not try to attract trade to our store by the use of "WALDIE PHONES" or UNDUE SUPERLATIVES.

We do not make claims which we cannot substantiate. Our price tags tell the story.

"Greed" has learned that he must forage ELSEWHERE. THIS STORE IS FOR YOU. The Ad-Itor.

### BACK TO THE SOIL A GOOD THING

Says Henry Rogers, of Highland Farm, Who Advocated It Long Ago

When Henry Rogers, of Highland Farm, began to advocate the "back to the soil" movement three years ago, he little thought that his advice would be taken by the millions of overworked men in the union, as well as the President, and that the imperative need of raising more crops which was apparent to him then would be realized by all few years later. It is now found to the credit of the Highland farmer for having pointed the way to greater economic efficiency at a time when few realized the importance of this subject. Now everybody is talking about planting the gardens and raising produce to feed the human family. Discussing the subject yesterday, Mr. Rogers said: "The European war and the possibility of this country being drawn into it, is given as the reason for this call to the soil, but as a matter of fact, the cost of living can be traced directly to the indifference of the American people to agricultural pursuits for the past dozen years. Millions of acres have remained un-

tilled for years, because our industrial growth has taken men from the farms although the men who used to work in the industries filled the soil after their hours' work at machines, the succeeding generation indulged itself in the comforts of the breeding generation had provided, and finally the struggle for existence became so keen that the increase in wages was hardly sufficient to meet the requirements of the household, and instead of going to work in the garden as the men of twenty years ago did, those of the present time satisfied themselves by grumbling about the combination of things were formed to curtail the distribution of foodstuffs, and to regulate the price paid for the same.

"If every man with a garden (and nearly every household has one) would have turned to the soil a dozen years ago, and produced week year a part of what he and his family consumed, there could be no such thing as the high cost of living, but when the farms were depleted through men going to the industries, and when city lots were offered to remain uncultivated, the amount of production was decreased, and as population increased faster than the means of increasing it, the field of the fields under cultivation would be far below the requirements of the human family, and as this call to the soil made itself felt the purchasing power of the dollar began to decrease, and finally big wages meant nothing because a dollar only bought

one quarter of what it did twenty-five years ago.

"We have developed to an extent that has thrown us out of balance. Our industries have thrived and our farms have been laid waste in many sections, because there was no one to cultivate them.

"This has been changed now, and the back to the soil movement is going to be of greater benefit than can be anticipated.

"We shall not only increase our food supply, but we shall have a harder race of men. The boys who play about the street and get into all kinds of trouble, can dispose of their surplus energy in pulling weeds out of the garden or doing some other useful thing."

"It is my opinion that every school boy and girl should be taught that they must contribute by their efforts to the production of the food they consume."

"That doesn't mean child labor; it means the cultivation of thrift, and the feeling of the responsibilities each member of society owes to society as a whole."

RESCUE MISSION NOTE

George Stegals, for many years associated with Rescue Mission work in Columbus, O., will speak this evening at 8 o'clock at the Plainfield Rescue Mission. Special music will feature the service.

### DIVORCE FOR MAY EMILY COX

Vice Chancellor John H. Backus, Chancery Chambers, Newark, yesterday recommended a decree of divorce for May Emily Cox, of North Plainfield, from her husband, Charles H. Cox. The action, which was brought on the grounds of desertion, was stated in September last. Cox failed to appear when the case was first called, but filed a cross bill alleging that his wife had had improper relations with Charles H. Wesley, of this city.

So serious were these charges that the Chancellor, appointed G. W. Moy, of this city, to defend the charges. When the proceedings came before the court yesterday it was brought out by Harry C. Runyon, counsel for Mrs. Cox, that an alleged confession which Wesley was said to have made to his wife, with respect to his relations with Mrs. Cox, was without foundation, and showed that on the dates when the acts referred to were alleged to have taken place Mrs. Cox was not in Wesley's company.

It was admitted by Mrs. Cox that she met Wesley and that she had written to him when he was in Panama. She said that he had given her to understand that he was not married, and she believed that to be the case, until he returned to Plainfield with his wife.

Mrs. Cox then told Mrs. Wesley of her relations with Wesley, but they were not of the character which the defense tried to prove.

Several letters written by Mrs. Cox and Wesley to each other were offered in evidence, and it was also shown that Wesley signed the confession of desertion in the institution of his wife.

The Vice Chancellor could find nothing valid in the charge filed against Mrs. Cox and said that he would recommend a divorce.

Mr. and Mrs. Cox were married by the Rev. J. O. McKelvey in North Plainfield in 1906. They have two children, a boy fifteen years old, and a girl thirteen.

Cox deserted his wife in 1909. He is now said to be in Atlantic City. Mrs. Cox was formerly Miss Emily Squire. G. W. Moy was counsel for the defendant.

## STATE CHAMBER OF COMMERCE DINNER

Three Hundred Enthusiastic Jerseymen Gathered at Robert Treat Hotel

Three hundred representative business men, bankers and agriculturists of New Jersey, from every section of the State, listened to a patriotic address by Governor Walter Edge last night in the Robert Treat Hotel in Newark, at the annual dinner of the New Jersey State Chamber of Commerce. The Governor outlined the preparedness measures that have been taken by the State through the military establishment and through cooperation with the Educational and Agricultural departments of the State Government and by close communion with the municipal authorities throughout the State.

He urged lending to the city, county and State governments and, thereby, to the national Government of every individual and general unit of energy that can be mustered; and was applauded when he declared that in time of national danger since the days of the Revolution New Jersey has been a leader in its preparedness and in its contribution to the call of the nation.

George A. Viehmann, president of the chamber, told of its objects and its accomplishments. In opening his address Mr. Viehmann proposed a toast to the President of the United States. There were also addresses by Charles Lathrop Pack, of Lakewood, and Allan S. Page, of Sussex county and New York.

Plainfielders who attended the dinner were W. A. Garrison, T. B. Kooner, David T. Koenig, E. E. Feickert and Charles H. Frost.

In the afternoon there was a business session of the State Chamber, at which trustees were re-elected for the year, and there was a conference of leaders in many walks of life in the State under the direction of the State Chamber Federation, with Augustus V. Harburg, of Newark, presiding. The object was discussion of the food and other problems that have arisen because of war conditions and that are expected to arise.

It was finally decided that the State Chamber will lend its fullest cooperation to the State and municipal bodies that are handling the different aspects under a comprehensive scheme announced several days ago by Governor Edge, the object being to prevent duplication of effort and to gain greater accomplishment.

The latter declared that the Lackawanna company has given close attention to the matter of farm labor, and is prepared to help out by diverting a portion of its force of five thousand laborers to the use of farmers, and to pay the men the difference between what they are now earning and what the farmer may be able to pay them.

### AARON L. JIMERSON DIES IN 85TH YEAR

Aaron Little Jimerson, aged 85 years, died this morning at the home of his daughter, Mrs. George W. Marsh, 11 Maple avenue, North Plainfield. He was born at Bound Brook and was the son of Mr. and Mrs. Henry Jimeron, of that place. He was married on July 1, 1855, to Miss Charlotte Hand, and by the union there were eight children, three of whom are still living, Mrs. George W. Marsh, W. S. Jimeron and Mrs. J. T. Collins, the last named of Bound Brook.

Mr. Jimeron was one of twelve children, six boys and six girls, and one brother, Albert L. Jimeron, who lives. The funeral will be held at the Baptist church, 7th Plainfield, Sunday afternoon at 2 o'clock, and the burial will be at Scotch Plains.

