Little towns, full of promises are strung like beads slong the line, each the centre of a rich grands and agricultural district. At Noofford Junction our Mexico passengers leave the "main line," and, turning southward, connect at Eagle Plass with the Mexican International Rairond, the shortest broad-gauge line to the City of Mexico from all points cast of the Mississippt. Excursion tickets are on sale at all principal points to this delightful winter resort. Those who visit this region may be said to leave the nineteerth century behird then to return to the sevententh. It is a grand journey, however, and is rich with memorable experiences. The route leads through a valley girt to the right and left with mointain-peaks. From Flowing Weils to Indio the way is over the sandy bed of an ancient lake 30 feet lower than the oceanievel. At Los Angeles we greet the Pacific, after a short side journey to Santa Monica, one of the most popular sea-side resorts of the Pacific.

Through the weird shadows of Ifehachapi Pass, the grand lentral basin of the folden State is seen spread but like a beauteous mirage upon the northern vista. Laze Tuliare is here at the left.
