Commencement exer-cises for the Rahway High School class of 1980 will be held on Monday, June 16, at 7 p. m. at Veterans Memorial Field in Rah-way. The processional, "Pomp and Circum-stance" by Sir Edward Elgar, will be followed by a flag salute and the na-tional anthem, sung by the class members and the audience. Giving the invocation will be The Rev. Rudolph F. Gibbs, Sr. of Ebenezer Af-rican Methodist Episcopal Church of Rahway. Following a welcome by Ronald Knox, the class president, Rahway High School Principal Roy M. Valentine, will award aca-demic homors. The music to "My Song" by Mary Connor and John Coares, Jr. will be per-formed by the Senior En-sem ble, accompanied by Alma Reyes with a choral arrangement by Mrs. An-na Ciano. Following the address by the valedictorian, K athe-rine Cregge, there will be a poetry reading by Vic-turia Palmisano. Fresentation of the grad-uating class by Superin-endent of Schools Frank Brunette will be followed by the recognition and awarding of diplomas by city Board of Education president, William M. Roesch. The farewell will be given by Robin Sue James, vice president of the class. The senior class and alumni will sing the alma mater accompanied by the Rahway High School Band, directed by Ronald P. Dolce. The recessional vill be "War of the Priests" by Felix Mendelssohn. The class officers fol-low: President, Ronald Knox; vice president, Ro-bin Sue James; treasur-er, Lisa Hickman, and sec-retary, Jean Kaminski. Class advisors are Mrs. Linda McCorkle and Miss Mary Ann Swierk. The class flower is the white rose. The class colors are blue and Winfield Boards ofEd-ucation are expected to be present, along with Mr, Brunette, Nicholas F. Del-monaco, assistant super-immednet of schools; Mr. Valentine, Warren A, Han-son and Edward Hirsch-man and Edward Hirsch-man assistant principals, and Stanley L. Monyek, won the Democratic nomination for Congres-sional representative in the 12th District and the right to face incumbent Republican Rep. Matthew J. Rinaldo, who ran unopposed in the Primary, in the November General Election. Mrs. Monyek, who ran un-successfully as an indepen-dent candidate for the State Senate last year, was voted down by city residents by a margin of 505 to 374 behind Charles A. Leary of Eliza-beth, who ran on the Regu-lar Democratic Organization of Union County Hue. She apparently gained county strength from being on the same line as Mayor Thomas G. Dunn of Eliza-beth, who gained his party's bid for cnother run for that city's chief esecutive job and pulled in three freeholder candidates aligned with him. Final tallies showed Mrs. Monyek defeating Mr. Leary district-wide by a margin of 8,946 to 8,199. Of the total she carried Elizabeth 4,799 to 3,140. Of the 16 people seeking the three Democratic nomi-nations for freeholder, city voters cast the highest amounts f o r incumbents, Walter E. Boright an d Thomas G. Dillon, and new-

## Rofe Tiscel Ste Concern over the fiscal soundness of New Jersey local

authorities and the municipalities served by these authorities has prompted recently-introduced legislation which would provide for state supervision of authority financial opera-tions, reports a New Jersey Taxpayers Assn. spokesman. Assembly Bill No. 1533, the "Local Public Facilities Fiscal Control Law," makes local authority creation, project financing and annual budgets subject to review and approval of the Local Finance Board in the Division of Local Governing Services of the State Dept. of Community Affairs. An authority is defined as a public body created by one or more municipalities, counties, or by the State Legislature, to develop and finance public improvements within a local unit Authorities have the power to levy and collect service

charges, incur debt and operate autonomously. Similar in some respects to authorities, but no affected by this legislation, are special districts, governmental units, some of which are independent, created within a municipality to provide designated services. Special districts are financed primarily from property taxes, in contrast to authorities which are financed mainly from user charges. Assembly, Bill No. 1533 provides no sutharity would he created by a municipality or county without prior Local Finance Board approval. When applying for approval, the local unit would have to submit a statement of projects to be undertaken, estimated cost, the manner of financing, the "Nothing is particularly hard if you divide it into small" jobs." Henry Ford area to be served and a proposed budget for the first year of authority operations. In addition, the local unit would have to demonstrate that creation of the authority is the most efficient and feasible means of providing and financing the projects among available alternatives. Local Finance Board approval would be further required prior to adoption of security or financing agreements. The board will determine whether the project cost had been accurately estimated and terms and provisions of the 

agreement were fair and reasonable and would not impose an undue financial burden on local residents or impoir the ability of the local unit or authority to pay its debt service or would have to condition its approval on certain requirements, such as establishment of a debt-service reserve fund from the proceeds of sale of the authority's bonds. Prior to commencement of an authority's fiscal year, it would have to submit its annual budget for review and approval of the Local Finance Board, according to the new legislation. If the board determined an authority was faced ith financial difficulty, it would have the power to order an with interceal dericeally, it would have the power to order an increase in user charges or to require the deficit be funded through the issuance of special obligations, designated "Authority Emergency Notes" or "Authority Deficit Funding Notges." The bill provides an annual audit of the authority would have to be completed and filed within four months after the close of its fincal year and a duplicate copy sent to the director of the Division of Local Government Services. A synopsis of the audit and recommendations would also have to the dublished in a local newspaper.

to be published in a local newspaper. The legislation provides in cases of extreme financial difficulty, the Local Finance Board could order implementation of a financial plan to assure payment of debt service of the authority or to provide financial relief to local users. An authority could be dissolved by the Governing Body of a local unit or by the Local Finance Board if it was determined to be in the public interest and provision was made for payment of

is the public interest and provision was made for payment of all creditors of the authority. The bill also delegates power to the Local Finance Board to order increases in municipal public utility charges if financial difficulties existed. Municipal and county funding of municipal public utility deficits could be exempted from local "caps" by the Local Finance Board. ... The approximately 170 municipal, county, and regional authorities presently operating in New Jersey now file only an annual audit with the state. The accumulated bonded debr of these agencies at the end of Docember, 1977, was reported in excess of 31 1 hillion. in excess of \$1.1 billion. Assembly Bill No. 1533 is an effort to assure the financial stability and integrity of local authorities. Municipal, county and school-district financial operations have been under similar state supervision since the 1930's, resulting in sound, fiscally-responsible practices in these local units, noted the taxpayer spokesman.

## Stars, Stripes rev mbol of nation's price

EDITOR'S NOTE: This editorial, submitted to The Rahway News-Record and The Clark Patriot by the Benevolent and Protective Order of Elks, is in commemoration of Flag Day, Saturday, June 14.

The flag bore a resemblance to the Stars and Stripes. ull the elements were there. Thirteen alternate re and white stripes were visible blowing in the wind. But the cannon was white, the stars were blue and they encircled a crest, a war-like caple. Even the great scal of the United States, which normally feamires a hald eagle with talons firmly grasping a clus-ter of arrows, had been altered. An Indian peace tipe took the place of the arrows. All in all it was a strange standard for an official United States exped-That was in 1542 when explorer, John C. of hope and remembrance for the 53 American hosrages held in Iran. Flag Day, June 14, is a relatively-recent official day of commemoration, offering the country another opportunity to display its patriotism. It was on that date in 1777 the Commental Congress adopted the design of the Stars and Stripes, resolving "The flag of the United States shall by 13 stripes, alternate red and white, with a union of 13 stars of white on a blue field representing a new constellation." Although many claim the bonor, the first recorded celebration of the flag's creation remains unknown. By E. Sidman Wachter" Taxpayer groups are warning the 15% withhold-ing tax on linterest and dividends proposed by President Jimmy Carter could give such a boost to the "underground economy" as to cancel out any in-"underground economy" as to cancel out any fra-crease in tax revenues. This tax could be expected to infuriate millions of sophisticated Americans into further tax avoidance. Already, according to Rep. Al Ulliman, an Ore-gon Democrat and chairman of the House Ways and Means Committee, the underground economy is cost-ing the United States Treasury some \$35 hillion in taxes every year and "is growing by leaps and bounds, causing credibility of the system to become a ser-ious problem." President Carter's withholding proposal is pro-jected to aid \$2.5 hillion to tax revenues in 1983 from "increased compliance." But, enormous asis this sum to individual taxpayers, it is scarcely a drop in the bucket compared with our nation's aggregate fund-

