Of the attendance Mr. Little says. "During the past month, the work of our schools has been under full head-way, and we have been making good usd-of-the unusually good weather, with slight exceptions, during the past six weeks. October is usually con-sidered one of the best school months of the veer and barring the fact that sidered one of the best school months of the year, and barring the fact that some of the pupils on the cast side of the town have been kept out of acbool either through illness or quar-antine, there has been nothing to mar the smoothness of our program. The attendance has been all that was an-

ticipated, and but for the quarantine would have been even larger than

would have been over the month was "The percentage for the month was ninety-four. This is two points lower than for the corresponding month of hast year; and yet when we remember the inakcup of our 2,200 pupils and "month" that they come from many recall that they come from many types of homes, and that some of them are likely to be subjected to types of homes, and that some of them are likely to be subjected to contagious disenses, it is a matter of congratulation that ninety-four of every hundred have been present dur-ing the entire month. For not only have there been eleven cases of diph-theria in one school, but the school nurse reports that a number of pupils who have not yet been enrolled have had the disease and have thus helped not only to keep themselves but others out of school. According to the tru-am' officer's report, in making her rounds she found 154 cases of minor centage of attendance for the month was not so bad after all." Superintendent Little reported that during the month various observances were had, especially in the high school where a program has been adopted which it is felt will undoubt-edly prove of great value to the pu-pils. The plan is to have every few weeks a speaker of not encour-ting them in their work. On October age them in their work. On October is not be york Stock Exchange, spoke.

For includes such men as Charles Fram includes such men as Charles E. Scott, state boys' secretary of the E. Scott, state boys' secretary of the Education "John Enright," and Dr. Byron Forbush, of the National Hon-esty League: During the week Sep-tember 15-22, Constitution Week was observed. In Mr. Little's words the idea of those sponeoring this move was "To re-establish the Constitution of the United States, the principles and ideals of our Government-in the minds and hearts of the people." To this end appropriate exercises were observed in the classrooms and talks given upon the Constitution. October 7-13 was observed as Fire Prevention Week. Mr. Little says of the various observances, "These are but a few of the things that come to as in the ordinary routine, but it will suffice to show how many things are asked of the public schools in spread-ing propaganda of various kinds." During the month of September the dental clinic report shows: Extrac-tions, 78; treatments, 5; prophylaxis, 18; fillings, 20; patienta, 76. Every pupil is examined and a record kept of his needs. When immediate den-tal attention is needed the attention of the parents is directed to the case and they are requested, to have the work done either by the family den-tist, or else the cases are treated at the clinic. The supervisor of health reported for the month as follows: Diphtheria. gram includes such men as Charles F Scott, state boys' secretary of the

tist, or else the cases are therefore the clinic. The supervisor of health reported for the month as follows: Diphtheria. 14; scarlet fever, 1; pediculosis, 62; impetigo. 24; ringworm. 1; quaran-tine, 20; nasal cultures, 20; home calls during Schools were opened honday evening, October 1, when over 200 pupils were registered. The work was begun with an attendance of 167. The average attendance for the month was 150. Mr. Little reports ine attendance and work this year thore-noarly regular and more interest thas been shown by the pupils in their work.

R. BLUME Rahway, N. J 170 Main Street

"Dunbarton" Overceats are the result of the ever-increasing demand among so many of the better-dressed men for clothes decidedly British in cut and fabric. They are MADE IN LONDON by leading English tailors.

Typical of their origin they present a swagger appearance without committing the sin of being too boisterous. Naturally they break away somewhat from the conventional American style-but not violently. They show very definite ideas of that drape and looseness demanded by so many men.

Prominent among them is the loose box-back with either regular or ragian shoulder. Then again, the great half-belted ulster in soft, fluffy fabrics, assuring warmth with minimum weight. Practically every type of overcoat a man could demand is here from over-ocean.

And a Word about Fabrics Scotch mixtures, so fresh from the looms that they have hardly had a chance to lose their heathery odor. Tweeds and cheviots in quiet intermixtures as well as more daring overplaids, in a range of colorings that takes in everything from brown heathers to most conservative oxfords.

Well-bred fabrics, every one-strong, manly-looking weaves, cleverly developed by the loom wizards of Britain. Men who seek particularly the out-of-the-ordinary colors and weaves characteristic of English fabrics, will find an inimitable choice here. Priced 50.00 to 125.00.

