* By E. Sidman Wachter

PAGE 4 THURSDAY, NOVEMBER 2. 1978

In 1950, the United States merchant fleet numbered nearly 1,200 ships, three times those of the Soviet Union. Our ships were large, with eight times the capacity of Russian vessels. However, at the close of 1977, the Russians had turned the tables. They had four times as many ships as our nation, and 30% greater cargo capacity. The sad truth is -- today more Russian ships operate out of more American ports than do our ships! For same strange reason, our leaders permit Rus-sian vessels to have free access to Americanports and cargo, which makes the world shipping situation very gloomy indeed. Most European ship yards are operating at only 50% of capacity, just enough to handle greatly reduced replacement needs. Last May, Japan's leading ship-builder went bankrupt. The Soviets had taken so main occur curge as as lavar lapanese lines vier culd no longer afford to replace their aging ships. How many of us are aware the bulk of our exports to, and our imports from, third countries is now being carried in Russian bottoms? And who are are the hig-gest customers of the Russian merchant marine? And who are the biggest customers of the Russian merchant marine? Out multinational conglomerates! Not content with putting thousands of American work-ers out of jobs by manufacturing abroad at low wages products for the U. S. market, these behemoths in products for the U. S. market, these behemoths intheir unboly search for profits are deliberately destroy-ing the merchant marine of their own nation. Their executives appear devoid of both patriotism and loyalty to the United States. The reason they use Russian ships to the United States. The reason they use Russian ships is price! The Communists charge 40% less the our or other non-Communist flag ships. American shipping companies, you see, are compelled to pay extravagant wages to their seamen and to provide working conditions tantamount to a luxury cruise com-

بيداد المعلم المراجعة معرضة المراجعة ومودية والموقعة والمتحد ويتوقع ومحرم وموجوعه والمواصفة والمحافظ والمراجع ا

pared to those of Soviet ships. Moreover, while our ship-ping industry is subsidized to some degree, it is not owned and operated by the government as is the Soviet one. This is like the Soviet athletes, trained and paid by the state to excell in sports competition, where they compete under the transparent fiction of being amateurs, Russia's nock-bortom, cargo-carrying rates are a strategy to destroy our position as a maritime power. Our very survival in peacetime, no less than in war, is being jeopardized. "A classical case of dumping," ac-cording to Robert Blackwell, assistant accretary of comcording to Robert Blackwell, assistant secretary of com-merce. "Dumping," when used in foreign trade, means selling a product or service below costs of production Not only are the Communists crippling the American merchant marine, they are also earning huge sums of foreign currencies which they employ in multifarious acts of subversion in the United States, Western Europe ind South America and in imperialistic ventures in For our own protection, we suggest our ports be closed to Communist vessels. if "world opinion"

RINALDO 12TH DISTINCT NEW JERSEY Report from Washington

Proposition 13 fever evident in poll replies

Proposition 13 fever has spread to Union County. The results of my Sixth Annual Public Opinion Survey show 84% of the people who responded favor imposing a mandatory ceiling on government spending and state taxes in New Jersey. The survey shows people in the county are deeply troubled over the combined effects of inflation and rising taxes. The situation worries them so much they are prepared to accept cutbacks in government programs they use and approve slowing down government spending to clean up air and water pollution. Eighty-eight percent oppose additional spending pro-posed by President Jimmy Carter to revamp the nation's welfare program, opting instead for welfare reform without an increase in costs. oncern over the high cost of government spending also is shown, with less than half the respondents faoring a national health insurance system. On two previous occasions when this issue was raised, more than haif supported the proposal. The tax cut sentiment runs strongly in favor of the Kemp-Roth Bill, which would cut federal income tax rates by 30%. Support is somewhat less pronounced for a rollback in Social Security payroll deductions. The Kemp-Roth plan had 55% in favor, 18% opposed, and 24% undecided. In contrast, a Social Security tax rollback had 52% sup-port 35% opposition and 13% undecided port, 35% opposition, and 13% undecided. The strong backing for a reduction in government spending and tax cuts is exceeded in Union County only by the degree of concern over crime and support of legislation I introduced, mandating a five-year prison term for anyone convicted of committing a crime with a gun. Both anti-crime sentiments were backed by an 86% A questionnaire was mailed to every household in the district. More than 12,500 responses were received. On the welfare issue, sentiment runs against reten-tion of the food stamp program with 49% opposed, 37%