Mr. Jimeron had a brick yard many years in Netherwood where the French Air Home is located. At one time ex-Captain Fredericksen worked for him.

### LONDON ENTHUSIASTIC OVER AMERICAN DAY

Special to the Courier-News: London, April 20.—Wild enthusiasm marked the observance of American Day in the streets of London. Enormous masses of people flocked to the city to welcome America as an ally in the great war. Especially crowded were the thoroughfares through which King George and Queen Mary drove to attend the ceremonies at St. Paul's Cathedral. In honor of the day day-cry throughout the city, the American flag was prominent.

## MERCY COMMITTEE GIVES \$100 TO FUND

Many Activities Reported at Monthly Meeting of Special Aid Society

The local branch of the National Special Aid Society at its meeting in the Hartridge Auditorium yesterday afternoon was greatly encouraged over the announcement that the Committee of Mercy of this city had appropriated \$100 to the society, the money to be used for civilian relief work which has become necessary during the present crisis.

Mrs. Frederick W. Goddard, president of the society, delivered a patriotic address, in which she urged the members not to stand in the way of the enlistment of their husbands and other men in the military or naval service, declaring that this is the time when every woman will be called upon to make some sacrifice for the country. The applause which followed the address demonstrated that all the women present were in unison in the sentiment expressed by the president.

In the absence of a special speaker, Mrs. Allan Cowperly gave a brief address telling of the society and the great amount of work it is accomplishing at the present time.

The gardening committee of the society, comprising twenty members, has decided to take up its work at the Kenyon Gardens, where each member will be given a plot 12 by 12 feet and instructed to make collect for growing peas, beans, Swiss chard, carrots, radishes, lettuce, beets and kohlrabi. The committee will visit the gardens on Monday and Thursday of each week.

## IMPROVED MAIL SERVICE SECURED

Letters Will in Future be Dispatched From City Early in the Morning

Postmaster Alvin E. Hoagland, after considerable effort, has been able to make a new arrangement regarding the dispatching of mail which should result in great improvement to the service. Under the new order, all mail will be collected from every letter-box in the city at night, and dispatched from here on the 2 o'clock morning train to New York. This will insure the early morning delivery of mail in New York City, and close connection with express trains going east and west.

The collection of mail from the boxes will start each night, except Saturday, at Clinton avenue at 9.30 o'clock. From that point the collector will cover the West End in Park avenue, then North Plainfield and the Netherwood district, all of the mail being collected before 7 o'clock in the morning.

The collection of mail from the boxes will be corrected to comply with the new orders as quickly as possible.

Mr. Hoagland also trying to arrange to have mail sent west on the 1.20 o'clock morning train, and when that is completed due announcement will be made. Every carrier is instructed to make collect when passing letter boxes and thus prompt dispatching of mail is assured. The collection of mail on Sunday begins at 3.30 o'clock in the afternoon. It is believed that sending mail from this city on the early morning train will greatly facilitate the service.

## FINANCE COMMITTEE MET

The Councilman Finance Committee held a meeting last night at which the budget for the present year was discussed. The question of increasing wages of city employees was taken up and it is understood that Mayor Calkins took a position against any increase this year, stating that the tax rate will be sufficiently high without adding more to salaries, and that the wages paid here are not out of proportion to those paid in other towns.

Yesterday's Announcement of the Quaker Man's Visit Read With Much Enthusiasm by the People of Plainfield

His Wonderful Work With QUAKER HERB EXTRACT at Elizabeth Recently, Already Most Generally Known. Will Sufferers of Rheumatism, Catarrh and Stomach Troubles Also Be Made Happy Here, Like Thousands Have in Elizabeth?

Yesterday's announcement in this paper that the Quaker Man intended to spend a limited time in Plainfield to demonstrate the marvelous curative power of Quaker Herb Extract was surely welcome news. Much has been said and read about this great remedy, and it will now be learned to a certainty whether such glorious results claimed to have been obtained by people in near by towns will be found here also. The Quaker Man will be at Wells' Drug Store, the Borough, commencing next Monday morning, and he invites all sufferers from rheumatism, catarrh and stomach troubles to call on him. He will show what Quaker Herb Extract will do for such complaints and wishes it understood, distinctly, that in all cases where it falls to help, the purchase price will be cheerfully refunded.

Just to give the idea what Quaker Herb Extract will do, the following is published, with consent. Miss H. Benson, aged in company 221 Orchard street, Elizabeth, relates as follows: For the past two or three years I suffered from a rather peculiar stomach complaint. No matter what I ate or drank, distress would follow. Gas would form and that caused me to have a feeling of shortness of breath and dizzy spells. I always had a disagreeably coated tongue and of course the breath which I exhaled was much worse. I was getting nervous and inclined to have spells of dizziness and melancholy. My complaint caused me to leave high school and my father thought by being taken to a doctor I might be cured, etc., would help me, but these things seemed to make no change in my condition. I was constantly being and my stomach would beat even though I drank only a small quantity of milk with my meals. My father brought home a treatment of Quaker Herb Extract. He had taken it himself and it had done him to please him rather than with expectations of being benefited. I felt disgusted with all. But this time I had with an agreeable surprise. I took of Quaker Herb Extract more than ten days when I really felt remarkably improved. My food seemed to digest properly and I felt that I was getting on my feet. I also say that in the past three

weeks I have gained 2 1/2 pounds. This may not be much, but it's a good start to prove that I am well again. This testimonial is published with the consent of Miss Copeman and her mother. It is not such proof as this convincing and encouraging? Do you suffer from rheumatism, catarrh or stomach troubles, be sure to call on the Quaker Man. He will show you. It costs nothing to talk to him and he will gladly tell you all about Quaker Herb Extract.

Special—Here is a generous offer made yesterday, repeated today. The Quaker Man will give away, by calling on the Quaker Man at Wells' drug store either next Monday or Tuesday, a quantity of Quaker Herb Extract absolutely free. This remedy will ease the worst of the rheumatism, catarrh or stomach troubles within a few hours after taking. No dieting or starving necessary. This offer good for next Monday and Tuesday only.

Commencing next Monday and continuing daily for an indefinite period, the Quaker Man will give away a quantity of Quaker Herb Extract absolutely free. This remedy will ease the worst of the rheumatism, catarrh or stomach troubles within a few hours after taking. No dieting or starving necessary. This offer good for next Monday and Tuesday only.

KNIGHTS OF MALTA TO MEET IN KEARNEY

The annual meeting of the Grand Commandery of the Ancient and Illustrious Order Knights of Malta of New Jersey will be held at Kearney Thursday, May 3. It will be opened at 10 o'clock by Grand Commander John C. Biehl, of Paterson. The various committees will meet on the previous evening to prepare reports which will be submitted at the annual session. One new commandery has been added during the year and a gain of thirty-five members is shown. Plans will be made at the meeting to conduct an extensive membership campaign.

The following grand officers will be installed to take charge of the Grand Commandery during the ensuing year: Grand commander, William M. McLean, of Paterson; generalissimo, Paul Brown, of Philadelphia; captain general, Rev. A. Bylan Fitzgibbon, of Elizabeth; prelate, W. Stanley Woodruff, of Elizabeth; recorder, Rev. Frederick S. Benson, of Whitehouse; treasurer, William Saunders, of Paterson; Secretary, Burton Ashman, of Trenton; junior warder, Jesse P. Miller, of Trenton; senior warder, Henry J. Miller, of Passaic.