# TotheCitizens of Rahway:

When the citizens of Rahway on Election Day, November 6th, vote on the Castor and Denman "referendum," let them not lose sight of the MAIN-FACTS. Those who are opposing this Castor and Denman ordinance are not doing so because they are opposed to "parks," but are opposing it because they believe that this park development should be left to the only legally organ-ized body in Union County, namely the Union County Park Com-

By a referendum vote some two years ago the citizens of Union County, including Rahway, voted in favor of establishing the Union County Park Commission which gave them the authority to proceed with a comprehensive development of parks throughout Union County, including Rahway. There is therefore no justification whatever, for any municipal authorities incurring any expense on the taxpayers of a municipality when the Union County Park Commission are fully able, financially and otherwise, to do this work.

The citizens of Rahway and of every town and city in Union County, must bear their share of the expenses of maintaining the Union County Park Commission and any municipality which interferes with the work of this commission and spends the money of the taxpayers of that municipality for park development, is SIMPLY WASTING THAT MONEY, and should not be allowed

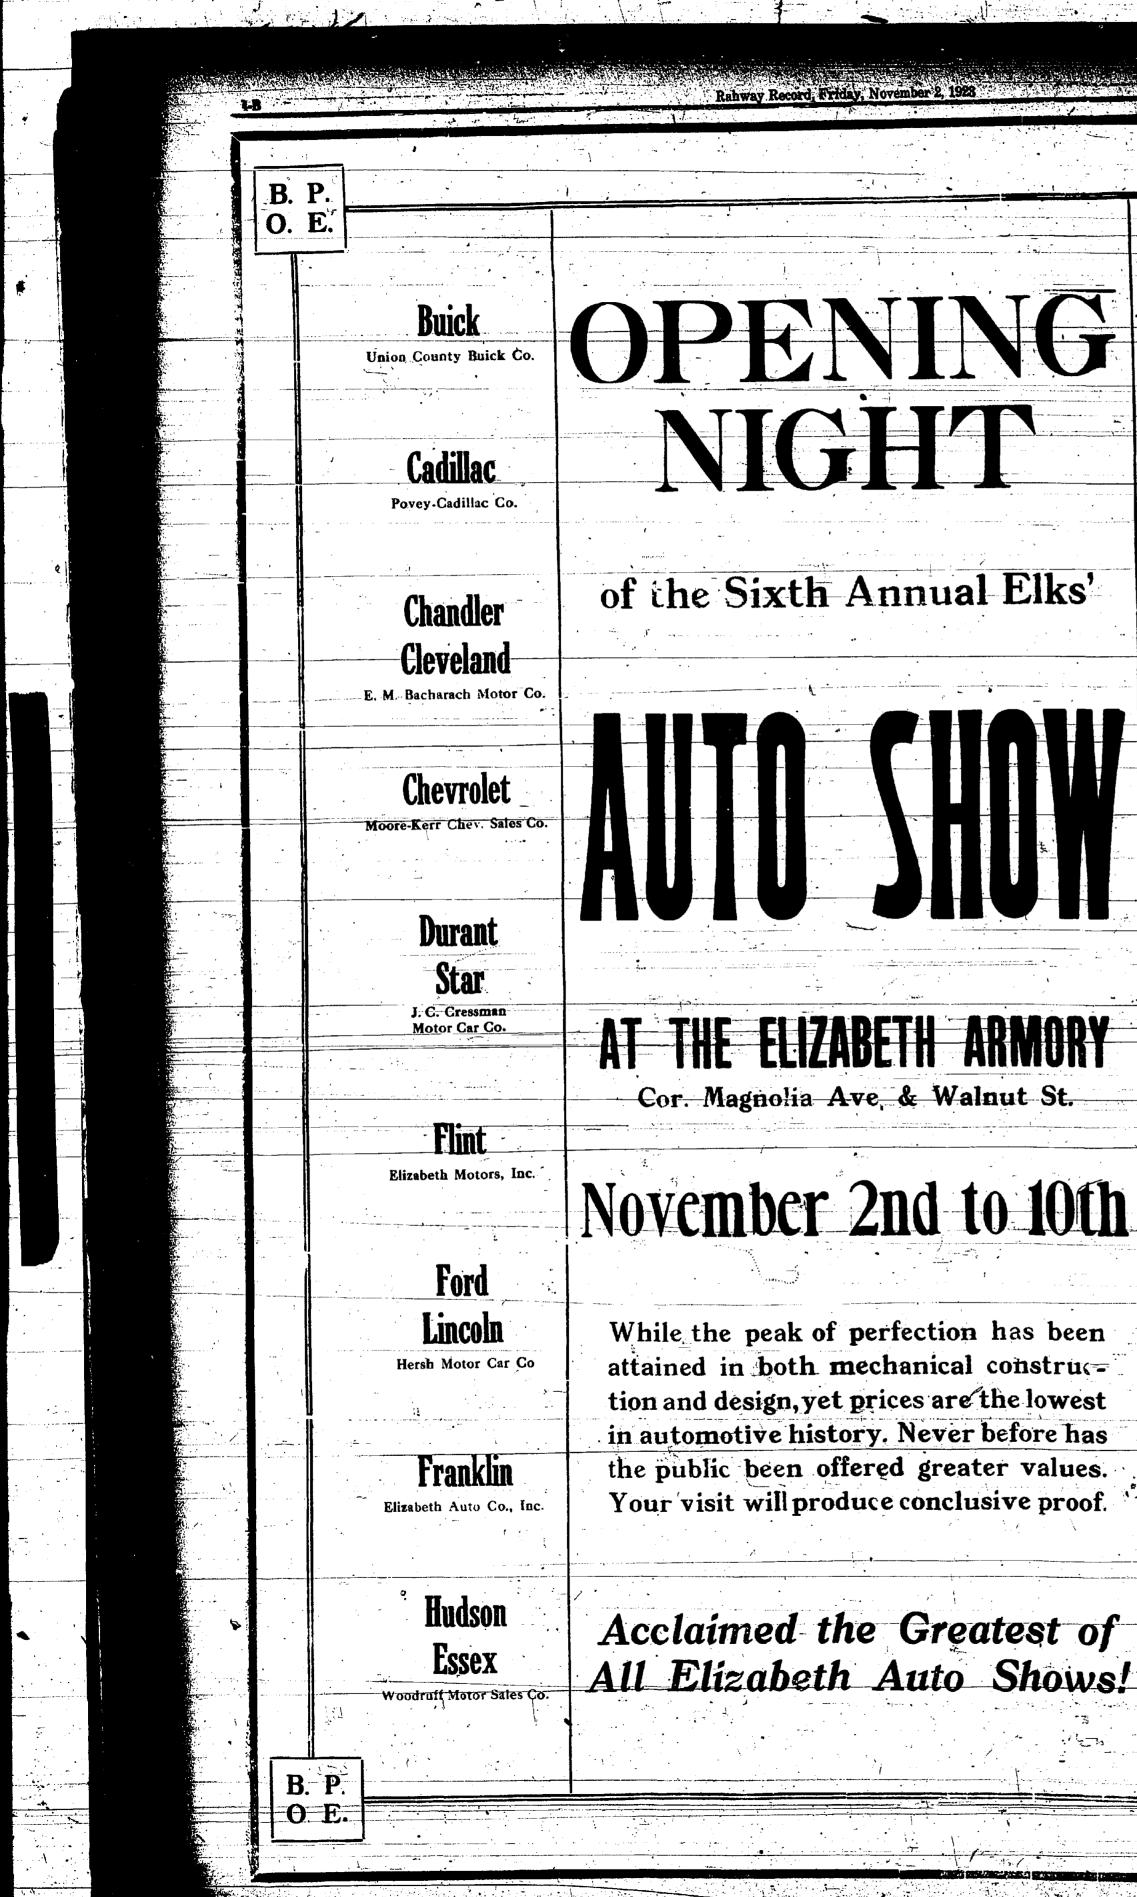

This is the situation with reference to Rahway at the present time. I have repeatedly given the facts to the citizens of Rahway and I now again strongly urge them to VOTE "NO" on the CASTOR AND DENMAN REFERENDUM ON NOVEMBER 6.

If they have any desire to protect their own interests in Rahway, they will certainly so vote.

Frank H. Trussler
