INVENTORS
Should address Munn & Co., Publishers of the Scientific American, who have had 33 years' experience in the business, and have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the Scientific American of all inventions patented through this agency, with the name and residence of the patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often effected. Any person who has made a new discovery or invention can ascertain, free of charge, whether a patent can probably be obtained, by writing to Munn & Co. We also send our Hand Book about the Patent Laws, Patents, Caveats, Trade Marks, their costs, and how procured, with hints for procuring advances on inventions.
