L-BAMBERGER & C

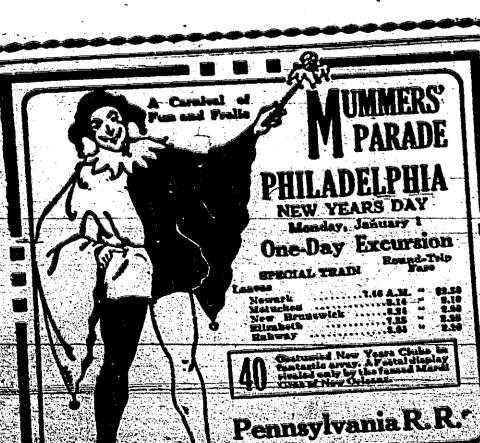

Half-Yearly Sale Fine Furniture

Greater Savings Possible Now Than You Would Imagine.

In face of conditions which fluctuate with every world-wide event of importance, to the average person it does not seem possible that GOOD furniture can be bought today at worthwhile savings. Our very prices, without further argument, dis-prove any statement to the effect that high-grade, furniture "of enduring quality" cannot be bought greatly underprice.

With our ever-present foresight and ability to predict future demands, we purchased one of the intest aggregations of furniture in the history of the story

And what it the result? Low prices, first of all We were able to buy practically everything we required at figures no greater than we were accustomed to paying. And NOW we pass thousands of dollars in savings along to YOU. The reductions range from 10 to 50 percent.

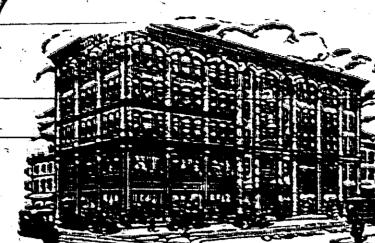

People of Rahway

going to New York to buy their home furnishings:

Do you know that right here in New Jersey is a first-class furniture shop, where you can buy the right kind of Furniture, Rugs and Draperies at considerably less than New York prices?

This is a good time to go to Newark and verify the justice of this claim. Hahne-Stage Co. are holding the second

January

of their entire stocks of Furniture, Russ, Draperies, Beds and Bedding, &c., beginning January 2nd and continuing throughout the entire month. Everything in the house is marked down-in some cases to one-half regular prices.

The sale is restricted to Hahne-Stage Co.'s regular lines of worth-while goods, from America's representative and responsible manufacturing concerns. You will find here none of the meretricious job lots with which the furniture market is flooded at this time of year to meet a general demand for "clearance bargains." Nor are there any discontinued styles or shop-spoiled goods that would not be worth even the reduced prices compelled by unsalability

short, this is not a "clearance." Hahne-Stage Co. are less than two years old. Continuous natronage, which may be measured by ten thousand customers on the books, has meant constant replacement of stocks, so that all that you see here is IEW, including furniture novelties quaintly artistic in design and tone. Whatever you buy here this month, whether it has been in the house three or fourmonths or less than a week, is subject to discount from the

ANNUAL JANUARY FURNITURE SALE

This Important Yearly Event Now In Progress Thousands of homes look forward to this helpfully important event in which every piece of furniture on our immense floor is marked at least one-tenth less than thusual selling price. The reductions range from 10% to 20%, 25% and even higher. Especially do we emphasize the dependability of Hahne Furniture and the actuality of these January Sale reductions.

NOTE—Many find our HOUSEHOLD CLUB PLAN a convenient method of buying Paraiture. Information as this plan will be given in Household Club Plan Office on Third Plans

Tableclot

-Usually

ables, are consigned to city commis-sion merchants to be sold for what they will bring, the prices received in directly to wholesslers or jobbers after shipment to city trading centers.

Even the products which the farmer sells at the nearest railroad station

are bought largely for consumption ! diles and so are paid for in most cases at prices which are dependent on those prevailing in city markets. The city therefore, through the operation of city demand in relation to capply, largely-determines the prices which the farmer receives for his perishable products. The purely local marketing organielements in shaping these prices than hipment and once in a city must are high marketing costs due to waste-ful or inefficient marketing methods there must be greater margins or differences between the prices received by producers and those paid by consomers. The economic machinery for marketing farm produce is such that many of the losses expressed in abnor-mal margins may be visited on the

prices, while others may be charged to the consumer through high selling. prices. If, on the other hand, city marthe employment of improved methods economic laws should operate under normal conditions to give higher prices to producers and lower costs to consumers, while the movement of prodwas should be accelerated sufficiently to make marketing more profitable at the same time to wholesale and retail

wagons of miscellaneous farm produce and sell in small amounts directly to the consumers who come there to buy. The more permanent farmers' retail markets, however, are located on plots the curb or shelter type, are not recomeation. The size of the community and must determine the practicability of the enterprise. There must first be a sufficient number of farmers in easy reach of the town who will bring sup plies for the market. There must be in the town a sufficient demand on the part of consumers for such a market

THE "Best Yet" because at a time when linen market prices are the highest since the Civil War, we have succeeded in keeping prices down to a low point (and quality up) on thousands and thousands of Table Cloths and Napkins, on a great quantity of lamasks, on Scarls, Centerpieces and other linens.

We were foresighted and in a degree "took a chance" on inens many months ago when prices were much lower. In consequence we own many thousands of dollars worth o inens on a basis which enables us to mark them at January Sale Prices lower in many instances than manufacturers present day figures. The values on this page and the merchandise on display and sale will speak for themselves.
