VIKING OAK

Come, see how beautifully the charm of old Sweden is expressed in this truly fascinating furniture. Its construction is sturdy and realistic...yet its decorative features are pure fantasy. It's modern in its purpose... yet ageless in its unaffected charm. Solid, substantial oak executed in a manner that at once stamps it as the epitome of quality. In the carvings and panelings are the gay motifs so closely associated with the romance of old Swedish peasantry. Yes, here's the "something different" you've been searching for. It's more than furniture...it's an investment in lasting comfort and happiness. See it and you'll be enchanted!

Absolutely no other ep, but to favor the United States taking an active part in d affairs after this war, has been decided. And that ision was made only the past week. No resolution, no te of any kind has even been taken, in any way, on the ht points for world peace that were formulated by me Minister Winston Churchill and President Roosevelt August of 1941. And no steps have since been taken,

on by the President, to see that the articles of that docunt may be fully realized when this war is over. On March 18, the Federal Council of Churches, com- St. Mark's church adjoining, so as to accommodate royalty our Fourth, our nation's birthday. Although over three months have passed, the only ove that this organization has made, to do something out getting this program started, is that a brochure, conat the head of the Federal Council of Churches, the Methodist church, representing an organization of 19,000,000 constituents, has determined to do something, and has actually begun, so it has been stated by a reliable source, "to provide active and articulate support for statesmen working to place the decisive power of the United States back of vorld peace." Of course, that statement is a long ways from endors-

any Congressman or Senator who has backbone enough to present a workable plan for world peace. If that statement can be taken at its face value, and who is there to question 19,000,000 Methodists, then is there any reason for the Methodist church not supporting the Hatch-Hill-Ball-Burton measure: That "the United States Sunday is the Fourth of July, the day on which our take the initiative in forming an international organization
