RAHWAY, N. J., JAN. 10, 1886.

THE PHUNNY GRAPHS.

A LAY OF THE LANCET.

From small-boys William would be free.

So he was scratched by a real M. D.

The virus worked just like a charm.

THU lumps like these were on his arm:

He tried to smile, and tried to laugh.

But here's what he said in a fit:

"Becky! Democrat and Chronicle."

"A pretty thing in gloves," said he,

"I wish to get a perfect glove."

"The prettiest thing in gloves," said he,

"Are those white hands of yours, my love!"

To the credit of the Smiths it is said

Never found it necessary to use an italicized

word. Then he never hit it

"Beans, regarded as food" is the

Head line in an exchange. That is the

Way beans should be regarded. Any

One who regards beans as a beverage

Is away off—(Hotel Gazette).

The more that a man can buy for two

Dollars the less he has to pay for

Twenty, and yet some folks say

This world was slung together in perfect

Harmony—(Chicago Ledger).

An English poet beats the euphonious

Name of J. T. Tothunter. There are

A great many "to" hints among the

Poets in this country, but that is

Not their name—(Norristown Herald).

Asked Clara of her best young man.

TEMPERANCE DEPARTMENT

(Under this head we will from time to time

publish what in our opinion will tend to further

the cause of temperance, but omitting

everything that we have found from past ob-

ervation, has had the tendency of doing more harm

than good.—Ed.)

HALF A LOAF BETTER THAN

NONE.

A correspondent sends us the follow-

ing item, and wants to know our opin-

ion on the subject:

"The habit is beyond all question

the greatest curse of modern life. Social

drinking ruins more homes and destroys

more young men and young women

than all the social habits combined.

The drink traffic does more to corrupt

politics, perpetuate poverty, to incite to

violence and brawls, to keep the poor

poor, than all other causes combined.

It costs the nation more in time and

money than pestilence and famine

combined. It is a more serious

menace to national well-being than

armies and fleets of foreign powers. It

is the obstacle to all moral and social

progress. The temperance cause,

says Richard Cobden, "lies at the

foundation of all social and political

reform." How shall we lay out this

foundation? How shall we establish

this quarantine? How shall we create

this awful expenditure? How shall we

check, restrain, regulate, or extirpate

this drink habit? This is the im-

mediate question which addresses itself

to every citizen, every patriot, every

reformer. —Christian Union.

The above is not an exaggeration—

what is said of the evils of the "drink

habit" are true. No observing citizen

in exercising social duty, and every

all question, the greatest social evil of

our times, and what to do with it is

perplexing the brightest and best minds

of the age. Our correspondent thinks

in expressing social duty, and every

reformer, can see no other remedy.

We think it is too soon for this ex-

periment to be tried in our State at

least. If we had it in our power by a

law to prohibit the sale of any State

liquor, or a search of any State, we

should not hesitate a single moment

in exercising social duty, and every

reformer, can see no other remedy.