in the second second

in favor and 14% undecided. There was strong opposition to any use of federal finds to pay for alloritions. Sixty-two percent oppose finds to pay for alloritons. Sixty-two percent oppose such a program. The proposed creation of a Dayt, of Education was opposed two to one. Seventy-seven percent favored construction of more suclear power stations. But gasoline rationing was opposed alignet rule to one. Resumption of trade and diplomatic relations with Cuba was opposed two to one. So was Predident Car-ter's decision to halt production of the sentrum home. As in previous years, respondence of the President. This year's survey, completed before the Camp Devid Mideast passe conference, drow a 60%, negative rating of the chief executive -- up substantially from a 30% negative total last year. Only 125 sold they divident the President was doing a good job. Twenty percent were undecided. On a local issue, the survey showed strong public support in Union County for completion of interstate Rie. No. 78 through the Watchung Reservation. The work was favored by 65% with 26% opposed and 11% undecided. Decisions involving this conservation project with the blat largest for of the structure of Theorem project reat with the New Jersey State Days, of Trans-portation. The full questions and responses follow:

LEWAY NEWS RECORD/CLARE PATERON

intracts it's i

If you are financing home improvements or repairs, the law will help protect you against the improvements and deceptive practices of irrelignibile collisicers. Once you have decided it is then to put that new addition on your bothe or make some schar substantial improvement, you should become sequestined with your rights concerning home repair and improvement finan-city.

Poderal law gives you the right to cancel home re-nair contracts within three days after they are signed. Several conditions must be mot, however, for you to vertice this right: - You must after the contract our news media tell us that? maintentifier. Find out if the contract you sign means there will be the possibility of a lies being placed on your property in the event of a default in payments. If you sign such a contract, you also have the right to reacind it within three days. three days. The New Jersey Home Repair Financing Act provides further protection for the contains are of this state by requiring all contractors who finance home improve-ment contracts to be licensed by the Bureau of Con-sumer Credit in the New Jersey Dupt. of Benking. Before signing any home improvement contract, read it carefully and make sure you understand all its pro-visions. The I/W in New Jersey prohibits contractors from including certain provisions in home repair con-tracts. Watch out for changes or attaneous which: --- Allow the halance of the contract to be declared --- Allow the balance of the contract to be declared due and payable when your croditor declares himself to be insecure. This is known as an "acceleration

-- Giving the contractor or note holder the power of attorney or relieving the contractor of any claim which you may have under the contractor of any claim which you may have under the contractor of any claim which you may have under the contractor of any claim political office. -- Waiving your rights against the cruster regard-ing the use of any illegal collection nactics; -- Assigning your present or future salary, wages or other income for repayment of the balance of the contract. To preserve your rights, you should never sign a completion notice until the improvement or repair work is actually completed to your autisfaction. If the con-

is actually completed to your autiafaction. If the con-tractor is doing particularly extensive or complicated rupairs or improvements, it is a good idea to get an interpendent home inspection firm to examine the work before you sign a completion notice. You may want to include in your contract a provision which requires the chary of an independent inspector helore you'sign the completion notice. Be sum all pertinent details which you have discussed verhally with the contractor are put in writing in the contract. This includes, for example, promises to use a specific brand name material. You can weigh the value of a contractor's promises and assurances in direct proportion to his willingness to put them in writing. The contract should be appropriately diliked, apec-fically itemizing all work to be made at various stages as the work proceeds nuwards completion. Acally itemizing all work of the made at various stages as the work proceeds towards completion. The work to be completed in each stage should be specified. Do not agree to make a large down payment and the greater the smount left to be paid upon final completion of the job, the greater is the contractor's incentive to actually perform as promised and complete the work satisfactorily. You are tempting fate if you give a completion. The alaves Moses led into freedom hitterly denote the work satisfactorily. You are tempting fate if you give a completion. Completion. The alaves the total contract price remaining to be paid on final completion. The alaves Moses led into freedom hitterly denote the work satisfactorily. You are tempting fate if you give a completion. The alaves Moses led into freedom hitterly denote the work were no longer feasting on Egyptian barbecue. Amos was kicked out of the capital city of Israel makes and intermediate that a completion. It is also a good idea to include in the contract the Amos was kicked out of dates on which specific parts of the work must be com-for his teaching that a

