Read This: Extract from a Lecture on the existing Causes of Disease, by Dr. Alfred L. Castleman, delivered at Milwankee:

"And we wonder that medical men, while in structing us in the cause of disease; of the sicken-ing influences of the marsh, effluvia of crowded rooms, and bad odors of unventillated sleeping spartments, have taken so little pains to impress Among the decisions of the Judges of the American Institute Fair for 1881:

"Mr. Edward Clark, the inventor of Clark's Waterproof Blacking, is awarded a medal and three diplomas, the largest number of awards made to any of the exon them—preserved with much care in this condi-tion they are put into beds, and could they be kept dry, well-aired, and never slept on, they would do no harm. But night after night, for years, are the dead matters of your own bodies cast off by purspiiplomas.

It may be obtained at the following matter. Summer after summer had some member of your family sweated on the same bed; the poison causes his sickness, and perhaps in addition to this, your young children have slept on it, and ad-ded to foul combinations the still more disgusting excretions of their bodies. On this foul mass you lie; the warmth and moisture of your bodies causing its constant decomposition and fermentation: giving back its foul gases and holding them in contact with, not only the lungs and olfactories, but with every absorbing pore in your body.