the bucket compared with our nation's aggregate fund-ed and unfunded federal debt of over \$5 trillion, Would it be worth the angry reaction building from taxpayers? Another objection to the President's brain-child is it would work against the capital formation required to create badly-needed joba in the private sector. It is more important to flagellate taxpayers than

Understandably, the proposed withholding tax o interest and dividends is re-kindling opposition u the double taxation of such income which has plagued Americans for many years, notwithstanding efforts by bonorable legislators to have it repealed. Double taxation occurs because corporations pay a corporate income tax on every cent of their net profits. Then, whatever portion of these profits is distributed to stock and boncholders, the real owners of the enterstock and bonsholders, me real owners of the enter-prise, gets taxed a second time on individual tax returns. This is, of course, inequitable. Any tax withholding, like that presently required on salaries and wages, means some tax payments are made before they are legally due and payable. This is likewise true of "estimated tax payments," which put taxpayers on a quarterly "pay-as-you-go" basis. But at least any dividends and interest received basis. For a likewise the set and Wednerday Dec 31 herween Tuesday, Sept. 16, and Wednesday, Dec. 31, 1980 do not require a tax remittance until Monday, Jan. 15, 1961, when the fourth quarterly payment is made on one's "estimated tax return" for calendar niquitous as are these "estimates" from both a

## Bureaucratic waste propts like St. Heions

Waste in government is like the eruptions of Mount St Helens, it keeps recurring, causing wide-spread distress and defying all efforts to bring it under control. Just as the ash clouds from Mount St. Helens heep surging and spreading, waste and misuse of public funds billow from one federal agency after another. Congress has acted repeatedly to discourage squandering of tax funds. But waste keeps spreading like a virus through scores of federal agencies and programs. Sometimes it seems for every success Congress achieves in its battle against waste, at least one new source of waste or misuse of funds develops. Some of the latest reports show not even Cabinet members

are above wasting tax funds. Seven Cabinet secretaries use public funds to hire private chefs and to operate lavish private dining facilities, all at taxpayer expense. They pay a nominal price for the chef-inspired cuisine, but the price of the meals by no means covers the cost of the operation. The chefs are paid from \$17,000 to \$23,000 a year. and in addition there are staffs of waiters, and costly crystal

and silver tableware. Wherever such special dining services are provided, it should be firmly established meal prices more than cover the While some Cabinet secretaries enjoy a special cuisine at

But the way its grant was the function to the servine of the servine have found a way to revel in "happy hour" cocktail sessions too easily and too frequently misused.

Much of the waste being uncovered stems from duplication of programs or services. There are 25 bureaus in 14 different departments or services. There are 20 detents in Yo uniterent departments or agencies that are concerned, for instance, with research and development involving water pollution. Scores of agencies spend millions of dollars a year on film making." and, 'here' again, 'efforts "are often duplicated. Federal funds are being used to make more than 2.000 films a year at a cost of about \$150 million. Some of the films serve a useful purpose, but many are of questionable value and

have entremely limited viewing. have entremely limited viewing. Examples of waste seem to exist in almost every agency. Just a few weeks ago the Selective Service System, anticipating corgressional approval of a plan to resume draft registration, spent \$135,000 to print 25 million registration forms, only so find it may have to toss them into a paper shredder. By acting prematurely, the agency ended up with forms before Congress decided how or whether registration will be required. Not do the printed forms: provide space for special industrial relations under the information proposed in legislation approved by a Senate