JOURNEMEN BARBERS SEEK WAGE INCREASE

A minimum wage of \$16 a week will be sought by the local journeymen barbers of this city. It was decided at the meeting of the local barbers union held last evening. The pressure of the high cost of living and the fact that the minimum wage organization as the reason given for the seeking of an increase of the minimum wage at this time. The union has been successful in securing a slight increase in wages less than a year ago, it has proved to be too little to meet the constantly increasing cost of living. It is the intention of the union to be held at the Building Trades Council hall next Thursday evening, April 26, at 8 o'clock, to discuss the matter and to effect the new schedule will be set.

In discussing the subject this morning, an employer stated to a reporter that he would be glad to grant the increase if the price of hair cuts would have to be raised in a number of the local shops, possibly to the extent of 50 cents. No action on this matter, however, has been taken as yet.

NEW CORN DISTRIBUTED 250 PACKAGES OF SEED

Judge William Newcorn, chairman of the Republican County Committee, who yesterday announced that he had received a supply of corn seeds from Congressmen Caperton for distribution among the people of Plainfield, announced this afternoon that the supply received yesterday was exhausted and that he has written to Mr. Caperton to obtain more seeds for this city.

Judge Newcorn states that between 5 o'clock yesterday afternoon and 11 o'clock this morning he gave out 256 packages of seeds. In each package there were five different kinds of corn, including the best of the city applied for this purpose. He is sure that they have been placed among people who will put them to good use.

If it is possible to secure another supply from Washington, he will announce the fact through the kind of newspaper which will distribute them as freely as he did the last received yesterday.

WILL OCCUPY NEW QUARTERS

Charles A. Kane, for the past eleven years associated with the Atlas Hat Company and for the past ten months at A. B. Latta's garage on Elymore street, will occupy new quarters at 100 Grove street, near Greenbrook, when completed.

THE FUNERAL OF MRS. JESSIE TENNYSON

The funeral of Mrs. Jessie Burdick Tennyson, who died on Tuesday, was held this morning at her late residence, 7 Madison avenue, the Rev. Dr. Philip B. Strong, pastor of the First Baptist church, officiating. There was a large gathering of relatives and friends. There were several beautiful flowers, including a splendid set of pieces from the Young Women's Christian Association of the city. The service was held at the Baptist church, and the Billy Sunday campaign office.

During the service William H. Long, of Somerville, and "Crossing the Bar," Dr. Strong spoke tenderly of the deceased, and the service was a most beautiful and helpful one. The interment was made in Hillside cemetery.

EMMETT AUGUSTUS QUARLES WEBS MISS ANITA STILLMAN

The marriage of Miss Anita Stillman, daughter of the late Prof. Thomas B. Stillman, of Stevens Institute, and Emmett Augustus Quarles, of New York, took place yesterday at the Astor Hotel, New York. Mr. Quarles is the son of the late Prof. James Quarles of Washington and Lee University.

BELIEF ALIEN'S PATROL VESSELS

tion of the food supply, together with the movement of farming and gardening activities, that the recreational work could not hope for consideration just now.

It does not appear that the recreational work is to be abandoned, for as soon as the war is over it is proposed to continue it as before. In the meantime, however, last night's decision the members of the committee, at the suggestion of Arthur B. Jones, who is one of the sub-committee heads of the food commission named by Mayor Johnston, decided to co-operate with him in whatever way was thought best to increase the food supply in this city.

Miss Lillian Lamon, supervisor of recreation work, it is expected, will also lend her efforts to some part of the work of organization of the food commission, particularly among the boys and girls.

The action temporarily suspending recreational activities has been the following resolution, which was adopted: Whereas, the public Recreation Committee was organized to increase the use of the public school buildings for recreational, educational and civic purposes and to secure to the people the greatest use and benefit of the public property, and

Whereas, the work has been carried on with increasing public attendance, and

Whereas, the critical economic condition of the country has brought forward more immediate needs; therefore, be it

Resolved, That the Public Recreation Committee hand down its work to the Board of Education, under which it properly belongs, and ask to be relieved of further responsibilities in that connection, thus leaving the members of the committee free to serve their country in other ways.

The Public Recreation Committee was organized in January, 1913, following the appointment of members by Mayor Percy H. Stewart. The purpose was to introduce and promote a new phase of civic work through the wider use of the public school buildings. It now feels that its work has been accomplished and the people are beginning to realize its importance to the community.

Every member has worked hard and faithfully under the leadership of G. Stuart Simons, Arthur B. Jones, Henry C. White and C. L. Lewis, who have served as presidents. Groups are now asking for the use of the school buildings, and it is reported that the past year's work has been the most successful of the organization.

The Board of Education will meet tonight when C. L. Riley will appear before that body to report on the work of last night's meeting of the recreation committee and learn the decision of the board.

TO ENTERTAIN IN EVERGREEN SCHOOL

An entertainment that promises to be of more than usual interest will be given in the Evergreen school building, under the auspices of the Recreation Committee. The Harvey O'Higgins will read from his own work; Miss Dorothy Lewis will sing soprano solo; Miss Mary Simmons and Herbert Case will appear in a sketch. Mrs. C. L. Lewis will sing a solo. There will be piano duets and Miss Dorothy Hall, of New York, will demonstrate Greek interpretive dances. There will be a general dance after the program.

MANUAL TRAINING TEACHERS ORGANIZE

Instill a Square Foot Plan and you get value for every square foot of coal. The square foot plan increases the radiating surface 15% over the ordinary round fire. It is free from clogging and cinders. It is a success. It keeps the air pure and healthful.

Union County Organization Formulates Plans to Help Preparations Movement to Help

The Manual Training Teachers' Association of Union County, in association with the Board of Education at the Plainfield high school, when the following officers were elected: President, Arthur P. Hopper, of Paterson; Secretary, Mrs. M. J. Decker, of Paterson; Treasurer, Miss Elizabeth Pierce, of Cranford.

After the election the meeting was addressed by E. A. Reuther, assistant commissioner in industrial education, of New Jersey, who took for his topic "How to Plan the School in the Present Crisis?" Mr. Reuther laid particular emphasis on the home garden movement and the part that the manual arts teachers should take in aiding the work.

He showed how the art department could help in making posters to bring the help before the public. Many of the teachers of sewing and cooking could be of service in this national movement as well as up. Plans for forming a Junior Industrial Army were also taken.

Mr. Reuther placed the situation before the teachers in a very clear and pointed way. He pointed out the considerable interest among all present. Short talks along the same line were given by Dr. H. M. Maxson, superintendent of schools at Plainfield, and Dr. A. J. Johnson, county superintendent of schools. At the suggestion of the latter committees were appointed with a view to organizing and putting the various plans into operation as quickly as possible.

After the general meeting sectional meetings were held and plans outlined by Mr. Reuther taken up in detail. Miss Lucille Jackson, of this city, outlined the possibilities of conservation and also led a discussion on the practice cottage and its possibilities. The following committee will represent the teachers: Chairman, Miss Lucille Jackson, of Plainfield; Miss Alice Lindsay, of Plainfield; Miss Sarah E. Davis, of Westfield; Miss Beulah Goodwill, of Roselle; and Miss Elizabeth Pierce, of Cranford.

Mr. Reuther was chairman of the manual training teachers' meeting and led a discussion on the organization of garden work and ways and means by which the shop teachers could be of service. The following committee was appointed: Chairman, Arthur P. Hopper, of Plainfield; Clarence Shubert, of Plainfield; Herbert B. Clark, of Westfield; Miss Alice Lindsay, of Plainfield; and Willard Conroy, of Somerville.

