CLOSING SUGGESTIONS FOR NEXT TUESDAY.

No man is entitled to our respect unless he is sincere. Yet sincerely, essential as it is, will not, of itself, command our confidence. That can be secured only by both sincerity and good judgment. The Democratic party, in its history, its record and its conduct has proved itself disinterested both to popular respect for sincerity and confidence for good judgment.

First, then, it has not been sincere. Begin in 1856, when the Republicans first made a Presidential ticket, and look at its candidates since: Buchanan, Breckinridge, McClellan, Seymour, Greeley, Tilden, and Hancock. Every intelligent citizen knows that no man having sincere political convictions could vote for such a conjunction as Buchanan and Greeley, Breckinridge and Hancock.

Now look at the Republican candidates for the same period: Fremont, Lincoln, Grant, Hayes and Garfield. Leaving out Lincoln, because of his unpopularity, the comparative superiority of the principles of the respective parties, it is clear that in the nomination of candidates the Democrats have only regarded their availability, while the Republicans have always elected their candidates for the sake of the people, and not for the sake of the party.

When the Chinese forged letter appeared, the lie was so thin that the only question in dispute was—who was the forger? The only respectable Democrat to-day who does not admit it is a forger is A. S. Hewitt. Just how it is much more important for Mr. Hewitt to admit he is a forger than for Garfield to admit he is a forger.

These suggestions are equally applicable to the other candidates. Mr. Potts has been accused of half a dozen objections to his character, and it is not surprising that a Senator will not vote for him. Mr. Robbins is a forger, and it is not surprising that a Senator will not vote for him. Mr. Richards is a forger, and it is not surprising that a Senator will not vote for him.

So they would any Republican. He has no more respect for the people than the Democrats have. He has no more respect for the people than the Democrats have. He has no more respect for the people than the Democrats have.

The Republicans have been in power for twenty years. Every principle avowed by them is recognized by both parties as right. Therefore, the principles of the Democratic party, which oppose them are wrong. Clearly a party whose views are opposed to the principles of the people, and who have done wrong should be treated as they have done right.

We believe the intelligence of this country will rule it. If ignorance is to rule it, Republicanism is a failure. If the intelligence of the country is to rule it, we ought to change its form of government. But we have entire faith in the idea of Lincoln that "a Government of the people, by the people and for the people shall not perish."

A NEW CALM WORDS TO VOTERS. This election next Tuesday will be one of the effects of which will be for good or ill through years to come. The question then to be decided connects themselves with the very structure of our Government and extends to every material interest of the people. One side is the Democratic party, avowing at the South and tolerating at the North the principle of States Rights.

On the other side is the Republican party, holding and defending the sovereignty of the nation. It is the party of Lincoln, of Chase, of Stanton, asserting now, as it did under those honored leaders, the indivisibility of the Union and a determination to preserve, at any cost, "a government of the people, by the people, and for the people."

Now look at the Republican candidates for the same period: Fremont, Lincoln, Grant, Hayes and Garfield. Leaving out Lincoln, because of his unpopularity, the comparative superiority of the principles of the respective parties, it is clear that in the nomination of candidates the Democrats have only regarded their availability, while the Republicans have always elected their candidates for the sake of the people, and not for the sake of the party.

Mr. Robbins is a forger, and it is not surprising that a Senator will not vote for him. Mr. Richards is a forger, and it is not surprising that a Senator will not vote for him.

As to our candidate for Congress, Judge Robbins, we believe his lying has been used against him by the Democrats. He is a forger, and it is not surprising that a Senator will not vote for him. He is a forger, and it is not surprising that a Senator will not vote for him.

These are the present high positions of the nation and its material property will be perpetuated in Republican hands. For the same future the Democratic party is pledged to "a change" in the policy which our prosperity has reached. "A change" for revenue only, which would destroy the now prosperous industries of the North for the benefit of the cotton growers of the South.

Between the two parties named, with their respective records, principles and purposes, the voters of New Jersey are now called to choose. A vote for the Republican ticket is a vote for the integrity of the Nation, the preservation of its credit, the protection of its industries and the continued prosperity to the people.

Honest men, of whatever name, must reject that a step has already been taken towards arresting the political scandal which has been the result of the Democratic party. We have long felt that no greater service could be done the country than would be rendered by a candidate who should invoke the protection of law to restrain the intolerable license of political parties in assailing personal character.

Ten days ago, a paper—"Truth," of New York City, published what purported to be a fac simile letter bearing the signature of Mr. Garfield, in which sentiments of the labor question were expressed which if avowed by him, would have alienated thousands of his supporters. That letter the Democratic National Committee has circulated by hundreds of thousands through every State in the Union.

On the other side is the Republican party, holding and defending the sovereignty of the nation. It is the party of Lincoln, of Chase, of Stanton, asserting now, as it did under those honored leaders, the indivisibility of the Union and a determination to preserve, at any cost, "a government of the people, by the people, and for the people."
