Offenbach's Dancing Without? a Master, and Ball-Room Manual.—As it is not always convenient to have recourse to a teacher of dancing, this work aims to supply the deficiency. In this it has been very successful. By a series of practical and incid instructions, the art of Dancing is so simplified that any one can become proficient in the art without the aid of a master. In addition to specific detailed instructions as to how to dance, it gives some very valuable information relating to organizing a ball-ball-room toilet, etiquette of the ball-room, managing and arranging the ball-room. All the popular dances are given, and the whole is illustrated by numerous cuts and diagrams. Price, post-paid.

having an occasion to put a valuable horse in condition for a race. In giving the horse his work, he threw out a curb, in consequence of which I would have sold him, at that time, for three hundred dollars (\$300), or less. Hearing of Ellis's Spavin Cure Linment, I tried it with good results. In two weeks the curb was gone and the horse going sound. I put him in condition again, and in two months we sold him for as many thousands as we valued him worth hundreds when he had the curb. The horse is at present boarding at our stable and being driven on the road every day. We can safely recommend your Spavin Cure Linkent for all bone diseases and callous humps of any kind, if properly used:
