sively and appreciates the advan-tages here.

sade for Christ program empha-sizing stewardship. The pastor will tages here.

Rabbi Schwartz states: "There are a lot of fine friendly people among the many nationalities who are cooperative, helpful and neighborly in many ways. There are many fine cities and town in the county. The improved roads, fine highways, efficient police and fire department, beautiful parks, the many large industries, railroad facilities, school of all types, modern business houses, etc., are things in which the county residents can justly take pride.

Sizing stewardship. The pastor will represent the church at the afternoon session in the Westfield Methodist Church. He will be ioined by the local Lay Leader, Ellsworth Hatton and Mrs. Hatton, at the district dinner. The evening meeting, beginning at \$15 is open to the public, and it is expected that a good delegation will go from the local church. Dr. Harry N. Holmes Lay Leader of the New York East Conference, and one of the leading Methodist laymen in the country, will address the gathering on "Our Accounta-

"My new year greetings are extended to all peoples regardless of race, creed, color or faith, and to our President and Congress."

Little tolinty, will address the gathering on "Our Accountsbility to God in These Perilous Times." Special music will be practiced at all three sessions, and facilities of the large Westfield Methodist Church are certain to First Church Plans | Methodist Church are certain to be strained for the dinner and the Member Visitation First Baptist In Preparations Being Made New Fall Program For October Communion Plans for a social every-mem- Plans For Work To Be Form-

The little thing as sweet clover growing on abannext year he had a good stand. This added doned land.

FEED SUPPLY AND **MAXIMUM DAIRY PRODUCTION** by E. A. Gannon Extension Dairyman More and cheaper milk will be produced by many herds if and when better feeding systems are used. Where good quality legume hay is fed, grain ration averaging 10-12% protein is sufficient. With good quality legume hay and silage, grain ration should consist of 12-14% protein. With mixed hay of good quality with or without silege, grain ration of 12-16% protein is desirable. Where corn fodder, stover or straw is the main roughage. Continue to turn, flour and pound meat with or without silage, an 18-20% protein grain ration is required. until all flour is taken up. Brown sliced Weighing of silage occasionally will determine if it is being overfed onions in lard in heavy skillet, Remove . Normally, one pound of hay and thr pounds of silage per 100 pounds of live weight is recommended. In matoes. Cover and bake slowly in a modthe case of fresh cows, during the first three or four weeks of lactation, erate oven (350° F.) 21/2 to 3 hours. silage may be reduced to 114 pounds per 100 pounds of live weight Diced vegetables may be cooked in and hav increased proportionately. Grain should be coarse ground with the meat during the last balf hour,

and mixed with ground soybean supplement or 32-34% commercial feeds, to obtain desired percentages of protein, based on type and quality of roughage. Cows should be fed according to daily production—for high-testing breeds, feed one pound of grain for 3-4 pounds of milk. For low-testing breeds, feed one pound of grain for 5-6 pounds of milk.

Soda Bill Sez:

... He who aims high, shoots ahead. City Cousin ran away

Geography of Meat Production and Consumption the farmer say, The United States by rail is approximately 3,000 miles from East to West. It is about 2,000 miles from North to South. Not all of its 1,934,326,280 acres produce agricultural products. Neither do all of its square miles have the same number of people. The western part, including the Corn Belt, is the great food producing area. The East is the section in which most of the people live. Approximately two-thirds of the livestock is produced west of the Mississippi River. Approximately two-thirds of the people live east of it. More specifically, about one-third of the people live in the area from Pennsylvania northeast into New England. Thus there is a great distance between the producers of livestock and the consumers of meats, This makes it necessary to have national concerns like Swift & Company in the slaughtering of livestock, processing, handling and selling of meats. The products handled by meat packers average to move more than one thousand miles from producer to consumer.

SWIFT & COMPANY | NUTRITION IS OUR BUSINESS-AND YOURS Right Eating Adds Life to Your Years - and Years to Your Life CHICAGO 1. ILLINOIS

You BET There's Competition' Recently I spoke to a meeting of livestock producers. When I had finished talking, the chairman asked if any persons in the audience wanted to ask questions. Immediately one livestock man stor there any competition in the buying of our livestock?" he asked. Naturally, my answer was, "Yes." I went on from there to an explanation ...

winds and rain. Give them light, bulky feeds such as whole oats

are run down, due to fatigue, exposure, or irregular feeding. If

animals do fall sick, isolate them promptly and call a veterinarian.

and roughage. Cattle fall easy prey to shipping fever when they

One of the best evidences of competition is found in United States Government figures. They show that there are more than 3,500 meat packers in the United States_Also

there are 22,500 other commercial slaughterers of livestock. Surely this means much competition. Of course, Swift & Company does not slaughterers at every point which it buys livert compete for livestock However, there is no place in the United States but what Swift & Company does come in competition in the buying of livestock with one or more of the 26,000 slaughterers.

Here's another fact about competition. At practically all markets in the country there are order buyers. During a year they buy for up to hundreds of meat packers. No individual buys for several hundred on any one day. But when the meat packers whom they represent need livestock, these order buyers are out competing with Swift & Company and

every other buyer in the market. He buys for plants in many parts of the country The foregoing are just two examples of the many to be found indicating the ever present competition in