pleted. Don't assume the contractor will susomatically clean up any debris and left over materials. Consider how amoying it would be for you to find your basement filled with acrap humber, sawdust and other kinds of debris from a contractor who refines to clean up because "in wasn't in the contract." If you expect the contractor to clean up, be sure to specify it in the contract. Never allow yourself to be pressured into signing a contract. Insist on redding the contract even if you are urged not to bother because it is has routine. Be wary of any offers which promise special diacounts for a model or demonstration job or discounts for immediate work involving leftover material from a job that was just

Most importantly, check the reputation of your con-tractor before you sign. Reputable contractors should have no objection to having you check on their back-grounds. Ask them to provide you with names of some of their customers who have had similar work done. Call the Action line at the State Division of Consumer Affairs, (201) 648-3295, to check on the contractor's complaint history. Try checking with town huilding in-spectors to see if they have any information on the backgrounds of particular contractor. And avoid the beckgrounds of particular contractors. And avoid fly-ness address on contract forms and trucks. Make sure hefore way sime a contract for the transfer in the present the method of the present is not the present in the present is a contract for the trucks. Make sure the method of the present is not before you sign a contract the contractor is someone who will not disappear approve and leave less than satisfactory work behind.

Letters to the editor

crats and

President Carter's war on inflation is as planty as Ted Konnedy's Chapps-guiddlet testimony. How can you sup infla-tion by holding down prices of wages or whetever? We must look to the dictionary to find out what inflation really is, inflation is an increase in the quantity of Action is prices. your Since only the govern-must can print money, it is Crats and start being Americana. As public debate heats up over ways to strengthen the economy, we'll be hearing more and more about productivity. Productivity, of course, is what a worker can produce in, say, an hour. If he (or she) has been turning out six can openers an hour, then discovers a way to produce eight can openers an hour, productivity increases. But the rate of increase has been lagging builty. From World War [] until the mid-1960s, it was more than 3 per cent a year. Since then, the gain has been half that. Meanwhile, productivity in other industrial nations we have to compete with over seas and in our own markets has been climbing two, three and even four times faster. Besides helping out the trade balance problem, a faster rate of increase is vital for other reasons. Good productivity helps teep U.S. living standards high, enlarging the economic pie so everybody gets a larger slice. It's also a major weapon against

inflation. If we can get a greater output of goods and services slow down. How do we increase productivity? There are as many answers as there are experts but it boils down to tools. Companies should, of course, do more to reward and recognize high-output workers. However, workers can't do much without modern tools and equipment. So, more important, the gov-ernment should drastically revise those regulations and tax irrates that drain off the funds—and the business confidence that should be going into expansion and modernization, which in turn lead to more jobs, bigger paychecks and more stable Productivity. Remember the word. It will have a bearing on ur future, and our children's future.

Letters to the editor

DITOR'S NOTE: The EDITOR'S NOTE: The following letter was written by Mrs. Mary Disavino as an address to her fellow petitioners who asstilled in the court case in which Ralway City Clerk Robert W. U.S. Sense candidate, Jeffrey K. Bell, on Oct. 25, called President Carter's anti-inflation plan "a blatant attempt to use the might of Washington to regiment the American economy." "Mr. Carter is calling for 'national susterity' to fight inflation. Austerity is the problem, not the solution," Mr. Bell told a Kiwanis luncheon audience in Trenton. "Mr. Carter save he will use the economic foreral

