Before you know it you will find that your habits will have hardened into a coat of mail, that you can not get rid of without a terrible effort.

By liberal use of the means which an abundant prosperity affords, we shall make it better then ever We shall print all the news, putting it into read-able shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with THE SUH. Whenever anything happens worth reporting we get the particulars, whether it happens in Brooklyn or in Bokhars. In politics we have decided opinions; and are s