Miss Lucille Haines, of the New York School of Fine and Applied Arts, was the speaker at the drawing teaching section. She gave an interesting talk on the work of the New York school. The following committee was appointed to look after the organization of the other allots at war. Senator James Hammond will be the treasurer.

WILL BE GUEST AT ST. GEORGE DINNER

Hon. William N. Runyon, of this city, will address the members of the Sons of St. George at a banquet to be held at the Hotel Windsor, Trenton, on Monday night. The occasion is in celebration of St. George's Day.

Other speakers will be Mayor DeLoach, of Trenton, and Supreme DeLoach, of Trenton. The principal theme will doubtless be the bond of alliance which join the United States with Great Britain and the other allies at war. Senator James Hammond will be the treasurer.

ANNUAL CONVENTION OF NURSES ASSOCIATIONS

Measures of great importance and interest to the country will be discussed at the annual convention of the American Nurses Association to be held in Philadelphia from April 26 to May 2. The matter of hospital preparedness and the preparation of the nursing force in the event of a national emergency will be one of the principal objects of discussion.

GOING TO CHICAGO

Joseph P. O'Keefe, of West 50th street, has accepted a position with an automobile manufacturing concern in Chicago, and will move there in the near future. Mr. O'Keefe has for many years been in the employ of the D. and H. Railroad, where he was a prominent member of the Elks and Knights of Columbus.

SUSPENDS AUTHORITY OF RECEIVERSHIP

Samuel N. Hoag, supreme regent of the following telegram, which was explanatory, to Henry J. Bierman, grand regent of the order in New Jersey: "General counsel wires that Federal District Judge Aldrich today granted decree dissolving injunction of Albert Barney, trustee of the order against Royal Arcanum. Society restored to original status in transacting business. Case argued Wednesday morning. No appeal as above without submission of proof on part of society."

BACHELOR CLUB DANCE APRIL 26

The Bachelor Club will give another invitation dance in Debeak's hall, North Plainfield, Tuesday evening, April 26. Bennett's orchestra will furnish the music. The last dance the club conducted was a very successful affair being enjoyed by the large attendance.

HERE A SUCCESSFUL DANCE

Over 150 were present last night at Debeak's Hall to enjoy the social affair given by a committee composed of Roy Stewart and Walter Debeak. The dance was a success, continuing until a 1 o'clock. During the evening punch was served and the dancers who cavorted to the tune of "The Merry Old England" were highly entertained.

Union County Organization Formulates Plans to Help Preparations Movement to Help

The Manual Training Teachers' Association of Union County, in association with the Board of Education at the Plainfield high school, when the following officers were elected: President, Arthur P. Hopper, of Paterson; Secretary, Mrs. M. J. Decker, of Paterson; Treasurer, Miss Elizabeth Pierce, of Cranford.

After the election the meeting was addressed by E. A. Reuther, assistant commissioner in industrial education, of New Jersey, who took for his topic "How to Plan the School in the Present Crisis?" Mr. Reuther laid particular emphasis on the home garden movement and the part that the manual arts teachers should take in aiding the work.

He showed how the art department could help in making posters to bring the help before the public. Many of the teachers of sewing and cooking could be of service in this national movement as well as up. Plans for forming a Junior Industrial Army were also taken.

Mr. Reuther placed the situation before the teachers in a very clear and pointed way. He pointed out the considerable interest among all present. Short talks along the same line were given by Dr. H. M. Maxson, superintendent of schools at Plainfield, and Dr. A. J. Johnson, county superintendent of schools. At the suggestion of the latter committees were appointed with a view to organizing and putting the various plans into operation as quickly as possible.

After the general meeting sectional meetings were held and plans outlined by Mr. Reuther taken up in detail. Miss Lucille Jackson, of this city, outlined the possibilities of conservation and also led a discussion on the practice cottage and its possibilities. The following committee will represent the teachers: Chairman, Miss Lucille Jackson, of Plainfield; Miss Alice Lindsay, of Plainfield; Miss Sarah E. Davis, of Westfield; Miss Beulah Goodwill, of Roselle; and Miss Elizabeth Pierce, of Cranford.

Mr. Reuther was chairman of the manual training teachers' meeting and led a discussion on the organization of garden work and ways and means by which the shop teachers could be of service. The following committee was appointed: Chairman, Arthur P. Hopper, of Plainfield; Clarence Shubert, of Plainfield; Herbert B. Clark, of Westfield; Miss Alice Lindsay, of Plainfield; and Willard Conroy, of Somerville.

Miss Lucille Haines, of the New York School of Fine and Applied Arts, was the speaker at the drawing teaching section. She gave an interesting talk on the work of the New York school. The following committee was appointed to look after the organization of the other allots at war. Senator James Hammond will be the treasurer.

LIBRARY ENLIGHTENING THE WORLD

That was a wonderful spark destined to glow into a great light and kindle its bright rays far, which was kindled upon this continent one hundred and forty-one years ago. The right of men which has guided to republican liberty every independent people of the Western Hemisphere, it has kindled freedom in Mesopotamia while the shadows from Spain; it has liberated Portugal and even distant China, and now at last has penetrated to the very depths of darkness.

In 1776 most of the world was still governed by kings of absolute power. A republic was an unknown term. The right of men to govern themselves was but an anomaly. It was shown America led the way. Well, America has proved it glorious experiment. It has demonstrated; no longer weak, but powerful; no longer isolated, but bearing world tasks, duties and responsibilities. It is a successful nation, a bright power among all the nations.

### SOUP

Soup is one of the less effective foods. It is very filling. But it does not take hold like corned beef and cabbage. Like our music, our drama, our opinions and our incomes, soup is canned. They have built great palaces of illusion for that. There they cook it into the thick, creamy, delectable, and it sits on a shelf days, weeks, months—maybe years—till somebody calls for it. No wonder soup gets despised. We bought some the other day that was horrible.

William DeLaroché Anderson, statesman, farmer, agitator, local politician and press agent of various things, institutions and men, suggests a new outdoor field sport for the coming season. What is it? Killing potato bugs, of course. Entries for the championship events will be received any old time.

Dunellen will have two baseball teams on the field this year—the Dunellen Field and Dunellen Subur-

# MEN!!

The fancy price you are paying for clothes nowadays represents about one-half actual clothes value; and the other half for "Pedigree," fancy label, skillfully worded, literary embellished ads. Such fancy words as "Distinctiveness," "Exclusiveness," "Authenticity" of style, "Smartness," "Character," "Dash," "Pep," etc., etc., with a couple of "Herculean" figures that take up about a hundred dollars' worth of extra newspaper space. In a word, you are paying superfluous prices for "Super Superlative" supposition. When you bring the clothes home, put them on your back. It is simply a good suit of clothes, and nothing more. Ever stop to consider that a good suit of clothes, without all this "garniture," might be bought for considerably less?

Here is where you can get clothes comprising all that is desired of them. Style, fit, tailoring and durability at such prices as \$10, \$12.50, \$15; some at \$18.

## Suits and Topcoats

Truly Wonderful Values as compared with the "Pedigreed" kind. We have been selling them here for five seasons, and "We ain't broke, yet." What's more, our customers go out of their way to recommend us.

## ROYALS WILL HAVE TEAM AND A SHOW

### Minstrel Entertainment Being Planned to Raise Funds for Local Baseball Team

The idea is up. Whether Pete Simmons gets on the job or not the Royal A. C. is going to have a baseball team on the field this season. The Kluge Brothers' Greater Minstrel intend to do the trick, put on a performance at the high school auditorium on the evening of Thursday, May 17, thereby securing the necessary funds to run the team, and in the meantime entertain candidates for the team on the sand lots of the West End.

