THE CONVENTION AND THE CAN-The State Convention held last Wednesday was one of the most harmonious that ever assembled in New Jersey. It was composed of men thoroughly in earnest, whose object was to perform their dutles making any mistakes. The delegates were for meeting. Mr. Potts, who had announced his determination to accept the nomination for Governor provided the party generally desired it, was absent. He probably remained away purposely, in order that his nomination should receive no stimulation from his personal presence. In his absence ex-Congressman Amos Clark called the convention to order. Bishop Scarborough made an opening prayer, and by direction of the State Committee Judge Hoffman, of Hudson County, was made temporary chairman. He had hardly commenced before one could easily see that the convention was heartily in favor of pronounced Republican sentiments. As he was about closing General Kilpatrick entered one of the proseculum boxes with ex-Mayor Gopsill and General Sewell. It was well known that with the ity it stands at the head of all. name had been mentioned as a candidate for Clovernor had openly declared for Potts. Kilpatrick had the Hudson delegation. They sat next the stage, and seemed

disposed to assert their wishes in a very demonstrative way. When their favorite appeared they instantaneously rose and gave one of those car-invading cheers that can be given only by those brought up in the suburbs of Tammany. | Cheer followed cheer, and Kilpatrick stepped out of the box upon the platform. Very few knew the purpose of the call. Some thought it a dodge by which the convention would be carried off its feet in its intention to nomimate Polts, and be swept away to Kilpatrick, while others thought it was to give Kilpatrick an opportunity to decline. The General, in a very few moments, satisfied the latter that they were right in their notions. He frankly acknowledged that he had been ambitious to receive the nomination for Governor and in his characteristic way gave reasons for the propriety of his ambition, He then withdrew his name from the canvass and asked his friends to support Mr. Potts. Turning from the subject of State

to National politics he closed with a few sentences that made the convention wild with enthuslasm. After a powerful denunciation of the inconsistency of the Democratic party he wound up with a peroration that was electrical. He said: McClellin and Baldy Smith and Fitz John Porter and Hampton will undoubtedly rally around him and with them Butler of South Carolina But with soldier and Suth sold Sheridan and Howard and Hooker, aye, and brave Phil Kearney will be found in No-

As a Legislator, his three years' experience in our State Senate has not only nade him familiar with our State legislation, but has proved his fitness for political unprejudiced persons to be a gentleman of the strictest integrity, and a chief magistrate of patriotic and lofty purposes; but because the professional vilifiers believe

The Emperor, however, was firm, and nothing was left for the Colonel but to obey. On the day of the distribution, when the name of his regiment was called, the Colonel advanced sadly to receive the new colors. Napoleon himself took the latter, handed them to the Colonel with the single word "Voyez!" Looking as directed, the Colonel saw that the remnants of the old colors had been skilfully joined together and worked into the new tricolor, on which was inscribed in letters of gold, "Fiftyare the colors of Montenotte; where I

THE SYRACUSE CHILLED PLOW CO. of Syracuse, N. Y. re now putting on the market a Plow that

is as much superior to any Plow heretofore made as the Plows of the past few years have been superior to those made half a century It combines all the excellencies of any Plow It obviates all the objections made to any other Plow. In addition it embraces several new features of the greatest value, for which we have obtained exclusive Putents.

Its Beam, Clevis, Jointer Standard and Wheel Standard will be STEEL, and its mold board will be a composition of Steel and Iron chilled under a process for which we have also obtained an exclusive Patent. It will be **c**alled

THE SYRACUSE CHILLED STEEL PLOW Ita weight will be eighteen pounds less than our present styles.

A first class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from sixcen to nincteen dollars. The price of our new Plow will be but Seventeen Dollars, and it will be the cheapest Agricultural Implement ever sold. Its mold board will outwear three of the very best kinds of the ordinary steel mold It will scour in soils where all steel plows and all other plows have hitherto proved a With this Plow will be introduced a corrugated Plow Point and Jointer Point, on which we have also obtained a Patent, and which is also a great improvement, both as regards strength and wear The Jointer can be shifted so as to take more or less land, and also more or less pitch,

and it can always be kept on a line with the The wheel will run under the beam or one blde of it as desired, and always kept in line. The beam is adjustable for Spring or Fall Plowing, and also for two or three horses. The handles can be adjusted to accommodate a man or boy, on the same Plow. It is a perfect Plow. Wooden beams are going out of use because they shrink; swell and warp, and never run two seasons alike. Iron beams are too heavy. Malleable beams become demoralized and

bend, which is much worse than to break. A Steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style. When we say a Mold board is chilled, tho farmers know it is so. We do not palm off on them a composition of various metals and call it chilled metal. We want agents for this new Plow in every town in this State We can give but a very small discount to them, but we will pay the Railroad Freight. We propose to place this Plow in the hands of Farmers as near the cost of manufacture as possible It will be the best Agricultural Implement

ever sold.
It shall also be the cheapest. Persons therefore who are not willing to act as agents on the principle that "a nimble sixpence is better than a slow shilling," need not apply for an agency. No Plows on commission. All sales absolute. This is the only Steel Chilled Plow in the World. Steel costs several times more than Iron. But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars. Compare this price with that of any Iron Plow It is cheaper than any other Plow now made would be at five dollars and a half. Where there are no agents we will, on re-

ceipt of Seventeen Dollars, send a Plow to any Railroad station in the State and pay the SYRACUSE CHILLED PLOW CO. 72 A WEEK. \$12 a day at home easily made. Costly Outfit free. Address TRUE & Co. Augusta, Maine.
