The Sunken Grave.

Nothing can be sadder than a grave that is no longer a mound. The inevitable has come to pass—the weight of the soliden earth-has crushed in the last protection. It helps nothing to close the imagination to what happens then! Yet there is not the slightest necessity for this old-fashioned, barbarous, unsanitary method of burial. The Norwalk Vault—at little cost—will protect absolutely and forever. Moulded granite and steel, waterproof and airtight, it is scaled—by hand in your presence and becomes one solid piece of masonry that literally "Lasts through the Ages." The best undertakers insist on its use. They make the Norwalk Vault the foundation of every first-class funeral.