Committee. Even more disturbing than the potential waste of \$135,000 is the way the Selective Service System reacts to the Its assistant director commented, "Well, if we have to

print new forms, we have to print new forms." These are just a few of many examples that exist, and I am sure many others have not even surfaced yet. Right now, Congress is up to its cychails with legislative Eight now. Congress is up to its eyeballs with legislative work involving the new budget and in finding ways to cut down on federal spending without harming vital programs or undermining national security. But time must be found to deal more aggressively and more effectively with all the recurring waste in government. When the present budgetary process has been completed. I intend urging the House leadership to establish a policy under which the first three months of next year, nd the first these months of next year, nd the first three months of each new Congress, will be devoted exclusively to investigating and weeding out waste in government. The goal must be to increase congressional oversight, weed out programs that are obsolete or no longer serve a useful purpose, and ensure remaining programs are operated with maximum efficiency and economy.

#### school-houring halt apology The citizens of Clark should demand a public apology from

the Clark Board of Education for the utter contempt they displayed for Clark's Planning Board and the chizens in general at the May 27 meeting of the Planning Board. A hearing had been scheduled by the School Board relative to a rather-belated request to re-some the Abraham Clark to a rather-opport request to re-some the Abrantim Clark School property, the sale of which is currently in litigation. At the May 27 schoolsed meeting, the chairman of the Planning Board announced the hearing for the requested re-zonement would have to be postpaned. The Planning Board attorney explained to the public the School Board attorney, who was not present, hell called him that morning to advise the curtification entire required by the Planning to advise the certificates of natice required by the Planning Board and by law wave not available due to an administrative error and the scheduled meeting would have to be

postponed. Considering the past episodes in the sale of the Abraham Clark School property, the Beard of Education should have had the courtesy of having their atturney or an official representative of the School Beard present to explain why

ball League saw the Twins retain hold of first place by nipping the Mets, 7-5, dropping their opponents to third place, while the Dodgers dropped the Giants 20-14 to retain sole possession of second place. The Twins, behind the twirling combo of Joe Samsel and Bill Mannix, edged the Mets in a tight battle which saw the lead change hands four times. Down in the fifth inning 4-2, the Twins exploded for four tallies with the bais of Mannia and Doug Krok, who delivered two runs named in and one run batted in, respectively. The Mets staged a mild comeback in the sixth inning when Gus Kim crossed the plate on a run-batted-in single by leftfielder Nen Rataman. The Twins' Mannix, hurling in relief of Samsel, contributed four hits to the offensive attack, which included a triple and double, combining for a game-high three runs bailed in. Aiding Mamix's mound victory with a run barned in apiece were rookie catcher, Mike Sosidka, third baseman, Krok and Samsel. The Mets, while equaling the Twin batters with eight mirs, were not after to capitalize with summers the scoring position, is they left nine runners stranded. Paul Cymansky, the Mets third baseman, led the

"Navy Blues" with two hits, one a double, good for a pair of runs batted in. Gus Nim led in the runs-scored department with three. The defensive playing of the Twins' left-field speed-ster, Sal Martino, who made three sparkling on-the-run catches, shut down the Mets' scoring threats.

Bob Bacek increased his pitching record to four wins versus two losses, as he led the Dodgers past the Giants in a 20-14 slugfest. inning, with triples by Steve Raabe and Walt Dzuroska, a double by Bacek and a sacrifice bunt by Jeff Moore. The Giants responded with a triple by slugger, Gary Wood, and a two-run home run by slugging mate, Andy Messina. The Blue Jerseys' third inning saw Moore delive a run batted in and eventually touch home on a fielder's choice play off the bat of Keith Barranger, extending the Dodger lead to 11-2, which included a pair of second-iming runs batted in by Bacek. The Giants ned the game in the third inning by scoring nine Orangemen on key drives by the Messina promers, Rich and andy and Greg Heaton, Andy, batting twice druing the inning, accounted for a single and double, producing three runs batted in, while brother, Rich, countered with a base-clearing double for another three runs harned in. The deciding scores occurred in the Dodger half of the fifth inning as they sent seven Blue Jerseys across the plate on drives by Barranger and Ed Paul combined -