The management of the troupe claims it is going to put on a production that will startle some folks about this fair city of ours. Not only is the big first part going to be a great affair in itself, but a big farce comedy baseball act is to be staged on this occasion, as well as a minstrel act, picturing the capture of General Villa and his band of Mexican bandits. Messrs. Kluge promise a little more advance dope on both show and team in the near future.

Here's looking at you Midge; but hurry along with the team.

### GUN CLUB SHOOT

The Climax Gun Club will hold its last shoot of the season tomorrow afternoon beginning at 2.30 o'clock. A special program has been arranged for the occasion. The work of the club are located on the Johnson farm, Plainfield avenue.

## TARGET TIPS

Would a defender be satisfied for defense use? What I want to know would it be better than any other firearm handling the same cartridge? It would be so effective as any other firearm handling the same cartridge. The cartridge determines the shocking or killing power, provided, of course, that it is properly constructed.

Is there any way to remove the double action from a revolver to target work? Yes. By removing some of the parts it can be changed into a single action, but there is no advantage since the double action can be easily cocked by hand for target work and you always have the trigger controlled action for use at very close quarters.

### HOPE CHAPEL TO OPEN AGAINST FOND SHOP

Hope Chapel will open up its baseball season tomorrow afternoon at West End Oval, West End and Myrtle avenues, at 3.30, with the team from the Fond Machine Tool Company furnishing the opposition. This will be the first appearance of both teams for the 1917 season and fans will be able to get a line on the take-up of the two aggregations at 1.30 time.

### GOAT LINKS FOR GARDENS

Goats throughout the country will be urged to cultivate foodstuffs on all unused portions of their lands and devote the proceeds to the purchase of ambulance trucks and other articles of national defense. It has been announced by officers of the Dunwoody Country Club of New York.

Special Correspondence:  
High Bridge, April 28.—The Hackensack High School baseballists met their Waterloo here Wednesday afternoon when they stacked bats with the local school team in a contest taking the final verdict by a score of 16 to 8. After a loosely played first inning the locals tightened up, although the playing was erratic in spots.

Drive Back 240,000 Fresh Teuton Soldiers.

### NEW WEDGE IN CHAMPAGNE

Forces Invaders to Retire For Three Miles North of Aisne River; First Retreat on That Front Since Battle of the Marne—Success Everywhere on Sixty Mile Front; Paris War Office Reports.

London, April 20.—Part of the famous "Hindenburg swerves" were thrown into battle to hold the southern part of the "Hindenburg line" against the ceaseless French onslaughts. Twelve divisions took the places of the battered front line troops who had been hammered further and further back ever since General Nivelle began his big drive. But they were of no avail. Irregularly the enemy's army swept on, their re-entrances and partly replaced by fresh troops, many of them mere boys of the class of 1917.

Two hundred and forty thousand Teuton soldiers—for that is the war strength of twelve divisions—made head but were driven to the French side on the sixty mile front between Soissons and Aisne. Success everywhere was the keynote of the French official day report. On the Anglo-German front there were no infantry actions.

French Troops Pressing On.  
Both north of the Aisne and in the Champagne the French pushed onward, beating off all counter thrusts. General Nivelle pressed, his lines from Champagne, on the Aisne, more than three miles south of the river. For the first time since the battle of the Marne the Germans have been compelled to yield ground on this front. Meanwhile in the Champagne the French have driven a powerful wedge into the Teuton defense system between Rheims and Aisne, a wedge more than three miles deep. In the last twenty-four hours they stormed another series of formidable fortified heights in the Morvillers sector.

Two additional German batteries fell to the French, bringing the total number of guns captured since Monday close within the 100 mark. The total toll of German prisoners taken by the British and French since April 9 is now approximately 31,000.

The defeat of the twelve German fresh divisions is counted by military experts among the most glorious achievements of the French army since the outbreak of the war. The figures given also indicate the gigantic proportions of the battle now raging. It shows that an average of 4,000 fresh troops were sent to every mile of the sixty mile front making, together, 240,000 men to the mile.

This gives a total of 1,500,000 Germans on the 120 mile front on which the Anglo-French drive is being made, or a grand total of 3,000,000 British, French and German soldiers on this front, which is about one-third of the whole western battle line.

### RECEPTION FOR BALFOUR

Program Complete For Honoring Allied War Heroes.  
Washington, April 20.—Arrangements are practically complete today for the reception of the British commission headed by former Premier Balfour. A program has been laid out for conferences between the visiting officials and those of this government, although nothing has been revealed as to when the commissioners will arrive.

Shortly after his arrival Minister Balfour and his staff will dine with President Wilson at the White House. On the following evening dinners will be given by the secretaries of state, war, navy and treasury.

The conferences will be held in the departments interested, and all departments are now selecting the officials who will confer with the visitors.

### GIVES EMBARGO POWER

Bill in Senate to Prevent Germany Getting Food From U.S.  
Washington, April 20.—Prohibition of exportation of American products to foreign countries except under express supervision of the president of the United States is provided in a bill introduced in the senate by Senator Forand of Maine. The purpose is to stop the exportation of foodstuffs and materials useful to America's enemies. The bill had received the unanimous approval of the committee on commerce. The legislation would give the president authority to hold up shipments where there is indication that neutral nations contiguous to the central powers may have opportunity to ship such materials and foodstuffs as may serve to assist the armies or the population of Germany.

Offers Sixteen Farms to United States.  
Philadelphia, April 20.—Sixteen farms in the White mountain region of New Hampshire are offered to the government by their owner, Henry S. Hale, a local manufacturer. Mr. Hale said the farms total 2,000 acres and are in high state of cultivation. He made the offer "on account principally of the food and labor problem."

 Vol. 2, No. 36 NEWARK, N. J., APRIL 20, 1917 Priceless

**Editorial**

America is waking up—yes, indeed. Did you ever, in all our life, see such wonderful activity? Did you ever see so many of the country's big men volunteering their services—giving up their immensely valuable time for conferences looking to preparations for the eventuality that not only may come, but which are almost sure to come!

On down the line the workers are offering to do their bit in factory and field. Business men, hardly knowing which way to turn to be of most use, are, through various organizations, giving full support to the onward movement.

We knew when it came to a show-down America would be all right.

We are going to show the world that we have outgrown our swaddling clothes and were a sure-enough world power.

Speaking of Clothes, don't let us forget to keep up appearances here at home. We can't all wear military uniforms—and we shouldn't permit the war feeling to demoralize our spirits so much as to lead us to be gloomy and to show it in our dress.

**Men's Hats**

"Wise-heads," "long-heads," "fat-heads"—all sorts, men and conditions of heads fitted properly and becomingly.

Whatever you desire—whatever your taste—we can make it for you.

See the nobly Stetson styles and others—all right up to the mark—all of excellent quality. Every wanted shape and shade.

**EMERGENCY LOAN**

OF \$150,000,000  
 Secretary McAdoo to Borrow for Temporary Use.

Washington, April 20.—An emergency loan of \$150,000,000 is being arranged by Secretary of the Treasury McAdoo. The treasury's funds are being so rapidly depleted by the incidental war expenses aside from the greater war program to be financed by the new war bond bill that temporary financing is imperative. The secretary is in communication with banks and will soon issue a statement announcing the placing of \$150,000,000 of short term securities, probably of three months maturity and bearing 2 1/2 per cent interest. Secretary McAdoo at first intended to borrow \$200,000,000, at that time after conference with bankers decided that \$150,000,000 is all that is advisable to borrow now.