"Mr. Carter says he will use the enormous federal procurement budget as a club to deny contracts and harass with Sederal regulation those firms and workers who cannot defent themselves against the government-caused inflation," Mr. Bell said. "Mr. Carter proposes not only to subsidize workers

who cannot keep up with initiation, but his penaities for those who do are startingly harsh. And Mr. Carter says he will prevent, by veto if necessary, any future tax decreases," Bell said. "Yet after demanding the impossible of Americans, Mr. Carter's chief inflation fighter, Barry Bosworth, says that even if the controls are observed, workers cannot effect any real wave gains for several more

cannot expect any real wage gains for several more years," Mr. Bell said. Holders of dollars both here and abroad agreed with Mr. Carter's admission that his plan will not stop inflation.' Within minutes of his televised speech, the inflation." Within minutes of his televised speech, the dollar plunged to a new all-time low against the Japa-nese yen," Mr. Bell said. "Mr. Carver is moving in exactly the wrong direction in dealing with the double cause of inflation - - too much money chasing twoo few goods. Administration officials say he plans to sign into law the tax bill's \$13.7 billion tax increase for individuals, which will stifle the production of goods still further, yet he plans to change nothing about the inflationary federal printing of surplus dollars," Mr. Bell said. "People don't cause inflation by working and doing

Rinaldo's crime-control legislation. The PBA has a memership of more than 20,000 police officers. Rep. Rizaldo sponsored legislation for a "Bill of Rights" for law enforce-ment officers, In addition, he supported full federal funding of anti-,

crime measures to

STATE & RELL R. (For 'United States sensior)

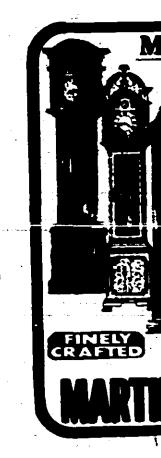

Voters in Rahway and Clark will choose a United States senator, a congressional representative from the 12th District, a county surrogate, a register and three Izus District, a county surrogate, a register and three freeholders. The U.S. Senate contest pits Republican Jeffrey K. Bell against Democrat Bill Bradley. Mr. Bell, a Trenton resident, received his bachelor of arts degree from Columbia University in New York City and is a Fellow at the Kennedy Institute of Politics at Harvard University in Cambridge, Mass. He has supported the Kenne-Roth Bill, which calls for a 30% across-the-board federal tax cut, deregulation of natural gas and other changes in the federal tax structure to encourage investment and decrease govern-mental spending. mental spending. Mr. Bradley of Denville was an honors graduate from Princeton University and a Rhodes Scholar. He payed professional basketball for the New York Knickerbockers for 10 years and worked for the federal Office of Economic Opportunity. The Democratic contender has called for more federal funds for more refers a federal income tax cut aimed funds for poorer cities, a federal income tax cut aimed at the middle class, the institution of a comprehensive energy program and the use of government money to cut whemployment. Seeking his fourth two-year term in the House Representatives, Republican Rep. Manhew J. Finance of Union was graduated from Rutgers University in New Brunswick with a bachelor of science degree, and he received a masters in business administration degree from Seton Hall University in South Orange. Rep. Rinsldo cites his introduction of legislation to direct jobs and federal assistance into the state, his supported to the public works in balleting and his

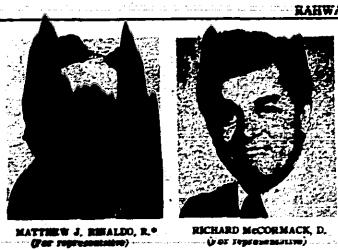

ponsorship of public works jobs legislation and his upport of energy development legislation. Mr. McCormack, a Kenilworth councilman, has been Intending evening class for the past five years an Morris County College in Dover. He completed courses in elocution and presentation at the Dale Carnegie Institute and is a regional sales manager for the Baxter Rubber Co. of Fairfield. The Democratic hopeful supports the modified Hum-phrey-Hawkins Bill for full employment now pending in Congress, more widespread development of coal as an energy source and the limitation of governmental A Westfield attorney, Brian W. MR. AND MRS. ROBERT T. CLARKE

