PHUNNY-GRAPHS.

THE RACESLIDER.

"And did you beat the seventh Moon, At sweeping here to-day?"
"Yes, sah, I have the sevenest, sah."
"What did the preacher say?"
"He saw, saw he, his text was du,
A heebeus, 'It be sech boy';
So buckthe I rebuk my hat
An' out de do' I scoot."

ODE TO A CLAM.

O! precious clam,
By sedgy reefs and in sand depths you lie,
Delighted by shells and vague philosophy.
The winter goes
And vanishes
To burning gulfs over land and sea,
And yet you seem content to watch and wait
To change your tattoo.
O! quaint clam.

SOUND WARNING.

"I tell ye cookin' ain't heavy,
I've tried and would ye trust me no?"
I've no use, sister, no use,
But where my eyes do? hope to go."

PHILOSOPHICAL.

Plenty of justice in a Turk,
In eyes that fairly flash of ire,
Nowhere was there more fun for me than
Yet none to me, sister, so dire.

When lovers' wounds have stronger arms,
To give expression to her woes,
Than pistol, dagger, clubbing gun
Or even a rose.

The Republican convention meets upon this occasion "Delegates under Mahone Electoral Commission thereto" as President Hayes would say.

The Republican party seems to have fallen very "fast" upon the party in this section. We hear of no cheers, meetings or ratifications or other demonstrations of delight.

The Democrats were on the streets. The former Republican organization gave us a complimentary treat from time to time and now they have gone to sweep out!

Many of the Philadelphia & Chicago, as leading daily anti-Republican newspapers were compelled to go to their homes on Saturday, they were so "used up" from the excitement connected with the Jubilee Week.

Ex-Republicans who have deserted their party, and be it true first class Democrats in New Jersey, are to be congratulated on the success of the Democratic party in the United States of America.

The payment of Indemnity from some of the European governments to the U. S. has been for some time in progress. Some of these payments are in excess of the amount of claims presented, so we have been informed, to have been, in some cases, the result of a mistake in the payment of the wrong claims to the wrong persons.

In an exchange of ex. general opinion of the New York convention, we find the following: "The Democratic party has looked upon the ousting Republicans for the last 24 years."

It is a great pity that the National Democratic party has not had the same "looking" for the last 24 years, which, with one or two exceptions, would have saved us from the last two terms of Republican misrule.

The highest number received by Grant was 351, on the 36th ballot. In the 1st ballot he had 306, Conkling and Logan, with their 93 votes, were not to be moved from Grant throughout the convention, went down with their colors flying.

After a recess the delegates were called to order, and the roll was called for the nomination of candidates for Vice-President.

Mr. Conkling arose and said: "Mr. Chairman, in the name of the State of New York, of the Empire State, of the Republican State, of the State that has given to the country Washington, Hamilton, Clinton, Jay, Morton, Fenton, Seymour, Wadsworth, Evarts, Cornell, Arthur, Chester A. Arthur, I name to you, sir, and to this convention, as the representative of the State of New York, a statesman, a soldier, a patriot, a man who has been tried and not found wanting, a man who has been faithful to the trust reposed in him by the people, a man who has been faithful to the trust reposed in him by the people, a man who has been faithful to the trust reposed in him by the people

An Interesting Story — A Hopeless Case — Blood Poison Not Hereditary.

STATEMENT OF MR. WARNERSON HOUSE, OF CORNELL, CHENANGO COUNTY, NEW YORK.

For many years I had suffered from a complaint which the physicians called blood. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. About a year ago I commenced using Swift's Specific, and after taking from seven to ten bottles was entirely cured. Without the slightest faith in patent medicines, I was induced to try a bottle of it through our village. I found that one or three bottles were not sufficient to do any good, and was on the point of giving it up, when I was induced to continue its use. Before I had taken the seventh bottle I knew I was getting well, and after using the eighth bottle I was entirely cured. I have since recommended Swift's Specific to others, and in every instance I have known it relieved from Rheumatism and Liver complaint. I am pleased to state that the Specific has done so much with such a terrible disease as blood poison, and I am willing to make this statement for the benefit of others who may be afflicted with this terrible disease. WARNERSON HOUSE.

Sworn to before me this 19th day of April, 1880. E. M. SHEPARD, Notary Public.

Swift's Specific is entirely vegetable, and contains no mercury, iodide potash, or other mineral substance. Treatise on Blood and Skin Diseases mailed free. Address SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.