The securities will be of the support as those constituting the \$50,000,000 loan floated by him a few weeks ago. These loans are not regarded as permanent financing, but are merely to tide the treasury over until the income tax is received in heavy volume during June.

The \$150,000,000 loan will be handled through the federal reserve banks, principally the city of New York. The cost \$50,000,000 loan was apportioned among the twelve reserve banks, but in this case the loan will be passed on to those institutions to private banks.

The policy was taken out because of uncertainty arising from the war. Brewster is a member in several leading corporations, including the New Haven electric, the Federal Telephone and Telegraph, the original treasurer of the Standard Oil corporation.

**HELPS FOR THE HOUSEWIFE**

There are several varieties of bread-making bran on the market, each claiming special advantages, but all uniting on the common ground that bran is a valuable food. This bran, so often advertised, also furnishes material for the making of bone, blood and muscle, as it contains a large part of the important elements of the grain.

It is this bran, or bran, which forms the basis of most of the so-called "health breads" and other similar products, all of which can be prepared by any housewife who understands the first principles of mixing and baking.

More than this, the woman with ordinary wit can often improve on a given recipe and adapt it to the tastes of her family. Molasses, prunes, raisins, dates, figs and nuts are the ingredients generally used in connection with bran. The use of these opens a wide field of variety, so that one can easily lose sight of the fact that we are eating these delicacies for "health's sake," because they taste so good.

Fruit cookies or fruit gems, made from bran, are just the thing for children, when some mild corrective seems necessary for the system, and they are always sold with a casing of milk or a cup of cocoa.

In using bran in bread-making, a certain quantity of ordinary flour must be added. The baking of bran bread must be thorough. To this end, the oven should be quite hot when the bread is first put in, the heat being reduced after the bread has risen to its full height and the baking being finished in a cooler oven.

Here are some excellent bran recipes, that can be highly recommended for the family table:

**Raisin Bran Gems**

The ingredients required are: One cupful of bran, half a cupful of flour, one tablespoonful of baking powder, one egg, two tablespoonfuls of sugar, half a teaspoonful of salt, half a cupful of chopped raisins and one cupful of cold milk to form a drop batter. Mix the ingredients thoroughly.

**LITTLE CHING'S CROWN—Part I**

Low-sailed the dipping moon behind shudding clouds, and its golden image danced in the muddied waters of the canal. Ching sat in the broken chair of the deck watching the lights twinkling on shore and the other boats bumping about at the wharves.

Up to the hill the priests were chanting in the temple. Lower down were the sounds of a busy town and the smell of fish and fruit in the crowded market. "Wash the cups and make me a fresh cup of tea," Ching said to his mother's voice. "Then put up the clothebins at the side."

The light in his blue gown shuffed along as he busied himself in washing cups and brewing tea, then he took a steaming cup to his mother. After sipping out the family wash he again sat down to watch the moonlight on the water, for he, like many another Chinese boy, lived in a boat.

His legs ached, for he had to rise early and work late. The shore looked faintly with their rows of sweetmeats, gaudy lanterns and flowers—how different from the boat and his kitchen. Presently a band and soldiers came down the street, the Mandarin borne in a gilt chair on the shoulders of four men and dressed in richly embroidered clothing. A shouting mob followed at the heels of the great man, who wore long chains of jewels and bore a big sword in his hand. The moonlight shone on the silken gown and on the rows of beads around his fat neck. Then the procession passed away in the darkness at the end of the street.

"Ching," came his mother's voice again, "it is time to put on the rice to steam for breakfast. Make haste and do it, then go to bed."

Wearily he got up, poured out the rice and set it to cook. It was growing late, for the moon was dipping below the horizon and the lights were out in the temple on the hill. The city was growing quiet, and even the dogs ceased to bark. Ching slipped off his straw shoes and blue gown before lying down. Over in a corner of the boat was a curiously carved chest which his grandfather had brought from India, and as the boy gazed at it in the shadows he felt a strange desire to open the heavy lid. The light from a red lantern showed that the key was in the rusty lock.

"Well," said Ching to himself, "I am going to inspect that chest before I go to sleep. I have heard that grandfather got some odd things when he sailed his junk to India—a work from surmise to surmise. That fat rich Mandarin who went by last year found some pleasure in living."

So little Ching crept out of bed and opened the chest in the dim light of the cabin. It smelt queer, but the boy determined to see what it contained. Out of it he took a gorgeous suit of purple silk all embroidered with gold and silver buttons. There were golden spurs, necklaces of jewels and a long diamond earring like that the Mandarin had worn.

"I will try them on just for fun,"

**Brain Bread With Prunes**

Two cupfuls each of bran, white flour and sour milk. Half a cupful of brown sugar, one cupful of chopped prunes, one cupful of butter, one egg, one cupful of bran, one cupful of sugar, one cupful of flour, one cupful of baking powder and a quarter of a cupful of salted flour. Dissolve two tablespoonfuls of butter in a cupful and a half of sweet milk and when cooled, add to the flour mixture (it should be of the consistency of baking powder biscuits). Roll out to a quarter of an inch in thickness, mark with a cutter and sprinkle with chopped dates. Roll up tightly like jelly roll and cut with sharp knife into pieces three-fourths of an inch thick. **LEMONS BEAUTIFY!**  
Make Quarter Pint of Lotion, Cheap

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white in this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white. Then shake well and you have a whole quarter pint of skin and complexion lotion. To the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

An aromatic will supply three ounces of orchard white at very little cost and the grocer has the lemons.

**W. C. T. U. WEEKLY NOTES**

Two State Capitals Outlaw Liquor Traffic

Two cities of great importance were won for prohibition on April 3, Springfield, Illinois, went dry by a slory of 451, and the voting women of that city are credited with the victory. While the men of the city gave a majority of 1,877 for the saloons, the women rolled up a majority of 2,323 against them.

Madison, Wis., went 4,556 dry against 4,155 wet. The result was achieved after one of the hottest campaigns ever waged in that city.

Other ten townships were won by the drys and it is estimated that approximately 240 saloons will be compelled to close their doors as a result of the April election.

In Wisconsin a total of 45 cities, towns and villages are claimed by dry leaders to have swung from wet to dry, while only a few were lost.

The popularity of prohibition as evidenced by the vote in the Wisconsin towns will undoubtedly influence the Senate of the Legislature to act favorably upon the prohibition referendum measure that has already passed the House.

The Illinois cities showed a steady growth of prohibition sentiment and justify the fear of the liquorists that were they to permit the Legislature to submit the question to the people they would be voted out of business.

**Sacramental Wine**

It is sometimes contended that Christ sanctified the use of wine by using it at the institution of the Lord's Supper. Yet in no instance is the term "wine" used in connection with that ordinance. In each case it was the "fruit of the vine" or "the grapes." Pharaoh's butlers took the grapes and pressed them into Pharaoh's cup, Genesis, 40:11.

In Isaiah, 65:8, we read of "New wine and strong drink." Adam Christ, who was an orthodox Jew, used the upper room to eat the Passover with His disciples. During the Passover the Jews were forbidden to be allowed in the house under penalty of excommunication, and it was immediately upon the conclusion of this feast that Christ took the cup and gave thanks and said: "Take this and divide it among yourselves. I will not drink of the fruit of the vine till the kingdom of God shall come."

**CHILDREN HATE PILLS, CALOMEL, AND CASTOR OIL**

**Cross, Feverish, Constipated, Give "California Syrup of Figs"**

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "livers" are injured by them.

Give your children the "California Syrup of Figs." It's gentle, it cleanses, gives only delicious "California Syrup of Figs." It's action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs." It has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind—contempt—Advs.