Walter E. Ulrich of Rahway for county surrogate. Mr. Fahey cites his experience as a practicing attorney and his service as chairman of the Westfield attorney and his service as chairman of the Westfield Joint Civic Committee Cystic Fibrosis Campaign and hoard membership on the Garden State Ballet Founda-tion as qualifications to be the judge of the county court which handles the probating of wills, the granting of guardianship for minors and the certification of trustees. Freeholder Ulrich, completing his fifth term on the courty Coursman Buth, is a gradiant of the John Freeholder Ulrich, completing his fifth term on the county Governing Body, is a graduate of the John Marshall School of Law in Washington, D.C., and was employed for several years by the Hartford Accident and Indemnity Co. of Newark. He feels the major concern of the office he seeks is to provide "a high level of professional, efficient and economical service." Incumbent Democratic Register Hugh Caldwell of Plainfield cites the containment of the inflation rate in his department to .75% over the last five years and the establishment of new record-keeping systems for the administration of deeds and mortgages. He was a Union County freeholder for six years. Republican hopeful, Richard P. Hatfield of Scotch Plains, says he is well-acquainted with the duties of the register from his experience as a real estate

as a real estate salesman and is a vice president of administration in the Young Men's Christian Assn. The three-way freeholder contest will see incumbent Democratic Freeholder Anthony Amalfe of Roselle, Union County Planning Board Chairman Matthew J. Mirlocca of Union and Roselle Park Mayor Eugene J. Carmody matched against incumbent Republican Free-holder Mrs. Rose Marie Sinnott of Summit, Clark Councilman-at-Large Manuel S. Dios and Union Ptl. Edward J. Slomkowski. County budget stabilization, the implementation of Loward J. Slomkowski. County budget stabilization, the implementation of management controls, the development of an effective county waste disposal program and "Sunset" legislation to provide for the elimination of programs which cannot justify their existence have been the major themes of

the Democratic campaign. The Republicans have called for zero-based budgeting at the county level, the promotion of more effective criminal justice programs and requiring the state to fund all state-mandated programs and prohibiting outof-state agencies from dumping in New Jersey.

Federal programs give

city more aid: Mayor

Rahway's Housing Rehabilitation Loan Program proceeding according to schedule and working well, reports Mayor Daniel L. Martin. The city was able to apply for funding of 20 low interest, 3%, loan applications this year. All 20 homes have been inspected and the job specifications have been prepared. The work to be done will go out for contractor's quotes within the and while will go out for Confractor's quotes which the next two weeks. The applications will then be submitted to the Dept. of Housing and Urban Development for final loan approval no later than Thursday, Nov. 30, he added. The mayor added the federal program provides loans for families who could not otherwise afford to repair their barries. heir homes.

.... The city's chief executive also announced the expansion of the program to include another 20 homeowners. He added within a few weeks city representatives will be calling those persons who applied before, but for whom funds were not available, to see if they are still interested. If any openings occur, new applicants will be sought. The mayor stated if the second group of applications proceed quickly, he will seek further funds for the program. He also emphasized only federal funds are being used for the administration and loans themselves or this program, and it does not increase any local ax rate, Initial funds in the amount of \$200,000 were sought with expectation of receipt of those funds from the federal government due soon. This additional funding request should result in the receipt of another \$200,000 to assist the residents of Rahway to hold on to their homes through rehabilitation fix-up, making a total of \$400,000 in federal funds requested on far he added

requested so far, he added.

The city has also received the largest amount of funds from the Union County Community Development Pro-gram over the last four years than any other munici-pality in Union County, the mayor said. All of the funds come from federal funds granted to the county. The mayor, working with the city's planning con-sultants, Robert E. Rosa Associates of Edison, obtained \$983,360 from the county over this four-year period. This funding is in addition to the entitlement grant This funding is in addition to the entitlement grant of \$2,058,000 the city received directly from the federal government for a total of \$3,046,360 for needed facilities and services in Rahway. The mayor went on to say that his administration

will continue to hire the best personnel possible, in-cluding consultants, to obtain the most federal, state and county aid available to ease the local burden. The city will seek fifth-year funding from the federal government for its highly successful Community De-velopment Block Grant Program, the mayor also stated. To date, Rahway has received over \$2,000,000 directly from the federal government. The mayor said many of the block grant projects, including those which control flooding, would have had

to be done with city money if lederal funds had not been available. He said he, his staff and city consultants would continue to aggressively seek all available sources of funds for necessary city projects in order

THURSDAY, NOVEMBER 2, 1978 PAGE 11

EDITOR'S NOTE: Mis- tally uncalled for as well ing population in Rahway are illiterates. This is an

work and tries to find ways to relax. For your information when some people show their ignorance. I am writ-ing in reference to a letter written by Mrs. Mary Di-'Savino about Patrick E. O'Donneli being just a dog of normal intelligence, and they should be thought of and treated with respect.

