This is not a "Help Wanted" ad. It is an earnest appeal . . . an appeal to the many women-in-Rahway and vicinity who-are not engaged in essential war production work, to lend a hand at this critical time. There never was a time when your help was so hadly needed. Many women in this vicinity whose financial circumstances do not require their working would like to be doing something essential to the war effort. But they have hesitated through pride or fear of criticism. It is to these women we make our appeal. Being

engaged in war work is a mark of patriotism and is something that any proud of at this time. And it can well be remembered that it would be only the most narrow-minded persons or enemies of the country that would dare criticize any person engaged in the performance of a patriotic duty. The concerns represented on this page need your help now and they offer a choice of many different types of essential employment from which you can choose the one to which you are best suited.
