I am very firmly of the opinion that we can get along in Rahway for a few years with the present school like is to receive about \$6,000 before accommodations and if need be, we the work is actually started, or when you want a party-line number, simply say "one-two-three-W" or whatever it is.

Omitting this word saves a great deal of time in completing telephone calls, and that counts in the day's long run, for it enables you to get your party quicker. your party quicker.
On the basis of 5,000 party-line telephone calls daily some Demon Statistician in the New York Telephone Company has figured out that

pione Company has figured out that
if one second is saved each time the
word "party" is omitted, it would
mean a combined saving of time
equal to about four hours in every
twenty-four hours. Which is one way
to beat old Tempus Fugit.

Use of the word "party" in such numbers originated some years ago.
when there was no standardized
code signifying party numbers. Time
was when no two telephone companies had the same party designations,
and almost the entire alphabet came into play for this purpose. When B, C, D E and other letters of the "e-sound" were used, they were often confused with the numeral "3". Likewise "L" was sometimes mistaken for "O". Then "party" was injected to make the designation more easily. to make the designation more easily understood. Since the standardiza-tion to "J. M. R. and W." however, the possibility of confusing these letters with any numerals is remote.

Hence the passing of the word "party" in the New York Telephone

night's game each team has three games to play. The league title will undoubtedly be decided by the game FIGURES ARE WANTED Editor of the Record: After reading in your columns thevarious findings of the committee investigating the city water supply it seems the logica hing to do is to get the best possible water for the least expenditure.

What interests the tax payer most There seems to be little doubt as to the actual volume of the present supply being ample. A filter system could be installed to give us excellent water and the fact that sewage was polluting the water and "our drinking supply was coming from a bath-tub" would mack little difference. The intake of the Torresdale filter plant at Philadelphia is down stream only a short distance from a large trunk. Ine sewer, yet the city of Philadelphia has very good water.
As far as wells are concerned. we can be assured of the volume of good water the only thing that interests us is the cost.

Which is the cheapest; an efficient

filter plant or the abandonment of the present supply and driven wells? Show us the figures! A. TOWNSMAN SOCIAL AND PERSONAL Mrs. Sidney S. Coats, of New Berli Williams and family, of 100 Seminar and daughter, Eleanor, of 9 Maple terrace, have returned from a few days sojourn at Asbury Park.

> The Story of Our States By JONATHAN BRACE XXII.--ALABAMA THE discovery of Alabama is credited to De Soto in 1540. The English also laid

territory and included it in the grant to North Carolina. But it was the French who first settled here erecting in 1702 Fort St. Louis on Mobile Bay and founding the town of Mobile nine years later. Mobile was for many years the capital of Louisi-ana. France in 1763 ceded the territory east of the Mississippi to England and the northern part of the present State of Alabama was joined to the Illinois terri-

tory. The southern portion was known as West Florida. Serious conflict with the Indians was kept up for many years. In fact, an uprising of the Creeks which Florida remained loyal to England, but was seized by Spain only to be turned over to the United States in 1813. This Mobile section was then added to the northern district and the State of Alabama was formed state of the Union in 1819. The meaning of the name Alabama is variously interpreted.

It was the name of an Indian tribe which inhabited this ter-ritory at the time of De Soto's

first visit. After this tribe the river was named and the state posed to mean "Here we rest," and these words are used on the terpretation is doubtful and its real meaning is uncertain.