PAGE 12 THURSDAY, NOVEMBER 2, 1978

Road improvements are major progress: La EDITOR'S NOTE: This release to The Clark Patriot, authored by the president of the Township Council, Third Ward Councilman Donald W. Labella, reflects on what he feels are the substantive accomplishments during his term on the Governing Body. Councilman Labella lends particular stress to road improvements during his term and details them in the following

...

During my term as councilman, the local tax rate in Clark has been reduced from 45 points in 1975 to its present rate of 35 points in 1978. This is a reduction of 10 points during an inflationary time when township expenses have risen to an all time high_____ It takes business and councilmanic experience to reduce taxes during these times, and I hope I have contributed both of these kinds of experience to our budget, which still maintains township services at a high The resurfacing program inour township has not been increased, due to the 5% "cap" imposed on our budget and the loss of state funds normally available to support our financing. The Third Ward, in spite of these handicaps, has had The faird ward, in spite of these handicaps, has had West La., Sunside Dr., East La. and Harold Ave. re-surfaced. Council has already awarded the hid to re-surface Liberty St. and Franklin Terr. as part of our 1978 resurfacing program. This is a fact, not a political promise to gain votes. Council has passed Bond Ordinance No. 78-6 to re-construct and resurface Valley Rd. from Walnut Ave. In Liberty St. and from Union Council Power to Rest. to Liberty St. and from Union County Pkwy. to Ross project from the state. The correction of flooding and water problems by the installation of new or additional catch basins and other engineering designs on Colonial Dr., North La., East La., Valley Rd., Douglas Dr., Lincoln Blvd, and Harold Ave. Frank for a state of the state Ave. was the result of your councilman's concern for his constituents. The list of improvements to be accomplished under the 1978 drainage improvements include Clauss Rd., Autumn Ave., Rose Terr. and West La. These projects

have been passed by Council and are part of our public records, not my promises. Council has been providing funds to our Recreation Dept. to send handicapped children to a summer camp nd offers a program under the direction of a specially ualified teacher for their recreation. The handicapped arking made available in our shopping centers was aitiated by a Third Ward resident who contacted his ouncilman which resulted in the ordinance this parking being passed by a concerned Council in Our Township Council provided off-street parking between Fulton St. and Liberty St. to help relieve the congestion on Westfield Ave. I have met with the husiness people on Westfield Ave. and will continue to seek off-street parking where available in this area. The outrigger on Valley Rd. Bridge was the result of three years of meetings with local and county officials and the help of responsible and concerned citizens of the Third Ward. Valley Rd. needs a new bridge similar to Featherbed La., with all its modern safet

similar to Featherbed La., with all its modern safety designs and approaches, this should be our goal. The Clark Council passed many resolutions and held numerous meetings with the state officials attempting to negotiste an additional ramp south of Clark on the Garden State Pkwy. Presently, I favor the additional ramp being located off Lake Ave. as the most advan-tageous to the residents of Clark. The Clark Traffic Bureau is well sware of the on-gestion and will continue to offer and implement im-provements when possible. The Clark Police Dept. has done a good job within the Third Ward, curtailing speeding and would have more ramar parrois, if Council speeding and would have more rather parrols, if Council had the necessary funds. The Third Ward is not unknown to speeders, and we are under constant study for traffic signs and improvements. During 1977, the Road Dept." replaced or repaired over 400 street signs. This was

reports in our newsletter to Clarkites in October of last year. Again, our budget limitations, plus the advice of our Traffic Bureau, prevents many signs from being installed when requested, prevents many signs from being installed when requested. During my four years on Council, the Third Ward has remained basically 90% residential and will continue to be protected by our established zoning regulations. The service provided by the compactor, which I voted for, has had numerous hour changes in an effort to meet the needs of our citizens and still sensitive volunteer groups in an attempt to orginate their thoughts and ideas concerning township recreation. This Is a very active, productive and intelligent group of dedicated citizens who will in the near future establish a modern and new approach to township-wide recrea-

