A NEW DEPARTURE! BEST PLOW IN THE WORLD

ago.
It combines all the excellencies of any Plow In addition it embraces several new features of the greatest value, for which we have obtained exclusive Patents.

Its Beam, Clevis, Jointy Standard and Wheel Standard will be STEEL, and its mold board will be a composition of Steel and Iron chilled under a process for which we have also

THE SYRACUSE CHILLED STEEL PLOW Its weight will be eighteen pounds less than

our present styles.
A first-class Steel Plow, made in the ordinary way, full rigged, retails for twenty-two dollars. Inferior Steel Plows retail from six-teen to nineteen dollars. The price of our new Plow will be but Seventeen Dollars, and it will be the Its mold board will outwear three of the very best kinds of the ordinary steel mold

It will scour in soils where all steel plows With this Plow will be introduced a corrugated Plow Point and Jointer Point, on which we have also obtained a Patent, and which is also a great improvement, both as regard The Jointer can be shifted so as to take more or less land, and also more or less pitch, and it can always be kept on a line with the

The wheel will run under the beam or one side of it as desired, and always kept in line. Plowing, and also for two or three horses. The handles can be adjusted to accommodate a man or boy, on the same Plow.

It is a perfect Plow.

Wooden beams are going out of use because they shrink, swell and warp, and never run

two seasons alike.

Iron beams are too heavy.

Malleable beams become demoralized and bend, which is much worse than to break.

A Steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style.

When we say a Mold board is chilled, the farmers know it is so. We do not palm off on them a composition of various metals and call it chilled metal. We want agents for this new Plow in every We can give but a very small discount to

them, but we will pay the Railroad Freight. !
We propose to place this Plow in the hands of Farmers as near this cost of manufacture it will be the best Agricultural Implement Persons therefore who are not willing to act as agents on the principle that "a nimble six-

pence is better than a slow shilling," need not apply for an agency. No Plows on commission. All sales absolute.
This is the only steel Chilled Plow in Steel costs several times more than Iron. But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars. Compare this price with that of any Iron Plow

It is cheaper than any other Plow now made would be at five dollars and a half. ccipt of Seventeen Dollars send a Plow to any Railroad station in the State and pay the SYRACUSE CHILLED PLOW CO.

IR. J. A. SHERMAN AND THE ONLY DR. SHERMAN known to the public for the pust 35 years or more for his successful method of treating furture without the annoyance and injury trusses inflict, may now be consulted weekly at his New York and Boston offices. Dr. Sherman is the discoverer of the only known cure for Rupture by local external treatment. No man is safe who has a Rupture, no matter how insignificant he may consider it, for every man who has died from it once flattered himself that it was but a trifling allowed; and every man who not sifters from it and the injury of trusses, to such an extent that life has no enjoyments, once regarded it as unworthy special attention. It is not a stand-atili affliction; it is steadily progressive, even unit death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes, upon him. death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of death, and he is wise who takes the necessary steps to be effectually relieved of it before the day of suffering and gloom comes upon him.

Patients from alroad can receive treatment and leave for home same day. During treatment any kind of active exercise or isbot can be performed without interfering with the treatment, and whit suffety from the dangers of strangulated Bupture. HIS BOOK ON RUPTURE gives the minute reliable proofs from distinguished professional gentreman, elergymen, and merchanis of the successful practice and popularity therefrom khroughout this country and the West Indies. The afflicted should read it and inform themselves.

It is illustrated with photographic likenesses of extremely had cases before and after cure; and mailed to those who send 10 cents. In consequence of the great demand for Dr Sherman's personal stryices, he will, till further notice, divide his time between his New York and Boston offices as follows Saturday, Monday, and Tuesday he may be consulted in his New York office, Wednesday, Thursday and Friday, at his Boston office, each week. MR. LUDLOW STRADDIAS. -The forms letter of acceptance of the Democrati nomination for Governor was Tuestay sent by Mr. Ludlow to the Democratic State Committee. In it Mr. Lindlew un dertakes to imitate his party in their ludicrous straddle on the tariff question, and of course cuts as sorry a figure as they did at Trenton. He says he approves of the Democratic platform adopted at Cincin-nati, which distinctly declares for 'a fariff for revenue only," which everybody knows excludes all idea of any protective Idature. Then Mr. Ludlow, without stop plug to take breath, calmly proceeds! say that he is in favor of the precise oppo-site, to wit: "such a tariff as will best protect our home industries. On which of these diametrically opposite and flatly contradictory declarations does will he stick? Does he suppose that he can humbug intelligent Jerseymen with this double shuffle and impossible straddling

St. Albans, Vt., Jan. 20th, 1880.

OR. B. J. KENDLL & Co.—Getts: In reply to your etter I will say that my exp. rience with kendall's pavin Cure has been very satisfactory indeed. Three or four years ago I occared a bottle of your igent, and with it, cured a horse of lameness cansed by a spavin. Last season my horse became very time and I turned him out for a few weeks when however, when I discovered that a ring bone was orming, I procured a bottle of Kendall's Spavin 'ure and with less than a bottle cured him so that is is not lame, neither can the bunch be found. Respectfully yours,

P. N. GRANGER. PERSEVERANCE WILL TELL! Stoughton, Mass., March 16th, 1880. B. J. KENDALL & Co.—Gents: In justice to you not myself, I think I ought to let you know that I have removed two BONE SPAYINS with "Kendall's spayin Cure," one very large one; Don't know now long the spayin had been there. I have owned he horse eight months. It took me four months to take the large one off, and two for the small one. I have used 10 bottles. The borse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me its sale will be very great.

B J. KENDALL & CO.—Gents: I wish to add my testimony in favor of your invaluable liniment. Kendall's Spavin Cure. In the spring of 1862 I slipped on the ice and sprained my right limb at the knee joint! I was very lamo, and, at limes, sifered to most exeruciating pain. I wore a bandage on it for over a year, and tried most everything in my reach, but could find nothing that would give me permanent, relief. When I overworked, it would pain me very much. In April, 1872, I began to think I should be a cripple for life; but, having some of Kendall's Spavin Cure, thought I would pain me very much. In April, 1872, I began to think I should be a cripple for life; but, having some of Kendall's Spavin Cure, thought I would pain me very much. In April, 1872, I began to troubled me since. I feel very grateful to yon, and would recoimmend Kendall's Spavin Cure to all who suffer with aprains or rheumatism.

The beam is adjustable for Spring or Fall Plowing, and also for two or three horses. The handles can be adjusted to accommodate a man or boy, on the same Plow. It is a perfect Plow. Wooden beams are going out of use because

they shrink, swell and warp, and never run two seasons alike. Iron beams are too heavy. Malleable beams become demoralized and bend, which is much worse than to break. A Steel beam is the necessity of the day. It is three times as strong and very much lighter than any other style. When we say a Mold board is chilled, the farmers know it is so. We do not palm off on them a composition of various metals and call it chilled metal. We want agents for this new Plow in every town in this State. We can give but a very small discount to them, but we will pay the Railroad Freight.