## WILSON PLEADS FOR EAR DRAFT

### In Letter Says It Is Only Way for U. S. to Win.

### HE MAY ORDER PROHIBITION

House Democratic Caucus Votes to Give President Power to Make Hatred Draft by Executive Decree During Period of Conflict--Sanctions Bitterly Oppose Sections of Espionage Bill.

Washington, April 29.—President Wilson has opened his personal campaign to force the administration's selective draft bill through congress.

The president in a public letter to Representative Hoevering of Kansas said service with the army and navy was perhaps not the most vital thing necessary in war and stated that only by selective draft can a large army and navy be kept up without running the danger of taking away large numbers of men whom the country needs kept at their present vocations a great deal more than it needs them on the front line.

In the letter the president said the volunteer system provides no way whatever to prevent men from leaving factories and farms in such large numbers that the nation would shortly be reduced to woe.

"When men choose for themselves they sometimes choose without due regard to their own country," without stating the president wrote. "The principle of selective draft, in short, has at its heart this idea, that there is a universal obligation to serve, and that a public authority should choose those upon whom the obligation of military service shall rest and also in a sense choose those who do the rest of the nation's work."

Prohibition Up to Wilson.

The question of nation wide prohibition as a war measure is left in the hands of the president by the action of the House Democratic caucus. Members of the adherents of the prohibition propaganda were successful in the earlier deliberations, and a motion of Representative William Schley, 87 of Georgia the caucus voted 87 to 60, in favor of Howard's own bill, wherein it was provided that the president be authorized to decree or proclaim prohibition of the manufacture or sale of all forms of alcoholic beverages for the period of the war.

Immediately following this action twenty Democrats, led by Representative Daniel J. Hoevering of New York and consisting practically of the Tammany Hall group in congress, renounced their obligation to be further bound by the caucus' action and left the meeting.

The censorship provisions of the espionage bill is under heavy fire from all quarters of the senate and from the representatives of both national political parties in that body. Complications of the restrictive provisions of the proposed law are of a drastic nature, which it carries was voted by Republicans and Democrats alike. For example, the bill would strip the title of Idaho and Johnson of California led the opposition, while on behalf of the Democrats Senators Reed of Missouri and Thomas of Missouri expressed bitterly adverse views.

Berth Quotes Lincoln.

In his opening attack on the censorship Senator Lincoln reverted to the days of the civil war for exemplification of the attitude of Republicanism toward the restrictions upon the freedom of the press.

"In the days of the civil war when Lincoln was being criticized as no man ever was in public office by one of the best journals of the country, it was said that the administration had better suffer some of the evils and sorrows which accompany such work than that the people should lose control of or forfeit the great benefit flowing from absolute freedom of the press."

His remarks consisted of very few words, and with Democrats and Republicans both participating in the session, today set about the work of drafting bills to reverse the law in the demands for an income something more than \$2,000 annually. They assembled early this morning, and for the coming week their sessions will be practically continuous.

Among the items to be considered and most of which probably will be incorporated in the revenue law will be:

- Increases in income through reduction of 100,000 to \$100,000 for married men and from \$1,000 to \$1,500 for single men. Material increase in the rate of levying tax on higher incomes will be levied so that the smaller incomes of the lower middle class will be subject to as high as 50 per cent in taxes.
- Luxuries to Pay.
- Increase in the rate of the present excise profits tax.
- Increases in the rate of all legal and commercial instruments similar to those levied in the rate of levying tax on which the Spanish-American war was fought.
- Taxes on amusements, gasoline, liquor, cigars, wines, beers and other beverages.

## RUN-DOWN WOMEN

### We Have a Remedy That Will Cost You Nothing If It Does Not Help You.

Plainfield women will please realize that we mean just what we say in the above heading. Let us show you the following proof of the efficiency of Vinol in such cases:—

"For the benefit of the other tired women, I want to say that I keep house for seven in my family. I became run-down, all played out, I did not seem to have any life in me and looked badly. I read so much about Vinol I decided to try it and I must say it helped me as every word I read. I built me up so I felt like a new woman, and my friends said they could see a great change in me. Mrs. John M. Waldron, Saratoga Springs, N. Y.

We recommend Vinol to our customers as the greatest strength energizer we know because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates dissolved in a pure medicinal wine.

## Sit Up And Take Notice Now is the Time to Plant

The United States Government reports that we must supply a large part of the world with food during the Fall, Winter and Spring of 1917-18. The result will be shortage of food supplies, resulting in higher-than-ever prices, if not in an actual famine.

What must we do? People throughout the country are gathering seed that those who prepare by having a garden, no matter how small, will contribute to a great extent, the cost of their weekly bill for Table Vegetables. Plant every available piece of vacant land, including small back yards.

Our Line of Seed Fertilizers and Farming Implements are of the Long Standing Reliable Kind. We have sold them for years, the kind that have been tested and found true every year. We are able to sell you positively true seeds this year without an increase in cost over prices standing last year.

Act quickly to take advantage of the unusual conditions and at the same time help to avoid food panics and famines next Fall, Winter and Spring.

# RECRUIT ARMY FOR FARMS NOW

## State Labor Bureau Starts Work on Big Task.

### OPENS STATIONS IN CITIES.

Commissioner Bryant Outlines Seriousness of Food Situation and Says Farmers Must Be Re-energized With Sufficient Labor or People Will Suffer.—Substitutes For Wheat Must Be Raised.

Trenton, April 20.—Recruiting for the state's agricultural army is now attracting the attention of officials of the state here. The state department of labor has turned its resources into a recruiting bureau.

The men and machinery of the department have been put to work with the objective of filling every vacancy for farm help in New Jersey. The department is working in conjunction with the committee appointed by Governor Edge and with the federal, state and municipal employment bureaus.

Particular attention will be given to the settlements of foreigners by the inspectors. It is believed that the best farm help can be found among these. The work will include enlisting the aid of parish priests, officers of organizations in such sections and the distribution of posters.

Commissioner Bryant has designed a poster to attract men, and it is being put up all over the state, especially in the cities.

The new work was outlined by Commissioner Bryant in conference with the inspectors. He said that the seriousness of the food situation from his personal knowledge, both as a state official and as a farmer. This state has been hit harder than any other, he said, owing to the large number of munition plants located here.

The result was that sections inland had made up the farming industry. He said that the most pressing need is the plow for the attractive pay offered in the factories. To repair this the government, state and municipal agencies is sending every energy to fill the places of those who had left the farms.

**PREDICTS \$1 EGGS SOON.**  
New Jersey Expert Advises Housewives to Prepare.  
Trenton, N. J., April 20.—Eggs at \$1 a dozen next, winter is the prediction of the poultry department of the New Jersey agricultural station in a circular being distributed to women clubs, in which it is recommended that housewives preserve eggs this spring for future use.

"In view of the increased cost of poultry feeds and the resulting fact that many poultrymen are disposing of their birds in the poultry in that fresh eggs will be worth considerably over \$1 a dozen this coming winter. They are now selling wholesale at from 30 cents a dozen, which is probably the lowest point they will reach this spring. If war continues and prices continue to rise fresh eggs will hardly be obtainable."

**MME. BERNHARDT GAINS.**  
Actress' Great Vitality Gives Her Doctor's Hope.  
New York, April 20.—A slight but indefinite improvement in Sarah Bernhardt's condition, her physician says, recovery seems probable for the first time since she was operated on for kidney infection Tuesday night. The bulletin issued by Dr. Felix Mark and the other physicians associated with him in the case stated that the improvement in the French actress' condition during the past few days is noteworthy.