During my four years on the Clark Council, two of which have been spent as president, I have attempted to be an instrument of the people and never set myself apart or above the citizen who entrusted me with public

ly. Shown, left to right, are: Mayor Yarusavage, Mrs. Jeney, Mrs. Apelian and Mr. Castagna. Marsh, Martin round three t for Tuesday

By R.R. Faszczewski Tuesday will mark the third time Mayor Daniel L. Martin and Second Ward Councilman John C. Marsh lave squared off in the city electoral ring. During the last mayoral matchup four years a here were 13,991 registered voters in the city and -045 cast ballots. Election-night tallies before the absentee ballots were counted in the three-way race with independent candidate, Richard J. Voynik, in the running, showed Mayor Martin with 3,466, Councilman Marsh with 1,837 and Mr. Voynik with 1,837. However, the absentee vote brought the Martin lea o approximately 100 votes. in 1970, with 13,389 registered voters, 9,852 hallots vere cast Councilman Marsh came in with 4.138 and the mayor

ad 5.061. After a very close primary contest with former Assemblyman Herbert R. Kiehn of Rahway in 1966, Assemblyman Herbert R. Kichn of Rahway in 1900, the Second Ward representative went on to win his only four-year mayoral term in the General Election. There were 13,912 registered voters that year with 10,670 turning out at the polis. The 1966 Democratic nominee against Councilman Marsh was the late Robert McMenamin. He rallied 3.671 more m the councilman's 5.951 He tallied 3,671 votes to the councilman's 5,951. The number of voters coming out for last year's General Election in the city was approximately 7,400,

a drop of approximately 28% in 11 years.

dan, he concluded.

Six ballet questions explored by tax unit

New Jerney citizens should study their sample ballot New Jerney citizens should study their sample minit before going to their polling site in the forthcoming General Election, advises the New Jersey Taxpayers Assn. In addition to candidates for both houses of Congress are those for county and municipal offices. Equally important are six state referenda questions, usually on the extreme right of the machine or paper ballot, and in some counties and municipalities, there are badies and even occasional advisory (non-binding) are binding and even occasional advisory (non-binding) questions. The state questions are the examples of the types of mandamay referenda required by the New Jerse.

CONSTITUTIONAL AMENDMENTS Question No. 1 -- Court intergration. Question No. 2 -- Authorization of jai alai. Question No. 3 -- Decision on whether the state's full faith and credit shall be pledged for refinancing of \$317 million of New Jersey Sports and Exposition Authority hunds to effect savings from anticipated lower aterest costs or resale with state backing.

GENERAL OBLIGATION BOND ISSUES Question No. 4 -- \$200 million for Green Acres. Question No. 5 -- \$100 million for institutional

Question No. 6 -- \$25 million for emergency flood control. facilities is cited with the argument that the While this commit has insufficient space to give details thre must appropriate the bond funds before about the bond junues a few pertinent facts mere asalar ----- tracts for construction can be awarded. about the bood justices a few pertitient facts at a salar-the voter. While constitutional amendments must be passed at least 90 days before the election, there is no similar requirement for bond authorizations. Accord-ingly, the Green Acres issue was not signed until Sept. 21 but appears on the ballot shead of the two smaller issues signed two months earlier. Bond issues are the result of considerable study and analysis by the Commission on Capital Budgeting and Planning, an advisory group created in 1975 following a comprehensive study by the State Capital Needs Com-mission formed by Gov. Brendan T. Byrne. After evaluating requests for various capital needs by After evaluating requests for various capital needs by all state agencies, the Budgeting and Planning group assign priorities to the overall projects covering a seven-year period and send recommendations to the governor for the annual program and proposed method of financing -- current budget appropriations, otherwise called pay-as-you-go, bond issues or federal funds. The Legislature subsequently acts on the governor's proposals for the annual appropriations law and hond authorization bills. At least one bond referendum has been on the bailot

in 10 of the 11 most recent years. Since 1968, voters have approved nearly \$2.1 billion in general obligation honds. During that period, annual cost of debt service (principal and interest) has risen from about \$24 million to \$162 million (fiscal year 1979); however, the proportion of the budget allocated for debt service has not changed significantly.

