He had done so well for them the year previous that we should have thought they might have had confidence enough in him to allow him to appoint his own committees but not they. Please answer. Independence and honor are great matters in the eyes of some men when it brings grist to their mill, but when it does not it is a violation of good faith. How purely sympathetic our neighbor is during the year past, has again been resumed for the late President-How does his new born sympathy compare with that of last year. Let us see. When Mr. Luthery appointed his committees last year they laughed at them and ridiculed them in the face of the fact that he had suggested tee to agree upon the chairmanship of Hudson County Courts. each committee and then he would fill it out in accordance with their desires. He was not so honorable and independent a year ago as he seems to be just now in their eyes. Every inducement was made to organize Council by the Republicans but one little fact stood in the way-the chairmanship of a single committee, and because Mr. Lufbery who had given them that the year previous, would not pledge himself to do it again, they were willing to elect him unpledged as to committees,
