## A REASONABLE PROTEST

Not occasionally, but frequently, it requires a matter that is most serious, to arouse John Q. Public, but when he is aroused, it is with determination and often with desperation.

The new highway, Route Four, through the West Indian district of Rahway, is an illustration of such a situation. Here was a route laid out in 1927, with the approval of the State Legislature and of Rahway legislators, and yet it never has been built.

Of course, this situation has been overlooked, but now something must be done, and it cannot be postponed. Action must be taken, and the united effort of the Rahway Common Council, in opposing the route through the Inman Heights section, and the appointment of a committee to see that something is done to save this part of our city from being segmented by this State highway, is generally approved throughout the city.

While it might be advisable to begin agitation by legislative procedure, to remove the word "Railway" from the Act passed in 1927, which specified that the route was to go through Rahway, yet the compromise second route, on Branch Road, as suggested by the Inman Heights section, at a meeting on Wednesday night, would not meet the requirements of the measure, thereby skirting the West Indian section, but also to fulfill the demands of the State for the route to pass through Rahway on its way to Philadelphia.

The Board of Freeholders, it would appear, should be the first group of officials that should be contacted, to get their support of the change, and then the State Highway Commission, aided by Senator Herbert J. Pascoe and Assemblyman Clifford P. Case, should be utilized to the utmost extent.

If that does not appear to be a sufficient force to secure the desired change of Route Four, then there is the petition system that can be resorted to, and it is certain that every citizen of Rahway would be only too glad to sign such a document, to prevent a ruthless injury and degradation of valuable property in one of the best residential sections of our city.

## AN EVIL PORTENT

There could be no better time than the approaching Labor Day, to call the attention of the voting public to President Philip Murray of the CIO and his Political Action Committee, and to the fact that they are trying to do to innocent voters at the coming election, Labor, if it hopes to save a segment of what it has gained in recent years, may well take notice.

It is not enough that the United States is participating in a World War that is costing us \$30,000,000,000 a year in a war with a President in the White House who cares no more about spending money than children in a candy shop, that same indifference has also been seen in the strikes of the CIO—whose Political Action Committee, to all appearances, is running President Roosevelt's political campaign, so that they have repeatedly paralyzed production of war materials in scores of war plants at the same time through out the United States.

Today the deed of every newspaper man and the mail of nearly every voter in the United States is being cluttered by campaign propaganda being put out by this committee that is raising a fund of \$5,000,000 with which to reelect President Roosevelt so as to continue the CIO in power, re-elect in effect the one-sided Wagner Labor Act and secure the enactment of the Murray-Kilgore Federal unemployment bill that would provide \$5 a week for an estimated 25,000,000 unemployed as soon as Germany collapses, that would cost the taxpayers over \$3,000,000,000 a month.

And this CIO head has the effrontery to ask the support of American citizens to back him up in this program, when, from Washington comes the official figures that during the past year organized labor has actually precipitated 4,446 strikes in the United States, largely through the CIO.

Think of that record staring the American people in the face. Think of how that record must humiliate thousands of the members of the CIO organization who are unaware of what is taking place through their organization. Four thousand, four hundred and forty-six strikes in one year, when our boys on the battlefield have recently, for weeks, had to wait in Italy and in France, not to say anything about China, for bombs and tanks with which to carry forward the present war.

Is there no shame on the part of President Roosevelt, who has built up the CIO by favors in the shape of legislative enactments and by appeasement of strikers to where it now seeks to control the nation, by enlisting all workers, farmers and all self-respecting citizens, so as to place the CIO in more complete power than ever?

The CIO has all but become a law unto itself, and because of a spineless man in the White House, who has permitted the organization to practice dirty tricks, to work the terms of the nation, so it hopes to dictate the terms of labor to all big business, with the Wagner Act to give its demands utmost power in all labor matters in this country.

The CIO "indispensable" fourth term conspiracy is the most dangerous political combination that has confronted this nation in its history and must be defeated by the individual efforts of every single lover of the American way of life, at the coming presidential election.

Why is Paris so loved and even revered? Poverty is there, but it is not seen, it is concealed; crime is there, but it is not seen, it is concealed; it is isolated. What makes Paris attractive? In the first place, it is the life of the people. It is a city of gay laughter. Hundreds of cafes are found just off the walks and boulevards, where wine or a meal out of doors is served, as you watch the people pass, and where friends or customers are met, and romances are set in motion or ripened and transactions, often involving fabulous sums, are entered into. The people of Paris are not so conventional, nor so formal as in other European or American cities, and even the stranger has little difficulty in meeting these desires.

But there is culture, there is art, there is architecture, there is music and there is the opera in Paris, as good, if not the best to be seen or heard in all the world. The Louvre, the Grand Canal, the National Opera House is gorgeous in its decoration, and only the world's most noted prima donnas, soloists and virtuosi ever appear there. In architecture, you have the cathedral of Notre Dame, with its incomparable rose window of stained glass, and the church of the Madeleine, many museums of antiquities, the wide boulevards, the Champs-Élysées, with its Arc de Triomphe, and the Invalides, with its tomb of Napoleon and trophies of many wars; the Luxembourg Gardens and the Palace of Versailles, with its gardens, hundreds of marble statues in them, that modestly peer out at you with every turn of the head.

The fact that the city of Paris was never bombed and but few of its historic buildings destroyed, in all the French wars, over centuries of time, has made it possible for the city to perpetuate all that has been most beautiful, artistic and grand in a great metropolis, the center of European culture, art and letters for many centuries, giving to it the magnetic lure that ever draws the tourist back just to see the city once more.

Taking all in all, Rahway is bridging the stringent times whiff. While some of the carriage factories have laid off hands and others are working on reduced scale, most of the other factories in our midst have curtailed in some manner, yet we have heard very few complaints and no reports of absolute destitution and want. We trust that good times will come long before the snow falls.

## MORTGAGE MONEY

National Resources Planning Board, in a booklet by Miles Coleman, predicted last January that residential building in the United States would approximate a million new dwellings each year for ten years after the war. There was an "if" in the forecast. If the price could be held down to an average of about \$4,000. Well, ten million \$4,000 units represent 40 million dollars, which is a lot of money.

The vision of a million people plunking down \$4,000 each for a house in a single year is a pipe dream. People able to make such cash outlays have houses already. These new houses will be sold on credit. Buyers will sign installment notes. Debt will be created. Debt will be created. Debt will be created.

There is an old proverb about money: "Money is not food to eat, it is not clothing to wear, it is not a house to live in, it is not a wife to love, it is not a child to raise, it is not a friend to have, it is not a God to worship, it is not a soul to save, it is not a heaven to win, it is not a hell to avoid, it is not a punishment to suffer, it is not a reward to receive, it is not a goal to reach, it is not a dream to live, it is not a reality to face, it is not a truth to know, it is not a love to feel, it is not a power to use, it is not a wisdom to gain, it is not a grace to receive, it is not a peace to have, it is not a joy to know, it is not a happiness to feel, it is not a contentment to have, it is not a satisfaction to gain, it is not a fulfillment to reach, it is not a ## Hopeful New Year Begins on Monday

Labor Day marks the end of the old and the beginning of the new for the vast mass of young and old in this community. It is very fittingly represented by the Jewish New Year, which begins on Monday, for it ends the vacation for the school and the summer for the business men and women have in mind many plans for the new year.

How these can best be met in the most satisfactory manner, while the teachers in the public schools and the business men and women have in mind many plans for the new year.