SPORTS AUTHORITY BOND REFINANCING The proposal for placing the state's credit hehind the refinancing of outstanding Sports Authority bonds, as was done for the New Jersey Highway bonds for the Garden State. Parkway in 1952, is designed to substitute a guaranteed pledge for a moral pledge and save over \$100 million in interest on the refinding of original bonds which financed the Sports Complex and \$27 million additional interest when bonds are sold a finance the new arena. Interest savings are expected to contribute to excess authority revenues which are returned to the state's general treasury annually. The entire plan is based on the assumed financial success of the authority's

operations over a period of 25 to 30 years. GREEN ACRES BOND ISSUE

The \$200 million Green Acres hond issue would continue a program of \$60 million began in 1961, followed by \$80 million in 1971 and \$200 million in 1974. Fundr from this latest issue would be divided between urba and non-urban areas. Of the \$100 million non-urban allocation, \$50 million would go for acquisition and development of lands on a 50-50 local matching basis No such allocation is made for the \$100 million fo urban land acquisition and development. Subsequent action by the Legislature will be required to determine how much will go for state purposes and to urban local units.

The Township of Clark reserves the right to reject my and all

> George R. Rubinson Busizess Adminis Fee: \$ 22,40

As the price of land rises, the dollars provided buy fewer acres. The state's goal for public recreation land ownership is 21.5% of the entire state. The program is more than half way to the goal, but doubt has been ex-pressed whether the goal can be achieved in view of spiraling land costs. Tentative requests for funds are reported to exceed the proposed hond issue figure. Pro-vision of funds for adequate maintenance and development of existing state green acres recreation lands has been suggested to be of higher priority than purchase of additional lands.

INSTITUTIONAL CONSTRUCTION BOND ISSUE The 100 million institutional construction bond issue would be used to provide a variety of building needs including facilities for providing intermediate care for the mentally retarded, \$51 million; completion of Trenton State Prison reconstruction, \$23 million; community and institutional projects for the mentally 11. 58 million; renovations and improvements for othe correction facilities, \$7 million; a combined record storage center and library for the blind and hand capped, \$6.5 million, and a new forensic laboratory for the state medical examiner, \$4.5 million. Opposition has been expressed by citizens interested in penal reform to spending more money for new prisons and for rehabilitation of old facilities and court action was brought to nullify the question on constitu-tional grounds. On the other hand, need for the other facilities is cited with the argument that the Legisla-"Bire must appropriate the bond funds before any con-

EMERGENCY FLOOD CONTROL BOND ISSUE Bonds for emergency flood control planning and projects represent the first funds requested for this purpose but probably not the last. Municipalities and counties who can match \$22 million for correcting serious flood hazards will receive state aid while \$ million is also available on a matching basis fo million is also available on a matching hasts for comprehensive flood planning. There are few financing alternatives, if the bond issues are defeated. With the state facing budget balancing problems in fiscal 1980, increases in the annual budget for capital outlay are not likely. The thought of rising interest rates may cause voter appre-bension. Voter authorization is not necessarily a man-date to sell budge. State officials can be expected to date to sell bonds. State officials can be expected to demonstrate sound judgment in future bond financing decisions, if voters give them bond authority, suggests the NJTA.

RAHWAY NEWS HECORD/CLARK PATHOT

The main concerns of Second Ward Councilman Bernard R., Ha;den were performed bards. before a group of Clark residents. Tates, recrea-tion, drainage and senior citizens topped the list. Councilman Hayden said "fiacal resonneibility mast "fiscal responsibility must and integrity are the qual-begin with the Town Coun-cil, and a more efficiently in the past four years. If first step in reducing the township tax burden." "Recreational facilities

On drainage, says Councilman Hayden, Problems still plague our residents and only through proper planning and enforcement of building codes can future drainage and flood-related