Bulletins issued earlier in the day announced that she had spent a comfortable night and was cheerful.

**QUICK RELIEF FROM CONSTIPATION**  
Get Dr. Edwards' Olive Tablets  
That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

# Stop scratching! Resinol relieves itching instantly

That itching, burning skin trouble which keeps you scratching and digging, is a source of disgust to others, as well as of torment to you. Why don't you get rid of it by using Resinol Ointment? Physicians have prescribed it for over 20 years. In most cases, it stops itching instantly and heals eruptions promptly. It's very easy and economical to use.

Resinol Ointment and Resinol Soap contain medicinal lanolin which is made and ready for all skin conditions from eczema and most itchy skin. Used for itching, burning, and chafing. Every drug store sells them.

**FRANKLIN K. LANE.**  
Secretary of Interior Who Has Food Projects.

Washington, April 20.—All railroads have been granted tentative permission by the Interstate Commerce Commission to the supplemental tariffs increasing freight rates generally 15 per cent, effective June 1 next. In this manner the commission disposed of the question of procedure in dealing with the application of the roads in every section for general increase.

The commission's order is tentative, subject to recall or change prior to the effective date of the rates. In this way the commission brings the issue squarely before the railroads and the shippers in definite form.

Shippers from virtually all parts of the country have signified their intention of opposing the granting of so large an increase as 15 per cent, which the railroads assert is imperatively necessary if they are to continue to operate profitably in the face of the soaring cost of supplies, equipment and fuel and general wage advances under the Adamson law and otherwise.

Supplemental to the general tentative order the commission issued an order requiring the railroads to apply tentatively on all through rates which are lower than the total rates to and from intermediate points. This affects chiefly the tourist and tourist-in-the-intermediate territory. The tentative order permits a horizontal raise of 15 per cent on all rates, including those to intermediate points.

**U. S. TROOPS FIRE BACK.**  
Answer Bullets From Mexico by Killing Carranza Soldier.  
El Paso, Tex., April 20.—Carranza patrols openly fired on American border patrols in the western part of El Paso. The fire was returned by a detachment of the Twentieth United States Infantry. One Carranza soldier was killed.

Brigadier General George Bell, Jr., in command here, immediately sent a strong protest to the Mexican military authorities through Mexican Consul Soriano Bravo. At the same time, troops were issued to the American posts to shoot to kill when attacked by Mexican troops.

**Trade Board For Franklin.**  
Franklin, April 20.—The borough has organized a board of trade, with the following officers: President, Dr. Charles H. Dunning; vice president, Joseph Herzberger; treasurer, George Nepp; secretary, Ryan.

A committee composed of Joseph Walters, Harry Fischgrund and Joseph H. Loizeau has been appointed to draft a constitution and bylaws.

# NERVOUSNESS AND BLUES

### Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female troubles, backache, nervous spells and the blues. My child and I have had a great deal of trouble and I could just tear everything to pieces and I would so glad to see a doctor but I don't want to go to one at times. I have tried Dr. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROSE STORZ, Sage Avenue, Washington Park, Illinois.

# ORGANIZE JUNIOR INDUSTRIAL ARMY

### Plans Are Outlined for the Bernardsville Farm Colony to be Established Soon

The Bernardsville Farm Colony for boys proves to be so large an undertaking that it has been decided to limit the number at first to 60 boys, instead of 100 as first talked. This number may be increased after the colony has been established.

The proposition is planned and financed by Grant B. Schley, who owns 75 to 100 acres of his Farm-Helm Farm Estate at Par Hills to be cultivated by a colony of boys from the high schools of Bernardsville, Elizabeth and Plainfield. Headquarters will be located on the grounds of the Bernardsville Farm, adjacent to the Schley estate, and the colony will be a military camp under military management and discipline, in charge of a commissary department and drilled by an army officer.

The camp will be known as the Farm-Helm Farm Club. Mr. Schley will finance the undertaking, but a committee of boys, under supervision, will have charge of the business end of it, to keep an account of all materials furnished, goods purchased, etc., and the profits of the venture will be divided pro rata among the boys that stay until the end. Each boy will receive from the Farm-Helm Farm a drawing allowance of \$1.00 per week for immediate personal expenses. The plan is being perfected by Superintendent W. J. Hickett, of Bernardsville.

Camp opens May 1. It is expected that crops will be harvested by the middle of August, and that the boys can return to school at about the usual time of opening. If it is necessary for them to stay at the camp after school opens to gather in the harvest, allowance will be made by the school authorities and coaching provided to help boys make up their lost school work.

The boys will be housed in the buildings of the Par Hills Fair Association. The fair grounds will serve as athletic field, parade grounds, for the camp. Actual labor on the farm will not exceed eight hours a day. There will be, in addition, regular military drill, organized athletics, moving pictures, lectures, and a definite course of instruction in farming, in personal hygiene, and military housekeeping, besides the practical experience of working in the fields.

The running end of the proposition will be in charge of graduates of the Agricultural Department of Rutgers College, selected by Dr. Lipscomb, and under the general supervision of C. B. Campbell, superintendent of the Schley Estate. Moral and social conditions will be under the direction of the Rev. J. M. C. A. The boys will be expected to sign up for the whole period and remain in camp Sundays as well as other days. On Monday boys will attend the church selected by their parents. Visitation of the camp by parents and friends, and necessary excursions from camp will presumably be under military conditions.

Each boy will bring with him two blankets, pillow, working clothes, and a stout suit for a drill uniform. Besides these, he will bring individual personal articles to suit himself. The food will be furnished by Mr. Schley and will be a cot.

Our school is expected to furnish boys that are clean in body and mind, of good physique, able and willing to do real work. A squad of twenty will be selected to go on May 1, and a second squad will fill vacancies or go later. If conditions develop so as to permit of addition of more boys, membership in these two squads will be determined by a committee of high school teachers. Those boys will be first selected who, besides qualifying in other ways, will at least in their school work by leaving school early.

SEATS SELLING FAST FOR NEWARK MUSIC FESTIVAL

The public sale of seats for the Newark Music Festival began early this morning with a rush that testified to the enormous interest that is being taken in the event. There were prospective purchasers in line as early as 7:30 o'clock and by the time that the box office opened a great line was waiting. Owing to the fact that the advance sale this year has been in a direct line with that of last year, there was no inconvenience and no necessity for standing in line for several hours, a condition which obtained during last season's sale. The festival will be held on May 1, 2 and 3 in the First Regiment armory, which has seating capacity of many thousands so that despite the great advance sale there are still many desirable seats left for the concert.

JAPAN VOTES TODAY

By United Press.

Tokyo, April 29.—The fight in Japan for constitutional government will go to a vote today. The fate of the Coast Technical military hangs in the balance.

Terachi dissolved the House in January when it was about to vote lack of confidence in his non-partisan cabinet. The opposition, claiming the constitutional right to unseat a ministry which is un satisfactory, may say today by a decree of the Emperor, should they rally a majority of the million voters of Japan in today's election. The Terachi argument is that the constitution places the power of appointment in the hands of the Emperor and that no subject has a right to elect his choice. He has threatened to dissolve the Diet again if necessary.

EVEN THIS-THE MOVIES DO

By United Press.

Rio De Janeiro, April 29.—The shaven upper lip, heretofore an undisputed mark of the clergy, the stranger of the "centenary," is coming into fashion in this city. The barbers attribute the new style to North America and declare the fad is fostered by the American motion picture shows which are monopolizing the playhouses here.
